**The Legend of Zelda. The History of a Legendary Saga Vol. 2** Valérie Précigout 2019-02-19 Continue the discovery of the famous game The Legend of Zelda! Featuring in the pantheon of video games, the Breath of the Wild episode of the mythical Zelda saga is fully covered in this new book. Following the first Chronicle volume of a legendary saga, this second part focuses exclusively on the episode Breath of the Wild, decrypting its references, its game system and the inspiration of its developers! EXTRACT Starting production on a title that sought to radically redefine the core elements of a franchise as iconic as The Legend of Zelda involved a certain amount of risk for Nintendo. To fully understand the situation, we feel it is essential to start by determining what was

really at stake in this challenging effort by looking at the many promises that *The Legend of Zelda: Breath of the Wild* carried with it from the earliest announcement of its development until the moment it was released. With this perspective in mind, we will first step back in time to examine any clues potentially found in other recent installments of the franchise as to the creators' desire to rethink the game's most basic conventions. We will then consider what fans were expecting from this attempt to go back to basics and revive the ambitions of the original *Legend of Zelda*. We will also look at Nintendo's communications strategy by way of the trailers and other official presentations that were used to introduce the game, and consider the credibility of *Breath of the Wild*'s claim to innovation in its approach to the open world genre. Of course, we will also focus considerable attention on director Hidemaro Fujibayashi's history with the series, and listen to the development team's thoughts as we attempt to better understand the origins of this latest *Zelda* game. We then close the chapter with a look at initial reactions from fans and video game journalists when the game was first released on March 3, 2017.

But to come to America, you must come through LaGuardia Interstellar and International Airport... and it's still under construction. "Science fiction, fantasy, YA, short stories, novels... and now comics. Nnedi Okorafor does it all. *LaGuardia* is a powerful, entertaining story about an important issue, beautifully drawn, with fun aliens. Read it!" -George R.R. Martin "Prescient and profoundly inventive, *LaGuardia* is a tale of hard-won hope in a world that is both familiar and freshly reimagined. Okorafor and Ford bring unique characters together to tell a story about what it takes to live by your principles, and to create a different - and better - world with the family you choose." - G. Willow Wilson "Nnedi Okorafor expands the comics medium with her innumerable talents, stirring vital conversations about race and immigration. *LaGuardia* explores how the macro scale of interplanetary exchange and the micro scale of plant consciousness can unlock the solutions to global politics, cultural clash, and refugee crisis. Tana Ford's ink line imbues all species with warmth, empathy, and playful sci-fi detail." -Craig Thompson

“Okorafor at her best; both timely and weird. LaGuardia jabs pointed fingers at here-and-now paranoia centered around borders and race, while having wild fun creating some of the best extra-terrestrials ever.” – Nalo Hopkinson (Sandman: House of Whispers, Sister Mine) “LaGuardia is unique, playful, heartbreaking, empowering and full of hope for the future. The wisdom Okorafor imparts in each panel pushes back against the darkest urges of our human nature and creates a space that lets us all live.” - John Jennings “Instead of tossing around volatile political issues like a knee-jerk twitter debate, LaGuardia imagines them through the lives of authentic and engaging characters, placing them into a surreal, but shrewd, reflection of our current reality. Ford’s art deftly balances the unique mix of intense personal drama and cool alien worldbuilding” - Sean Murphy (Punk Rock Jesus, Batman: White Knight) “The best of Okorafor’s prose— personal, political and deeply relatable.” —Newsarama “With Laguardia, Nnedi Okorafor continues her work of bringing a unique, insightful Black African science fiction aesthetic to audiences.” - Black Nerd Problems
