Novacene James Lovelock 2020-11-10 A fascinating new study from the originator of the Gaia Theory, “who conceived the first wholly new way of looking at life on earth since Charles Darwin” (Independent) One of the world’s leading scientific thinkers offers a vision of a future epoch in which humans and artificial intelligence unite to save the Earth James Lovelock, creator of the Gaia hypothesis and the greatest environmental thinker of our time, has produced an astounding new theory about future of life on Earth. He argues that the Anthropocene—the age in which humans acquired planetary-scale technologies—is, after 300 years, coming to an end. A new age—the Novacene—has already begun. In the Novacene, new beings will emerge from existing artificial intelligence systems. They will think 10,000 times faster than we do and they will regard us as we now regard plants. But this will not be the cruel, violent machine takeover of the planet imagined by science fiction. These hyperintelligent beings will be as dependent on the health of the planet as we are. They will need the planetary cooling system of Gaia to defend them from the increasing heat of the sun as much as we do. And Gaia depends on organic life. We will be partners in this project. It is crucial, Lovelock argues, that the intelligence of Earth survives and prospers. He does not think there are intelligent aliens, so we

are the only beings capable of understanding the cosmos. Perhaps, he speculates, the Novacene could even be the beginning of a process that will finally lead to intelligence suffusing the entire cosmos. At the age of 100, James Lovelock has produced the most important and compelling work of his life.

Child Migration and Human Rights in a Global Age Jacqueline Bhabha 2016-05-17 The first comprehensive look at the global dilemma of child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, Child Migration and Human Rights in a Global Age provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. Child Migration and Human Rights in a Global Age offers a road map for doing just that, and makes a compelling and

courageous case for an international ethics of children's human rights.

The Essential Ellison Harlan Ellison 2005-10-06 Harlan Ellison is probably best known as a script writer for sci-fi and fantasy movies and TV series such as the original *Outer Limits*, *The Hunger*, *Logan's Run*, and *Babylon Five*. But his range is much broader than that, encompassing stories, novels, essays, reviews, reminiscences, plays, even fake autobiographies. *The Essential Ellison*, a special limited edition personally signed and numbered by Ellison, contains 74 unabridged works, including such classics as "A Boy and His Dog," "Xenogenesis," and "Mefisto in Onyx."

How to Live Sarah Bakewell 2010-10-19 Winner of the 2010 National Book Critics Circle Award for Biography How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people's lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy? This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them "essays," meaning "attempts" or "tries." Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog's ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. *The Essays* was an instant bestseller and, over four hundred years later, Montaigne's honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de

La Boétie and with his adopted “daughter,” Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, “how to live?”

Human Resources and Training in Mental Health World Health Organization 2005 This volume is part of a series of publications which contain practical guidance to assist policy-makers and planners in member countries with policy development to address public mental health needs and service provision. It focuses on human resource management and training, issues which are particularly important as its workforce is the most valuable asset of an effective mental health service and often accounts for the largest portion of the annual budget.

The Man of Jasmine Unica Zürn 1994 Zurn's mental collapse was initiated when she encountered in the real world her childhood fantasy figure "the man of jasmine": he was the writer Henri Michaux, and her meeting him plunged her into a world of hallucination in which visions of her desires, anxieties and events from her unresolved past overwhelmed her present life. Her return to "reality" was constantly interrupted by alternate visionary and depressive periods.

The Life Transforming Diet David J. Zulberg 2014

Very Bad Poetry Kathryn Petras 1997-03-25 Writing very bad poetry requires talent. It helps to have a wooden ear for words, a penchant for sinking into a mire of sentimentality, and an enviable confidence that allows one to write despite absolutely

appalling incompetence. The 131 poems collected in this first-of-its-kind anthology are so glaringly awful that they embody a kind of genius. From Fred Emerson Brooks' "The Stuttering Lover" to Matthew Green's "The Spleen" to Georgia Bailey Parrington's misguided "An Elegy to a Dissected Puppy", they mangle meter, run rampant over rhyme, and bludgeon us into insensibility with their grandiosity, anticlimax, and malapropism. Guaranteed to move even the most stoic reader to tears (of laughter), *Very Bad Poetry* is sure to become a favorite of the poetically inclined (and disinclined).

Kinds of Power James Hillman 2012-10-24 In the boldest expose on the nature of power since Machiavelli, celebrated Jungian therapist James Hillman shows how the artful leader uses each of two dozen kinds of power with finesse and subtlety. Power, we often forget, has many faces, many different expressions.

"Empowerment," writes best-selling Jungian analyst James Hillman, "comes from understanding the widest spectrum of possibilities for embracing power." If food means only meat and potatoes, your body suffers from your ignorance. When your idea of food expands, so does your strength. So it is with power.

"James Hillman," says Robert Bly, "is the most lively and original psychologist we have had in America since William James." In *Kinds Of Power*, Hillman addresses himself for the first time to a subject of great interest to business people. He gives much needed substance to the subject by showing us a broad experience of power, rooted in the body, the mind, and the emotions, rather than the customary narrow interpretation that simply equates power with strength. Hillman's "anatomy" of power explores two dozen expressions of power every artful

leader must understand and use, including: the language of power, control, influence, resistance, leadership, prestige, authority, exhibitionism, charisma, ambition, reputation, fearsomeness, tyranny, purism, subtle power, growth, and efficiency.

Asylums Erving Goffman 2017-09-08 A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Beyond Beef Jeremy Rifkin 1994 In the first three parts of this book an exploration of the historical role of cattle in Western civilization is given. Part four examines the human impact of the modern cattle complex and the world beef culture. The range of environmental threats that have been created, in part, by the modern cattle complex is described in part five. Part six examines

the psychology of cattle complexes and the politics of beef eating in Western society. The author hopes that this book will contribute to moving our society beyond beef

Myth and Symbol in Ancient Egypt Robert Thomas Rundle Clark 1978 This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart from the rest of the ancient world, and it is this isolation that makes their ideas so difficult to appreciate and interpret. Egyptian thought was presented in terms of mythology: myth was used to convey insights into the workings of nature and the ultimately indescribable realities of the soul ...

The Periodic Table Primo Levi 1996-10-01 The Periodic Table is largely a memoir of the years before and after Primo Levi's transportation from his native Italy to Auschwitz as an anti-Fascist partisan and a Jew. It recounts, in clear, precise, unfailingly beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi's gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi's masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

Brave New World Revisited Aldous Huxley 2014-01-01 When Aldous Huxley wrote his famous novel Brave New World, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, Brave New World Revisited is a re-evaluation of his predictions based on

the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. *Brave New World Revisited* condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in *Brave New World Revisited* are still startlingly relevant, lending a chilling creditability to Aldous Huxley's unsettling predictions. The Economic Psychology of Everyday Life Paul Webley

2002-01-04 From childhood through to adulthood, retirement and finally death, *The Economic Psychology of Everyday Life* uniquely explores the economic problems all individuals have to solve across the course of their lives. Webley, Burgoyne, Lea and Young begin by introducing the concept of economic behaviour and its study. They then examine the main economic issues faced at each life stage, including: * the impact of advertising on children * buying a first house and setting up home * changing family roles and gender-linked inequality * redundancy and unemployment * coping on a pension * obituaries, wills and inheritance. Finally they draw together the commonalties of economic problems across the lifespan, discuss generational and cultural changes in economic behaviour, and examine the significance of other, non-economic constraints, upon individuals. *The Economic Psychology of Everyday Life* provides a much-needed comprehensive and accessible guide to economic psychology which will be of great interest to researchers and students.

The Story of the Lost Child Elena Ferrante 2015-09-01 The Story of the Lost Child is the long-awaited fourth volume in the Neapolitan novels (My Brilliant Friend, The Story of a New Name, Those Who Leave and Those Who Stay). The quartet traces the friendship between Elena and Lila, from their childhood in a poor neighbourhood in Naples, to their thirties, when both women are mothers but each has chosen a different path. Their lives are still inextricably linked, for better or worse, especially when it comes to the drama of a lost child. Elena Ferrante was born in Naples. She is the author of seven novels: The Days of Abandonment, Troubling Love, The Lost Daughter, and the quartet of Neapolitan novels: My Brilliant Friend, The Story of a New Name, Those Who Leave and Those Who Stay, and The Story of the Lost Child. Frantugmalia, a selection of interviews, letters and occasional writings by Ferrante, will be published in 2016. She is one of Italy's most acclaimed authors. Ann Goldstein has translated all of Elena Ferrante's work. She is an editor at the New Yorker and a recipient of the PEN Renato Poggioli Translation Prize. Praise for Ferrante and the Neapolitan novels '[Ferrante's] charting of the rivalries and sheer inscrutability of female friendship is raw. This is high stakes, subversive literature.' Sunday Telegraph 'Ferrante is an expert above all at the rhythm of plotting...Whether it's work, family, friends or sex-and Ferrante, perhaps thanks to her anonymity as an author, is blisteringly good on bad sex-our greatest mistakes in life aren't isolated acts; we rehearse them

over and over until we get them as badly wrong as we can.’ Independent ‘Great novels are intelligent far beyond the powers of any character or writer or individual reader, as are great friendships, in their way. These wonderful books sit at the heart of that mystery, with the warmth and power of both.’ Harper’s ‘Elena Ferrante is one of the great novelists of our time. Her voice is passionate, her view sweeping and her gaze basilisk...In these bold, gorgeous, relentless novels, Ferrante traces the deep connections between the political and the domestic. This is a new version of the way we live now—one we need, one told brilliantly, by a woman.’ New York Times Sunday Book Review ‘When I read [the Neapolitan novels] I find that I never want to stop. I feel vexed by the obstacles—my job, or acquaintances on the subway—that threaten to keep me apart from the books. I mourn separations (a year until the next one—how?). I am propelled by a ravenous will to keep going.’ New Yorker ‘The best thing I’ve read this year, far and away...She puts most other writing at the moment in the shade. She’s marvellous.’ Richard Flanagan ‘The Neapolitan series stands as a testament to the ability of great literature to challenge, flummox, enrage and excite as it entertains.’ Sydney Morning Herald ‘The depth of perception Ms. Ferrante shows about her character’s conflicts and psychological states is astonishing...Her novels ring so true and are written with such empathy that they sound confessional.’ Wall Street Journal ‘The older you get, the harder it is to recapture the intoxicating sense of discovery that comes when you first read George Eliot, Nabokov, Tolstoy or Colette. But this year it came again when I read Elena Ferrante’s remarkable Neapolitan novels.’ Jane Shilling, New Statesman ‘There is nothing remotely tiring or trying about the experience of reading the Neapolitan novels, which I, and a great many others, now rank among our greatest book-related pleasures...it is writing that holds honesty dear.’ Weekend Australian ‘Dickens gave working people a voice. Ferrante, whoever she might be, presents a new paradigm for

being female in the world...Ferrante's great literary creations, Lenu and Lila, have the same emotional weight as Anne in Persuasion, Jo in Little Women, Maggie in The Mill on the Floss, Jane in Jane Eyre.' Helen Elliott in the Monthly 'This stunning conclusion further solidifies the Neapolitan novels as Ferrante's masterpiece and guarantees that this reclusive author will remain far from obscure for years to come.' Publishers Weekly 'The Neapolitan novels are smart, thoughtful, serious literature. At the same time, they are violent, suspenseful soap operas populated with a vivid cast of scheming characters...Ferrante's novels are deeply personal and intimate, getting to the very heart of what it means to be a woman, a friend, a daughter, a mother.' Debrief Daily 'Shattering and enthralling, intimate and vicious...The Neapolitan Novels are the kind of books that swallow me whole. As soon as I pick one up, I don't want to breathe or move lest I break the spell...The Neapolitan Novels are among the most important in my reading life. I can't recommend them highly enough.' Readings 'Ferrante captures the complexities of women, friendship and motherhood in ways that make your heart soar and ache in equal measures. If you haven't already, treat yourself to this series.' ELLE Australia '[Ferrante's] Neapolitan novels contain real life - recognisable anxiety, joy, love and heartbreak. This is an incredibly difficult feat to achieve in the first place, let alone sustain, over four books. We will be talking about Elena and Lila for years to come.' Sydney Morning Herald 'There's a bright, sinewy humanness to Ferrante's writing that is so alive it's alarming...The Story of the Lost Child is a full emotional experience, and a fitting end to a huge, arresting series.' New Zealand Listener 'I was one of the many who wept and wondered over Elena Ferrante's The Story of the Lost Child. I plan to re-read the entire series soon.' Mirror for the Muslim Prince Mehrzad Boroujerdi 2013-05-01 In this volume, a group of distinguished scholars reinterpret concepts and canons of Islamic thought in Arab, Persian, South Asian, and Turkish traditions. They demonstrate that there is no unitary "Islamic" position on important issues of statecraft and governance. They recognize that Islam is a discursive site marked by silences, agreements, and animated controversies. Rigorous debates and profound disagreements among Muslim theologians, philosophers, and literati have taken place over such questions as: What is an Islamic state? Was the state ever viewed as an independent political institution in the Islamic tradition of political thought? Is it possible that a religion that places an inordinate emphasis upon the importance of good deeds does not indeed have a vigorous notion of "public interest" or a systematic theory of government? Does Islam provide an edifice, a common idiom, and an ideological mooring for premodern and modern Muslim rulers alike? The nuanced reading of the Islamic traditions provided in this book will help future generations of Muslims contemplate a more humane style of statecraft.
