Not Made Visible Matias Faldbakken 2007 Tiré du site Internet de JRP/Ringier : "Matias Faldbakken (*1973) is an artist and writer living in Oslo. Son of the celebrated Norwegian author Knut Faldbakken, he has published two novels, "The Cocka Hola Company" and "Macht und Rebel" under the alias Abo Rasul. Drenched with acid humor and continuously hitting below the waist, his books immediately caused a considerable stir in Norway. If, in these publications, he underlines the differences and similarities between the so-called underground and the mainstream, and between the "independent" and the "commercial" in everyday life, these subjects are also central to his art practice. Fascinated with systems of knowledge, power, order, and exchange, he shows an interest in understanding how art and artists can be active participants in these systems. Faldbakken studied at the National Academy of Fine Arts in Bergen as well as at the Städelschule in Frankfurt am Main. He represented Norway in the Nordic Pavillion at the Venice Biennial in 2005, as well as showing his work in the Wrong Gallery at the Whitney Biennial, the Stedelijk Museum Amsterdam, the National Museum Oslo, the Sydney Biennial and the KW Institute for Contemporary Art Berlin, among others."

Physiologus 1979 One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review"

Creating East and West Nancy Bisaha 2010-12-01 As the Ottoman Empire advanced westward from the fourteenth to the sixteenth centuries,

humanists responded on a grand scale, leaving behind a large body of fascinating yet understudied works. These compositions included Crusade orations and histories; ethnographic, historical, and religious studies of the Turks; epic poetry; and even tracts on converting the Turks to Christianity. Most scholars have seen this vast literature as atypical of Renaissance humanism. Nancy Bisaha now offers an in-depth look at the body of Renaissance humanist works that focus not on classical or contemporary Italian subjects but on the Ottoman Empire, Islam, and the Crusades. Throughout, Bisaha probes these texts to reveal the significant role Renaissance writers played in shaping Western views of self and other. Medieval concepts of Islam were generally informed and constrained by religious attitudes and rhetoric in which Muslims were depicted as enemies of the faith. While humanist thinkers of the Renaissance did not move entirely beyond this stance, *Creating East and West* argues that their understanding was considerably more complex, in that it addressed secular and cultural issues, marking a watershed between the medieval and modern. Taking a close look at a number of texts, Bisaha expands current notions of Renaissance humanism and of the history of cross-cultural perceptions. Engaging both traditional methods of intellectual history and more recent methods of cross-cultural studies, she demonstrates that modern attitudes of Western societies toward other cultures emerged not during the later period of expansion and domination but rather as a defensive intellectual reaction to a sophisticated and threatening power to the East.

The Era of the Witness Annette Wieviorka 2006 What is the role of the survivor testimony in Holocaust remembrance? In this book, a concise, rigorously argued, and provocative work of cultural and intellectual history, the author seeks to answer this surpassingly complex question.

Searching for John Ford Joseph McBride 2011-02-11 John Ford's classic films—such as *Stagecoach*, *The Grapes of Wrath*, *How Green Was My Valley*, *The Quiet Man*, and *The Searchers*—have earned him worldwide admiration as America's foremost filmmaker, a director whose rich visual imagination conjures up indelible, deeply moving images of our collective past. Joseph McBride's *Searching for John Ford*, described as definitive by both the *New York Times* and the *Irish Times*, surpasses all other biographies of the filmmaker in its depth, originality, and insight. Encompassing and illuminating Ford's myriad complexities and contradictions, McBride traces the trajectory of Ford's life from his beginnings as “Bull” Feeney, the nearsighted, football-playing son of Irish immigrants in Portland, Maine, to his recognition, after a long, controversial, and much-honored career, as America's national mythmaker. Blending lively and penetrating analyses of Ford's films with an impeccably documented narrative of the historical and psychological contexts in which those films were created, McBride has at long last given John Ford the biography his stature demands.

Louis I. Kahn Joseph Rosa 2016-09-08 Meet the man who treated each building like a temple. Obsolete Objects in the Literary Imagination Francesco Orlando 2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

The Book of Disquiet: The Complete Edition Fernando Pessoa 2017-08-29 For the first time—and in the best translation ever—the complete *Book of Disquiet*, a masterpiece beyond comparison. The *Book of Disquiet* is the Portuguese modernist master Fernando Pessoa's greatest literary

achievement. An “autobiography” or “diary” containing exquisite melancholy observations, aphorisms, and ruminations, this classic work grapples with all the eternal questions. Now, for the first time the texts are presented chronologically, in a complete English edition by master translator Margaret Jull Costa. Most of the texts in *The Book of Disquiet* are written under the semi-heteronym Bernardo Soares, an assistant bookkeeper. This existential masterpiece was first published in Portuguese in 1982, forty-seven years after Pessoa’s death. A monumental literary event, this exciting, new, complete edition spans Fernando Pessoa’s entire writing life.

The Architecture of Pica Ciamarra Associati Antonietta Iolanda Lima 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life.

The Heritage Crusade and the Spoils of History David Lowenthal 1998-05-13 Heritage has burgeoned over the past quarter of a century from a small élite preoccupation into a major popular crusade. Everything from Disneyland to the Holocaust Museum, from the Balkan wars to the Northern Irish Troubles, from Elvis memorabilia to the Elgin Marbles bears the marks of the cult of heritage. In this acclaimed book David Lowenthal explains the rise of this new obsession with the past and examines its power for both good and evil. 'Timely and provocative...brilliant and stimulating pyrotechnic...everything from the Pilgrim Fathers to the Inuits, from Homer's Greece to the rainforests of Brazil.' Roy Strong, *The Sunday Times* '...entertaining and enthralling...' Ben Pimlott, *The Guardian*

Jeff Koons: Shine Arturo Galansino 2022-03-15 A Jeff Koons overview thematizing "shine" as aesthetic substance and motif across his five-decade career This volume is published for Jeff Koons' (born 1955) largest ever exhibition in Italy, developed in close dialogue with the artist, and presenting some of the most celebrated works of this master who, from the mid-1970s until the present day, has forged a reputation as one of the most important figures of the global contemporary art scene. Responsible for countless works that have entered the collective imagination, Koons regards "shine" as a key feature of his artwork--from the postmodern reinvention of the readymade to works in perfectly polished metal that resemble inflatable toys. Indeed, "shine" is far more than an ornament: it is the very substance of these works, as this reflective property brings together appearance and essence. Shine gathers paintings and sculptures on loan from international collections and museums in order to explore the concept of "shine," calling into question our relationship with daily reality and with the very concept of a work of art.

The Science of Culture and the Phenomenology of Styles Renato Barilli 2012-11-01 In *The Science of Culture and the Phenomenology of Styles*, Renato Barilli examines the history of artistic style in relation to scientific discovery. Applying an innovative analysis, he illustrates the subtle, yet intrinsic, connection between paradigm shifts in the sciences and in the arts. Barilli argues that there are "homologies," or equivalences, between specific discoveries or inventions and revolutionary advances in artistic techniques. He draws upon the pioneering work of Lucien Goldman, who provides the fundamental definition of "homology," as well as the theories of Luciano Anceschi and Marshall McLuhan in order to reassess conventional modes of dividing art history into such periods as modern, contemporary, and postmodern. By correlating moments like the invention of the printing press and the internal combustion engine with canonical periods in the evolution of art, Barilli unearths conceptual links across domains and disciplines. An insightful reflection on the historic perspectives of cultural production, *The Science of Culture and the Phenomenology of Styles* sheds new light on the relationship between visual culture, art, and language.

The School and Society John Dewey 1915 First published in 1899, "The School and Society" describes John Dewey's experiences with his own famous Laboratory School, started in 1896. Dewey's experiments at the Laboratory School reflected his original social and educational philosophy based on American experience and concepts of democracy, not on European education models then in vogue. This forerunner of the major works shows Dewey's pervasive concern with the need for a rich, dynamic, and viable society. In his introduction to this volume, Joe R. Burnett states Dewey's theme. Industrialization, urbanization, science, and technology have created a revolution the schools cannot ignore. Dewey carries this theme through eight chapters: *The School and Social Progress*; *The School and the Life of the Child*; *Waste in Education*; *Three Years of the University Elementary School*; *The Psychology of Elementary Education*; *Froebel's Educational Principles*; *The Psychology of Occupations*; and *the Development of Attention*.

Adua Igiaba Scego 2017-05-22 “Utterly sublime . . . Aduatells a gripping story of war, migration and family, exposing us to the pain and hope that reside in each encounter” (Maaza Mengiste, author of *The Shadow King*). Adua, an immigrant from Somalia, has lived in Italy nearly forty years. She came seeking freedom from a strict father and an oppressive regime, but her dreams of becoming a film star ended in shame. A searing novel about a young immigrant woman’s dream of finding freedom in Rome and the bittersweet legacies of her African past. “Lovely prose and memorable characters make this novel a thought-provoking and moving consideration of the wreckage of European oppression.” —Publishers Weekly (starred review) “Igiaba Scego is an original voice who connects Italy’s present with its colonial past. Adua is an important novel that obliges the country to confront both memory and truth.” —Amara Lakhous, author of *Dispute over a Very Italian Piglet* “This book depicts the soul and the body of a daughter and a father, illuminating words that are used every day and swiftly emptied of meaning: migrants, diaspora, refugees, separation, hope, humiliation, death.” —Panorama “A memorable, affecting tale . . . Brings the decolonialization of Africa to life . . . All the more affecting for being told without sentimentality or self-pity.” —ForeWord Reviews “Deeply and thoroughly researched . . . Also a captivating read: the novel is sweeping in its geographical and temporal scope, yet Scego nonetheless renders her complex protagonists richly and lovingly.” —Africa Is a Country

The Swallows of Monte Cassino Frederika Randall 2013-10-14 The Strega Prize-winning author of *The Girl with a Leica* delivers a novel that hinges on one of the bloodiest World War II battles and those who fought it. In this highly original novel, Janeczek retells the four-month-long Battle of Monte Cassino from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek’s own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. “Helena Janeczek’s novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present.” —Roberto Saviano, author of *Gomorra*

A History of the World in 12 Maps Jerry Brotton 2014-10-28 A New York Times Bestseller “Maps allow the armchair traveler to roam the world, the diplomat to argue his points, the ruler to administer his country, the warrior to plan his campaigns and the propagandist to boost his cause... rich and beautiful.” - Wall Street Journal Throughout history, maps have been fundamental in shaping our view of the world, and our place in it. But far from being purely scientific objects, maps of the world are unavoidably ideological and subjective, intimately bound up with the systems of power and authority of particular times and places. Mapmakers do not simply represent the world, they construct it out of the ideas of their age. In this scintillating book, Jerry Brotton examines the significance of 12 maps - from the almost mystical representations of ancient history to the satellite-derived imagery of today. He vividly recreates the environments and circumstances in which each of the maps was made, showing how each conveys a highly individual view of the world. Brotton shows how each of his maps both influenced and reflected contemporary events and how, by considering it in all its nuances and omissions, we can better understand the world that produced it. Although the way we map our surroundings is more precise than ever before, Brotton argues that maps today are no more definitive or objective than they have ever been. Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again. “A fascinating and panoramic new history of the cartographer’s art.” - The Guardian “The intellectual background to these images is conveyed with beguiling erudition.... There is nothing more subversive than a map.” - The Spectator “A mesmerizing and beautifully illustrated book.” —The Telegraph

My Name is Mina David Almond 2013-11-14 There's an empty notebook lying on the table in the moonlight. It's been there for an age. I keep on saying that I'll write a journal. So I'll start right here, right now. I open the book and write the very first words: My name is Mina and I love the night. Then what shall I write? I can't just write that this happened then this happened then this happened to boring infinitum. I'll let my journal grow just like the mind does, just like a tree or a beast does, just like life does. Why should a book tell a tale in a dull straight line? And so Mina writes and writes in her notebook, and here is her journal, Mina's life in Mina's own words: her stories and dreams, experiences and thoughts, her scribbles and nonsense, poems and songs. Her vivid account of her vivid life. In this stunning book, David Almond revisits Mina before she has met Michael, before she has met Skellig. Shortlisted for the 2012 Carnegie Medal.

History of the Italian Agricultural Landscape Emilio Sereni 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Medieval Callings Jacques Le Goff 1995-12-18 These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings—of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex

social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, Times Literary Supplement
