The Control of Nature John McPhee 2011-04-01 While John McPhee was working on his previous book, *Rising from the Plains*, he happened to walk by the engineering building at the University of Wyoming, where words etched in limestone said: "Strive on--the control of Nature is won, not given." In the morning sunlight, that central phrase--"the control of nature"--seemed to sparkle with unintended ambiguity. Bilateral, symmetrical, it could with equal speed travel in opposite directions. For some years, he had been planning a book about places in the world where people have been engaged in all-out battles with nature, about (in the words of the book itself) "any struggle against natural forces--heroic or venal, rash or well advised--when human beings conscript themselves to fight against the earth, to take what is not given, to rout the destroying enemy, to surround the base of Mt. Olympus demanding and expecting the surrender of the gods." His interest had first been sparked when he went into the Atchafalaya--the largest river swamp in North America--and had learned that virtually all of its waters were metered and rationed by a U.S. Army Corps of Engineers' project called Old River Control. In the natural cycles of the Mississippi's deltaic plain, the time had come for the Mississippi to change course, to shift its mouth more than a hundred miles and go down the Atchafalaya, one of its tributary branches. The United States could not afford that--for New Orleans, Baton Rouge, and all the industries that lie between would be cut off from river commerce with the rest of the nation. At a place called Old River, the Corps therefore had built a great fortress--part dam, part valve--to restrain the flow of the Atchafalaya and compel the Mississippi to stay where it is. In Iceland, in 1973, an island split open without warning and huge volumes of lava began moving in the direction of a harbor scarcely half a mile away. It was not only Iceland's premier fishing port (accounting for a large percentage of Iceland's export economy) but it was also the only harbor along the nation's southern coast. As the lava threatened to fill the harbor and wipe it out, a physicist named Thorbjorn Sigurgeirsson suggested a way to fight against the flowing red rock--initiating an all-out endeavor unique in human history. On the big island of Hawaii, one of the world's two most eruptive hot spots, people are not unmindful of the Icelandic example. McPhee went to Hawaii to talk with them and to walk beside the edges of a molten lake and incandescent rivers. Some of the more expensive real estate in Los Angeles is up against mountains that are rising and disintegrating as rapidly as any in the world. After a complex coincidence of natural events, boulders will flow out of these mountains like fish eggs, mixed with mud, sand, and smaller rocks in a cascading mass known as debris flow. Plucking up trees and cars, bursting through doors and windows, filling up houses to their eaves, debris flows threaten the lives of people living in and near Los Angeles' famous canyons. At extraordinary expense the city has built a hundred and fifty stadium-like basins in a daring effort to catch the debris. Taking us deep into these contested territories, McPhee details the strategies and tactics through which people attempt to control nature. Most striking in his vivid depiction of the main contestants: nature in complex and awesome guises, and those who would attempt to wrest control from her--stubborn, often ingenious, and always arresting characters.

Go Tell It on the Mountain James Baldwin 2013-09-17 One of the most brilliant and provocative American writers of the twentieth century chronicles a fourteen-year-old boy's spiritual, sexual, and moral struggle of self-invention in this "truly extraordinary" novel (*Chicago Sun-Times*). Baldwin's classic novel opened new possibilities in the American language and in the way Americans understand themselves. With lyrical precision, psychological directness, resonating symbolic power, and a rage that is at once unrelenting and compassionate, Baldwin tells the story of the stepson of the minister of a storefront Pentecostal church in Harlem one Saturday in March of 1935. Originally published in 1953, Baldwin said of his first novel, "Mountain is the book I had to write if I was ever going to write anything else."

The Mountain and the Fathers Joe Wilkins 2012-03-01 *The Mountain and the Fathers* explores the life of boys and men in the unforgiving, harsh world north of the Bull Mountains of eastern Montana in a drought afflicted area called the Big Dry, a land that chews up old and young alike. Joe Wilkins was born into this world, raised by a young mother and elderly grandfather following the untimely death of his father. That early loss stretches out across the Big Dry, and Wilkins uses his own story and those of the young boys and men growing up around him to examine the violence, confusion, and rural poverty found in this distinctly American landscape. Ultimately, these lives put forth a new examination of myth and manhood in the American West and cast a journalistic eye on how young men seek to transcend their surroundings in the search for a better life. Rather than dwell on grief or ruin, Wilkins' memoir posits that it is our stories that sustain us, and *The Mountain and the Fathers*, much like the work of Norman Maclean or Jim Harrison, heralds the arrival of an instant literary classic.

Beyond the Mountain Steve House 2013-10-06 What does it take to be one of the world's best high-altitude mountain climbers? A lot of fundraising; traveling in some of the world's most dangerous countries; enduring cold bivouacs, searing lungs, and a cloudy mind when you can least afford one. It means learning the hard lessons the mountains teach. Steve House built his reputation on ascents throughout the Alps, Canada, Alaska, the

Karakoram and the Himalaya that have expanded possibilities of style, speed, and difficulty. In 2005 Steve and alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,600-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice Herzog and Lionel Terray. Beyond the Mountain is a gripping read destined to be a mountain classic. And it

Stork Mountain Miroslav Penkov 2016-03-15 Stork Mountain tells the story of a young Bulgarian immigrant who, in an attempt to escape his mediocre life in America, returns to the country of his birth. Retracing the steps of his estranged grandfather, a man who suddenly and inexplicably cut all contact with the family three years prior, the boy finds himself on the border of Bulgaria and Turkey, a stone's throw away from Greece, high up in the Strandja Mountains. It is a place of pagan mysteries and black storks nesting in giant oaks; a place where every spring, possessed by Christian saints, men and women dance barefoot across live coals in search of rebirth. Here in the mountains, the boy reunites with his grandfather. Here in the mountain, he falls in love with an unobtainable Muslim girl. Old ghosts come back to life and forgotten conflicts, in the name of faith and doctrine, blaze anew. Stork Mountain is an enormously charming, slyly brilliant debut novel from an internationally celebrated writer. It is a novel that will undoubtedly find a home in many readers' hearts.

Although close to middle age and inexperienced at high altitude, Wolfe, with the team leader, made it higher than any other members of the expedition, but he couldn't get back down. Suffering from altitude sickness and severe dehydration, he was abandoned at nearly 25,000 feet; it would be another sixty-three years before the author discovered his remains.

Mountain Chef: How One Man Lost His Groceries, Changed His Plans, and Helped Cook Up the National Park Service Annette Bay Pimentel

2018-03-29 Read Along or Enhanced eBook: The true story of a Chinese American mountain man who fed thirty people for ten days in the wilderness—and helped inspire the creation of the National Park Service. Tie Sing was born in the mountains. The mountains were in his blood. But because he was of Chinese descent at a time in America when to be Chinese meant working in restaurants or laundries, Tie Sing's prospects were limited. But he had bigger plans. He began cooking for mapmakers and soon built a reputation as the best trail cook in California. When millionaire Stephen Mather began his quest to create a national park service in 1915, he invited a group of influential men—writers, tycoons, members of Congress, and even a movie star—to go camping in the Sierras. Tie Sing was hired to cook. Tie Sing planned diligently. He understood the importance of this trip. But when disaster struck—twice!—and Tie Sing's supplies were lost, it was his creative spirit and quick mind that saved the day. His sumptuous menus had to be struck and Tie Sing had to start over in order to feed the thirty people in the group for ten whole days. His skills were tested and Tie Sing rose to the challenge. On the last night, he fed not just the campers' bodies, but also their minds, reminding them to remember and protect the mountains. 2016 marks the 100th anniversary of the National Park Service, created by Congress on August 25, 1916. Today, you can hike to Sing Peak, named for Tie Sing, in Yosemite National Park.

An epic story of four Japanese-American families and their sons who volunteered for military service and displayed uncommon heroism... Propulsive and gripping, in part because of Mr. Brown's ability to make us care deeply about the fates of these individual soldiers...a page-turner." - Wall Street Journal From the #1 New York Times bestselling author of *The Boys in the Boat*, a gripping World War II saga of patriotism and resistance, focusing on four Japanese American men and their families, and the contributions and sacrifices that they made for the sake of the nation. In the days and months after Pearl Harbor, the lives of Japanese Americans across the continent and Hawaii were changed forever. In this unforgettable chronicle of war-time America and the battlefields of Europe, Daniel James Brown portrays the journey of Rudy Tokiwa, Fred Shiosaki, and Kats Miho, who volunteered for the 442nd Regimental Combat Team and were deployed to France, Germany, and Italy, where they were asked to do the near impossible. Chariot on the Mountain Jack Ford 2019-09-24 Based on true events, this astonishing account from Emmy and Peabody Award-winning journalist Jack Ford vividly recreates a treacherous journey toward freedom at a time when the traditions of the Old South still thrived. . . Two decades before the Civil War, middle-class farmer Samuel Maddox lies on his deathbed. Elsewhere in his Virginia home, a young woman named Kitty knows her life is about to change. She is one of the Maddox family's slaves—and Samuel's biological daughter. When Samuel's wife, Mary, inherits her husband's property, she will own Kitty, too, along with Kitty's three small children. After Samuel's death, Mary decides to grant Kitty—an educated woman who has been treated more like family than slave—and her children, their freedom. Helped by Quaker families along the Underground Railroad, Mary

travels with them to Pennsylvania to file emancipation papers. But Kitty is not yet safe. Dragged back to Virginia by a gang of slave catchers led by Samuel's own nephew, Kitty takes a defiant step: charging the younger Maddox with kidnapping and assault. On the surface, the move is hopeless. But Kitty has allies—Mary, and Fanny Withers, a socialite who secures a lawyer. Born on a Mountain, Raised in a Cave Bill Shaw 2014-01-10 In the years between the assassination of JFK and the selling out of America by an actor playing the president, a generation came of age. Too late for Woodstock or to feel like legit Boomers, and too early for glam, grunge and Gen-X, the kids of the seventies went about the business of growing up and figuring out how to fit into an America that was beginning to lose its grip. In a small town in the central Colorado Rockies, the stunning natural landscape abetted one young mans struggle with boredom and lifes questions. Here is an incomplete record of that boys early years.

Colors of the Mountain Da Chen 2003-05-20 "I was born in southern China in 1962, in the tiny town of Yellow Stone. They called it the Year of Great Starvation." In 1962, as millions of Chinese citizens were gripped by Mao Zedong's Cultural Revolution and the Red Guards enforced a brutal regime of communism, a boy was born to a poor family in southern China. This family—the Chens—had once been respected landlords in the village of Yellow Stone, but now they were among the least fortunate families in the country, despised for their "capitalist" past. Grandpa Chen couldn't leave the house for fear of being beaten to death; the children were spit upon in the street; and their father was regularly hauled off to labor camps, leaving the family of eight without a breadwinner. Da Chen, the youngest child, seemed destined for a life of poverty, shame, and hunger. But winning humor and an indomitable spirit can be found in the most unexpected places. *Colors of the Mountain* is a story of triumph, a memoir of a boyhood full of spunk, mischief, and love. The young Da Chen is part Horatio Alger, part Holden Caulfield; he befriends a gang of young hoodlums as well as the elegant, elderly Chinese Baptist woman who teaches him English and opens the door to a new life. Chen's remarkable story is full of unforgettable scenes of rural Chinese life: feasting on oysters and fried peanuts on New Year's Day, studying alongside classmates who wear red armbands and quote Mao, and playing and working in the peaceful rice fields near his village. Da Chen's story is both captivating and endearing, filled with the universal human quality that distinguishes the very best memoirs. It proves once again that the concerns of childhood transcend time and place.

Fire on the Mountain Anita Desai 2012-09-25 Gone are the days when Nanda Kaul watched over her family and played the part of Vice-Chancellor's wife. Leaving her children behind in the real world, the busier world, she has chosen to spend her last years alone in the mountains in Kasauli, in a secluded bungalow called Carignano. Until one summer her great-granddaughter Raka is dispatched to Kasauli - and everything changes. Nanda is at first dismayed at this break in her precious solitude. Fiercely taciturn, Raka is, like her, quite untamed. The girl prefers the company of apricot trees and animals to her great-grandmother's, and spends her afternoons rambling over the mountainside. But the two are more alike than they know. Throughout the hot, long summer, Nanda's old, hidden dependencies and wounds come to the surface, ending, inevitably, in tragedy. Marvellous yet restrained, *Fire on the Mountain* speaks of the past and its unshakable hold over the present.
