The Generals Thomas E. Ricks 2013-10-29 A New York Times bestseller! An epic history of the decline of American military leadership—from the bestselling author of *Fiasco* and *Churchill and Orwell*. While history has been kind to the American generals of World War II—Marshall, Eisenhower, Patton, and Bradley—it has been less kind to the generals of the wars that followed, such as Koster, Franks, Sanchez, and Petraeus. In *The Generals*, Thomas E. Ricks sets out to explain why that is. In chronicling the widening gulf between performance and accountability among the top brass of the U.S. military, Ricks tells the stories of great leaders and suspect ones, generals who rose to the occasion and generals who failed themselves and their soldiers. In Ricks's hands, this story resounds with larger meaning: about the transmission of values, about strategic thinking, and about the difference between an organization that learns and one that fails.

Irish Classics Declan Kiberd 2001 A celebration of the tenacious life of the enduring Irish classics, this book by one of Irish writing's most eloquent readers offers a brilliant and accessible survey of the greatest works since 1600 in Gaelic and English, which together have shaped one of the world's most original literary cultures. In the course of his discussion of the great seventeenth- and eighteenth-century Gaelic poems of dispossession, and of later work in that language that refuses to die, Declan Kiberd provides vivid and idiomatic translations that bring the Irish texts alive for the English-speaking reader. Extending from the Irish poets who confronted modernity as a cataclysm, and who responded by using traditional forms in novel and radical ways, to the great modern practitioners of such paradoxically conservative and revolutionary writing, Kiberd's work embraces three sorts of Irish classics: those of awesome beauty and internal rigor, such as works by the Gaelic bards, Yeats, Synge, Beckett, and Joyce; those that generate a myth so powerful as to obscure the individual writer and unleash an almost superhuman force, such as the Cuchulain story, the lament for Art O'Laoghaire, and even *Dracula*; and those whose power exerts a palpable influence on the course of human action, such as Swift's *Drapier's Letters*, the speeches of Edmund Burke, or the autobiography of Wolfe Tone. The book closes with a moving and daring coda on the Anglo-Irish agreement, claiming that the seeds of such a settlement were sown in the works of Irish literature. A delight to read throughout, *Irish Classics* is a fitting tribute to the works it reads so well and inspires us to read, and read again.

Roger Fry's 'difficult and Uncertain Science' Adrienne Rubin 2013 This new study traces the development and evolution of the writings of Roger Fry (1866-1934), a highly influential art critic who introduced modern French painting to Britain in the early twentieth century. The author examines the role that emerging psychological theories played in the formulation and expression of Fry's aesthetic theories.

The Nearly Man J. S. Nearey 2015-03 At eleven years old a young boy is told that God has chosen him to become a Catholic missionary monk and priest; the choice is not his to make. He joins the Redemptorist Order and spends the next 11 years being schooled in the way he is expected to live for the rest of his life. He must leave his family to lead a secluded monastic life, making no close friendships and taking vows of poverty, chastity and obedience. When doubts arise in his mind he strives to overcome them, studying all the harder, but eventually he realises that he is not happy in the only life he knows. When he spends time in hospital and falls in love his thoughts crystallise. Only then is he able to make his final decision about the life he wants to live. This autobiographical work brings Stephen's story to life and its moving narrative comes to a truly emotional conclusion.

The World Saved by Kids Elsa Morante 2023-03-08 A representative text of a milieu marked by student protests and aspirations for moral and political renewal. First published in Italian in 1968, *The World Saved by Kids* was written in the aftermath of deep personal change and in the context of what Elsa Morante called the "great youth movement exploding against the funereal machinations of the organized contemporary world." Morante believed that it was only the youth who could truly hear her revolutionary call. With the fiftieth anniversary of the tumultuous events of 1968 approaching, there couldn't be a more timely moment for this first English translation of Morante's work to appear. Greeted by Antonio Porta as one of the most important books of its decade, *The World Saved by Kids* showcases Morante's true mastery of tone, rhythm, and imagery as she works elegy, parody, storytelling, song, and more into an act of linguistic magic through which Gramsci and Rimbaud, Christ and Antigone, Mozart and Simone Weil, and a host of other figures join the sassy, vulnerable neighborhood kids in a renewal of the word's timeless, revolutionary power to explore and celebrate life's insoluble paradox. Morante gained international recognition and critical acclaim for her novels *History*, *Arturo's Island*, and *Aracoeli*, and *The World Saved by Kids* may be her best book and the one that most closely represents her spirit.

Electric Light Seamus Heaney 2002-04-03 Ranging from short takes to conversational poems, a pre-Socratic collection of poetry about origins and oracles explores the places from where things start, the ground of understanding, whether in Arcadia or Anahorish, the sanctuary at Epidaurus, or the Bann valley in County Derry. Reprint.

Art and the Market Craufurd D. Goodwin 2010-05-25 Roger Fry, a core member of the Bloomsbury Group, was involved with all aspects of the art market as artist, critic, curator, historian, journalist, advisor to collectors, and gallery operator. He is especially remembered as the person who introduced postimpressionist art to Britain. Reprinted in this volume are seventeen of Fry's works on commerce in art. Although he had no formal training in economics, Fry addressed the art market as a modern economist might do. It is therefore fitting that his writings receive here an original interpretation from the perspective of a modern economist, Craufurd D. Goodwin. Goodwin explores why Fry's work is both a landmark in the history of cross-disciplinary thought and a source of fresh insights into a wide range of current policy questions. The new writings included contain Fry's most important contributions to theory, history, and debates over policy as he explored the determinants of the supply of art, the demand for art, and the art market institutions that facilitate exchange. His ideas and speculations are as stimulating and provocative today as when they were written. "A fascinating selection of essays by one of the twentieth century's most thoughtful and stimulating critics. Goodwin's introduction sets the stage beautifully, providing useful links to Veblen and Keynes." --D. E. Moggridge, University of Toronto "Art and the Market uncovers new connections between aesthetics and art in the Bloomsbury Group. . . . Goodwin adds significantly to the understanding of cultural economics in the work of Fry himself as well as J. M. Keynes and even Leonard and Virginia Woolf." --S. P. Rosenbaum, University of Toronto "All those interested in the arts and economics, and their connections, will be delighted by this collection, as will be students of Bloomsbury." --Peter Stansky, Stanford University Craufurd D. Goodwin is James B. Duke Professor of Economics, Duke University.

Seamus Heaney Henry Hart 1993-10-01 Seamus Heaney, widely considered the most gifted living poet in Ireland and Britain, is the first Irish poet since Yeats to gain an international reputation. In this remarkable study, Henry Hart discusses Heaney's poems, his creative and personal situations, and his assimilation of contemporary literary theory. From Heaney's Ulster background to poetic influences as diverse as Dante and Wordsworth, Yeats and Bly, Hart offers sophisticated, lucid insights. Hart argues that the best way into Heaney's poetic world is in seeking to understand him—as with Blake and Yeats—in terms of oppositions and conflicts, progressions and syntheses. At the root of all his work is a multifaceted argument with himself, with others, with sectarian Northern Ireland, with his Anglo-Irish heritage, with his Roman Catholicism, and with his Nationalist upbringing on a farm in County Derry. For each volume of poems, from *Door into the Dark* to *The Haw Lantern*, Hart identifies and works with a specific problem in the text, while developing its intellectual and creative implications. He covers aspects as diverse as Heaney's incorporation of antipastoral

attitudes in his poems, his fascination with how etymology recapitulates ancient and modern history, and apocalypticism in North. Placing his trust in art's ability to confront conflicts between freedom and responsibility, between private craft and public involvement, Heaney is shown nonetheless to chastise himself for failing to have a greater impact on the situation he left behind in Northern Ireland. In pursuing the literary, religious, and political themes in his books of poetry, Hart shows that Heaney is no provincial bard, as some critics have suggested, but is as intellectually informed and astute as any postmodernist writer. Any reader of Seamus Heaney's poetry, and any poet, poetry scholar, critic of contemporary poetry, or student of Irish literature will gain much from reading this book.

Blizzards Mary B. Woods 2008-01-01 A winter snowfall can be beautiful. But if conditions call for dense snow, freezing temperatures, and bone-chilling wind, you are in for a dangerous blizzard. These blinding, swirling storms can shut down roads and damage buildings. Violent winds can thrash vehicles driving on icy roads. Snowdrifts can pile up to block streets or even cover houses. Blizzards can knock out power and threaten the lives of people stranded inside for days—or worse, those caught outside in the storm. With dramatic images and first-hand survivor stories—plus the latest facts and figures—this book shows you blizzard disasters up close.

The Oxford Illustrated History of Ireland Robert Fitzroy Foster 2000-11-09 A history of Ireland from prehistoric times to the present. Includes 200 illustrations.

Crediting Poetry Seamus Heaney 2014-01-13 Seamus Heaney's Nobel Lecture, captured here in *Crediting Poetry*, is a powerful defense of poetry as "the ship and the anchor" of our spirit within an ocean of violent, divisive politics and "world-sorrow." Beginning with the "creaturely existence" of his childhood in a thatched farmstead in rural County Derry, Heaney traces his path in "the wideness of language." It is a way forged by listening: to the "burbles and squeaks" of BBC and Radio Eireann from a wireless speaker, to the triple-rhyme in a line of Yeats', but also to the sound of gunfire in Ulster and the keening desolation of all the "wounded spots on the face of the earth." Out of all these sounds Heaney discovers the necessity of poetic order—"an order where we can at last grow up to that which we stored up as we grew." It is poetry's ability to convey the forces of the marvelous and the murderous together, Heaney writes, that gives it "at once a buoyancy and a holding," and persuades us of its "truth to life." Heaney's lecture not only finds a way of crediting poetry "without anxiety or apology," but it persuades us, eloquently and gracefully, of the "rightness" and "thereness" of our veritable human being.

Father Butler, and the Lough Dearg Pilgrim William Carleton 1839

Early Italian Painting Joseph Archer Crowe 2014-05-10 Oscillating between the majesty of the Greco-Byzantine tradition and the modernity predicted by Giotto, Early Italian Painting addresses the first important aesthetic movement that would lead to the Renaissance, the Italian Primitives. Trying new mediums and techniques, these revolutionary artists no longer painted frescos on walls, but created the first mobile paintings on wooden panels. The faces of the figures were painted to shock the spectator in order to emphasise the divinity of the character being represented. The bright gold leafed backgrounds were used to highlight the godliness of the subject. The elegance of both line and colour were combined to reinforce specific symbolic choices. Ultimately the Early Italian artists wished to make the invisible visible. In this magnificent book, the authors emphasise the importance that the rivalry between the Sieneese and Florentine schools played in the evolution of art history. The reader will discover how the sacred began to take a more human form through these forgotten masterworks, opening a discrete but definitive door through the use of anthropomorphism, a technique that would be cherished by the Renaissance.

Finders Keepers Seamus Heaney 2014-02-04 Whether autobiographical, topical, or specifically literary, these writings circle the central preoccupying questions of Seamus Heaney's career: "How should a poet properly live and write? What is his relationship to be to his own voice, his own place, his literary heritage and the contemporary world?" Along with a selection from the poet's three previous collections of prose (*Preoccupations*, *The Government of the Tongue*, and *The Redress of Poetry*), the present volume includes Heaney's finest lectures and a rich variety of pieces not previously collected in volume form, ranging from short newspaper articles to radio commentaries. In its soundings of a wide range of poets -- Irish and British, American and Eastern European, predecessors and contemporaries -- *Finders Keepers* is, as its title indicates, "an announcement of both excitement and possession."

The Hello Girls Elizabeth Cobbs 2019-04-13 In 1918 the U.S. Army Signal Corps sent 223 women to France to help win World War I. Elizabeth Cobbs reveals the challenges these patriotic young women faced in a war zone where male soldiers resented, wooed, mocked, saluted, and ultimately celebrated them. Back on the home front, they fought the army for veterans' benefits and medals, and won.

Deconstructing Ireland Colin Graham 2001 Using a Derridean deconstruction approach, this book examines the course by which the history of modernity and colonialism has constructed an idea of Ireland, produced more often as a citation than an actuality.

The Griffith Project, Volume 1 Eileen Bowser 1999-10 No other silent film director has been so extensively studied as D. W. Griffith. However, only a small group of his more than 500 films has been the subject of a systematic analysis and the vast majority of his other works still awaits proper examination. For the first time in film studies, the complete creative output of Griffith - from "Professional Jealousy" (1907) to "The Struggle" (1931) - will be explored in this multi-volume collection of contributions from an international team of leading scholars in the field.

Col. William N. Selig, the Man Who Invented Hollywood Andrew A. Erish 2012-03-01 All histories of Hollywood are wrong. Why? Two words: Colonel Selig. This early pioneer laid the foundation for the movie industry that we know today. Active from 1896 to 1938, William N. Selig was responsible for an amazing series of firsts, including the first two-reel narrative film and the first two-hour narrative feature made in America; the first American movie serial with cliffhanger endings; the first westerns filmed in the West with real cowboys and Indians; the creation of the jungle-adventure genre; the first horror film in America; the first successful American newsreel (made in partnership with William Randolph Hearst); and the first permanent film studio in Los Angeles. Selig was also among the first to cultivate extensive international exhibition of American films, which created a worldwide audience and contributed to American domination of the medium. In this book, Andrew Erish delves into the virtually untouched Selig archive at the Academy of Motion Picture Arts and Sciences Library to tell the fascinating story of this unjustly forgotten film pioneer. He traces

Selig's career from his early work as a traveling magician in the Midwest, to his founding of the first movie studio in Los Angeles in 1909, to his landmark series of innovations that still influence the film industry. As Erish recounts the many accomplishments of the man who first recognized that Southern California is the perfect place for moviemaking, he convincingly demonstrates that while others have been credited with inventing Hollywood, Colonel Selig is actually the one who most deserves that honor.

Homer in the Twentieth Century Barbara Graziosi 2010-07-29 This collection of essays explores the crucial place of Homer in the shifting cultural landscape of the twentieth century. It argues that Homer was viewed both as the founding father of the Western literary canon and as sharing important features with poems, performances, and traditions which were often deemed neither literary nor Western: the epics of Yugoslavia and sub-Saharan Africa, the keening performances of Irish women, the spontaneous inventiveness of the Blues. The book contributes to current debates about the nature of the Western literary canon, the evolving notion of world literature, the relationship between orality and the written word, and the dialogue between texts across time and space. Homer in the Twentieth Century contends that the Homeric poems play an important role in shaping those debates and, conversely, that the experiences of the twentieth century open new avenues for the interpretation of Homer's much-travelled texts.

Three Essays in Method Bernard Berenson 1927

Victorian and Edwardian Responses to the Italian Renaissance John E. Law 2017-03-02 The historiography of the Italian Renaissance has been much studied, but generally in the context of a few key figures. Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries, when the subject was 'discovered' by travellers and men and women of letters, historians, artists, architects and photographers, and by collectors on both sides of the Atlantic. The essays in Victorian and Edwardian Responses to the Italian Renaissance explore the breadth of the responses stimulated by the encounter between the British, the Americans and the Italians of the Renaissance. The volume approaches the subject from an interdisciplinary perspective. While recognising the abiding importance of the familiar 'great names', it seeks to draw attention to a wider cast of people, many of whom led colourful, energetic lives, knew Italy well, and wrote eloquently about the country and its Renaissance. Several essays show that 'Renaissance studies' became a field in which female historians could explore areas of relevance to the 'New Woman'. Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists. The contribution of teachers and other less formal champions of the Italian Renaissance is explored, as is the role of photographers who re-framed and re-viewed Florence - the Renaissance city - for Victorian and later eyes.

This rich and beautiful adventure story is one of the most influential works of literature in the world.

A History of Painting in Italy, Umbria, Florence and Siena, from the Second to the Sixteenth Century Joseph Archer Crowe 1903

Romances and Ballads of Ireland Hercules Ellis 1850

The Art Criticism Of John Ruskin John Ruskin 1987-08-21 "Ruskin was the most important aesthetic authority of the 19th century. In his dozens of books and lectures he wrote about the qualities of art. the key figure, the history that connected one to another. In The Stones of Venice, Modern Painters, Seven Lamps of Architecture he developed rules and standards that are amazingly contemporary in their range of sympathies. However, Ruskin wrote thousands of pages of criticism; for the modern reader his thought needs always to be rediscovered. This anthology by Robert Herbert contains the essential thought of Ruskin on theory and practice (creativity, color, compositio, exhibiting workd of art), ("the nature of gothic," Venetian Renaissance, iron and glass as new materials for building), and sculpture and ornament (Greek, Byzantine, Medieval, and Renaissance). Herbert devotes his section on painting to Ruskin's remarks on Giotto, Fra Angelico, Botticelli, Michelangelo, the Venetians, Turner, the Pre-Raphaelites, and many others. Ruskin was full of contradictions and quirks, but he is the one 19th-century critic who gave the 20th century many of its most progressive thoughts on architecture, painting, and relationship of art to a social and moral context."--BOOK COVER.
