Bread of Dreams Piero Camporesi 2023-07-17 Piero Camporesi is one of the most original and exciting cultural historians in Europe today. In this remarkable book he examines the imaginative world of poor and ordinary people in pre-industrial Europe, exploring their everyday preoccupations, fears and fantasies. Camporesi develops the startling claim that many people in early modern Europe lived in a state of almost permanent hallucination, drugged by their hunger or by bread adulterated with hallucinogenic herbs. The use of opiate products, administered even to children and infants, was widespread and was linked to a popular mythology in which herbalists and exorcists were important cultural figures. Through a careful reconstruction of the everyday imaginative life of peasants, beggars and the poor, Camporesi presents a vivid and disconcerting image of early modern Europe as a vast laboratory of dreams. *Bread of Dreams* is a rich and engaging book which provides a fresh insight into the everyday life and attitudes of people in pre-industrial Europe. Camporesi's vision is breathtaking and his work will be much discussed among social and cultural historians. This edition includes a Preface by Roy Porter, Professor of the History of Medicine at the Wellcome Institute for the History of Medicine.

Passive and Voice Masayoshi Shibatani 1988-01-01 This volume brings together 18 original papers dealing with voice-related phenomena. The languages dealt with represent both typological

and geographic diversity, ranging from accusative-type languages to ergative-type and Philippine-type languages, and from Australia to Africa and Siberia. The studies presented here open up many possibilities for theorizing and offer data inviting formal treatments, but the most important contribution they make is in terms of the insights they offer for a better understanding of the fundamentals of voice phenomena.

Shopping in the Renaissance Evelyn S. Welch 2005-01-01 Shopping was as important in the Renaissance as it is in the 21st century. This book breaks new ground in the area of Renaissance material culture, focussing on the marketplace in its various aspects, ranging from middle-class to courtly consumption and from the provision of foodstuffs to the acquisition of antiquities and holy relics. It asks how men and women of different social

classes went out into the streets, squares and shops to buy the goods they needed and wanted on a daily or on a once-in-a-lifetime basis during the Renaissance period. Drawing on a detailed mixture of archival, literary and visual sources, she exposes the fears, anxieties and social possibilities of the Renaissance marketplace. Thereafter, Welch looks at the impact these attitudes had on the developing urban spaces of Renaissance cities, before turning to more transient forms of sales such as fairs, auctions and lotteries. In the third section, she examines the consumers themselves, asking how the mental, verbal and visual images of the market shaped the business of buying and selling. Finally, the book explores two seemingly very different types of commodities - antiquities and indulgences, both of which posed dramatic challenges to contemporary notions of market value and to the concept of commodification itself.

Venetian courtesan has long captured the imagination as a female symbol of sexual license, elegance, beauty, and unruliness. What then to make of the cortigiana onesta—the honest courtesan who recast virtue as intellectual integrity and offered wit and refinement in return for patronage and a place in public life? Veronica Franco (1546-1591) was such a woman, a writer and citizen of Venice, whose published poems and familiar letters offer rich testimony to the complexity of the honest courtesan's position. Margaret F. Rosenthal draws a compelling portrait of Veronica Franco in her cultural social, and economic world. Rosenthal reveals in Franco's writing a passionate support of defenseless women, strong convictions about inequality, and, in the eroticized language of her epistolary verses, the seductive political nature of all poetic contests. It is Veronica Franco's insight into the power conflicts between men and women—and her awareness of the threat she posed to her male contemporaries—that makes her literary works and her dealings with Venetian intellectuals so pertinent today. Combining the resources of biography, history, literary theory, and cultural criticism, this sophisticated interdisciplinary work presents an eloquent and often moving account of one woman's life as an act of self-creation and as a complex response to social forces and cultural conditions. "A book . . . pleasurably redolent of Venice in the 16th-century. Rosenthal gives a vivid sense of a world of salons and coteries, of intricate networks of family and patronage, and of literary exchanges both intellectual and erotic."—Helen Hackett, Times Higher Education Supplement

The Honest Courtesan is the basis for the film *Dangerous Beauty* (1998) directed by Marshall Herskovitz. (The film was re-titled *The Honest Courtesan* for release in the UK and Europe in 1999.)

The Harbour of all this Sea and Realm Michael J.K. Walsh
2014-06-10 The Harbour of All This Sea and Realm offers an overview of the Lusignan, Genoese and Venetian history of the main port city of Cyprus, a Mediterranean crossroads. The essays contribute to the understanding of Famagusta's social and administrative structure, as well as the influences on its architectural, artisan, and art historical heritage from the thirteenth to sixteenth centuries. We read of crusader bishops from central France, metalworkers from Asia Minor, mercenaries from Genoa, refugees from Acre, and traders from Venice. The themes of the city's diasporas and cultural hybridity permeate and unify the essays in this collaborative effort. Some of the studies use archival sources to reconstruct the early stages of appearances of various buildings. Such research is of vital importance, given the threat to Famagusta's medieval and early modern heritage by its use as a military base since 1974.

Centenarians—A Model to Study the Molecular Basis of Lifespan and Healthspan Annibale Puca 2021-06-15

People around the world are living longer. For the first time in history, most humans will live to be sixty and beyond. By 2050, the world's population aged 60 and over will reach a total of 2 billion, up from 900 million in 2015. Today, 125 million people are 80 years of age or older. By 2050, there will be 434 million people in this age group worldwide. In addition, the pace of aging of the world population is also increasing. However, there is not enough evidence to show that older people have better health than their parents. While rates of severe disability have declined over the past 30 years (but only in high-income countries), there have been no significant changes in mild to moderate disability over the same period of time. Indeed, the increase in the duration of life (lifespan) does not coincide with the increase in the duration of health (healthspan), that is, the period of life free from serious chronic diseases and disabilities. Therefore, the identification of the factors that predispose to a long and healthy life, as discussed in the papers of this book, is of enormous interest for translational medicine.

relationship to Christian demons? In its interpretation of Latin and Greek culture, Christianity contends that Satan is behind all classical deities, semi-gods, and spiritual creatures, including the gods of the household, the lares and penates. But with *In the Company of Demons*, the world's leading demonologist Armando Maggi argues that the great thinkers of the Italian Renaissance had a more nuanced and perhaps less sinister interpretation of these creatures or spiritual bodies. Maggi leads us straight to the heart of what Italian Renaissance culture thought familiar spirits were. Through close readings of Giovan Francesco Pico della Mirandola, Strozzi Cigogna, Pompeo della Barba, Ludovico Sinistrari, and others, we find that these spirits or demons speak through their sudden and striking appearances—their very bodies seen as metaphors to be interpreted. The form of the body, Maggi explains, relies on the spirits' knowledge of their human interlocutors' pasts. But their core trait is compassion, and sometimes their odd, eerie arrivals are seen as harbingers or warnings to protect us. It comes as no surprise then that when spiritual beings distort the natural world to communicate, it is vital that we begin to listen.

The "Other Tuscany" Thomas W. Blomquist 1994 Studies of late medieval Tuscany have traditionally relied on historiographical premises derived from the experience of its intensely investigated capital city. Specifically, normative and quantitative data from Florentine sources have been employed to chart demographic, social, and economic trends during the communal age and across the period of the Black Death and its aftermath. The results have invited instructive comparisons with other regions of Italy, as well as other parts of Europe. At the same time, however, the focus on Florence in its role as a metropolitan center belies the conceptual problems inherent in the modern definition of region, applicable

only with hindsight to medieval juridical and topographical boundaries. The essays in this volume offer non-Italian scholars a representative sample of current European research and a summary of recent debates regarding the historical evolution of those republics that posed the most formidable obstacles to the extension of Florentine hegemony. While they cover a range of topics, they all provide evidence of the important resources available to scholars working in provincial Tuscan archives and the volume offers an excellent sampling of the state of scholarship on these Italian communities.
