**Illuminatus!** Robert Shea 1977

**The Syrian Jihad** Charles R. Lister 2016 The eruption of the anti-Assad revolution in Syria has had many unintended consequences, among which is the opportunity it offered Sunni jihadists to establish a foothold in the heart of the Middle East. That Syria's ongoing civil war is so brutal and protracted has only compounded the situation, as have developments in Iraq and Lebanon. Ranging across the battlefields and international borders have been dozens of jihadi Islamist fighting groups, of which some coalesced into significant factions such as Jabhat al Nusra and the Islamic State. This book assesses and explains the emergence since 2011 of Sunni jihadist organizations in Syria's fledgling insurgency, charts their evolution and situates them within the global Islamist project. Unprecedented numbers of foreign fighters have joined such groups, who will almost certainly continue to host them. Thus, external factors in their emergence are scrutinized, including the strategic and tactical lessons learned from other jihadist conflict zones and the complex interplay between Al-Qaeda and the Islamic State and how it has influenced the jihadist sphere in Syria. Tensions between and conflict within such groups also feature in this indispensable volume.

**Today I Am a Woman** Barbara Vinick 2011-11-07 "The amazing tales of Jewish girls on six different continents who celebrate the Jewish ritual of becoming a woman." —The Jewish Journal Winner, Spirituality Category, New England Festival Best Books of the Holiday Season Divided into nine regions—Africa; Asia; Australia and New Zealand; the Caribbean, Europe; the former Soviet Union, former Yugoslavia and Eastern Europe; Latin America; the Middle East and North Africa; and North America—this book tells the story of each girl's unique journey and introduction into womanhood. Gorgeously illustrated with more than 100 black and white family photographs, Today I Am a Woman also captures each area's unique customs and how they affect the lives of Jewish girls and the local Jewish community's traditions. "The editors scoured the globe to find powerful, varied, and moving depictions of bat mitzvah in the contemporary Jewish world. This is a rich resource for anyone interested in understanding religious diversity, folk practices, and cultural creativity through the lens of gender." —Deborah Dash Moore, former Director of the Frankel Center for Judaic Studies and a Frederick G.L. Huetwell Professor of History and Judaic Studies, University of Michigan "The stories speak for themselves, putting Jewish girls and women on the center of the stage, into the limelight, and at the pulpit. By showcasing ritual innovation, they make a point about Judaism's elasticity and women's agency." —Hasia R. Diner, coeditor of Remembering the Lower East Side

**Italy in International Relations** Emidio Diodato 2017-05-30 This book aims to provide an overview of Italian foreign policy from the moment of unification to the establishment of the European Union. Three turning points are crucial in order to clarify Italy's foreign policy: 1861, the proclamation of the Italian Kingdom; 1943, when Italy surrendered in World War II; 1992, the signing of the Maastricht Treaty. The international position of Italy continues to be an enigma for many observers and this fuels misinterpretations and prejudices. This book argues that Italy is different but not divergent from other European countries. Italian elites have traditionally seen foreign policy as an instrument to secure the state and import models for development. Italy can still contribute to international security and the strengthening of the EU. At the same time, Italy is not a pure adaptive country and has always maintained a critical attitude towards the international system in which it is incorporated.

**Yossel Rakover Speaks to God** Zvi Kolitz 1995 There are two stories here. One is the now legendary tale of a defiant Jew's refusal to abandon God, even in the face of the greatest suffering the world has known, a testament of faith that has taken on an unpredictable and fascinating life of its own and has often been thought to be a direct testament from the Holocaust. The parallel story is that of Zvi Kolitz, the true author, whose connection to Yosl Rakover has been obscured over the fifty years since its original appearance. German journalist Paul Badde tells how a young man came to write this classic response to evil, and then was nearly written out of its history. With brief commentaries by French philosopher Emmanuel Levinas and Leon Wieseltier, author of Kaddish, this edition presents a religious classic and the very human story behind it.

**Islam in Europe** Jack Goody 2013-05-08 This vigorously argued book reveals the central role that Islam has played in European history. Following the movement of people, culture and religion from East to West, Goody breaks down the perceived opposition between Islam and Europe, showing Islam to be a part of Europe's past and present. In an historical analysis of religious warfare and forced migration, Goody examines our understanding of legitimate violence, ethnic cleansing and terrorism. His comparative perspective offers important and illuminating insights into current political problems and conflicts. Goody traces three routes of Islam into Europe, following the Arab through North Africa, Spain and Mediterranean Europe; the Turk through Greece and the Balkans; and the Mongol through Southern Russia to Poland and Lithuania. Each thrust made its mark on Europe in terms of population and culture. Yet this was not merely a military impact: especially in Spain, but elsewhere too, Europe was substantially modified by this contact. Today it takes the form of some eleven million immigrants, not to speak of the possible incorporation of further millions through Bosnia, Albania and Turkey.

**The Accidental Guerrilla** David Kilcullen 2011 A Senior Counterinsurgency Advisor to General David Petraeus, Kilcullen's vision of war dramatically influenced America's decision to rethink its military strategy in Iraq. Now, Kilcullen provides a remarkably fresh perspective on the War on Terror.

*Everything You Know is Wrong* Russell Kick 2002

**Prefaces to the Diaphora** Peter Carravetta 1991 The central concern of these eight studies and essays is the understanding and critique of culture at the shifty boundaries between the Modern and the Postmodern epochs. The author contends that what needs to be addressed is the very abyss, the "spacetime" between the Modern and the Postmodern worldviews, as well as the tension between aesthetics and ethics, critical discourse and the creative arts, in an effort to rethink multireferential processes of signification. The keystone of the book is Carravetta's notion of Diaphoristics, a theory of interpretation as dialogue. Diaphora, or difference, refers to the ancient quarrel between poetry and philosophy and signifies the movement between asymmetrical or heterogeneous forms of discourse that have, both historically and speculatively, borne the transfer of meaning from one semantic/hermeneutic field to another. The author focuses on the necessary risk and duplicity of criticism and develops nonagonistic models based on figuration and rhetorical dynamics. In two other chapters, the author steps back to reassess, in terms of the diaphora, the diverging notions of Postmodernity by the continental philosophers Lyotard and Vattimo. The collection ends with an essay on the long-overdue conversation between Vico and Heidegger.

**The Sicilian Mafia** Diego Gambetta 1996-02-01 In a society where trust is in short supply and democracy weak, the Mafia sells protection, a guarantee of safe conduct for parties to commercial transactions. Drawing on the confessions of eight Mafiosi, Diego Gambetta develops an elegant analysis of the economic and political role of the Sicilian Mafia.

**The Struggle to Define a Nation** Marco Demichelis 2017 The present volume analyses the relation between religion and nationalism within the wider context of the so-called "Islamic World" from the first half of twentieth century until the most recent events of the Arab Spring. In particular, the book seeks to investigate the historical significance of this relationship, evaluating and exploring its multidimensional character, with a particular focus on the concepts of the 'nationalization' of religion and 'religious nationalism'. The book comprises chapters from seventeen specialists.

**Mind To Mind** Betty Shine 2011-12-31 Betty Shine is a remarkable woman. Her extraordinary gifts - a clairvoyant ability to diagnose medically, her healing powers and her discovery of 'mind energy' - have made her one

of Britain's foremost healers. Mind to Mind tells her story. Like Betty herself, it is cheerful, down-to-earth and full of humour. It reveals how she became aware of her gifts and how she has used her experiences of mind energy to help others. Illustrated with a wide variety of examples and case histories, this is a uniquely helpful and practical book by a woman whose powers have been a comfort and an inspiration to countless numbers of people.

**Global Trends 2015** Director of Central Intelligence 2005-06-01 Major conferences cosponsored by the NIC with other government and private centers in support of Global Trends 2015 included: Foreign Reactions to the Revolution in Military Affairs (Georgetown University), Evolution of the Nation-State (University of Maryland), Trends in Democratization (CIA and academic experts), American Economic Power (Industry & Trade Strategies, San Francisco, CA), Transformation of Defense Industries (International Institute for Strategic Studies, London, UK), Alternative Futures in War and Conflict (Defense Intelligence Agency and Naval War College, Newport, RI, and CIA), Out of the Box and Into the Future: A Dialogue Between Warfighters and Scientists on Far Future Warfare (Potomac Institute, Arlington, VA), Future Threat Technologies Symposium (MITRE Corporation, McLean, VA), The Global Course of the Information Revolution: Technological Trends (RAND Corporation, Santa Monica, CA), The Global Course of the Information Revolution: Political, Economic, and Social Consequences (RAND Corporation, Santa Monica, CA), The Middle East: The Media, Information Technology, and the Internet (The National Defense University). **Just War in Religion and Politics** Jacob Neusner 2013-04-18 The basis of this collection of essays is the reading of a common topic from different perspectives. Half of the book is devoted to the comparative study of religions and the courses are offered by religion professors. The other half is shaped by social science approaches and the seminars are given mainly by social science professors. We aim to compare and contrast not only positions, but also methods of learning. We examine theories of the just war in diverse cultural contexts and their disciplinary settings. Space is devoted to the study of papers prepared for this project by specialists in various disciplines, mainly but not exclusively faculty of Bard College and the United States Military Academy at West Point.

**Operation Dark Heart** Anthony Shaffer 2010-09-24 On Friday, August 13, 2010, just as St. Martin's Press was readying its initial shipment of this book, the Department of Defense contacted us to express its concern that our publication of Operation Dark Heart could cause damage to U.S. national security. After consulting with our author, we agreed to incorporate some of the government's changes into a revised edition of his book while redacting other text he was told was classified. The newly revised book keeps our national interests secure, but this highly qualified warrior's story is still intact. Shaffer's assessment of successes and failures in Afghanistan remains dramatic, shocking, and crucial reading for anyone concerned about the outcome of the war. "While I do not agree with the edits in many ways, the DoD redactions enhance the reader's understanding by drawing attention to the flawed results created by a disorganized and heavy handed military intelligence bureaucracy." —Lt. Col. Anthony Shaffer Lieutenant Colonel Anthony Shaffer had run intelligence operations for years before he arrived in Afghanistan. He was part of the "dark side of the force"---the shadowy elements of the U.S. government that function outside the bounds of the normal system. His group called themselves the Jedi Knights and pledged to use the dark arts of espionage to protect the country from its enemies. Shaffer's mission to Afghanistan, however, was unlike any he had ever experienced before. There, he led a black-ops team on the forefront of the military efforts to block the Taliban's resurgence. They not only planned complex intelligence operations to beat back the insurgents, but also played a key role in executing those operations---outside the wire. They succeeded in striking at the core of the Taliban and their safe havens across the border in Pakistan. For a moment Shaffer saw us winning the war. Then the military brass got involved. The policies that top officials relied on were hopelessly flawed. Shaffer and his team were forced to sit and watch as the insurgency grew---just across the border in Pakistan. This wasn't the first time he had seen bureaucracy stand in the way of national security. He had participated in Able Danger, the aborted intelligence operation that identified many of the future 9/11 terrorists but failed to pursue them. His attempt to reveal the truth to the 9/11 Commission would not go over well with his higher-ups. Operation Dark Heart tells the story of what really went on--and what went wrong--in Afghanistan. Shaffer witnessed firsthand the tipping point, when what seemed like certain victory turned into failure. Now, in this book, he maps out a way that could put us on the path to winning the war.

**Streetwise** Diego Gambetta 2005-06-30 A taxi driver's life is dangerous work. Picking up a bad customer can leave the driver in a vulnerable position, and erring even once can prove fatal. To protect themselves, taxi drivers must quickly and accurately assess the trustworthiness of complete strangers. In Streetwise, Diego Gambetta and Heather Hamill take this predicament as a prototypical example of many trust decisions, where people must act on limited information and judge another person's trustworthiness based on signs that may or may not be honest indicators of that person's character or intent. Gambetta and Hamill analyze the behavior of cabbies in two cities where driving a taxi is especially perilous: New York City, where drivers have been the targets of frequent and violent robberies, and Belfast, Northern Ireland, a divided metropolis where drivers have been swept up in the region's sectarian violence. Based on in-depth ethnographic research, Streetwise lets drivers describe in their own words how they seek to determine the threat posed by each potential passenger. The drivers' decisions about whom to trust are treated in conjunction with the "sign-management" strategies of their prospective passengers—both genuine passengers who try to persuade drivers of their trustworthiness and the villains who mimic them. As the theory that guides this research suggests, drivers look for signs that correlate closely with trustworthiness but are difficult for an impostor to mimic. A smile, a business suit, or a skullcap alone do not reassure drivers, as any criminal could easily wear them. Only if attached to other signs—a middle-aged woman, a business address, or a synagogue—are they persuasive. Drivers are adept at deciphering deceitful signals, but trickery is occasionally undetectable, so they must adopt defensive strategies to minimize their exposure to harm. In Belfast, where drivers are locals and often have histories of paramilitary involvement, "macho" posturing often serves to deter would-be criminals, while New York cabbies, mostly immigrants who view themselves as outsiders, try simply to minimize the damage from attacks by appeasing robbers and carrying only small amounts of cash. For most people, erring in a trust decision leads to a broken heart or a few dollars lost. For cab drivers, such an error could mean losing their lives. The way drivers negotiate these high stakes offers us vivid insight into how to determine another person's trustworthiness. Written with clarity and color, Streetwise invites the reader to ride shotgun with cabbies as they grapple with a question of relevance to us all: which signs of trustworthiness can we really trust? A Volume in the Russell Sage Foundation Series on Trust

**Engineers of Jihad** Diego Gambetta 2017-11-28 A groundbreaking investigation into why so many Islamic radicals are engineers The violent actions of a few extremists can alter the course of history, yet there persists a yawning gap between the potential impact of these individuals and what we understand about them. In Engineers of Jihad, Diego Gambetta and Steffen Hertog uncover two unexpected facts, which they imaginatively leverage to narrow that gap: they find that a disproportionate share of Islamist radicals come from an engineering background, and that Islamist and right-wing extremism have more in common than either does with left-wing extremism, in which engineers are absent while social scientists and humanities students are prominent. Searching for an explanation, they tackle four general questions about extremism: Under which socioeconomic conditions do people join extremist groups? Does the profile of extremists reflect how they self-select into extremism or how groups recruit them? Does ideology matter in sorting who joins which group? Lastly, is there a mindset susceptible to certain types of extremism? Using rigorous methods and several new datasets, they explain the link between educational discipline and type of radicalism by looking at two key factors: the social mobility (or lack thereof) for engineers in the Muslim world, and a particular mindset seeking order and hierarchy that is found more frequently among engineers. Engineers' presence in some extremist groups and not others, the authors argue, is a proxy for individual traits that may account for the much larger question of selective recruitment to radical activism. Opening up markedly new perspectives on the motivations of political violence, Engineers of Jihad yields unexpected answers about the nature and emergence of extremism.

**Dividing the Domestic** Judith Treas 2010-02-25 In Dividing the Domestic, leading international scholars roll up their sleeves to investigate how culture and country characteristics permeate our households and our

private lives. The book introduces novel frameworks for understanding why the household remains a bastion of traditional gender relations—even when employed full-time, women everywhere still do most of the work around the house, and poor women spend more time on housework than affluent women. Education systems, tax codes, labor laws, public policies, and cultural beliefs about motherhood and marriage all make a difference. Any accounting of "who does what" needs to consider the complicity of trade unions, state arrangements for children's schooling, and new cultural prescriptions for a happy marriage. With its cross-national perspective, this pioneering volume speaks not only to sociologists concerned with gender and family, but also to those interested in scholarship on states, public policy, culture, and social inequality.

Political Disquisitions James Burgh 1774

*The Religious and the Political* Bryan S. Turner 2013-04-18 While the relationships between ethics and religion, and violence and politics, are of enduring interest, the interface between religion and violence is one of the most problematic features of the contemporary world. Following in the tradition of Max Weber's historical and comparative study of religions, this book explores the many ways in which religion and politics are both combined and separated across different world religions and societies. Through a variety of case studies including the monarchy, marriage, law and conversion, Bryan S. Turner explores different manifestations of secularization, and how the separation of church and state is either compromised or abandoned. He considers how different states manage religion in culturally and religiously diverse societies and concludes with a discussion of the contemporary problems facing the liberal theory of freedom of religion. The underlying theoretical issue is the conditions for legitimacy of rule in modern societies experiencing global changes.

Social Networks, Terrorism and Counter-terrorism Martin Bouchard 2015-06-05 This book examines two key themes in terrorism studies, the radicalization process and counter-terrorism policies, through the lens of social networks. The book aims to show that networks should be at the forefront not only when analysing terrorists, but also when assessing the responses to their actions. The volume makes a unique contribution by addressing two relatively new themes for terrorism studies. First it puts social relations and cooperation issues at the forefront - an approach often identified as crucial to future breakthroughs in the field. Second, many contributions tackle the role of the Internet in the process of radicalization and in recruitment more generally, a highly debated topic in the field today. In addition, the book provides a valuable mix of review essays, critical essays, and original empirical studies. This balanced approach is also found in the topics covered by the authors, as well as their academic disciplines, which include sociology, computer science, geography, history, engineering, and criminology as well as political science. Many of the true advances in terrorism studies depend on the successful collaboration of multi-disciplinary teams, each with a different set of methodological and conceptual tools. This volume reflects the newfound diversity in this field and is a true product of its time. This book will be of much interest to students of terrorism studies, social networks, security studies, sociology, criminology and international relations in general.

**America's Prisoner** Manuel Antonio Noriega 1997 Manuel Noriega is the only American prisoner of war. He may be a demon in the eyes of most Americans, but he has a unique and alarming view of the secrets behind U.S. relations with Panama and the real reasons for the 1989 invasion that removed him from power. In this memoir, certain to be one of the most newsworthy and controversial of the year, Noriega describes for the first time his backstage dealings with George Bush, Oliver North, William Casey and the CIA, Jimmy Carter, Fidel Castro and Moammar Gadhafi. But this is more than a deposed strongman's tell-all that some might find hard to believe. Noriega's story was investigated independently by Peter Eisner, a top foreign correspondent who has written about Latin America for twenty years and covered Noriega's fall for Newsday. Eisner's reporting finds support for some of Noriega's assertions and provides additional perspective for others, in his conduct as head of Panama's military, his secret dealings with Cuba on behalf of the CIA, his relations with key U.S. officials, and the unconscionable damage inflicted upon the people of Panama by the U.S. invasion. Moreover, Eisner raises new questions about the allegations that Noriega was a drug dealer and a murderer. In fact, he concludes Noriega is not guilty of these charges. And then there is Noriega himself, a surprisingly savvy military man who saw himself as a nationalist, an honest broker between his allies in U.S. intelligence and his neighboring Latin American leaders. As Noriega tells it, his problems began when he began to resist the Reagan administration's efforts to fight communism in Central America. *America's Prisoner* is one of the most unusual and important accounts ever written about U.S. aggression and duplicity. It is the story of how we have imprisoned a man - and a nation.

**Islam, Secularism, and Liberal Democracy** Nader Hashemi 2009-04-08 Islam's relationship to liberal-democratic politics has emerged as one of the most pressing and contentious issues in international affairs. In *Islam, Secularism, and Liberal Democracy*, Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal-democratic development are structurally incompatible. This book argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy. In the process, it proves that an indigenous theory of Muslim secularism is not only possible, but is a necessary requirement for the advancement of liberal democracy in Muslim societies.

**Putin's Russia: really back?** Aldo Ferrari 2016 Attempts by Washington and Brussels to push Russia to the fringes of global politics because of the Ukrainian crisis seem to have failed. Thanks to its important role in mediating the Iranian nuclear agreement, and to its unexpected military intervention in Syria, Moscow proved once again to be a key player in international politics. However, Russia's recovered assertiveness may represent a challenge to the uncertain leadership of the West. This report aims to gauge Russia's current role in the light of recent developments on the international stage. The overall Russian foreign policy strategy is examined by taking into account its most important issues: Ukraine and the relationship with the West; the Middle East (intervention in Syria, and ongoing relations with Turkey, Iran and Saudi Arabia); the development of the Eurasian Economic Union; the Russian pivot towards Asia, and China in particular. The volume also analyzes if and to what extent Moscow can fulfill its ambitions in a context of falling oil prices and international sanctions.

*What is Sufism?* Martin Lings 1975

*Between Desert and City: The Coptic Orthodox Church Today* Nelly van Doorn-Harder 2012-02-01 Explores the history, theology, and culture of the Coptic Orthodoxy, discussing key figures in the renewal of the church, and examining the role of women within church and society.

The Oral and the Written in Early Islam Gregor Schoeler 2006-09-27 Made up of a number of seminal articles that are translated for the first time in English, this prestigious book from Gregor Schoeler gives a reasoned, informed and comprehensive overview of how the written and the spoken interacted, diverged and received cultural articulation among the Muslim societies of the first two centuries of the Hijra.

Letters Against the War Tiziano Terzani 2002 After 30 years as a war correspondent for a major European magazine, Tiziano Terzani turns into a correspondent against all wars.

A History of the First World War B. H. Liddell Hart 2014-07-31 Liddell Hart's *History of the First World War* first appeared in 1930 and is widely regarded as one of the greatest, most cogent accounts of the conflict ever published. A leading military strategist and historian who fought on the Western Front, Liddell Hart combines astute tactical analysis with compassion for those who lost their lives on the battlefield. He provides a vivid and fascinating picture of all the major campaigns, balancing documentary evidence with the testimony of personal witnesses to expose the mistakes that were made and why. From the political and cultural origins of war to the twists and turns of battle, to the critical decisions that resulted in such devastating losses and to the impact on modern nations, this magnificent history covers four brutal years in one volume and is a true military classic.

*Bringing the State Back In* Peter B. Evans 1985-09-13 Until recently, dominant theoretical paradigms in the comparative social sciences did not highlight states as organizational structures or as potentially autonomous actors. Indeed, the term 'state' was rarely used. Current work, however, increasingly views the state as an agent which, although influenced by the society that surrounds it, also shapes social and political processes. The contributors to this volume, which includes some of the best recent interdisciplinary scholarship on states in relation to social structures, make use of theoretically engaged comparative and historical investigations

to provide improved conceptualizations of states and how they operate. Each of the book's major parts presents a related set of analytical issues about modern states, which are explored in the context of a wide range of times and places, both contemporary and historical, and in developing and advanced-industrial nations. The first part examines state strategies in newly developing countries. The second part analyzes war making and state making in early modern Europe, and discusses states in relation to the post-World War II international economy. The third part pursues new insights into how states influence political cleavages and collective action. In the final chapter, the editors bring together the questions raised by the contributors and suggest tentative conclusions that emerge from an overview of all the articles. As a programmatic work that proposes new directions for the analysis of modern states, the volume will appeal to a wide range of teachers and students of political science, political economy, sociology, history, and anthropology.

*Were They Pushed Or Did They Jump?* Diego Gambetta 2019-03-20 Like few other decisions in life, educational choices must be made by virtually every-one growing up in industrial societies. The consequences of these choices for individual lives are momentous, yet decisions about schooling can be treacherous. They are made during the teen years, at a time when personal preferences are unstable and there is little

**Rethinking Nationalism** Jocelyne Couture 1998 In the last two decades, nationalism has become a multiform and complex phenomenon which no longer seems to correspond to the accounts given previously by sociologists, political scientists and anthropologists. Students of nationalism now face the daunting task of renewing their subject matter. This formidable volume of seventeen essays and an extensive Introduction and Afterword by the very capable editors, contains some of the most innovative samples of present reflection on this contentious subject. Moreover, contributions are from a variety of disciplines, from different parts of the world, often reflecting very different ways of thinking about nationalism and sometimes reflecting very different methodologies, substantive beliefs, and underlying interests.

**Ibn Khaldūn's Philosophy of History** Muhsin Mahdi 2015-10-14 This book, first published in 1957, is the study of 14th-century Arab historian Ibn Khaldun, who founded a special science to consider history and culture, based on the philosophy of Plato and Aristotle and their Muslim followers. In no other field has the revolt of modern Western thought against traditional philosophy been so far-reaching in its consequences as in the field of history. Ibn Khaldun realized that history is more immediately related to action than political philosophy because it studies the actual state of man and society. He found that the ancients had not made history the object of an independent science, and thought it was important to fill this gap. A factual acquaintance with the conclusions of Ibn Khaldun's reflections on history is not the same as the full comprehension of their theoretical significance. When these fundamental questions are answered, it becomes possible to pose the specific question of the relation of Ibn Khaldun's philosophy of history, or his new science of culture, to other practical sciences and, particularly, to the art of history. After an exposition of the major trends of Islamic historiography, part of this book attempts to answer this question through the analysis of the method and intention of the sections of the 'History' where Ibn Khaldun himself examines the works of major Muslim historians, shows the necessity of the new science of culture, and distinguishes it from other practical sciences.

**The Oxford Handbook of the Italian Economy Since Unification** Gianni Toniolo 2013-01-04 This Oxford Handbook provides a fresh overall view and interpretation of the modern economic growth of one of the largest European countries, whose economic history is less known internationally than that of other comparably large and successful economies. It will provide, for the first time, a comprehensive, quantitative "new economic history" of Italy. The handbook offers an interpretation of the main successes and failures of the Italian economy at a macro level, the research--conducted by a large international team of scholars --contains entirely new quantitative results and interpretations, spanning the entire 150-year period since the unification of Italy, on a large number of issues. By providing a comprehensive view of the successes and failures of Italian firms, workers, and policy makers in responding to the challenges of the international business cycle, the book crucially shapes relevant questions on the reasons for the current unsatisfactory response of the Italian economy to the ongoing "second globalization." Most chapters of the handbook are co-authored by both an Italian and a foreign scholar.

**Europe and Islam** Bernard Lewis 2007 This pamphlet is the 2007 Irving Kristol Lecture, delivered at the annual dinner of the American Enterprise Institute for Public Policy Research in Washington, D.C., on March 7, 2007. The 2007 Kristol Award was presented to Bernard Lewis, the Cleveland E. Dodge Professor of Near Eastern Studies Emeritus at Princeton University, and long the free world's preeminent student and interpreter of Islam, the Ottoman Empire, and the modern Middle East. The Irving Kristol Award, named for the eminent author and intellectual and longtime AEI senior fellow, is the Institute's highest honor, bestowed annually by its Council of Academic Advisers.

**Studies in Religious Fundamentalism** Lionel Caplan 1987-01-01 This book examines the specific circumstances that nurture fundamentalist beliefs and practices. It studies contemporary fundamentalist developments in several continents, involving groups associated with five major religions. The authors answer important questions regarding the [rationality] of fundamentalism, its complex link with modernism, the nature of its relationship to a sacred text, and its perspectives on history and knowledge. No fixed set of qualities defines fundamentalism. Since it implies a view of the universe and a discourse about the nature of truth, it encompasses and transcends the religious domain. For that reason, every movement or cause is potentially fundamentalist.

**The Castle on the Hudson** Renato Cantore 2017-07-25T00:00:00+02:00 Charles Paterno was seven when he left Castelmezzano, a small mountain town in Basilicata to set sail on one of the rattletrap ships headed to America. Thirty years later he was one of the top builders in New York City, among the first to construct the skyscrapers that would form the world's most famous skyline. Intelligence, brilliance, intuition and an ability to stay ahead of the times made him a leading figure in the life of Manhattan. He created garden communities, focused on new technologies and turned to the best architects. Paterno didn't just want to offer houses, but new lifestyles to tens of thousands of people. His first American dream looked like a white castle at the northernmost tip of Manhattan, where he lived for years with his wife and son, surrounded by a small but very loyal retinue. A friend of Giuseppe Prezzolini, he donated a library of 20,000 books, the Paterno Library, to the Casa Italiana at Columbia University. Fiorello La Guardia, the Italian-American mayor of New York City, called him a genius. Born into poverty, Paterno died a wealthy man on the green of the most exclusive country club in Westchester.

**Cultural Hegemony in a Scientific World** 2020-12-07 A comprehensive survey of how scientific disciplines have always been informed by politics and ideology on the basis of the Gramscian views in historical materialism, hegemony and civil society.
