Secrets of Minos Alan Honour 1961

In Search of Knossos 1999 Describes the discovery and excavation of Knossos by the archaeologist Sir Arthur Evans and what the site revealed about the Minoan civilization that flourished on the island of Crete from about 3000 to 1150 B.C.

*The Palace of Minos at Knossos* Chris Scarre 2003-12-04 On March 23, 1900, Arthur John Evans and his staff began to excavate on Crete, looking for the fabled site of Knossos, where an extraordinary civilization, a precursor to classical Greece, was rumored to have existed. Almost from the first shovel stroke, artifacts began to emerge. Evans realized that here was "an extraordinary phenomenon, nothing Greek, nothing Roman. A wholly unexplored world." The Palace of Minos at Knossos recounts the exciting story of uncovering a remarkable society lost to the world for 3,500 years, from its initial discovery through its excavation to the structure we see today. Sidebars on archaeological techniques, illustrations of the sites, tables, and diagrams throughout provide a wealth of information on the Palace. The use of artifacts and other "documents" recovered from the Palace bring out the voices of the people of the past, offering clues to who they were and how they lived. The Palace of Minos at Knossos concludes with an interview with archaeologist Chris Scarre who talks about the misperceptions about Knossos and what we really know about its culture.

The Bull of Minos Leonard Cottrell 1958 "The Minoan civilization was a Bronze Age civilization that arose on the island of Crete

and flourished from approximately the 27th century BCE to the 15th century BCE. It was rediscovered at the beginning of the 20th century through the work of British archaeologist Arthur Evans."--Wikipedia.

Duncan Mackenzie Nicoletta Momigliano 1999 The discoveries at the 'Palace of Minos' at Knossos in Crete from 1900 till 1929 were sensational. They attracted the curious and the famous - and have always been associated with the larger-than-life personality of Sir Arthur Evans. But more recently the dependability of Evan's publications on the discoveries has been questioned, and the role of Duncan Mackenzie, Evan's assistant at Knossos, has been re-considered. Mackenzie's life is the story of a bright lad from a poor Highland family who made good as a gifted field-archaeologist, but never acquired an established and secure position, nor lasting fame, and who eventually died mad and forgotten. The study investigates the relationship between the very different personalities of Evans and Mackenzie, and explores the consequences for the study of Knossos.

*Labyrinth: Knossos, Myth and Reality* SHAPLAND 2023-02-13 -

The catalog of the the first major UK exhibition to focus solely on Knossos, at The Ashmolean, Oxford, running from February to July, 2023 - It will provide an up-to-date guide to the archaeology, and history of discovery, of the Palace and wider area - The 20+ contributors are all experts in their field Crete was famous in Greek myth as the location of the labyrinth in which the Minotaur was confined in a palace at somewhere called 'Knossos'. From the Middle Ages travelers searched unsuccessfully for the Labyrinth. A handful of clues that survived, such as a coin with a labyrinth design and numerous small bronze age items. The name Knossos had survived - but it was nothing but a sprinkling of houses and farmland so they looked elsewhere. Finally, in 1878, a Cretan archeologist, Minos Kalokairinos discovered evidence of a Bronze Age palace. British Archaeologist and then Keeper of the Ashmolean Arthur Evans came out to visit and was fascinated by the site. Between 1900 and 1931 Evans uncovered the remains of the huge palace which he felt must be the that of King Minos, and he adopted the name 'Minoans' for its occupants. He employed a team of archeologists, architects and artists, and together they built up a picture of the Bronze Age community that had occupied the elaborate building. They imagined a sophisticated, nature-loving people, whose civilization peaked, and then disintegrated.

Evans's interpretations of his finds were accurate in some places, but deeply flawed in others. The Evans Archive, held by the Ashmolean, records his finds, theories and (often contentious) reconstructions.

**Arthur Evans and the Palace of Minos** Ann Brown 1983 Most of the archival material from Sir Arthur Evans' excavations at Knossos is now in the Ashmolean Museum and Library. This booklet, illustrated with many period photos, shows how the excavations proceeded and how the reconstruction of parts of the palace was achieved. Now in its third reprinting.

**Manuscript Catalogues of the Early Museum Collections, 1683-1886** Arthur MacGregor 2000 Transcriptions and translations of sixteen manuscript catalogues of a wide range of items held in the Ashmolean Museum between 1683 and 1886. The catalogues include books of benefactors to the Museum, catalogues of curiosities, gems, minerals, shells, fossils, zoological, ethnological and anthropological specimens as well as specimens collected from Cook's second Pacific voyage and curiosities from the Figi or Cannibal Islands. The second volume will publish the recently rediscovered AMS 11 which provides an invaluable record of the Museum's early collections.

The Knossos Labyrinth Rodney Castleden 2012-10-12 Knossos, like the Acropolis or Stonehenge, is a symbol for an entire culture. The Knossos Labyrinth was first built in the reign of a Middle Kingdom Egyptian pharaoh, and was from the start the focus of a glittering and exotic culture. Homer left elusive clues about the Knossian court and when the lost site of Knossos gradually re-emerged from obscurity in the nineteenth century, the first excavators - Minos Kalokairinos, Heinrich Schliemann, and Arthur Evans - were predisposed to see the site through the eyes of the classical authors. Rodney Castleden argues that this line of thought was a false trail and gives an alternative insight into the labyrinth which is every bit as exciting as the traditional explanations, and one which he believes is much closer to the

truth. Rejecting Evans' view of Knossos as a bronze age royal palace, Castleden puts forward alternative interpretations - that the building was a necropolis or a temple - and argues that the temple interpretation is the most satisfactory in the light of modern archaeological knowledge about Minoan Crete.

Pebbles on the Beach M. Jankiraman Ph.D. 2020-10-28 This planet abounds in myths and legends prevalent in various cultures. More often than not, these are based on a kernel of truth. The facts get grossly exaggerated through the ages, much like a fishing tale! Pebbles on the Beach is a concise examination of many of these. There are adequate references given at the end of each chapter, in case the reader wishes to follow-up on these. Some of the stories examined are pertaining to the year 2012, the biblical end-of-times, as well as the story of Atlantis, the Ark of the Covenant, and an examination of the secrets of the Great Pyramid at Giza in Egypt, amongst others. This book also includes an investigation of the story of Moses, especially the identity of the Pharaoh responsible for the Exodus. This is a result of many years of patient study of such topics by the author and is presented for the first time in the form of one book for easy reading! One is reminded of the famous quote attributed to Sir Isaac Newton, wherein he said that "I seem to have been only like a boy playing on the sea-shore, and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me."

**Museums as Cultures of Copies** Brita Brenna 2018-12-14 Few institutions are warier of copies than museums. Few fields of knowledge are more prone to denounce copies as fake than the heritage field. Few discourses are as concerned with authenticity, aura, originals and provenance as those concerning exhibiting and collecting. So why is it that these are institutions, fields and discourses where copies proliferate and copying techniques have thrived for hundreds of years? Museums as Cultures of Copies

aims to make the copying practices of museums visible and to discuss, from a range of interrelated perspectives, precisely what function copies fulfil in the heritage field and in museums today. With contributions from Europe and Canada, the book interrogates the meaning of copies and presents copying as a fully integrated part of museum work. Including chapters on ethnographic mannequins, digitalized photos, death masks, museum documentation and mechanical models, contributors consider how copying as a cultural form changes according to time and place and how new forms of copying and copy technologies challenge and expand museum work today. Arguing that copying is at the basis of museum practice and that new technologies and practices have been taken up and developed in museums since their inception, the book presents both heritage work and copies in a new light. *Museums as Cultures of Copies* should be of great interest to academics, scholars and postgraduate students working in the fields of museum and heritage studies, as well as visual studies, cultural history and archaeology. It should also be essential reading for museum practitioners.

[The Palace of Minos: Volume 2, Part 2](#) Arthur Evans 2014-10-05  
Inspired by Schliemann's discoveries at Mycenae and Troy, Sir Arthur John Evans (1851-1941), keeper of Oxford's Ashmolean Museum from 1884 to 1908, trustee of the British Museum and fellow of the Royal Society, used his inherited wealth to purchase land in Crete at Knossos. From 1900 he commenced excavations there in co-operation with the British School at Athens. Work continued for eight full seasons, uncovering a Bronze Age palace and bringing to light further architectural and artefactual remains of Minoan civilisation, including numerous texts in Linear A and Linear B. Evans' speculative reconstruction of the site in reinforced concrete remains controversial, and some of his interpretations are disputed, but his pioneering work is painstakingly detailed in this highly illustrated multi-volume

work, published between 1921 and 1935, with an index volume appearing in 1936. Part 2 of Volume 2 first appeared in 1928.

**Knossos and the Prophets of Modernism** Cathy Gere

2010-09-15 In the spring of 1900, British archaeologist Arthur Evans began to excavate the palace of Knossos on Crete, bringing ancient Greek legends to life just as a new century dawned amid far-reaching questions about human history, art, and culture. With *Knossos and the Prophets of Modernism*, Cathy Gere relates the fascinating story of Evans's excavation and its long-term effects on Western culture. After the World War I left the Enlightenment dream in tatters, the lost paradise that Evans offered in the concrete labyrinth—pacifist and matriarchal, pagan and cosmic—seemed to offer a new way forward for writers, artists, and thinkers such as Sigmund Freud, James Joyce, Giorgio de Chirico, Robert Graves, and Hilda Doolittle. Assembling a brilliant, talented, and eccentric cast at a moment of tremendous intellectual vitality and wrenching change, Cathy Gere paints an unforgettable portrait of the age of concrete and the birth of modernism.

*Milestones in Archaeology* Tim Murray 2007-04-13 This engaging work uses key discoveries, events, people, techniques, and controversies to give the general reader a rich history of archaeology from its beginnings in the 16th century to the present. The history of archaeology leads from the musty collections of dilettante antiquarians to high-tech science. The book identifies three major developmental periods—Birth of Archaeology (16th–18th centuries), Archaeology of Origins and Empires (19th century), and World Archaeology (20th century). An introductory essay acquaints the reader with the essence of the science for each period. The short entries comprising the balance of the book expand on the themes introduced in the essays. Organized around personalities, techniques, controversies, and conflicts, the encyclopedia brings to life the history of archaeology. It broadens the general reader's

knowledge by detailing the professional significance of widely known discoveries while introducing to wider knowledge obscure but important moments in archaeology. Archaeology is replete with the visionaries and swashbucklers of popular myth; it is also filled with careful and dedicated scientists.

Knossos James Whitley 2023-10-19 Knossos is one of the most important sites in the ancient Mediterranean. It remained amongst the largest settlements on the island of Crete from the Neolithic until the late Roman times, but aside from its size it held a place of particular significance in the mythological imagination of Greece and Rome as the seat of King Minos, the location of the Labyrinth and the home of the Minotaur. Sir Arthur Evans' discovery of 'the Palace of Minos' has indelibly associated Knossos in the modern mind with the 'lost' civilisation of Bronze Age Crete. The allure of this 'lost civilisation', together with the considerable achievements of 'Minoan' artists and craftspeople, remain a major attraction both to scholars and to others outside the academic world as a bastion of a romantic approach to the past. In this volume, James Whitley provides an up-to-date guide to the site and its function from the Neolithic until the present day. This study includes a re-appraisal Bronze Age palatial society, as well as an exploration of the history of Knossos in the archaeological imagination. In doing so he takes a critical look at the guiding assumptions of Evans and others, reconstructing how and why the received view of this ancient settlement has evolved from the Iron Age up to the modern era.

*Albanian Letters* Arthur Evans 2017-09-30 Although best known as an eminent classical archaeologist, Sir Arthur Evans was also passionately interested in the history of Albania. An authority on ancient Illyria, his sophisticated sense of the region's ancient roots infused his understanding of the complex culture and politics of the Balkans in the 19th century and combined to make him an authoritative and entertaining guide to this important subject. In *Albanian Letters*, Evans not only explores the

implications of the key political events of this period (for example, the formation of the Albanian League in 1878) but also paints a vivid picture of the country's complex social and cultural make-up. In the late 19th century, the questions of nationalism and national identity were a major preoccupation for Albanians. *Albanian Letters* looks at how Albanians' views of their homeland were affected by developments taking place at the time, including increasing awareness of ethnic differences, population migration and changes to its distinctive culture and tradition. *Albanian Letters* offers a vivid snapshot of a nation at a critical period in its development.

**Arthur Evans, Knossos and the Priest-king** Susan Sherratt 2000 Sir Arthur Evans uncovered striking fresco images of the controversial Priest-King at Knossos on Crete. As Evans regarded him as one of the rulers of Knossos, this discovery became critical in his vision of this site as the center of a Bronze-Age civilization.

The Palace of Minos Sir Arthur Evans 2013

Minoan Archaeology Sarah Cappel 2015-10-14 More than 100 years ago Sir Arthur Evans' spade made the first cut into the earth above the now well-known Palace at Knossos. His research saw the birth of a new discipline: Minoan Archaeology. The present volume aim to outline current trends and prospects of this scientific field.

**Sir Arthur Evans and Minoan Crete** Nanno Marinatos 2014-12-22 Before Sir Arthur Evans, the principal object of Greek prehistoric archaeology was the reconstruction of history in relation to myth. European travellers to Greece viewed its picturesque ruins as the gateway to mythical times, while Heinrich Schliemann, at the end of the nineteenth century, allegedly uncovered at Troy and Mycenae the legendary cities of the Homeric epics. It was Evans who, in his controversial excavations at Knossos, steered Aegean archaeology away from Homer towards the broader Mediterranean world. Yet in so doing he is thought to have done his own inventing, recreating the Cretan Labyrinth via the Bronze Age myth of the Minotaur. Nanno Marinatos challenges the entrenched idea that Evans was nothing more than a flamboyant researcher who turned speculation into history. She argues that Evans was an excellent archaeologist, one who used scientific observation and classification. Evans's combination of anthropology, comparative religion and analysis of cultic artefacts enabled him to develop a bold new method which Sir James Frazer called 'mental anthropology'. It was this approach that led him to propose remarkable ideas about Minoan religion, theories that are now being vindicated as startling new evidence comes to light. Examining the frescoes from Akrotiri, on Santorini, that are gradually being restored, the author suggests that Evans's hypothesis of one unified goddess of nature is the best explanation of what they signify. Evans was in 1901 ahead of his

time in viewing comparable Minoan scenes as a blend of ritual action and mythic imagination. Nanno Marinatos is a leading authority on Minoan religion. In this latest book she combines history, archaeology and myth to bold and original effect, offering a wholly new appraisal of Evans and the significance of his work. Sir Arthur Evans and Minoan Crete will be essential reading for all students of Minoan civilization, as well as an irresistible companion for travellers to Crete.

*Human-Animal Relations in Bronze Age Crete* Andrew Shapland 2022-05-12  
Archaeologists have long admired the naturalistic animal art of Minoan Crete, often explaining it in terms of religion or a love of the natural world. In this book, Andrew Shapland provides a new way of understanding animal depictions from Bronze Age Crete as the outcome of human-animal relations. Drawing on approaches from anthropology and Human-Animal Studies, he explores the stylistic development of animal depictions in different media, including frescoes, ceramics, stone vessels, seals and wall paintings, and explains them in terms of 'animal practices' such as bull-leaping, hunting, fishing and collecting. Integrating zooarchaeological finds, Shapland highlights the significance of objects and their associated human-animal relations in the history of the palaces, sanctuaries and tombs of Bronze Age Crete. His volume demonstrates how looking at animals opens up new perspectives on familiar sites such as Knossos and some of the most famous objects of this time and place.

Restoring the Minoans Rachel Herschman 2017-10-17  
How do archaeologists and artists reimagine what life was like during the Greek Bronze Age? How do contemporary conditions influence the way we understand the ancient past? This innovative book

considers two imaginative restorations of the ancient world that test the boundaries of interpretation and invention by bringing together the discovery of Minoan culture by the British archaeologist Sir Arthur Evans (1851-1941) and the work of the Turner Prize-winning video artist Elizabeth Price (b. 1966). Featured essays examine Evans's interpretation and restoration of the Knossos palace and present fresh photography of Minoan artifacts and archival photographs of the dig alongside beautiful, previously unpublished watercolors and drawings by the archaeological illustrators and restorers who worked on the site: Émile Gilliéron père (1850-1924), Émile Gilliéron fils (1885-1939), Piet de Jong (1887-1967), and others. An interview with Price explores how her attraction to the Sir Arthur Evans Archive became the basis for her commissioned video installation at the University of Oxford's Ashmolean Museum and offers insight into her creative practice. of these ideas to their contemporaries. Richard Hingley's study crosses traditional academic boundaries by exploring sources usually separately addressed by historians, classicists, archaeologists, and geographers, to provide a new perspective on the origin of English and Scottish identity. His book is the first full exploration of these issues to cover such a long period in the development of British society and to relate ideas derived from Roman sources to the development of empire, while also placing ideas of origin in a European context. It is illustrated throughout with artefact drawings, site plans, and photographs.

*In Search of the Trojan War* Michael Wood 1998 For 3,000 years, tales of Troy and its heroes - Achilles and Hector, Paris and the legendary beauty Helen - have fired the human imagination. With *In Search of the Trojan War*, Michael Wood brings vividly to life the legend and lore of the Heroic Age in an archaeological adventure that sifts through the myths and speculation to provide a privileged view of the riches and the reality of ancient Troy. This edition includes a new preface, a new final chapter, and an addendum to the bibliography that take account of dramatic new developments in the search for Troy with the rediscovery, in Moscow, of the so-called Jewels of Helen and the re-excavation of the site of Troy which began in 1988 and is yielding new evidence about the historical city.
