Islamic Reform in South Asia Filippo Osella 2013-05-16 The articles in this volume build up ethnographic analysis complementary to the historiography of South Asian Islam, which has explored the emergence of reformism in the context of specific political and religious circumstances of nineteenth-century British India. Taking up diverse popular and scholarly debates as well as everyday religious practices, this volume also breaks away from the dominant trend of mainstream ethnographic work, which celebrates Sufi-inspired forms of Islam as tolerant, plural, authentic and so on, pitted against a 'reformist' Islam. Urging a more nuanced examination of all forms of reformism and their reception in practice, the contributions here powerfully demonstrate the historical and geographical specificities of reform projects. In doing so, they challenge prevailing perspectives in which substantially different traditions of reform are lumped together into one reified category (often carelessly shorthanded as 'wah'habism') and branded as extremist - if not altogether demonised as terrorist.

GLOBALIZATION IN INDIA RAMANUJ GANGULY 2010-02-15 Since the last decade of twentieth century, India has strived for an experienced and unprecedented economic turn-around. The country has witnessed a structural shift in GDP growth, propelled largely by new investments and the growth of the value enhancing services sector. Globally, these efforts are not only source of appreciation but also of assumption for many that India increasingly being seen as part of new axis of influence in the

world. Long established three-headed social problem—poverty-illiteracy-unemployment—remains the biggest stumbling block for a post-colonial country like India. New sets of problems have taken shape in the last quarter of twentieth century when policy makers and market participants have prioritized economic activities for short-term gains. In context of the above, Center of Associates for Sociological Studies and Action undertook to bring out to the fore oft-neglected inter-disciplinary discussions and analysis in fifteen articles to examine the process of globalization in India taking insights from economics, political science and international relations, sociology, cultural anthropology, social ecology, management and cultural studies. It discusses the impact of the process of globalization on social institutions like marriage, family, economy, politics, education and religion. The book is intended for postgraduate students and research scholars. It provides readers with a clear perspective about creating economics, environmental and social capital that can produce multiplier effect for making national progress more inclusive and sustainable.

Etel Adnan Lisa Suhair Majaj 2015-10-02 This collection of essays concentrates on Arab-American writer and artist Etel Adnan. Up until now, there has been no single volume dedicated to her work despite Adnan's increasing recognition and acclaim across the United States, Europe, and the Middle East. The essays fall into two sections. In the first, the essays respond to the range of vision and experience in Adnan's writing and art through analysis and appreciation. The second section focuses on responses to and interpretations of Sitt Marie Rose, Adnan's well known novel about the Lebanese war. As a whole, the writings in this work seek to provide a comprehensive look at Adnan's literary and artistic accomplishments through analysis and close readings that place her texts within wider literary contexts.

A Transatlantic Political Theology of Psychedelic Aesthetics Roger K. Green 2019-04-02 Arguing that we ought to look to psychedelic aesthetics of the 1960s in relation to current crises in liberal democracy, this book emphasizes the intersection of European thought and the psychedelic. The first half of the book focuses on philosophical influences of Herbert Marcuse and Antonin Artaud, while the second half shifts toward literary and theoretical influences of Aldous Huxley on psychedelic aesthetics. Framed within an emergent discourse of political theology, it suggests that taking a postsecular approach to psychedelic aesthetics helps us understand deeper connections between aesthetics and politics.

The Algebra of Warfare-Welfare Irfan Ahmad 2018-12-24 Electoral democracy combines the ideas and practices of warfare and welfare, where both work in tandem as near synonyms. India's robust

electoral democracy exemplifies this combination in diverse forms. Critically analysing the 2014 Parliamentary elections beyond the seduction of immediacy and bare cold statistics, this book puts human subjectivity at the centre of election studies and, through an anthropological-sociological approach, makes lives—human and non-human, lived and un-lived or unlivable—central to any understanding of elections and democracy. Crafting a new, comprehensive approach, this volume looks at the 2014 elections in relation to the changing nature and forms of elections and democracy globally. Coming from multidisciplinary backgrounds, the contributors to this volume use ethnographic observations to open up a space for new theoretical and methodological reflections on the role of media in Indian elections, the shift to the right in 2014 and its consequences, the significance of traditional Hindu spaces such as the river Ganga in BJP's victory, the role of gurus like Baba Ramdev, and the electoral choices available to and exercised by the minorities, among others.

BollySwar: 1981 - 1990 Param Arunachalam 2020-04-14 BollySwar is a decade-wise compendium of information about the music of Hindi films. Volume 6 chronicles the Hindi film music of the decade between 1981 and 1990. This volume catalogues more than 1000 films and 7000 songs, involving more than 1000 music directors, lyricists and singers. An overview of the decade highlights the key artists of the decade - music directors, lyricists and singers - and discusses the emerging trends in Hindi film music. A yearly review provides listings of the year's top artists and songs and describes the key milestones of the year in Hindi film music. The bulk of the book provides the song listing of every Hindi film album released in the decade. Basic information about each film's cast and crew is provided and detailed music credits are provided. Where available, music credits go beyond information regarding music directors, lyricists and singers, and include the names of assistants,

arrangers, recordists, etc. Where applicable, music related awards are listed. Interesting trivia is listed for most films. This includes information about artist debuts, plagiarised or sampled songs, controversies and stories behind the making of the film and its music. This book is primarily meant as a quick reference for people looking for information related to a Hindi film or a song, but readers can also browse through the book to get an overview of the events that shaped Bollywood music in the decade. Given that Hindi films are a reflection of the Indian society, the reader can also glean insights about the country's socio-political and cultural environment from the book.

Representations of Precarity in South Asian Literature in English Om Prakash Dwivedi 2022-10-15

This book analyzes precarious conditions and their manifestations in recent South Asian literature in English. Themes of disability, rural-urban division, caste, terrorism, poverty, gender, necropolitics, and uneven globalization are discussed in this book by established and emerging international scholars. Drawing their arguments from literary works rooted in the neoliberal period, the chapters show how the extractive ideology of neoliberalism invades the cultural, political, economic, and social spheres of postcolonial South Asia. The book explores different forms of “precarity” to investigate the vulnerable and insecure life conditions embodied in the everyday life of South Asia, enabling the reader to see through the rhetoric of “rising Asia”.

The State and New Cinema in Contemporary India Sudha Tiwari 2023-09-11 This book examines the relationship between the newly independent Indian state and its New Cinema movement. It looks at state formative practices articulating themselves as cultural policy. It presents an institutional history of the Film Finance Corporation (FFC), later the National Film Development Corporation (NFDC), and their patronage of the New Cinema in India, from the 1960s to the 1990s, bringing into focus an extraordinary but neglected cultural moment in Indian film history and in the history of contemporary India. The chapters not only document the artistic pursuit of cinema, but also the emergence of a larger field where the market, political inclinations of the Indian state, and the more complex determinants of culture intersect — how the New Cinema movement faced external challenges from the industrial lobby and politicians, as well as experienced deep rifts from within. It also shows how the Emergency, the Janata Party regime, economic liberalization, and the opening of airwaves all left their impact on the New Cinema. The volume will be of great interest to scholars and researchers of film studies, politics and public policy, especially cultural policy, media and culture studies, and South Asian studies.

Flexible Bodies Anusha Kedhar 2020-10-05 *Flexible Bodies* honors the lives and labor of British

South Asian dancers and celebrates their contributions to a distinct and dynamic sector of British dance. Drawing on expertise gained from over seven years dancing in Britain, author Anusha Kedhar presents a multifaceted picture of British South Asian dance as its own distinctive genre. Analyzing dance works, dance films, rehearsals, and touring - alongside immigration policy, arts funding initiatives, and global economic conditions - *Flexible Bodies* traces shifts in British South Asian dance from 1990s "Cool Britannia" multiculturalism to fallout from the 2008 global financial crisis and, more recently, the anti-immigration rhetoric leading up to the Brexit referendum in 2016. Kedhar draws on over a decade of interviews and conversations with dancers in Britain as well as in-depth choreographic analysis of major dance works to reveal the creative ways in which British South Asian dancers negotiate neoliberal, multicultural dance markets through an array of flexible bodily practices. Providing a new, critical dance studies lens through which to view the precarious economic, racial, national, and legal positions of South Asians in Britain, *Flexible Bodies* ultimately argues for centering dance labor in studies of neoliberalism.
