**Sguardi incarnati** Federico Selvini 2023-02-24T00:00:00+01:00 Un soldato impegnato in un brutale scontro a fuoco tra le spoglie alture dell'Asia Centrale. Il drammatico arresto di un uomo per le anonime strade di Minneapolis. Le temerarie acrobazie di un biker tra le gole del deserto dello Utah. Cosa hanno in comune queste tre situazioni a prima vista così diverse? La risposta non è nell'evento in sé, quanto nelle immagini prodotte dal peculiare dispositivo di ripresa che le ha catturate. *Sguardi incarnati*. Fenomenologia delle videocamere indossabili è la prima sistematica trattazione del fenomeno delle wearable camera. Questi strumenti istituiscono un originale spettacolo del mondo fondato su due attributi principali: la prospettiva in prima persona e il rapporto protesico corpo-macchina. Attraverso l'analisi di film, serie tv e riprese vernacolari, il libro si propone di indagare l'estetica delle videocamere indossabili in tre scenari mediali differenti: gli sport estremi, i conflitti del nuovo millennio, la pubblica sicurezza.

**Story** Robert McKee 2010-09-28 Robert McKee's screenwriting workshops have earned him an international reputation for inspiring novices, refining works in progress and putting major screenwriting careers back on track. Quincy Jones, Diane Keaton, Gloria Steinem, Julia Roberts, John Cleese and David Bowie are just a few of his celebrity alumni. Writers, producers, development executives and agents all flock to his lecture series, praising it as a mesmerizing and intense learning experience. In *Story*, McKee expands on the concepts he teaches in his \$450 seminars (considered a must by industry insiders), providing readers with the most comprehensive, integrated explanation of the craft of writing for the screen. No one better understands how all the elements of a screenplay fit together, and no one is better qualified to explain the "magic" of story construction and the relationship between structure and character than Robert McKee.

**The Music of Counterculture Cinema** Mathew J. Bartkowiak 2015-06-15 Films produced in late 1960s and early 1970s America--along with later films focusing on that period--continue to frame our understanding of the counterculture era. The popular and experimental music of the day is central to the counterculture narrative on film, from the utopian Monterey Pop (1968) to the disenchantment of *Gimme Shelter* (1970). But the musical side of the movement was not monolithic, and a study of contemporary film soundtracks reveals a great deal of complexity. The coinciding struggles to define collective and individual identities based on race, class, gender and generation are well documented in the music of counterculture cinema.

*Eye of the Century* Francesco Casetti 2008-05-14 Is it true that film in the twentieth century experimented with vision more than any other art form? And what visions did it privilege? In this brilliant book, acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of twentieth-century modernity. He suggests that film defined a unique gaze, not only because it recorded many of the century's most important events, but also because it determined the manner in which they were received. Casetti begins by examining film's nature as a medium in an age obsessed with immediacy, nearness, and accessibility. He considers the myths and rituals cinema constructed on the screen and in the theater and how they provided new images and behaviors that responded to emerging concerns, ideas, and social orders. Film also succeeded in negotiating the different needs of modernity, comparing and uniting conflicting stimuli, providing answers in a world torn apart by conflict, and satisfying a desire for everydayness, as well as

lightness, in people's lives. The ability to communicate, the power to inform, and the capacity to negotiate—these are the three factors that defined film's function and outlook and made the medium a relevant and vital art form of its time. So what kind of gaze did film create? Film cultivated a personal gaze, intimately tied to the emergence of point of view, but also able to restore the immediacy of the real; a complex gaze, in which reality and imagination were combined; a piercing gaze, achieved by machine, and yet deeply anthropomorphic; an excited gaze, rich in perceptive stimuli, but also attentive to the spectator's orientation; and an immersive gaze, which gave the impression of being inside the seen world while also maintaining a sense of distance. Each of these gazes combined two different qualities and balanced them. The result was an ever inventive synthesis that strived to bring about true compromises without ever sacrificing the complexity of contradiction. As Casetti demonstrates, film proposed a vision that, in making opposites permeable, modeled itself on an oxymoronic principle. In this sense, film is the key to reading and understanding the modern experience.

*Postproduction* Nicolas Bourriaud 2005-01-01 The French writer Nicolas Bourriaud discusses how, since the early nineties, an ever increasing number of artworks have been created on the basis of preexisting works; more and more artists interpret, reproduce, re-exhibit, or use works made by others or available cultural products. This art of postproduction seems to respond to the proliferating chaos of global culture in the information age, which is characterized by an increase in the supply of works and the art worlds annexation of forms ignored or disdained until now. First published in 2002, this 2nd edition contains a new foreword where the author reflects on how the art of postproduction developed over the last couple of years. Nicolas Bourriaud is the co-director of the Palais de Tokyo in Paris. His previous books include *L'ère tertiaire* (Flammarion), *Ésthetique relationnelle* (Presses du réel), and *Formes de vie* (Denoël).

**Netflix Nations** Ramon Lobato 2019-01-08 How streaming services and internet distribution have transformed global television culture. Television, once a broadcast medium, now also travels through our telephone lines, fiber optic cables, and wireless networks. It is delivered to viewers via apps, screens large and small, and media players of all kinds. In this unfamiliar environment, new global giants of television distribution are emerging—including Netflix, the world's largest subscription video-on-demand service. Combining media industry analysis with cultural theory, Ramon Lobato explores the political and policy tensions at the heart of the digital distribution revolution, tracing their longer history through our evolving understanding of media globalization. Netflix Nations considers the ways that subscription video-on-demand services, but most of all Netflix, have irrevocably changed the circulation of media content. It tells the story of how a global video portal interacts with national audiences, markets, and institutions, and what this means for how we understand global media in the internet age. Netflix Nations addresses a fundamental tension in the digital media landscape - the clash between the internet's capacity for global distribution and the territorial nature of media trade, taste, and regulation. The book also explores the failures and frictions of video-on-demand as experienced by audiences. The actual experience of using video platforms is full of subtle reminders of market boundaries and exclusions: platforms are geo-blocked for out-of-region users ("this video is not available in your region"); catalogs shrink and expand from country to country; prices appear in different currencies; and subtitles and captions are

not available in local languages. These conditions offer rich insight for understanding the actual geographies of digital media distribution. Contrary to popular belief, the story of Netflix is not just an American one. From Argentina to Australia, Netflix's ascension from a Silicon Valley start-up to an international television service has transformed media consumption on a global scale. Netflix Nations will help readers make sense of a complex, ever-shifting streaming media environment. [Touchscreen Archaeology](#) Wanda Strauven 2021-05-17 The touchscreen belongs to a century-long history of hands-on media practices and touchable art objects. This media-archaeological excavation examines the nature of our sensual involvement with media and invites the reader to think about the touchscreen beyond its technological implications. In six chapters, the book questions and historicizes both aspects of the touchscreen, considering "touch" as a media practice and "screen" as a touchable object.

*From Sensation to Synaesthesia in Film and New Media* Rossella Catanese 2019-02-05 This collection of essays focuses on current theories of sensation and synaesthesia in films and audiovisual works from a variety of methodological perspectives. It offers an insightful exploration of recent film theories about the cinematic experience. Film spectatorship and its extension in new media as a similar form of audience enjoyment stimulates both our senses and mind by creating immersive environments that involve different levels of emotion and consciousness. The collection addresses these topics through its five sections. The first, "Perception," focuses on the synaesthetic mechanism underpinning film perception and its connection with affect, cognition, and emotions. The second part, "Movement," calls into question the role of gesture and movement within the

synaesthetic properties of film. The third section, "Senses," examines how movies stimulate all senses, such as olfaction and haptics, and how senses flow into each other according to a-modal perception. The fourth, "Abstractions," addresses how avant-garde and abstract cinema trigger synaesthetic reactions in the viewers. The fifth part, "New Media and Media Art," explores the deep involvement of the human body through the experience of new media and a variety of synaesthetic implications theorized in different perspectives.

**Germaine Dulac** Tami Williams 2014-06-15 Best known for directing the Impressionist classic *The Smiling Madame Beudet* and the first Surrealist film *The Seashell and the Clergyman*, Germaine Dulac, feminist and pioneer of 1920s French avant-garde cinema, made close to thirty fiction films as well as numerous documentaries and newsreels. Through her filmmaking, writing, and cine-club activism, Dulac's passionate defense of the cinema as a lyrical art and social practice had a major influence on twentieth century film history and theory. In *Germaine Dulac: A Cinema of Sensations*, Tami Williams makes unprecedented use of the filmmaker's personal papers, production files, and archival film prints to produce the first full-length historical study and critical biography of Dulac. Williams's analysis explores the artistic and sociopolitical currents that shaped Dulac's approach to cinema while interrogating the ground breaking techniques and strategies she used to critique conservative notions of gender and sexuality. Moving beyond the director's work of the 1920s, Williams examines Dulac's largely ignored 1930s documentaries and newsreels establishing clear links with the more experimental impressionist and abstract works of her early period. This vivid portrait will be of interest to general readers, as well as to scholars of cinema and visual culture, performance, French history, women's studies, queer cinema, in addition to studies of narrative avant-garde, experimental, and documentary film history and theory.

Moralizing Cinema Daniel Biltreyest 2014-11-20 This volume is part of the recent interest in the study of religion and popular media culture (cinema in particular), but it strongly differs from most of this work in this maturing discipline. Contrary to most other edited volumes and monographs on film and religion, *Moralizing Cinema* will not focus upon films (cf. the representation of biblical figures, religious themes in films, the fidelity question in movies), but rather look beyond the film text, content or aesthetics, by concentrating on the cinema-related actions, strategies and policies developed by the Catholic Church and Catholic organizations in order to influence cinema. Whereas the key role of Catholics in cinema has been well studied in the USA (cf. literature on the Legion of Decency and on the Catholic influenced Production Code Administration), the issue remains unexplored for other parts of the world. The book includes case studies on Argentina, Belgium, France, Ireland, Italy, Luxemburg, the Netherlands, and the USA.

*The Cultural Industries* David Hesmondhalgh 2002-05-24 `This is both a smashing textbook and also an impressive contribution to thinking in a range of subjects. This book should influence the way we construct the undergraduate curriculum as well as rethink the polarizatón between political economy and cultural studies'- Frank Webster, City University `A wonderfully clear, insightful and original synthesis of work on the cultural industries, representing the perspectives of the new generation of researchers' - James Curran, Goldsmiths College, University of London `The Cultural Industries is an indispensable guide to the main forces at work in the production of media today. This lucid, careful, and sophisticated book orders the entire field, for the US as well as Europe, and at one stroke becomes the state of the art, the standard' - Todd Gitlin, New York University `David Hesmondhalgh offers us a valuable resource and a timely provocation... [A] very well organised and clearly written introduction to this increasingly important area of study. Students and teachers wanting a comprehensive and accessible guide to what we know and where we might be heading will welcome it with open arms... His book deserves to be required reading on every media and cultural studies course' - Graham Murdock, University of Loughborough `The arguments within [this book] provide both a timely overview of current scholarship and offer a unique multidisciplinary approach to the topic in a clear and concise manner' - TOPIA: Canadian Journal of Cultural Studies What are the 'cultural industries'? What role do they play in contemporary society? How are they changing? *The Cultural Industries* combines a political economy approach with the best aspects of cultural studies, sociology, communication studies and social theory to provide an overview of the key debates surrounding cultural production. The book: -Considers both the entertainment and the information sectors -Combines analysis of the contemporary scene with a long-range historical perspective -Draws on an range of examples from North America, the United Kingdom, Europe and elsewhere. Hesmondhalgh's clearly written, thoroughly argued overview of political-economic, organizational, technological and cultural change represents an important intervention in research on cultural production, but at the same time provides students with an accessible, indispensable introduction to the area.

**Un posto al sole** Antonietta Chirico 2023-03-31 Il saggio prende in esame il prodotto televisivo *Un posto al Sole*, un caso di studio estremamente interessante come indica l'ininterrotta messa in onda dal 1996 a oggi su una rete Rai, dove alla soap è attribuito un successo impareggiabile. Oggetto dell'analisi di Antonietta Chirico è la puntuale osservazione, al di là dell'articolazione della trama, di tutti gli aspetti tecnici e pratici inerenti alla trasmissione, comprendendo la storia delle produzioni radiofoniche e televisive e tutte le prestigiose collaborazioni attivate. Lo scopo è evidenziare le potenzialità e i risultati di una soap opera totalmente prodotta e girata in Italia, capace di conquistare e mantenere una posizione di primissimo piano, a dimostrazione che una solida struttura produttiva, in grado di reperire i fondi necessari e concedere spazio alla creatività di tutto lo staff, non rende necessario l'acquisto di un programma all'estero. *Un posto al Sole*, il maggiore traguardo in termini di ascolto di Rai Tre, è cresciuto gradualmente consolidando un pubblico di affezionati che ha impedito di assistere al calo fisiologico sperimentato da altre serie anche grazie alla forza della sua proposta: raccontare un mondo vicino agli spettatori che li ha coinvolti fino a instaurare una sorta di patto di complicità con gli autori-sceneggiatori. Nasce nel 1998 e attualmente vive a

Castenaso, in provincia di Bologna. Presso l'Alma Mater Studiorum Università di Bologna si laurea in Lettere Moderne nel 2019 inseguendo il suo forte interesse per gli studi umanistici e si specializza successivamente in Cinema, Televisione e Produzione Multimediale ottenendo la Laurea Magistrale nel 2021. Approfondisce la sua passione per il cinema e la televisione analizzando la soap opera oggetto di questo saggio e conseguendo anche un diploma in recitazione.

Paesaggi d'acqua e flussi audiovisivi AA. VV. 2016-01-03T00:00:00+01:00 Il volume presenta i risultati del programma di ricerca Paesaggi d'acqua e flussi audiovisivi finanziato, nel 2009|2010, dalla Regione Autonoma della Sardegna Assessorato alla Pubblica istruzione, Beni culturali, Informazione, Spettacolo e Sport attraverso il bando Studi, ricerche, progetti di ricerca e sperimentazione sui nuovi linguaggi e tecnologie audiovisive e sviluppato dal gruppo di ricerca CITY movie. Laboratorio città in movimento all'interno della sezione Architettura Città del Dipartimento di architettura di Cagliari. L'ipotesi di partenza di questo lavoro è la riconoscibilità di un rapporto tra disegno progetto e video-progetto per l'architettura, ovvero, tra le forme di rappresentazione convenzionali in pianta, sezione e prospetto e quelle meno tradizionali che fanno uso del piano fisso (pianta), del travelling in avanti (sezione) e del travelling laterale (prospetto). A partire da questa considerazione la ricerca mostra la capacità del flusso audiovisivo di farsi custode di un pensiero immaginativo orientato alla trasformazione della città. La ricerca, applicata al sistema ambientale Molentargius-Saline di Cagliari, s'inserisce tra le attività che il gruppo dipartimentale promuove da diversi anni su rapporto "Cinema Architettura". Giovanni Battista Cocco (Cagliari, 1973). Dottore di ricerca in Architecture (Université de Paris 8 Vincennes-Saint-Denis), docente a contratto in Composizione architettonica e urbana presso la Facoltà di Architettura di Cagliari, da diversi anni svolge attività professionale e di ricerca sul rapporto Architettura Città con organismi universitari internazionali. è autore di numerose pubblicazioni ed iniziative di sensibilizzazione e promozione della cultura architettonica e urbana. Per la collana Paesaggi in trasformazione, edita per i tipi Gangemi di Roma, ha curato: "Architettura città e paesaggio. Il progetto urbano per il quartiere Sant'Elia a Cagliari" e "La linea d'ombra. **The Modern Firm** John Roberts 2007-09-06 Business firms around the world are experimenting with new organizational designs, changing their formal architectures, their routines and processes, and their corporate cultures as they seek to improve their current performance and their growth prospects. In the process they are changing the scope of their business operations, redrawing their organization charts, redefining the allocation of decision-making authority and responsibility, revamping the mechanisms for motivating and rewarding people, reconsidering which activities to conduct in-house and which to out-source, redesigning their information systems, and seeking to alter the shared beliefs, values and norms that their people hold. In this book, John Roberts argues that there are predictable, necessary relationships among these changes that will improve performance and growth. The organizations that are successful will establish patterns of fit among the elements of their organizational designs, their competitive strategies and the external environment in which they operate and will go about this in a holistic manner. The Modern Firm develops powerful conceptual frameworks for analyzing the interrelations between organizational design features, competitive strategy and the business environment. Written in a non-technical language, the book is nevertheless based on rigorous modeling and draws on numerous examples from eighteenth century fur trading companies to such modern firms such as BP and Nokia. Finally the book explores why these developments are happening now, pointing to the increase in global competition and changes in technology. Written by one of the world's leading economists and experts on business strategy and organization, The Modern Firm provides new insights into the changes going on in business today and will be of interest to academics, students and managers alike.
