**Cops, Cons, and Grace** Brian Cahill 2018-01-08 A decade ago Brian Cahill became the victim of the greatest tragedy any parent can endure with the loss of his firstborn son, a veteran police officer in the aftermath of a painful divorce, to suicide. Far from the carefree retirement he had envisioned, the devastated father faced a journey back from the brink of utter despair. As the author of numerous opinion pieces and essays on religion, the lifelong Catholic was familiar with the concept that the cross is followed by the resurrection, and that from death comes new life. In the devastating years following his beloved son's suicide, the abstract became very real. Cahill's work volunteering with two different groups--cops and cons--saved him, allowing him to eventually experience a measure of grace. The unlikely combination of working with SFPD officers on suicide prevention and leading a spirituality group for San Quentin lifers brought him enough of a sense of peace and acceptance to truly want to continue living.

**The Suicidal Crisis** Igor Galynker 2023 Most people who die by suicide see a clinician prior to taking their lives. Therefore, one of the most difficult determinations clinicians must be able to make is whether any given patient is at risk for suicide in the immediate future. The Suicidal Crisis, Clinical Guide to the Assessment of Imminent Suicide Risk, is the first book written specifically to help clinicians evaluate the risk of such imminent suicidal behavior. The Suicidal Crisis is an essential work for every mental health professional and for anyone who would like to have a framework for understanding suicide. Written by master clinician Dr. Igor Galynker, the book

presents methods for a systematic and comprehensive assessment of short-term suicide risk and for conducting risk assessment interviews in different settings. Dr. Galynker describes suicide as an attempt of a vulnerable individual to escape an unbearable life situation, which is perceived as both intolerable and inescapable. What sets the *Suicidal Crisis* apart from the other books of its kind is its sharp focus on those at the highest risk. It presents a wealth of clinical material within the easy-to-understand and intuitive framework of the Narrative-Crisis model of suicidal behavior. The book contains sixty individual case studies of actual suicidal individuals and their interviews, detailed instructions on how to conduct such interviews, and risk assessment test cases with answer keys. A unique feature of the book, not found in any other book on suicide, is a discussion of how clinicians' emotional responses to acutely suicidal individuals may help identify those at highest risk. In this timely and extensively updated edition Galynker provides a method for understanding the suicidal process, and of identifying those at the highest risk for taking their lives. Any clinician who works with suicidal individuals and anybody who knows someone who has considered suicide will find the book an essential and illuminating read.

God is Enough M.E. Louis 2017-12-03 Where do you go when life as you know it is turned completely upside down? It happened to me. The life I knew and loved vanished on August 7, 2013 when my college sweetheart and husband of 33 years chose to end his life. There are not words to describe my shock and devastation. This is my journey through shock, grief, mourning and healing. It is the very personal and profound journey I took to ultimately discover that no matter how deep your pain...God is always there and He is enough. If you are grieving, God Is Enough will give you hope. I understand what you are going through, and I am here to share my message of hope, healing and faith.

*Autopsy of a Suicidal Mind* Edwin S. Shneidman 2004-02-26 Shneidman (U. of California at Los Angeles) examines the case of an individual suicide, bringing together interviews with his family and friends, involved professionals, and "consultations" with other psychiatrists specializing in suicide in order to conduct a post-mortem "autopsy" of the psychological state that led to the young man's death

The Suicide Solution Daniel Emina 2021-09-14 This is a book for people who are struggling to find their way out of a cave of anxiety, depression, and suicidal thoughts—and for anyone who cares for someone who's been lost in that cave. Suicide is now the leading cause of death among young adults 18-34, and the fourth-leading cause of death among the middle-aged. Just as a computer's hardware determines its foundational capabilities and its software determines how it interfaces with the world, humans' hardware is tied to our biology and our software dictates how we relate to others and ourselves. Together, these parts of our identity determine our functionality, limitations, and possibilities. We become the story we have decided to live inside. When Jesus said, "I have come to

set captives free," He meant that He came to "de-bug" our programming. Jesus invites us to partner with Him to bring to the surface and then move past our debilitating bugs. This book is a conversation between a minister and a psychiatrist. Informed by the clinical realities of anxiety, depression, and suicide, the authors draw from the transformational relational strategies of Jesus to chart a path into life and freedom.

Veronika Decides to Die Paulo Coelho 2006-05-23 Twenty-four-year-old Veronika seems to have everything -- youth and beauty, boyfriends and a loving family, a fulfilling job. But something is missing in her life. So, one cold November morning, she takes a handful of sleeping pills expecting never to wake up. But she does -- at a mental hospital where she is told that she has only days to live. Inspired by events in Coelho's own life, *Veronika Decides to Die* questions the meaning of madness and celebrates individuals who do not fit into patterns society considers to be normal. *Suicide Watch* Kelley York 2012-12-16 Vincent has spent his entire life being shuffled from one foster home to the next. His grades suck. Making friends? Out of the question thanks to his nervous breakdowns and unpredictable moods. Still, Vince thought when Maggie Atkins took him in, he might've finally found a place to get his life--and his issues--in order. When Maggie dies, it all falls apart. A year ago, Vince watched a girl leap to her death off a bridge. He's starting to think she had the right idea. Through a pro-suicide forum, Vince meets others with the same debate regarding death: cancer-ridden Casper would rather off herself than slowly waste away, and there's quiet, withdrawn Adam, whose mother wouldn't notice if he fell off the face of the planet. As they gravitate toward each other, Vince searches for a reason to live while coping without Maggie, coming to terms

with Casper's imminent death, and falling in love with a boy who doesn't plan on sticking around.

**Suicide** Paul G. Quinnett 1987 Provides positive advice and encouragement to the person thinking about committing suicide.

**Suicide Among Child Sex Offenders** Tia A. Hoffer 2013-01-09 By providing empirical data and multidisciplinary considerations, the book increases awareness of child sex offender suicide among the various entities which come into contact with this population of offenders. This book attempts to bring awareness of this potentially high risk population to better inform the law enforcement, corrections, and mental health communities of the unique risk factors for suicide among CSOs and provide a more effective crisis response. The Federal Bureau of Investigation (FBI) Behavioral Analysis Unit III- Crimes Against Children reviewed and analyzed 106 male Child Sex Offenders (CSO) who committed suicide during the course of a child sex crime investigation. Of the 106 CSOs, 79% were child pornography traders/collectors, 43% were child molesters, 21% were travelers, and 18% were child pornography producers. Analyses also revealed that nearly all were Caucasian and the majority were married, employed, and died via self-inflicted gunshot wound. Of particular interest was that in 26% of the cases, the offender killed himself within 48 hours of his awareness of the investigation; and in nearly half of the known cases, the offender had past/current military service and a criminal history. In addition, 68% left a suicide note, which is substantially higher than the general suicide population. Analysis of the notes revealed common aspects and themes including cognitive distortions, burdensomeness, shame, and self-blame. The most frequently cited reason for the suicide in the note was the child sex crime investigation.

**In Love** Amy Bloom 2022-03-08 NEW YORK TIMES BESTSELLER • A powerful memoir of a love

that leads two people to find a courageous way to part—and a woman’s struggle to go forward in the face of loss—that “enriches the reader’s life with urgency and gratitude” (The Washington Post) “A pleasure to read . . . Rarely has a memoir about death been so full of life. . . . Bloom has a talent for mixing the prosaic and profound, the slapstick and the serious.”—USA Today ONE OF THE BEST BOOKS OF THE YEAR: NPR Amy Bloom began to notice changes in her husband, Brian: He retired early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer’s disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom’s captivating, insightful voice and with her trademark wit and candor, *In Love* is an unforgettable portrait of a beautiful marriage, and a boundary-defying love.

Night Falls Fast Kay Redfield Jamison 2011-01-12 Critical reading for parents, educators, and anyone wanting to understand the tragic epidemic of suicide—“a powerful book [that] will change people's lives—and, doubtless, save a few” (Newsday). The first major book in a quarter century on suicide—and its terrible pull on the young in particular—*Night Falls Fast* is tragically timely: suicide

has become one of the most common killers of Americans between the ages of fifteen and forty-five. From the author of the best-selling memoir, *An Unquiet Mind*—and an internationally acknowledged authority on depression—Dr. Jamison has also known suicide firsthand: after years of struggling with manic-depression, she tried at age twenty-eight to kill herself. Weaving together a historical and scientific exploration of the subject with personal essays on individual suicides, she brings not only her remarkable compassion and literary skill but also all of her knowledge and research to bear on this devastating problem. This is a book that helps us to understand the suicidal mind, to recognize and come to the aid of those at risk, and to comprehend the profound effects on those left behind.

**Suicidal** Jesse Bering 2020-10-23 For much of his thirties, Jesse Bering thought he was probably going to kill himself. He was a successful psychologist and writer, with books to his name and bylines in major magazines. But none of that mattered. The impulse to take his own life remained. At times it felt all but inescapable. Bering survived. And in addition to relief, the fading of his suicidal thoughts brought curiosity. Where had they come from? Would they return? Is the suicidal impulse found in other animals? Or is our vulnerability to suicide a uniquely human evolutionary development? In *Suicidal*, Bering answers all these questions and more, taking us through the science and psychology of suicide, revealing its cognitive secrets and the subtle tricks our minds play on us when we're easy emotional prey. Scientific studies, personal stories, and remarkable cross-species comparisons come together to help readers critically analyze their own doomsday thoughts while gaining broad insight into a problem that, tragically, will most likely touch all of us at some point in our lives. But while the subject is certainly a heavy one, Bering's touch is light. Having been through this himself, he knows that sometimes the most effective response to our darkest moments is a gentle humor, one that, while not denying the seriousness of suffering, at the same

time acknowledges our complicated, flawed, and yet precious existence. Authoritative, accessible, personal, profound—there's never been a book on suicide like this. It will help you understand yourself and your loved ones, and it will change the way you think about this most vexing of human problems.

**Death Talk** Margaret A. Somerville 2001 "Argues that people who promote the legalization of euthanasia ignore the vast ethical, legal and social differences between euthanasia and natural death. Permitting euthanasia, Somerville demonstrates, would cause irreparable harm to respect for human life and society." --Cover.

*Suicide of a Superpower* Patrick J. Buchanan 2011-10-18 America is disintegrating. The "one Nation under God, indivisible" of the Pledge of Allegiance is passing away. In a few decades, that America will be gone forever. In its place will arise a country unrecognizable to our parents. This is the thrust of Pat Buchanan's *Suicide of a Superpower*, his most controversial and thought-provoking book to date. Buchanan traces the disintegration to three historic changes: America's loss of her cradle faith, Christianity; the moral, social, and cultural collapse that have followed from that loss; and the slow death of the people who created and ruled the nation. And as our nation disintegrates, our government is failing in its fundamental duties, unable to defend our borders, balance our budgets, or win our wars. How Americans are killing the country they profess to love, and the fate that awaits us if we do not turn around, is what *Suicide of a Superpower* is all about.

**Life After Suicide** Jennifer Ashton, M.D. 2019-05-07 From the chief medical correspondent of ABC News, an eloquent, heartbreaking, yet hopeful memoir of surviving the suicide of a loved one, examining this dangerous epidemic and offering first-hand knowledge and advice to help family and friends find peace. Jennifer Ashton, M.D., has witnessed firsthand the impact of a loved one's suicide. When her ex-husband killed himself soon after their divorce, her world—and that of her children—was shattered. Though she held a very public position with one of the world's largest media companies, she was hesitant to speak about the personal trauma that she and her family

experienced following his death. A woman who addresses the public regularly on intimate health topics, she was uncertain of revealing her devastating loss—the most painful thing she’d ever experienced. But with the high-profile suicides of Kate Spade and Anthony Bourdain, Dr. Ashton recognized the importance of talking about her experience and the power of giving voice to her grief. She shared her story with her Good Morning America family on air—an honest, heartbreaking revelation that provided comfort and solace to others, like her and her family, who have been left behind. In *Life After Suicide*, she opens up completely for the first time, hoping that her experience and words can inspire those faced with the unthinkable to persevere. Part memoir and part comforting guide that incorporates the latest insights from researchers and health professionals, *Life After Suicide* is both a call to arms against this dangerous, devastating epidemic, and an affecting story of personal grief and loss. In addition, Dr. Ashton includes stories from others who have survived the death of a loved one by their own hand, showing how they survived the unthinkable and demonstrating the vital roles that conversation and community play in recovering from the suicide of a loved one. The end result is a raw and revealing exploration of a subject that’s been taboo for far too long, providing support, information, and comfort for those attempting to make sense of their loss and find a way to heal.
