Formula 1 Car by Car 1990-99 Peter Higham 2021-05-18 The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World Champion five times. Much of the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 1 1/2-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrolled the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's future when Jack Brabham became World Champion (1959).

Addressing Challenging Moments in Psychotherapy Jerome S. Gans 2021-09-30 "This practical and helpful volume details how clinicians can work through various and common challenges inherent to

psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

The Bigger They Come A. A. Fair 1952 Meet Donald Lam, he's a private detective or at least, he is by the end of the book. A more unlikely looking P.I. you'll never meet, as he is constantly reminded. At 5 and a half feet tall and 127 pounds, he's simply not intimidating at all. But what he lacks in brawn he more than makes up for in brains, a fact that is not lost on his new employer, Bertha Cool of the B.L. Cool Agency, was sharp enough to spot. Now, Bertha Cool is also not the most likely head figure of a detective agency, although physically impressive she most certainly is. She's sixty-something with grey hair, sparkling eyes and a grandmotherly expression. She weighs in at over 300 pounds and is described as having the majesty of a snow capped mountain and the assurance of a steamroller. When Lam gets the job he is put to work immediately because if there's one thing Bertha Cool believes in it's getting her money's worth. His first job is to serve divorce papers on Morgan Birks, husband of Sandra Birks who claims he has been abusing her. It seems a straightforward enough job, and it is. But it's only after the papers have been served that the real fireworks begin. It's in the moments of confusion that quickly follow a seemingly successful job that Lam's genius is uncovered as he works his way through deduction after deduction and then comes up with a brilliant solution that is as impressive in its cunning as it is in its simplicity. As the first book of a series of 29, it provides a terrific start combining an interesting duo with a clever mystery. With the promise of many more such stories to follow, it's bound to leave you begging for more.
