Hendrik Petrus Berlage Hendrik Petrus Berlage 1996-01-01 Hendrik Petrus Berlage, the Dutch architect and architectural philosopher, created a series of buildings and a body of writings from 1886 to 1909 that were among the first efforts to probe the problems and possibilities of modernism. Although his Amsterdam Stock Exchange, with its rational mastery of materials and space, has long been celebrated for its seminal influence on the architecture of the 20th century, Berlage's writings are highlighted here. Bringing together Berlage's most important texts, among them "Thoughts on Style in Architecture", "Architecture's Place in Modern Aesthetics", and "Art and Society", this volume presents a chapter in the history of European modernism. In his introduction, Iain Boyd Whyte demonstrates that the substantial contribution of Berlage's designs to modern architecture cannot be fully appreciated without an understanding of the aesthetic principles first laid out in his writings.

Visions of Savage Paradise Rebecca Parker Brien 2006 *Visions of Savage Paradise* is the first major book-length study of

seventeenth-century Dutch artist Albert Eckhout to be published in nearly seventy years. Eckhout, who was court painter to the colonial governor of Dutch Brazil, created life-size paintings of Amerindians, Africans, and Brazilians of mixed race in support of the governor's project to document the people and natural history of the colony. In this study, Rebecca Parker Brienen provides a detailed analysis of Eckhout's works, framing them with discussions of both their colonial context and contemporary artistic practices in the Dutch republic.

Courting the Abyss John Durham Peters 2010-02-15 Courting the Abyss updates the philosophy of free expression for a world that is very different from the one in which it originated. The notion that a free society should allow Klansmen, neo-Nazis, sundry extremists, and pornographers to spread their doctrines as freely as everyone else has come increasingly under fire. At the same time, in the wake of 9/11, the Right and the Left continue to wage war over the utility of an absolute vision of free speech in a time of increased national security. Courting the Abyss revisits the tangled history of free speech, finding resolutions to these debates hidden at the very roots of the liberal tradition. A mesmerizing account of the role of public communication in the Anglo-American world, Courting the Abyss shows that liberty's earliest advocates recognized its fraternal relationship with wickedness and evil. While we understand freedom of expression

to mean "anything goes," John Durham Peters asks why its advocates so often celebrate a sojourn in hell and the overcoming of suffering. He directs us to such well-known sources as the prose and poetry of John Milton and the political and philosophical theory of John Locke, Adam Smith, John Stuart Mill, and Oliver Wendell Holmes Jr., as well as lesser-known sources such as the theology of Paul of Tarsus. In various ways they all, he shows, envisioned an attitude of self-mastery or self-transcendence as a response to the inevitable dangers of free speech, a troubled legacy that continues to inform ruling norms about knowledge, ethical responsibility, and democracy today. A world of gigabytes, undiminished religious passion, and relentless scientific discovery calls for a fresh account of liberty that recognizes its risk and its splendor. Instead of celebrating noxious doctrine as proof of society's robustness, *Courting the Abyss* invites us to rethink public communication today by looking more deeply into the unfathomable mystery of liberty and evil.

Art Power Boris Groys 2013-02-08 A new book by Boris Groys acknowledges the problem and potential of art's complex relationship to power. Art has its own power in the world, and is as much a force in the power play of global politics today as it once was in the arena of cold war politics. Art, argues the distinguished theoretician Boris Groys, is hardly a powerless commodity subject to the art market's fiat of inclusion and exclusion. In *Art Power*, Groys examines modern and contemporary art according to its ideological function. Art, Groys writes, is produced and brought before the public in two ways—as a commodity and as a tool of political propaganda. In the contemporary art scene, very little attention is paid to the latter function. Arguing for the inclusion of politically motivated art in contemporary art discourse, Groys considers art produced under totalitarianism, Socialism, and post-Communism. He also considers today's mainstream Western art—which he finds behaving more and more according the norms of ideological propaganda: produced and exhibited for the masses at international exhibitions, biennials, and festivals. Contemporary

art, Groys argues, demonstrates its power by appropriating the iconoclastic gestures directed against itself—by positioning itself simultaneously as an image and as a critique of the image. In *Art Power*, Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork.

I have tried to express the idea of the novel that is inherent in my own novels." — Milan Kundera Kundera brilliantly examines the evolution, construction, and essence of the novel as an art form through the lens of his own work and through the work of such important and diverse figures as Rabelais, Cervantes, Sterne, Diderot, Flaubert, Tolstoy, Musil, Kafka, and perhaps the least known of all the great novelists of our time, Hermann Broch.
