The Curse of Carne's Hold G. A. Henty 2014-05-27 There was nothing about Carne's Hold that would have suggested to the mind of the passing stranger that a curse lay upon it. Houses to which an evil history is attached lie almost uniformly in low and damp situations. They are embedded in trees; their appearance is gloomy and melancholy; the vegetation grows rank around them, the drive is overgrown with weeds and mosses, and lichens cling to the walls. Carne's Hold possessed none of these features. It stood high up on the slope of a hill, looking down into the valley of the Dare, with the pretty village of Carnesford nestling among its orchards, and the bright stream sparkling in the sunshine. There was nothing either gloomy or forbidding about its architecture, and the family now simply called their abode The Carnes; the term "Hold" that the country people applied to it was indeed a misnomer, for the bombardiers of Essex had battered the walls of the old fortified house, and had called in the aid of fire to finish the work of destruction. The whole of the present structure was therefore subsequent to that date; it had been added to and altered many times, and each of its owners had followed out his own fancies in utter disregard of those of his predecessors; consequently the house represented a medley of diverse styles, and, although doubtless an architectural monstrosity, was picturesque and pleasing to the eye of men ignorant of the canons of Art.

Classics and Translation D. S. Carne-Ross 2010 D. S. Carne-Ross (1921-2010) was one of the finest critics of classical literature in English translation after Arnold. More than four decades of Carne-Ross's writings are represented in this volume, which includes criticism of both ancient and modern writers, in addition to historical-critical studies of translation, discriminating analyses of translators widely read today, and investigations in the relationship between translation, criticism, and literary creation. This book will appeal to a wide audience including classicists, specialists in reception and translation studies, students of comparative literature, and literary readers. --

The Leaderless Revolution Carne Ross 2015-04-01 GO ON - CHANGE THE WORLD! Wherever you are live in the world, few ordinary people would vote for a government that promised to lead them to war, that announced that they couldn't predict or control the world markets in any way, that declared ambivalence about pollution and global warming, that openly appeared to be corrupt and self - serving. And yet, it appears to many that these are the leaders we end up with. Vacuous promises of 'change' amount to nothing, and there seems little decent, good people can do. The world has got too big, and we can only tinker at the edges. The Leaderless Revolution offers a refreshing way of understanding the world of the 21st century that is a clear and easily comprehensible call to all of us - that we do matter as individuals and we can effect change. Mining the rich but little - examined histories of cosmopolitanism and anarchism, The Leaderless Revolution shows how both ideas, in combination, are relevant and necessary for the problems of today. As grass - roots movements in the Arab world rise up against corruption and injustice, and people in the West form organisations to fight against the inequalities in our societies, Carne Ross offers not only an antidote to our global crises, but a route to fulfillment and self - realisation for us all.

Death, Discovery and Carne Asada Thomas Curran 2020-04-24 I didn't plan on killing people when I walked across America. I made a list of things I wanted to do, and murder was not on it. Yes, I killed people. A lot of people. Now I'm going to tell you a story, a (somewhat) true story, about two killers and a hunting adventure like no other. A story of a man whose entire life was turned upside-down by a frozen, floating head and balls and a woman he'd never slept with. A story of a man so broken he rescued a dog and set out across America on foot to mend his soul and hunt that bitch down. A story of death, discovery, and carne asada. A story that should never, ever, encourage you to walk across America. However, if it does, for some sick reason, inspire you to lace up some sneakers and attempt to do what only a dozen or so people accomplish each year, I'll throw in some pointers to help you out. I am a murderer, but I am also a giver.

Independent Diplomat Carne Ross 2011-02-23 Although diplomats negotiate more and more aspects of world affairs—from trade and security issues to health, human rights, and the environment—we have little idea of, and even less control over, what they are doing in our name. In *Independent Diplomat*, Carne Ross provides a compelling account of what's wrong with contemporary diplomacy and offers a bold new vision of how it might be put right. For more than fifteen years, Ross was a British diplomat on the frontlines of numerous international crises, including the Israeli-Palestinian conflict, the war in Afghanistan, and the buildup to the invasion of Iraq, over which he eventually resigned from the British civil service. In 2005, he founded *Independent Diplomat*, a nonprofit advisory firm that offers diplomatic advice and assistance to poor, politically marginalized or inexperienced governments and political groups, including Kosovo, Somaliland, and the Polisario movement in the Western Sahara, as well as to NGOs and other international institutions. Drawing on vivid episodes from his career in Oslo, Bonn, Kabul, and at the UN Security Council, Ross reveals that many of the assumptions that laypersons and even government officials hold about the diplomatic corps are wrong. He argues passionately and persuasively that the institutions of contemporary diplomacy—foreign ministries, the UN, the EU, and the like—often exclude those they most affect. He exposes the very limited range of evidence upon which diplomats base their reports, and the profoundly closed and undemocratic nature of the world's diplomatic forums. As a diplomat, Ross was encouraged to see the world in a narrow way in which the power of states and interests overwhelmed or excluded more complex, sophisticated ways of understanding. As Ross demonstrates, however, the reality of diplomatic negotiations, whether at the UN or among the warlords of Afghanistan, shows different forces at play, factors ignored in reductionist descriptions and academic theories of "international relations." To cope with the complexities of today's world, diplomats must open their doors—and minds—to a far wider range of individuals and groups, concerns and ideas, than the current and increasingly dysfunctional system allows.

Something inside of her is calling her back to the desert. Why else would she be preparing spicy Mexican meatball soup at her cottage in Maine when the menu clearly calls for clam chowder? But once she arrives home, Mrs. Potter discovers that her ranch manager and his granddaughter are missing from her ranch, Las Palomas, and feared dead. When a guest at a dinner gathering thrown by Mrs. Potter is food poisoned—apparently from eating her famous 27-ingredient chili—she knows she must act quickly before the murderer strikes again. The Duchess of Wiltshire's Diamonds Guy Boothby 2022-11-22 *The Duchess of Wiltshire's Diamonds* by Guy Boothby is about the mystifying cases of great English detective Klimo. Excerpt: "TO the reflective mind the rapidity with which the inhabitants of the world's greatest city seize upon a new name or idea and familiarise themselves with it, can scarcely prove otherwise than astonishing. As an illustration of my meaning let me take the case of Klimo—the now famous private detective, who has won for himself the right to be considered as great as Lecocq, or even the late lamented Sherlock Holmes."

The Curse of Carne's Hold G. A. Henty 2018-03-23 Excerpt from *The Curse of Carne's Hold: A Tale of Adventure* There were no large trees near it, though a clump rose a few hundred yards behind it, and took away

the effect of bareness it would otherwise have had. The garden was well kept, and bright with flowers, and it was clear that no blighting influence hung over them, nor, it old be thought, over the girl, who, with a straw hat swinging in one hand, and a basket, moved among them. But the country people for six miles round firmly believed that a curse lay on Carne's Hold, and even among the county families no one would have been willing to give a daughter in marriage to an owner of the place.
