Letters from the Dust Bowl Caroline Henderson 2012-10-19 In May 1936 Secretary of Agriculture Henry A. Wallace wrote to Caroline Henderson to praise her contributions to American "understanding of some of our farm problems." His comments reflected the national attention aroused by Henderson's articles, which had been published in Atlantic Monthly since 1931. Even today, Henderson's articles are frequently cited for her vivid descriptions of the dust storms that ravaged the Plains. Caroline Henderson was a Mount Holyoke graduate who moved to Oklahoma's panhandle to homestead and teach in 1907. This collection of Henderson's letters and articles published from 1908 to 1966 presents an intimate portrait of a woman's life in the Great Plains. Her writing mirrors her love of the land and the literature that sustained her as she struggled for survival. Alvin O. Turner has collected and edited Henderson's published materials together with her private correspondence. Accompanying biographical sketch, chapter introductions, and annotations provide details on Henderson's life and context for her frequent literary allusions and comments on contemporary issues.

*Dust Bowl Girls* Lydia Reeder 2017-01-24 "A thrilling, cinematic story. I loved every minute I spent with these bold, daring women whose remarkable journey is the stuff of American legend."

—Karen Abbott, New York Times bestselling author of *Liar, Temptress, Soldier, Spy* *The Boys in the Boat* meets *A League of Their Own* in this true story of a Depression-era championship women's team. In the early 1930s, during the worst drought and financial depression in American history, Sam Babb began to dream. Like so many others, this charismatic Midwestern basketball coach wanted a reason to have hope. Traveling from farm to farm near the tiny Oklahoma college where he coached, Babb recruited talented, hardworking young women and offered them a chance at a better life: a free college education in exchange for playing on his basketball team, the Cardinals. Despite their fears of leaving home and the sacrifices that their families would face, the women joined the team. And as Babb coached the Cardinals, something extraordinary happened. These remarkable athletes found a passion for the game and a heartfelt loyalty to one another and their coach--and they began to win. Combining exhilarating sports writing and exceptional storytelling, *Dust Bowl Girls* takes readers on the Cardinals' intense, improbable journey all the way to an epic showdown with

the prevailing national champions, helmed by the legendary Babe Didrikson. Lydia Reeder captures a moment in history when female athletes faced intense scrutiny from influential figures in politics, education, and medicine who denounced women's sports as unhealthy and unladylike. At a time when a struggling nation was hungry for inspiration, this unlikely group of trailblazers achieved much more than a championship season.

**Years of Dust** Albert Marrin 2012-10-11 In the 1930's, great rolling walls of dust swept across the Great Plains. The storms buried crops, blinded animals, and suffocated children. It was a catastrophe that would change the course of American history as people struggled to survive in this hostile environment, or took the the roads as Dust Bowl refugees. Here, in riveting, accessible prose, and illustrated with moving historical quotations and photographs, acclaimed historian Albert Marrin explains the causes behind the disaster and investigates the Dust Bowl's impact on the land and the people. Both a tale of natural destruction and a tribute to those who refused to give up, this is a beautiful exploration of an important time in our country's past.

**FDR and the American Crisis** Albert Marrin 2015-01-06 The definitive biography of president Franklin Delano Roosevelt for young adult readers, from National Book Award finalist Albert Marrin, is a must-have for anyone searching for President's Day reading. Brought up in a privileged family, Franklin Delano Roosevelt had every opportunity in front of him. As a young man, he found a path in politics and quickly began to move into the public eye. That ascent seemed impossible when he contracted polio and lost the use of his legs. But with a will of steel he fought the disease—and public perception of his disability—to become president of the United States of America. FDR used that same will to guide his country through a crippling depression and a horrendous world war. He understood Adolf Hitler, and what it would take to stop him, before almost any other world leader did. But to accomplish his greater goals, he made difficult choices that

sometimes compromised the ideals of fairness and justice. FDR is one of America's most intriguing presidents, lionized by some and villainized by others. National Book Award finalist Albert Marrin explores the life of a fascinating, complex man, who was ultimately one of the greatest leaders our country has known. Cathedral David Macaulay 1973 Text and detailed drawings follow the planning and construction of a magnificent Gothic cathedral in the imaginary French town of Chutreaux during the thirteenth century.

There's always been a hole in Gio's life. Not because he's into both guys and girls. Not because his father has some drinking issues. Not because his friends are always bringing him their drama. No, the hole in Gio's life takes the shape of his birth mom, who left Gio, his brother, and his father when Gio was nine years old. For eight years, he never heard a word from her . . . and now, just as he's started to get his life together, she's back. It's hard for Gio to know what to do. Can he forgive her like she wants to be forgiven? Or should he tell her she lost her chance to be in his life? Complicating things further, Gio's started to hang out with David, a new guy on the basketball team. Are they friends? More than friends? At first, Gio's not sure . . . especially because he's not sure what he wants from anyone right now. There are no easy answers to love -- whether it's family love or friend love or romantic love. **Whose Names Are Unknown** Sanora Babb 2012-11-20 Sanora Babb's long-hidden novel *Whose Names Are Unknown* tells of the High Plains farmers who fled drought and dust storms during the Great Depression. Written with empathy for the farmers' plight, this powerful narrative is based upon the author's firsthand experience. Babb submitted the manuscript for this book to

Random House for consideration in 1939. Editor Bennett Cerf planned to publish this “exceptionally fine” novel but when John Steinbeck’s *The Grapes of Wrath* swept the nation, Cerf explained that the market could not support two books on the subject.

*What Was the Great Depression?* Janet B. Pascal 2015-12-22 On October 29, 1929, life in the United States took a turn for the worst. The stock market - the system that controls money in America - plunged to a record low. But this event was only the beginning of many bad years to come. By the early 1930s, one out of three people was not working. People lost their jobs, their houses, or both and ended up in shantytowns called “Hoovervilles” named for the president at the time of the crash. By 1933, many banks had gone under. Though the U.S. has seen other times of struggle, the Great Depression remains one of the hardest and most widespread tragedies in American history. Now it is represented clearly and with 80 illustrations in our *What Was...?* series.

**The Great Little Madison** Jean Fritz 1998-02-23 In the days before microphones and TV interviews, getting people to listen to you was not an easy task. But James Madison used his quiet eloquence, intelligence and passion for unified colonies to help shape the Constitution, steer America through the turmoil of two wars, and ensure that our government, and nation, remained intact. "An excellent, fascinating, indispensable resource."

—Kirkus Reviews, pointer review "The book is rich in the sort of detail that illuminates the man, but is not limited to personal information; a great deal of government history is woven into the biography." —Horn Book, starred review "Fritz has given a vivid picture of the man and an equally vivid picture of the problems that faced the leaders of the new nation in the formative years."

—The Bulletin of the Center for Children's Books, starred review "Young readers will feel like they know the 'Great Little Madison' very well." —School Library Journal

Lange 2018-10-23 The US was in the midst of the Depression when Dorothea Lange (1895-1965) began documenting its impact through depictions of unemployed men on the streets of San Francisco. Her success won the attention of Roosevelt's Resettlement Administration (later the Farm Security Administration), and in 1935 she started photographing the rural poor under its auspices. One day in Nipomo, California, Lange recalled, she "saw and approached [a] hungry and desperate mother, as if drawn by a magnet." The woman's name was Florence Owens Thompson, and the result of their encounter was

seven exposures, including *Migrant Mother*. Curator Sarah Meister's essay provides a fresh context for this iconic work.  
**Click, Clack, Moo** Doreen Cronin 2022-08-30 When Farmer Brown's cows find a typewriter in the barn they start making demands, and go on strike when the farmer refuses to give them what they want.

**Basic Statistics for the Behavioral Sciences** Gary Heiman 2010-01-20 BASIC STATISTICS FOR THE BEHAVIORAL SCIENCES demystifies and fully explains statistics without leaving out relevant topics or simply presenting formulas, in a format that is non-threatening and inviting to students. The author's clear, patiently crafted explanations, with an occasional touch of humor, teach students not only how to compute an answer, but also why they should perform the procedure or what their answer reveals about the data. The book achieves several objectives: it presents a conceptual-intuitive approach, presents statistics within an understandable research context, deals directly and positively with student weaknesses in mathematics, and introduces new terms and concepts in an integrated way. The result is a text that students can learn from as well as enjoy.

**Lincoln** Russell Freedman 1989-09-25 The Newbery Medal-winning book for young readers presents "a human

portrait of a politician honorably confronting the most vexing issues of his era” (The New York Times Book Review). Abraham Lincoln stood out in a crowd as much for his wit and rollicking humor as for his height. This Newbery Medal-winning biography of our Civil War president is warm, appealing, and illustrated with dozens of carefully chosen photographs and prints. Russell Freedman begins with a lively account of Abraham Lincoln's boyhood, his career as a country lawyer, and his courtship and marriage to Mary Todd. Then the author focuses on Lincoln's presidency, skillfully explaining the many complex issues he grappled with as he led a deeply divided nation through the Civil War. The book's final chapter is a moving account of his tragic death at Ford's Theatre on April 14, 1865. The volume concludes with a sampling of Lincoln writings and a detailed list of Lincoln historical sites. "Few, if any, of the many books written for children about Lincoln can compare with Freedman's contribution...This is an outstanding example of what (juvenile) biography can be. Like Lincoln himself, it stands head and shoulders above its competition." —School Library Journal

S. flag at Iwo Jima during World War II--now adapted for young adults. Read the true story behind the immortal photograph that has come to symbolize the courage and strength of America and its armed forces. This is a penetrating, epic look at a generation at war, told with keen insight and enormous honesty —also a major motion picture directed by Clint Eastwood. In February 1945, American Marines plunged into the surf at Iwo Jima—and into history. Through a hail of machine-gun and mortar fire, they battled to the island's highest peak. And there, they raised a flag, signaling a historic step towards the eventual defeat of the Axis powers of World War II. Spanning the years 1773-1775 and drawing on new material from meticulous research and previously unpublished documents, letters, and diaries, *Igniting the American Revolution* sweeps readers from the rumblings that led to the Boston Tea Party to the halls of

Parliament-where Ben Franklin was almost run out of England for pleading on behalf of the colonies-to that fateful Expedition to Concord which resulted in the shot heard round the world. With exquisite detail and keen insight, Beck brings revolutionary America to life in all its enthusiastic and fiery patriotic fervor, painting a nuanced portrait of the perspectives, ambitions, people, and events on both the British and the American sides that eventually would lead to the convention in Philadelphia on July 4, 1776. Captivating, provocative and inspiring, Igniting the American Revolution is the definitive history of these landmark years in our nation's history, whose events irrevocably altered the future not only of the United States and England, but the whole world.
