Bill Viola / Michelangelo Martin Clayton 2019 At first glance, there may appear to be more to separate Michelangelo (1475-1564) and Bill Viola (b. 1951) than to unite them: one, the great master of the Italian Renaissance; the other, the creator of state-of-the-art immersive sound and video installations. And yet, when Martin Clayton showed Viola Her Majesty The Queen's unsurpassed collection of Michelangelo drawings at Windsor in 2006, the two men began to discover parallels. This book presents a new perspective on both artists' works. Stills and sequences from twelve key video pieces by Viola are reproduced alongside seventeen of Michelangelo's presentation drawings, as well as the Taddei Tondo, the only Michelangelo marble sculpture in the UK and a treasure of the Royal Academy's collection. Texts by Martin Clayton examine how existential concerns - the preoccupation of many Renaissance artists, not least Michelangelo - are explored in Viola's often profoundly moving video installations, while Kira Perov provides insight into Viola's working processes. AUTHORS: Martin Clayton is Head of Prints and Drawings at Royal Collection Trust. Kira Perov is Bill Viola's partner and executive director of Bill Viola Studio. She manages, creatively guides and assists with the production of all his videotapes and installations, and curates exhibitions of his works worldwide. SELLING POINTS: * A selection of key works by the American video artist Bill Viola are presented alongside Michelangelo's drawings - revealing surprising parallels * Accompanies an exhibition presenting both artists' works at the Royal Academy of Arts, London, from 26 January to 31 March 2019 140 colour images

Frailty in the Elderly Sara Palermo 2021-03-31 The progressive growth in the number of older adults worldwide has led to a modification of the current healthcare scenario and a parallel increase in the use of public resources. In this book, we propose a conceptual framework within which aging, frailty, and care are analyzed through the lens of complexity medicine. Therefore, we present a multidimensional perspective that takes into account biomedical, (neuro)psychological, and socio-ecological vulnerability. The theses presented are the result of an inductive approach, based on many years of experience in the field, which has made it possible to identify strategies for frailty recognition and effective responses even in complicated clinical settings. The book is intended to be a tool of concrete and easy consultation, rich in reflections and suggestions.

The Conservatory of Santa Teresa Bilenchi, Romano 2015-10-22 This volume is the first translation of Romano Bilenchi's 1940 masterpiece to appear in English. This is surprising since The Conservatory of Santa Teresa is much more than an invaluable historical document of life in provincial Tuscany around the time of the First World War. It is truly one of the most important works of fiction published in Italy under Fascism. In telling of the pre-adolescent Sergio's encounter with the larger world of sex, politics, and the violence and cruelty of adult life, Bilenchi succeeds in representing a universal paradigm, that of the clash of innocence with experience. But what makes Sergio's trajectory unique is that he goes through it in the company of three extraordinary women who are at once femmes fatales and benevolent guides: his mother, his aunt, and his tutor, all almost unbearably beautiful, as least in Sergio's eyes. These women, plus the dazzling landscape of the Sienese countryside as captured by Bilenchi, make

Sergio's journey an enviable even if sometimes painful and bewildering experience.

Terminal Events Alfredo De Palchi 2020-11-16 Poetry. Translated by John Taylor. Edited by Karl Kvitko. Cover art by Luce de Palchi. The great Italian poet Alfredo de Palchi died in August of this year at age 93 after a long, defiant and mocking poetical battle with Lady Leukemia. TERMINAL EVENTS ends a life in poetry well planned: it presents an imagined discourse with poet Eugenio Montale, a fanciful and self-deprecatory autobiography, and a liberation of the planet Earth from the cruelty of man, with de Palchi's undying rage against violence, his glorification of Mother Nature and his love of freedom much in evidence. Amazing Alfredo de Palchi! Ever since the turn of the century, which also coincides with his increasing and serious health problems, the hard-working and very determined Italian poet continues to aim his frank and fierce poetry at endings, not to mention apocalypses. Although this theme is also present in his early work, it nonetheless now stands in greater contrast to another key theme that runs through his previous writing: the search for and examination of the origin, the first principle, or the first cause... the whole scope of a lifetime for this poet whose passion for living, writing poetry, and publishing work by other poets has deeply impressed all of us who have had the chance of working with him and knowing him well.--John Taylor

Yogoda Paramahansa Yogananda 2018-10-03 "Through the power of Will the brain receives an increased supply of Life Energy from Cosmic Energy residing in and surrounding the body, through certain parts -- pineal gland, medulla oblongata, etc. Sleep recharges the body battery automatically and partially. We Are Family Fabio Bartolomei 2019-01-08 "Zanily inventive . . . This deeply eccentric comedy belongs in the company of the best novels about wildly precocious kids" (The Seattle Times). Al Santamaria is a child prodigy, maybe a genius. It is not out of the realm of possibility that he, alone, will save the human race. But first, he has to solve a far more urgent problem: finding a home for his family. He exists, like many kids, in a realm located somewhere between reality and fantasy, enjoying time with imaginary friends and wielding his magical powers. He has a wonderful relationship with his father, Mario Elvis, and his mother, Agnese, and he's convinced he has the best family in the world. But life isn't all roses for the Santamaria family. They are typical of many Italian families today, whose existences seem suspended between conflicting impulses: on the one hand, delusions of grandeur and immoderate ambition, and on the other nostalgia for a past golden age and the secret wish that somebody, anybody, will come to their rescue. Big dreams, it appears, exist to be crushed. But Al is not about to give up. He lives in a marvelous world of his own. He has the energy, imagination, and unselfconscious talents of a child. And, although he doesn't know it yet, he is going to remain a child his entire life. "An extended, guffaw-inducing, and sometimes tragic trip through Al's young life. It reads like an Italian sitcom." —Foreword Reviews "An amazing novel: it'll move you and make you laugh." —Elle "A plot shot through with the richness of Italian comedy and bright irony." —La Repubblica

Human-Aware Robotics: Modeling Human Motor Skills for the Design, Planning and Control of a New Generation of Robotic Devices

Giuseppe Averta 2022-01-25 This book moves from a thorough investigation of human capabilities during movements and interactions with objects and environment and translates those principles into the design planning and control of innovative mechatronic systems, providing significant advancements in the fields of human-robot interaction, autonomous robots, prosthetics and assistive devices. The work presented in this monograph is characterized by a significant paradigmatic shift with respect to typical approaches, as it always places the human at the center of the technology developed, and the human represents the starting point and the actual beneficiary of the developed solutions. The content of this book is targeted to robotics and neuroscience enthusiasts, researchers and makers, students and simple lovers of the matter.

Three Stills in the Frame Giorgio Linguaglossa 2015 Poetry. Translated from the Italian by Steven Grieco. Bilingual Edition. Preface by Andrej Silkin. The title poem of the Chelsea edition, *Tre fotogrammi dentro la cornice / Three Stills in a Frame*, was composed over a period of twenty years, from 1992- 2013. The seven-page poetic narrative begins in the 1930s with the rise of Mussolini, before the poet's birth, and jumps to a photo of the poet's mother in the 1950s; the description of her room and the snowy world outside her window expands to encompass the decade, then other photos open up frames in his mind, mixing events, historic figures and his life in the twentieth century, leading to his mock Hamletish funeral in the new century. Hamlet inspires much of the poetry in Linguaglossa's first collection of 1988, *Atirev (L'Anagramma della Verita) / Atirev (The Anagram of Verita)*. The second collection from 1989, *Blumenbilder (Natura morta con fiori)*, has much to do with faces, portraits, classic art. The third, *Uccelli / Birds*, published in 1992, not only speaks of birds, but also of the wings of angels and the dust of kings of the past. The fourth, *Paradiso / Paradise* (2000) introduces the conversations of dark angels brooding over nihilistic doctrines of ancient Greek philosophers. These obscure Greek philosophers debate haughtily in the fifth volume: *La Belligeranza del Tramonto / The Belligerence of Sunset* (2006); while in the next, *Girone dei Morti Assiderati / The Circle of the Frozen Dead* (2013), gondoliers sing as they transport souls and shadows of living dead on the Styx. The last volume, *Riposta al Signor Cogito di Zbigniew Herbert / Reply to Zbigniew Herbert's Mister Cogito* (2014), places the morally certain Mr. Cogito in an ambiguous surrealist setting with different times, historical figures and secret police searching for a little black notebook with all the answers. "The poet writes in an age when all the great poetic effects, lyric emotions and inspiring messages have already been expressed, and therefore Linguaglossa employs a plain-talk approach, shunning metaphors, pathos and grand conclusions, yet often rises to a high style with mythic breadth, uncommon imagery and weighty concepts. He does not try to save the failed and decadent world deprived of meaning, but rather opts for a poetry that turns the present into a launchpad to the future: a Dantesque poetry, constructed out of fragments of images and metaphors, absolutely felicitous in terms of expression. To heal the fragmented, this is Linguaglossa's intention. The overall meaning, the final summa, is not stated, but

peeks out from the detail: 'the reader is expected to seek it out for himself and recognize it for what it is.'" Andrej Silkin, from the Preface"

Gianni Berengo Gardin Denis Curti 2013 The visionary and creative shots of day-to-day reality by a child of our time. Considered by many the most representative of Italian photographers, for almost fifty years Gianni Berengo Gardin has been a narrator attentive to everyday life in all its multiple aspects and in its evolution, having immortalized the story of Italy in over 1,250,000 pictures. For his work, he prefers black and white because "color distracts the photographer and the viewer." And the images are what counts. People, objects, close-ups, historical monuments. Images that are concrete, never abstract, but above all real images. It's hard not to perceive the creative and visionary component of his snapshots, however much they are attentive to the day-to-day reality of humanity and its communities.

The Bench of Desolation (1909) Henry James 2016-04-01 This early work by Henry James was originally published in 1909 and we are now republishing it with a brand new introductory biography. Henry James was born in New York City in 1843. One of thirteen children, James had an unorthodox early education, switching between schools, private tutors and private reading.. James published his first story, 'A Tragedy of Error', in the Continental Monthly in 1864, when he was twenty years old. In 1876, he emigrated to London, where he remained for the vast majority of the rest of his life, becoming a British citizen in 1915. From this point on, he was a hugely prolific author, eventually producing twenty novels and more than a hundred short stories and novellas, as well as literary criticism, plays and travelogues. Amongst James's most famous works are *The Europeans* (1878), *Daisy Miller* (1878), *Washington Square* (1880), *The Bostonians* (1886), and one of the most famous ghost stories of all time, *The Turn of the Screw* (1898). We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Reconstruction of Space and Time Rich Ling 2017-07-28 One of the most significant and obvious examples of how mobile communication influences our understanding of time and space is how we coordinate with one another. Mobile communication enables us to call specific individuals, not general places. Regardless of location, we are able to make contact with almost anyone, almost anywhere. This advancement has changed, and continues to change, human interaction. Now, instead of agreeing on a particular time well beforehand, we can iteratively work out the most convenient time and place to meet at the last possible moment--on the way to the meeting or once we arrive at the destination. In their early days, mobile devices were primarily used for various types of emergency situations and for work. In some cases, the device was an essential element in various business operations or used so that overseas workers could communicate with their families. The distance between a remote posting and the people back home was suddenly and dramatically reduced. People began to share these devices not necessarily out of economic issues, but also questions of family and interpersonal dynamics. The process of sharing decisions as to who is a legitimate partner makes the nature of relationships more explicit. By examining the economy of sharing, we not only see how sharing mobile phones restructures social space, but are also given insight into an individual's web of interactions. This cutting-edge book deals with modern ways of thinking about communication and human interaction; it will illuminate the ways in which mobile communication alters our experience with space and time.

Aesthetic Theory Theodor W. Adorno Adorno 2020-06-09 Perhaps the most important aesthetics of the twentieth century appears here newly translated, in English that is for the first time faithful to the intricately demanding language of the original German. The culmination of a lifetime of aesthetic investigation, *Aesthetic Theory* is Adorno's major work, a defense of modernism that is paradoxical in its defense of illusion. In it, Adorno takes up the problem of art in a day when "it goes without saying that nothing concerning art goes without saying." In the course of his discussion, Adorno revisits such concepts as the sublime, the ugly, and the beautiful, demonstrating that concepts such as these are reservoirs of human experience. These experiences ultimately underlie aesthetics, for in Adorno's formulation "art is the sedimented history of human misery." Robert

Hullot-Kentor's translation painstakingly, yet fluently, reproduces the nuances and particularities of the original. Long awaited and significant, Aesthetic Theory is the clarifying lens through which the whole of Adorno's work is best viewed, providing a framework within which his other major writings cohere.

Days Eva Figs 1983 The woman cannot move. From her bed she watches the minutiae of the sparsely furnished hospital room, through the monotonous repetition of days, apparently in total acceptance of her condition. She listens, thinks, remembers. Eva Figs exposes a relentless cycle of human failure, unfulfilled longings and inescapable responsibility. Through this individual tragedy, seen from a new and disturbing angle, Eva Figs probes the deepest trauma of a woman's psyche.

Working-Class Network Society Jack Linchuan Qiu 2009-01-30 An examination of how the availability of low-end information and communication technology has provided a basis for the emergence of a working-class network society in China. The idea of the "digital divide," the great social division between information haves and have-nots, has dominated policy debates and scholarly analysis since the 1990s. In *Working-Class Network Society*, Jack Linchuan Qiu describes a more complex social and technological reality in a newly mobile, urbanizing China. Qiu argues that as inexpensive Internet and mobile phone services become available and are closely integrated with the everyday work and life of low-income communities, they provide a critical seedbed for the emergence of a new working class of "network labor" crucial to China's economic boom. Between the haves and have-nots, writes Qiu, are the information "have-less": migrants, laid-off workers, micro-entrepreneurs, retirees, youth, and others, increasingly connected by cybercafés, prepaid service, and used mobile phones. A process of class formation has begun that has important implications for working-class network society in China and beyond. Qiu brings class back into the scholarly discussion, not as a secondary factor but as an essential dimension in our understanding of communication technology as it is shaped in the vast, industrializing society of China. Basing his analysis on his more than five years of empirical research conducted in twenty cities, Qiu examines technology and class, networked connectivity and public policy, in the context of massive urban reforms that affect the new working class disproportionately. The transformation of Chinese society, writes Qiu, is emblematic of the new technosocial reality emerging in much of the Global South.

Rogue Economics Loretta Napoleoni 2011-01-04 What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

Ferocity Nicola Lagioia 2017-10-10 This Strega Prize winner "ticks all the boxes of a thriller while also being a masterfully written, baroque, many-

faceted depiction of modern Italy” (The Spectator). Bari, southern Italy: On a stifling summer night, on the outskirts of town, a young woman named Clara, daughter of the region’s most prominent family of real estate developers, stumbles naked, dazed, and bloodied down a major highway. Her death will be deemed a suicide. Her estranged half-brother, however, cannot free himself from her memory or the questions surrounding her death, and the more he learns about Clara’s life, the more he reveals the moral decay at the core of his family’s ascent to social prominence. Winner of the 2015 Strega Prize, Italy’s preeminent prize for fiction, *Ferocity* is at once an intimate family saga, a cinematic portrait of the moral and political corruption of an entire society, and a “gripping” tale of suspense (The Irish Times). “Biting social commentary as well as edge-of-seat reading.”

—Library Journal (starred review) “Allows the mystery to slowly and captivately resolve while offering a layered portrait of contemporary Italian life and the abuses of power that money can excuse.” —Publishers Weekly “Complex, darkly absorbing and mysterious literary fiction.” —Booklist

Hotel Insomnia Charles Simic 1992-11-11 “Poems . . . like folk tales told by a child with an impishly surrealistic streak” from the Pulitzer Prize-winning author of *The World Doesn’t End* (Library Journal). In this volume, “Simic writes so simply that his words fall like drops of water, but they ripple outward to evoke an ominous and numinous world” (The Washington Post Book World). He fills the wee hours of his poetry with angels and pigs, riddles and cemeteries. With empty offices and dolls that smile. With the sound of bare feet upstairs and a single kiss before the shadows

converge. His is a rich, haunted world of East European memory and American present—a world of his own creation, one always full of luminous surprise. “The poems . . . come from a vision of the world that, once experienced, prevents us from ever dozing again, that prevents us, for that matter, from feeling confidently awake.” —Los Angeles Times “One of the most original poets writing today, Simic has a gift for startling juxtapositions . . . Homely images, in Simic’s hands, take on an eerie combination of the marvelous and the absurd . . . There are few poets writing today whose sense of wonder is so palpable.” —Library Journal Praise for Charles Simic “Few contemporary poets have been as influential—or as inimitable—as Charles Simic.” —The New York Times Book Review “He has infused American poetry with the freshest and most original style and imagery since e.e. cummings.” —St. Louis Post-Dispatch “His poems are crowded with uncanny presence, which he challenges with flirtatious directness.” —The New Yorker

Wilson 2020-08-25 “In Mr. Wilson ants have found not only their Darwin but also their Homer.” —Economist In *Tales from the Ant World*, two-time Pulitzer Prize winner Edward O. Wilson takes us on a thrilling myrmecological tour across continents and through time, inviting us into his decades-long scientific obsession with ants. Animating his observations with personal stories, Wilson hones in on twenty-five ant species to explain how these creatures talk, smell, taste, and crucially, how they fight to determine dominance. Richly illustrated throughout with depictions of ant species and photos from Wilson’s own expeditions, *Tales from the Ant World* is a fascinating personal account from one of our greatest scientists—and a necessary volume for any lover of the natural world.

Anonymous Constellation Alfredo De Palchi 1997 Here de Palchi defies the idea of evolutionary progress, asserting that violence levels all creatures and brings them back to their primeval state. The cycle of poems presents a view of history turned upside down: history does not instruct, does not help, but only repeats the great struggle, pitting human beings against other humans beings, human beings against animals, animals against other animals. --Xenos Books. De Palchi is both tough and imaginative. He is absolutely uncompromising, and his poems are painful and exalting to read. One does not come away from his stark and terrible and hilarious work untouched. --James Dickey.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future

war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
