The Cinema of Me Alisa Lebow 2012-05-29 When a filmmaker makes a film with herself as a subject, she is already divided as both the subject matter of the film and the subject making the film. The two senses of the word are immediately in play – the matter and the maker—thus the two ways of being subjectified as both subject and object. Subjectivity finds its filmic expression, not surprisingly, in very personal ways, yet it is nonetheless shaped by and in relation to collective expressions of identity that can transform the cinema of 'me' into the cinema of 'we'. Leading scholars and practitioners of first-person film are brought together in this groundbreaking collection to consider the theoretical, ideological, and aesthetic challenges wrought by this form of filmmaking in its diverse cultural, geographical, and political contexts.

Words for War Oksana Maksymchuk 2017 "The armed conflict in the east of Ukraine brought about an emergence of a distinctive trend in contemporary Ukrainian poetry: the poetry of war. Directly and indirectly, the poems collected in this volume engage with the events and experiences of war, reflecting on the themes of alienation, loss, dislocation, and disability; as well as justice, heroism, courage, resilience, generosity, and forgiveness. In addressing these themes, the poems also raise questions about art, politics, citizenship, and moral responsibility. The anthology brings together some of the most compelling poetic voices from different regions of Ukraine. Young and old, female and male, somber and ironic, tragic and playful, filled with extraordinary terror and ordinary human delights, the voices recreate the human sounds of war in its tragic complexity"--

The Imperative of Responsibility Hans Jonas 1984 Hans Jonas here rethinks the foundations of ethics in light of the awesome transformations wrought by modern technology: the threat of nuclear war, ecological ravage, genetic engineering, and the like. Though informed by a deep reverence for human life, Jonas's ethics is grounded not in religion but in metaphysics, in a secular doctrine that makes explicit man's duties toward himself, his posterity, and the environment. Jonas offers an assessment of practical goals under present circumstances, ending with a critique of modern utopianism.

Architecture's Historical Turn Jorge Otero-Pailos 2013-11-30 Architecture's Historical Turn traces the hidden history of architectural phenomenology, a movement that reflected a key turning point in the early phases of postmodernism and a legitimating source for those architects who first dared to confront history as an intellectual problem and not merely as a stylistic question. Jorge Otero-Pailos shows how architectural phenomenology radically transformed how architects engaged, theorized, and produced history. In the first critical intellectual account of the movement, Otero-Pailos discusses the contributions of leading members, including Jean Labatut, Charles Moore, Christian Norberg-Schulz, and Kenneth Frampton. For architects maturing after World War II, Otero-Pailos contends, architectural history was a problem rather than a given. Paradoxically, their awareness of modernism's historicity led some of them to search for an ahistorical experiential constant that might underpin all architectural expression. They drew from phenomenology, exploring the work of Bachelard, Merleau-Ponty, Heidegger, and Ricoeur, which they translated for architectural audiences. Initially, the concept that experience could be a timeless architectural language provided a unifying intellectual basis for the stylistic pluralism that characterized postmodernism. It helped give theory—especially the theory of architectural history—a new importance over

practice. However, as Otero-Pailos makes clear, architectural phenomenologists could not accept the idea of theory as an end in itself. In the mid-1980s they were caught in the contradictory and untenable position of having to formulate their own demotion of theory. Otero-Pailos reveals how, ultimately, the rise of architectural phenomenology played a crucial double role in the rise of postmodernism, creating the antimodern specter of a historical consciousness and offering the modern notion of essential experience as the means to defeat it.

Eye of the Century Francesco Casetti 2008-05-14 Is it true that film in the twentieth century experimented with vision more than any other art form? And what visions did it privilege? In this brilliant book, acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of twentieth-century modernity. He suggests that film defined a unique gaze, not only because it recorded many of the century's most important events, but also because it determined the manner in which they were received. Casetti begins by examining film's nature as a medium in an age obsessed with immediacy, nearness, and accessibility. He considers the myths and rituals cinema constructed on the screen and in the theater and how they provided new images and behaviors that responded to emerging concerns, ideas, and social orders. Film also succeeded in negotiating the different needs of modernity, comparing and uniting conflicting stimuli, providing answers in a world torn apart by conflict, and satisfying a desire for everydayness, as well as lightness, in people's lives. The ability to communicate, the power to inform, and the capacity to negotiate—these are the three factors that defined film's function and outlook and made the medium a relevant and vital art form of its time. So what kind of gaze did film create? Film cultivated a personal gaze, intimately tied to the emergence of point of view, but also able to restore the immediacy of the real; a complex gaze, in which reality and imagination were combined; a piercing gaze, achieved by machine, and yet deeply anthropomorphic; an excited gaze, rich in perceptive stimuli, but also attentive to the spectator's orientation; and an immersive gaze, which gave the impression of being inside the seen world while also maintaining a sense of distance. Each of these gazes combined two different qualities and balanced them. The result was an ever inventive synthesis that strived to bring about true compromises without ever sacrificing the complexity of contradiction. As Casetti demonstrates, film proposed a vision that, in making opposites permeable, modeled itself on an oxymoronic principle. In this sense, film is the key to reading and understanding the modern experience.

Japan Style Gian Carlo Calza 2015-09-14 An authoritative and wide-ranging visual essay on the aesthetics of Japan, now in a beautiful paperback edition. *Japan Style*, written by one of the world's most respected scholars of Japanese art and culture, defines what 'Japan style' is. It explores specific achievements in Japanese art and architecture, but also offers an in-depth analysis of the whole of Japanese culture, its vision of the world and of humankind. 'Japan style' is something recognizable to everyone: a beautifully arranged flower, an elegant piece of calligraphy or a simple rock garden, but it is also something that is very difficult to define. The book is divided into three main sections. In the first one ('Irregular Beauty'), the author delineates the different aspects of Japanese culture and draws interesting connections between art, architecture, religion, philosophy and mythology. For example, he explains the aesthetics of the tea ceremony and its relationship to Zen philosophy as well as other subjects such as the function of the void in mythology, Buddhism and the arts. The second part of the book ('A Feeling of Nature') follows a chronological path from ancient times to the present explaining more specifically how to interpret the different forms of Japanese art (literature, painting, sculpture, etc.). The third part of the book ('Art Masters') contains short monographs on Japanese masters in the history of Japanese art and culture: Zeami Moto, the creator of No theatre; Hokusai, the master of woodblock printing; Yasunai Kawabata and Mishima Yukio, the writers; and the graphic designer, Tanaka Ikko. Calza's groundbreaking and insightful text is accompanied by 150 colour images of a great variety of examples from Japanese art and culture.

Truth and Beauty S. Chandrasekhar 2013-11-15 "What a splendid book! Reading it is a joy, and for me, at least, continuing reading it became

compulsive. . . . Chandrasekhar is a distinguished astrophysicist and every one of the lectures bears the hallmark of all his work: precision, thoroughness, lucidity."—Sir Hermann Bondi, *Nature* The late S. Chandrasekhar was best known for his discovery of the upper limit to the mass of a white dwarf star, for which he received the Nobel Prize in Physics in 1983. He was the author of many books, including *The Mathematical Theory of Black Holes* and, most recently, *Newton's Principia for the Common Reader*.

The Church of Solitude Grazia Deledda 2012-02-01 A translation of Grazia Deledda's final novel, an autobiographically based portrayal of an Italian woman coming to terms with breast cancer at the cusp of the twentieth century. *The Church of Solitude* tells the story of Maria Concezione, a young Sardinian seamstress living with breast cancer at the cusp of the twentieth century. Overwhelmed by the shame of her diagnosis, she decides that no one can know what has happened to her, but the heavy burden of this secrecy changes her life in dramatic ways and almost causes the destruction of several people in her life. This surprising novel paints the portrait of a woman facing the unknown with courage, faith, and self-reliance, and is the last and most autobiographical work of Grazia Deledda, who died of breast cancer in 1936, shortly after its publication. An afterword by the translator offers additional information on the author and examines the social and historical environment of that time. Grazia Deledda (1871-1936), the only Italian woman to have won the Nobel Prize for Literature (1926), is largely remembered today for her exalted prose and stark portraits of social change in early twentieth-century Sardinia. She wrote over sixty volumes, including novels, stories, and folklore of Sardinia, poetry, and essays. Her other translated works include *After the Divorce*; *Cosima*; *Elias Portolu*; *Reeds in the Wind*; and *The Mother*. E. Ann Matter is the R. Jean Brownlee Term Professor in the Department of Religious Studies at the University of Pennsylvania. She has published several books, including *The Voice of My Beloved: The Song of Songs in Western Medieval Christianity*.

Ecocritical Approaches to Italian Culture and Literature Pasquale Verdicchio 2016-08-23 By recognizing the groundbreaking work of many non-Italian ecocritics, and linking to the homegrown contributions of Serenella Iovino, Marco Armerio, and Giovanna Ricoveri, the authors of *Ecocritical Approaches to Italian Culture and Literature: The Denatured Wild*, challenge the narrowly defined conventions of Italian Studies and illuminate the complexities of an Italian ecocriticism that reveals a rich environmentally engaged literary and cultural tradition.

A Scientific Autobiography, reissue Aldo Rossi 2010-01-29 A lyrical memoir by one of the major figures of postmodernist architecture; with drawings of architectural projects prepared especially for the book. This revealing memoir by Aldo Rossi (1937-1997), one of the most visible and controversial figures ever on the international architecture scene, intermingles discussions of Rossi's architectural projects—including the major literary and artistic influences on his work—with his personal history. Drawn from notebooks Rossi kept beginning in 1971, these ruminations and reflections range from his obsession with theater to his concept of architecture as ritual.

Grazia Deledda Martha King 2005 This is a timely and extensive biography of a writer who, in the early twentieth century, achieved such status in the literary world that publishers in Italy vied for her novels, and editors felt honoured to publish her short stories and 'sketches'. Now, almost seventy

years after her death, her novels continue to be reprinted and translated, and critical appreciation of her work continues to grow. Her works still live and have the power to move her readers.

Witness Literature Horace Engdahl 2002 In December 2001, the centennial of the first Nobel Prize was celebrated in Stockholm. To mark the occasion, the Swedish Academy organized a symposium on the theme of OC Witness LiteratureOCO. Talks were given by speakers from Asia, Africa and Europe, including three Nobel laureates in literature: Nadine Gordimer, Kenzaburo Oe and Gao Xingjian. The main objective of the symposium was to examine the concept of witness literature and its relevance to contemporary literature. This concept is relatively new and has not yet been defined clearly by literary criticism and scholarship. The discussion primarily alternated between two aspects of the topic: the particular claim to truth that witness literature puts forward, and the process that leads from catastrophe to creativity and that turns the victim into a writing witness with the power to suspend forgetfulness and denial. This volume, edited by Horace Engdahl, Permanent Secretary of the Swedish Academy, brings together all the talks given at the symposium."

Inscribing Sorrow Christos Tsagalis 2008-12-10 Fourth-century Attic grave epigrams reflect a transitional phase in the evolution of the genre of epigram. They testify to a shift of interest towards social issues such as the family, the deceased's age and profession. In a turbulent period of restlessness and uncertainty that followed the devastating Peloponnesian war, the commemoration of the departed in private monuments became an effective mechanism of displaying publicly a new set of social concerns. This book explores this decisive phase in the evolution of the epigram by reconstructing as many ancient contexts as possible on the one hand, and studying sepulchral epigrams as a poetic art on the other.

Hidden Histories of Science Robert B. Silvers 1995 We often think of science as continuously advancing. In this collection of essays, five world-renowned writers explore obscure and neglected episodes in the history of science which suggest instead that the process of understanding the significance of scientific discoveries can be erratic, contradictory, even irrational. Jonathan Miller, Oliver Sacks, and Daniel Kevles show how promising new ideas may at first fail to be noticed or accepted, and then, years after they have been dismissed or forgotten, are recognized in a

different form as important. R.C. Lewontin and Stephen Jay Gould discuss the ways that words and images used by scientists and popularizers alike, from the murals on the walls of natural history museums to such ubiquitous terms as "adaptation" and "environment," reflect serious and often unacknowledged distortions in the way we conceive of both individual organisms and the natural history of the world. These essays demonstrate that science is, in the words of Oliver Sacks, "a human enterprise through and through, an organic, evolving, human growth, with sudden spurts and arrests, and strange deviations, too. It grows out of its past, but never outgrows it, any more than we outgrow our childhood."

The Bucolics and Eclogues Virgil 2019-11-21 This is an English translation of Virgil's poems of the same name. The first, Eclogue I, is written as a dialogue between two characters, Melibous and Tityrus. Next comes Eclogue II Where Amaryllis bemoans his fate. The poems are in the countryside and are interesting for the description of it, the mention of the use of sheep's milk, the use of herbs and the plants that grow there.

The Era of the Witness Annette Wieviorka 2006 What is the role of the survivor testimony in Holocaust remembrance? In this book, a concise, rigorously argued, and provocative work of cultural and intellectual history, the author seeks to answer this surpassingly complex question.

Carmina Gaius Valerius Catullus 2014 Catullus is a companion of lovers and of those whom love has disappointed. He is also a satirical and epigrammatic writer who savagely consoles with laughter. Carmina captures in English both the mordant, scathing wit and also the concise tenderness, the famous love for reluctant Lesbia who is made present in these new versions. A range of English metres and rhymes evokes the many modes and moods of this most engaging, erotic and influential of Latin poets. Of Len Krisak's translations of Horace, Frederic Raphael writes, "[He] enables us both to enjoy a fresh voice and to hear (and see), very distinctly, what lies behind and within his unintimidated rescripts'. Again in Carmina Krisak works his precise magic.

Fiori dal cemento Cristina Zagaria 2013-03-01 "Fiori dal cemento" nasce da un'idea della Rete Fille@donna CGIL nazionale e regionale Campania al fine di dar voce, per la prima volta, al lavoro delle donne del settore delle costruzioni attraverso uno sguardo nuovo ed inedito rispetto alle consuete trattazioni sindacali di genere. Affidato alla narrazione di quattro scrittrici particolarmente sensibili al tema della difesa dei diritti delle donne, il libro raccoglie le storie, i percorsi di vita e di lavoro di una impiegata dell'edilizia, una restauratrice e due operaie del legno e attraverso loro si pone quale testimone di una realtà non circoscritta alle singole esperienze, ma più ampia. Una realtà che aspira a farsi conoscere e ad essere compresa anche da chi a quest'ambito è estraneo e senza che alcuna distinzione tra uomo e donna possa fungere da limite nella condivisione ed immedesimazione di quanto raccontato. I bisogni delle lavoratrici, i rapporti con il sindacato, le difficoltà riscontrate nello sviluppo professionale, gli affetti, le relazioni con gli altri sono al centro delle testimonianze raccolte, scritte in prima persona, e direttamente rivolte al lettore, quasi confessate, così da non poterne restare indifferenti. La prefazione, l'introduzione e la postfazione sono rispettivamente affidate al Segretario generale FILLEA CGIL, Walter Schiavella, al Segretario generale FILLEA CGIL Campania, Giovanni Sannino, al Segretario generale CGIL, Susanna Camusso.

A Sand County Almanac Aldo Leopold 2020-08-12 Few books have had a greater impact than A Sand County Almanac, which many credit with launching a revolution in land management. Written as a series of sketches based principally upon the flora and fauna in a rural part of Wisconsin, the book, originally published by Oxford in 1949, gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; a final section addresses the philosophical issues involved in wildlife conservation. Beloved for its description and evocation of the natural world, Leopold's book, which has sold well over 2 million copies, remains a foundational text in environmental science and a national treasure.

Letter to the Amazon Marina Tsvetaeva 2016 Literary Nonfiction. Translated from the Russian by A'Dora Phillips & Gaelle Cogan. Introduction by Catherine Ciepiela. Like many of Marina Tsvetaeva's essays and poems, LETTER TO THE AMAZON is addressed to another writer, in this case Natalie Clifford Barney, a wealthy American expatriate in Paris. Though written in 1932, Tsvetaeva's letter was in response to what Barney said about lesbian relationships and motherhood in her 1920 *Pensees d'une Amazone* (Thoughts of an Amazon). Tsvetaeva uses her essay to emphasize what is to her mind a general truth of lesbian relationships (i.e. they cannot endure because of a woman's innate desire for a child) and to explore her seemingly agonized feelings about Sophia Parnok, the Russian poet with whom she fell in love in 1914, when Tsvetaeva was twenty-two and Parnok twenty-nine."

A Beautiful Question Frank Wilczek 2016-07-12 Does the universe embody beautiful ideas? Artists as well as scientists throughout human history have pondered this "beautiful question." With Nobel laureate Frank Wilczek as your guide, embark on a voyage of related discoveries, from Plato and Pythagoras up to the present. Wilczek's groundbreaking work in quantum physics was inspired by his intuition to look for a deeper order of beauty in nature. This is the deep logic of the universe—and it is no accident that it is also at the heart of what we find aesthetically pleasing and inspiring. Wilczek is hardly alone among great scientists in charting his course using beauty as his compass. As he reveals in *A Beautiful Question*, this has been the heart of scientific pursuit from Pythagoras and the ancient belief in the music of the spheres to Galileo, Newton, Maxwell, Einstein, and into the deep waters of twentieth-century physics. Wilczek brings us right to the edge of knowledge today, where the core insights of even the craziest quantum ideas apply principles we all understand. The equations for atoms and light are almost the same ones that govern musical instruments and sound; the subatomic particles that are responsible for most of our mass are determined by simple geometric symmetries. Gorgeously illustrated, *A Beautiful Question* is a mind-shifting book that braids the age-old quest for beauty and the age-old quest for truth into a thrilling synthesis. It is a dazzling and important work from one of our best thinkers, whose humor and infectious sense of wonder animate every page. Yes: The world is a work of art, and its deepest truths are ones we already feel, as if they were somehow written in our souls.

The Wild Swans at Coole William Butler Yeats 1919 *The Wild Swans at Coole* by William Butler Yeats, first published in 1919, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. The Wall of the Earth Giorgio Caproni 1992 "The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world

deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised" -- from the Introduction by Pasquale Verdicchio

The Swallows of Monte Cassino Frederika Randall 2013-10-14 The Strega Prize-winning author of *The Girl with a Leica* delivers a novel that hinges on one of the bloodiest World War II battles and those who fought it. In this highly original novel, Janeczek retells the four-month-long Battle of Monte Cassino from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present." —Roberto Saviano, author of *Gomorra*

Kwaidan Lafcadio Hearn 2021-05-07 *Kwaidan: Stories and Studies of Strange Things* features several Japanese ghost stories and a brief non-fiction study on insects. Most of these stories were translated from old Japanese texts. The author also states that one of the stories - Yuki-onna - was told to him by a farmer in Musashi Province, and his was apparently the first record of it. Riki-Baka is based on a personal experience of the author. Table of Contents: The Story of Mimi-nashi Hōichi Oshidori The Story of O-Tei Ubazakura Diplomacy Of a Mirror and a Bell Jikininki Mujina Rokurokubi A Dead Secret Yuki-Onna The Story of Aoyagi Jiu-Roku-Zakura The Dream of Akinosuke Riki-Baka Hi-Mawari Hōrai In the last half of the book, Hearn lists collected Chinese/Japanese superstitions and his own personal thoughts on various members of the insect world. Butterflies: Personification of the human soul. Mosquitoes: Karmic reincarnation of jealous or greedy people in the form of Jiki-ketsu-gaki or "blood-drinking pretas". Ants: Mankind's superior in terms of chastity, ethics, social structure, longevity and evolution.

M: Son of the Century Antonio Scurati 2022-04-05 The massive international bestseller—an epic historical novel that chronicles the birth and rise of fascism in Italy, witnessed through the eyes of its founder, the terrifyingly charismatic figure who would become one of the most notorious dictators of the twentieth century, Benito Mussolini. It is 1919, and the Great War that has ravaged Europe is over. In Italy, the people are exhausted. Tired of the political class. Tired of vague promises, inept moderates, and the agonizing machinations of a democracy that has failed ordinary citizens. While elite leaders have sat idly by, achieving nothing, one outsider—the director of a small opposition newspaper and a tireless political agitator—is electrifying the masses, promising hope for a demoralized nation hungry for change. A former socialist leader ousted by his own party, he is a drifter who knows what it is to feel lost. His voice speaks for the misfits and the outcasts; he is a protector of those who are forgotten. He is Benito Mussolini. And soon Italy—and the world—will be forever remade. In *M: Son of the Century*, Antonio Scurati tells the story of fascism from within the mind of its founder, the man known to his followers as *Il Duce*. Steeped in historical detail and interspersed with period documents and sources, this masterful saga explores the seductive power of nationalism and idolatry, revealing how authoritarianism took hold and a nation bent to the will of one ruthless strongman. Provocative and resonant, *M* is a chilling reminder that the past is never gone, and that it holds urgent lessons for us today.
