Asylums. Essays on the Social Situation of Mental Patients and Other Inmates Erving Goffman 1971

Asylums Erving Goffman 2017-09-08 A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Transforming Violent Conflict Oliver Ramsbotham 2010-01-25 This book investigates intractable conflicts and their main verbal manifestation - radical disagreement - and explores what can be done when conflict resolution fails. The book identifies agonistic dialogue - dialogue between enemies - as the key to linguistic intractability. It suggests how agonistic dialogue can best be studied, explored, understood and managed even in the most severe political conflicts when negotiation, mediation, problem solving, dialogue for mutual understanding, and discourse ethics are unsuccessful. This approach of viewing radical disagreement as the central topic of analysis and conflict management is a new innovation in this field, and also supplements and enhances existing communicative transformational techniques. It also has wider implications for cognate fields, such as applied ethics, democratic theory, cultural studies and the philosophy of difference. This book will be of great interest to students of conflict resolution, peace and conflict studies, ethnic conflict and International Relations in general. Oliver Ramsbotham is Emeritus Professor of Conflict Resolution at the University of Bradford, UK, Chair of the Oxford Research Group, President of the Conflict Research Society and co-author of *Conflict Resolution in Contemporary Conflict*.

Psychonarratology Marisa Bortolussi 2003-01-13 Psychonarratology is an approach to the empirical study of literary response and the processing of narrative. It draws on the empirical methodology of cognitive psychology and discourse processing as well as the theoretical insights and conceptual analysis of literary studies, particularly narratology. The present work provides a conceptual and empirical basis for this interdisciplinary approach that is accessible to researchers from either disciplinary background. An integrative review is presented of the classic problems in narratology: the status of the narrator, events and plot, characters and characterization, speech and thought, and focalization. For each area, Bortolussi and Dixon critique the state of the art in narratology and literary studies, discuss relevant work in cognitive psychology, and provide a new analytical framework based on the insight that readers treat the narrator as a conversational participant. Empirical evidence is presented on each problem, much of it previously unpublished.

A Mindful Divorce Armando Cecatiello 2018-10-03 The end of a relationship is always a difficult moment that inevitably brings suffering to the former partners, children and all the people close to the couple in crisis. If we add resentment, desire for revenge and anger, the mix can become

explosive and make life impossible for everyone. If we view crisis and divorce as a possibility to begin a new life, we can solve the problems in a different and constructive manner, and often even make life better. This book is meant for married or unmarried couples involved in a family crisis and who seek a successful method to find shared and lasting solutions to their problems, considering the interests of all parties involved. It is also geared for professionals wanting a full picture of the Collaborative Process: lawyers, psychologists, social workers and all those who deal with conflict in general and family crisis in particular. They will find in Collaborative Process an innovative, non-judicial method to solve a conflict. There is no battle to win: true victory is finding shared solutions together that benefit all, children included. Armando Cecatiello, Divorce Lawyer, Mediator and Writer, has handled divorce cases both in the courtroom and outside of the judicial system for over 20 years. Specialized in Collaborative Process as well as a trainer in this innovative method, he has vast experience in all matters of family law where he employs a conscious and sustainable approach.

Edizioni Critiche Digitali Digital Critical Editions Paola Italia 2016-12-01 Sono sempre più numerosi i progetti di Edizioni Critiche Digitali che permettono di studiare, per mezzo di sistemi open source, il processo di genesi ed evoluzione delle opere attraverso la rappresentazione e interpretazione delle varianti d'autore. Il Seminario Internazionale ECD/DCE Edizioni a confronto/Comparing editions - organizzato nell'ambito del Progetto multidisciplinare THESMA (Sapienza Ricerca 2014) - ha riunito i maggiori esperti in Italia e in Europa di DH per presentare alla comunità scientifica internazionale i principali modelli di edizioni critiche digitali realizzati sulle opere di grandi autori italiani ed europei, da Leopardi a Gadda, da Jane Austen a Proust, da Nietzsche a Pessoa. There is an increasing number of Digital Critical Editions which clarify, by means of open source systems, the genetic process and the evolution of literary works. This has been achieved by representing and interpreting the author's variants. The International Conference ECD/DCE Edizioni a confronto/Comparing Editions - organised within multidisciplinary THESMA PROJECT (Sapienza Research 2014) - has shown to the scientific community the main models of digital critical editions, produced at national and international levels, on the works by important Italian and European writers, from Leopardi to Gadda, Jane Austen to Proust, Nietzsche to Pessoa.

Place-and Community-Based Education in Schools Gregory A. Smith 2014-04-08 Place- and community-based education - an approach to teaching and learning that starts with the local - addresses two critical gaps in the experience of many children now growing up in the United States: contact with the natural world and contact with community. It offers a way to extend young people's attention beyond the classroom to the world as it actually is, and to engage them in the process of devising solutions to the social and environmental problems they will confront as adults. This approach can increase students' engagement with learning and enhance their academic achievement. Envisioned as a primer and guide for educators and members of the public interested in incorporating the local into schools in their own communities, this book explains the purpose and nature of place- and community-based education and provides multiple examples of its practice. The detailed descriptions of learning experiences set both within and beyond the classroom will help readers begin the process of advocating for or incorporating local content and experiences into their schools.

The School and Society John Dewey 1915 First published in 1899, "The School and Society" describes John Dewey's experiences with his own famous Laboratory School, started in 1896. Dewey's experiments at the Laboratory School reflected his original social and educational philosophy based on American experience and concepts of democracy, not on European education models then in vogue. This forerunner of the major works shows Dewey's pervasive concern with the need for a rich, dynamic, and viable society. In his introduction to this volume, Joe R. Burnett states Dewey's theme. Industrialization, urbanization, science, and technology have created a revolution the schools cannot ignore. Dewey carries this theme through eight chapters: The School and Social Progress; The School and the Life of the Child; Waste in Education; Three Years of the University Elementary School; The Psychology of Elementary Education; Froebel's Educational Principles; The Psychology of Occupations; and the Development of Attention.

Evidence-Based Practice In Education Pring, Richard 2004-03-01 "Where does hunch end and evidence begin? Too much is written and said about school improvement - about improvements in teaching and learning - with far too little attention to this question. This book provides vivid discussion from distinguished protagonists and antagonists about what gets called 'evidence-based practice'. Reading it, all involved in education - policymakers and practitioners alike - can proceed more confidently."- Professor Tim Brighouse, London Schools Commissioner The movement to evidence-based practice in education is as important as it is controversial, and this book explores the arguments of leading advocates and critics. The book begins with an explication of evidence-based practice. Some of the ideas of its proponents are discussed, including the Campbell Collaboration, and the application to education of Cochrane-style reviews and meta-analyses. The thinking behind evidence based practice has been the subject of much criticism, particularly in education, and this criticism is aired in the second part of the book. Questions have been raised about what we mean by evidence, about how particular kinds of evidence may be privileged over other kinds of evidence, about the transferability of research findings to practice, and about the consequences of a move to evidence-based practice for governance in education. Given that the origins of the interest in evidence-based practice come largely from its use in medicine, questions arise about the validity of the transposition, and contributors to the third part of the book address this transposition. The issues raised in the book, while primarily those raised by educators, are of relevance also to professionals in medicine, social work and psychology.

Digital Critical Editions Daniel Apollon 2014-07-15 Provocative yet sober, Digital Critical Editions examines how transitioning from print to a digital milieu deeply affects how scholars deal with the work of editing critical texts. On one hand, forces like changing technology and evolving reader expectations lead to the development of specific editorial products, while on the other hand, they threaten traditional forms of knowledge and methods of textual scholarship. Using the experiences of philologists, text critics, text encoders, scientific editors, and media analysts, Digital Critical Editions ranges from philology in ancient Alexandria to the vision of user-supported online critical editing, from peer-directed texts distributed to a few to community-edited products shaped by the many. The authors discuss the production and accessibility of documents, the emergence of tools used in scholarly work, new editing regimes, and how the readers' expectations evolve as they navigate digital texts. The goal: exploring questions such as, What kind of text is produced? Why is it produced in this particular way? Digital Critical Editions provides digital editors, researchers, readers, and technological actors with insights for addressing disruptions that arise from the clash of traditional and digital cultures, while also offering a practical roadmap for processing traditional texts and collections with today's state-of-the-art editing and research techniques thus addressing readers' new emerging reading habits.

The Impossible Escape Carlo Alfredo Clerici 2012 Since ancient times, a curious phenomenon has been described in many animal species: people have been able to induce state of prolonged immobility in the animal by using various methods. Over time, the phenomenon has gone by several names, from the most evocative animal hypnosis to the more scientific tonic immobility. For some years now, investigations have been examining analogies between this phenomenon and conditions occurring in humans, such as the immobility that accompanies severe trauma and sexual violence, wartime situations, catalepsy, cataplexy, catatonia and the immobility experienced in panic attacks. This book reviews the literature on these tonic immobility (TI) phenomena in animals and the comparative psychological research that has investigated how this model can contribute to our understanding of aspects of human behaviour.

Relational Social Work Fabio Folgheraiter 2004 In this innovative book Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. The text explores how the interested parties in social care can acquire a shared power in care planning and decision making and that when this networking occurs, the efficacy of caring initiatives increases.

The Supervisory Relationship Mary Gail Frawley-O'Dea 2012-02-21 In the past two decades, many psychodynamic therapists have begun to view the relational processes taking place between patient and therapist as a central source of transformation. Yet traditional paradigms of clinical supervision, focusing primarily on didactic teaching, have limitations for training therapists to work in these new ways. This groundbreaking volume is the first to elaborate a comprehensive contemporary model of supervision. Using a wealth of examples and vignettes, the authors show how working within the vicissitudes of the supervisory relationship can allow the supervisee to gain a deeper understanding of the treatment method being taught. Key topics discussed include issues of power and authority, regression in the supervisory relationship, rethinking the "teach/treat" question, parallel process as a relational phenomenon, working with group process in case conference, and the role of the organization in supporting training. This is a richly informative resource for psychologists, psychiatrists, social workers, psychoanalysts, and others involved in clinical supervision and training. It also will serve as a text for courses in supervision and organizational psychology.

ICGR 2021- Proceedings of the 4th International Conference on Gender Research Zélia Breda 2021-06-21 These proceedings represent the work of contributors to the 4th International Conference on Gender Research (ICGR 2021), hosted by University of Aveiro, Portugal on 21-22 June 2021. The Conference Co-Chairs are Professor Elisabeth T. Pereira and Professor Carlos Costa, and the Programme Chair is Professor Zélia Breda, all from University of Aveiro, Portugal. ICGR is a well-established event on the academic research calendar and now in its 4th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The conference was due to be held at The University of Aveiro, Portugal but due to the global Covid-19 pandemic it was moved online to be held as a virtual event. The scope of papers will ensure an

interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. The opening keynote presentation is given by Professor Vanessa Ratten, from La Trobe University, Victoria, Australia on the topic of Gender, Ageing and Entrepreneurial Ecosystems. The second day of the conference will open with an address by Professor Erica Wilson, Southern Cross University, NSW, Australia who will talk about Gender in the time of COVID: Imagining a more Inclusive (Tourism) World. With an initial submission of 113 abstracts, after the double blind, peer review process there are 37 Academic research papers, 2 PhD research papers, 1 Masters Research paper and 8 work-in-progress papers published in these Conference Proceedings. These papers represent research from, Austria, Belgium, Canada, Denmark, Iceland, India, Iran, Ireland, Israel, Italy, Mexico, Nigeria, North Cyprus, Poland, Portugal, South Africa, Spain, Turkey, UK, UAE, USA and Vietnam

Handbook of Quality-of-Life Research M. Joseph Sirgy 2013-04-18 This handbook provides students of quality-of-life (QOL) research with an understanding of how QOL research can be conducted from an ethical marketing perspective - a perspective based on positive social change. The handbook covers theoretical, philosophical, and measurement issues in QOL research. The handbook also approaches selected QOL studies in relation to various populations in various life domains. The marketing approach is highly pragmatic because it allows social and behavioral scientists from any discipline to apply marketing concepts to plan social change and assess the impact of intervention strategies on the QOL of targeted populations.

Networked Collaborative Learning Guglielmo Trentin 2010-01-20 The sustainability of Networked Collaborative Learning (NCL) is a key topic of discussion amongst the institutions where it has been or may potentially be introduced. In order to determine the extent of NCL's sustainability, the added value university education may yield by adopting collaborative learning strategies must be quantified. In turn, an understanding of the implications NCL produces in terms of design and management is gained. After comparing NCL with other Technology Enhanced Learning (TEL) approaches and discussing the possible reasons for adopting it, a multidimensional model for the sustainability of NCL is proposed. The model is characterized by four dimensions: pedagogical approaches, e-teacher professional development, instructional design models and valuation/assessment approaches. Each of these dimensions is examined on the basis of the author's direct experience gained through applying NCL to his university teaching. Delineates a framework for NCL sustainability Provides an instructional design model for NC Describes an original approach to the evaluation of collaborative learning processes

Augmented Urban Spaces Fiorella De Cindio 2016-04-08 There have been numerous possible scenarios depicted on the impact of the internet on urban spaces. Considering ubiquitous/pervasive computing, mobile, wireless connectivity and the acceptance of the Internet as a non-extraordinary part of our everyday lives mean that physical urban space is augmented, and digital in itself. This

poses new problems as well as opportunities to those who have to deal with it. This book explores the intersection and articulation of physical and digital environments and the ways they can extend and reshape a spirit of place. It considers this from three main perspectives: the implications for the public sphere and urban public or semi-public spaces; the implications for community regeneration and empowerment; and the dilemmas and challenges which the augmentation of space implies for urbanists. Grounded with international real-life case studies, this is an up-to-date, interdisciplinary and holistic overview of the relationships between cities, communities and high technologies.

Separarsi bene con la pratica collaborativa Armando Cecatiello 2018-03-21 La fine di una relazione è sempre un momento difficile che inevitabilmente porta sofferenza agli ex partner e ai figli. Se poi si aggiungono, come spesso accade, risentimento, desiderio di vendetta e rabbia, la miscela può diventare esplosiva; non a caso, la casistica relativa ai processi di divorzio è ricca di storie di distruzione personale, familiare e finanziaria. Fortunatamente da qualche anno si sta affermando la pratica collaborativa, un metodo non contenzioso per la risoluzione delle controversie centrato sulle parti e guidato da esse. Affiancati da un team interdisciplinare di professionisti, i due ex partner riscoprono la capacità di comunicare efficacemente e di individuare le soluzioni più vantaggiose, piuttosto che demandare a un giudice ogni decisione sul futuro della loro famiglia. L'accordo così raggiunto rispecchia esattamente il loro volere: chi, infatti, è più competente nel risolvere le divergenze di una separazione, se non gli stessi coniugi? Il libro, una guida completa alla pratica collaborativa, si rivolge non solo alle coppie in procinto di separarsi, ma anche a tutti i professionisti che si confrontano con la crisi della famiglia, come operatori del diritto, psicologi e assistenti sociali.

The Mathematics of Marriage John M. Gottman 2005-01-14 Divorce rates are at an all-time high. But without a theoretical understanding of the processes related to marital stability and dissolution, it is difficult to design and evaluate new marriage interventions. The Mathematics of Marriage provides the foundation for a scientific theory of marital relations. The book does not rely on metaphors, but develops and applies a mathematical model using difference equations. The work is the fulfillment of the goal to build a mathematical framework for the general system theory of families first suggested by Ludwig Von Bertalanffy in the 1960s. The book also presents a complete introduction to the mathematics involved in theory building and testing, and details the development of experiments and models. In one "marriage experiment," for example, the authors explored the effects of lowering or raising a couple's heart rates. Armed with their mathematical model, they were able to do real experiments to determine which processes were affected by their interventions. Applying ideas such as phase space, null clines, influence functions, inertia, and uninfluenced and influenced stable steady states (attractors), the authors show how other researchers can use the methods to weigh their own data with positive and negative weights. While the focus is on modeling marriage, the techniques can be applied to other types of psychological phenomena as well.

Preparing Teachers for a Changing World Linda Darling-Hammond 2017-07-27 Based on rapid advances in what is known about how people learn and how to teach effectively, this important book examines the core concepts and central pedagogies that should be at the heart of any teacher education program. Stemming from the results of a commission sponsored by the National Academy of Education, *Preparing Teachers for a Changing World* recommends the creation of an informed teacher education curriculum with the common elements that represent state-of-the-art standards for the profession. Written for teacher educators in both traditional and alternative programs, university and school system leaders, teachers, staff development professionals, researchers, and educational policymakers, the book addresses the key foundational knowledge for teaching and discusses how to implement that knowledge within the classroom. *Preparing Teachers for a Changing World* recommends that, in addition to strong subject matter knowledge, all new teachers have a basic understanding of how people learn and develop, as well as how children acquire and use language, which is the currency of education. In addition, the book suggests that teaching professionals must be able to apply that knowledge in developing curriculum that attends to students' needs, the demands of the content, and the social purposes of education: in teaching specific subject matter to diverse students, in managing the classroom, assessing student

performance, and using technology in the classroom.

Alternative Modernity Andrew Feenberg 1995-11-07 In this new collection of essays, Andrew Feenberg argues that conflicts over the design and organization of the technical systems that structure our society shape deep choices for the future. A pioneer in the philosophy of technology, Feenberg demonstrates the continuing vitality of the critical theory of the Frankfurt School. He calls into question the anti-technological stance commonly associated with its theoretical legacy and argues that technology contains potentialities that could be developed as the basis for an alternative form of modern society. Feenberg's critical reflections on the ideas of Jürgen Habermas, Herbert Marcuse, Jean-François Lyotard, and Kitaro Nishida shed new light on the philosophical study of technology and modernity. He contests the prevalent conception of technology as an unstoppable force responsive only to its own internal dynamic and politicizes the discussion of its social and cultural construction. This argument is substantiated in a series of compelling and well-grounded case studies. Through his exploration of science fiction and film, AIDS research, the French experience with the "information superhighway," and the Japanese reception of Western values, he demonstrates how technology, when subjected to public pressure and debate, can incorporate ethical and aesthetic values.

No-fault Divorce Allen M. Parkman 2019-03-04 Since 1970, all the states adopted no-fault divorce statutes, which have had the unexpected effect of producing dire financial conditions for many divorced women and their children. In this important study, economist and lawyer Allen Parkman shows how no-fault divorce has systematically operated against the interests of these women and children. With rare economic and legal insight, Parkman argues that by changing the grounds for divorce without changing the laws that define and allocate property at divorce, the legal system created substantial injustices. The key mistake, he suggests, was in accepting a definition of property that did not include the income-earning capacity--human capital--of the individuals involved. Using human capital theory, Parkman criticizes current divorce law and presents a framework for reform that would reduce the injustices introduced by no-fault divorce. He concludes that a thorough reform, however, may require the changing of the grounds for divorce to mutual consent. This book is essential reading for scholars, professionals, and, indeed, for anyone interested in the health and future of the family and the well-being of women in contemporary U.S. society.
