**Stand Out** Dorie Clark 2015-04-21 Standing out is no longer optional Too many people believe that if they keep their heads down and work hard, they'll be recognized on the merits of their work. But that's simply not true anymore. "Safe" jobs disappear daily, and the clamor of everyday life drowns out ordinary contributions. To make a name for yourself, to create true job security, and to make a difference in the world, you have to share your unique perspective and inspire others to take action. But in a noisy world where it seems everything's been said—and shouted from the rooftops—how can your ideas stand out? Fortunately, you don't have to be a genius or a worldwide superstar to make an impact. Drawing on interviews with more than fifty thought leaders in fields ranging from business to genomics to urban planning, Dorie Clark shows how these masters achieved success and how anyone—with hard work—can do the same. Whether it's learning to ask the right questions, developing and building on an expert niche, or combining disparate fields to get a new perspective, Clark outlines ways to develop the ideas that set you apart. Of course, having a breakthrough insight is only half the battle. If you really want to share your ideas, you have to find a way to build an audience, communicate your message, and inspire others to embrace your vision. Starting small is fine; Clark provides a step-by-step guide to help you leverage your existing networks, attract new

people to your cause, and, ultimately, build a community around your ideas. Featuring vivid examples based on interviews with influencers such as Seth Godin, David Allen, and Daniel Pink, Clark shows you how to break through and ensure that your ideas get noticed. Becoming a thought leader in your company or in your profession is the ultimate career insurance. But—even more important—it's also a chance to change the world for the better. Whatever your cause, perspective, or point of view, the world can't afford for the best ideas to remain buried inside you. Whether it's how to improve the educational system or how to make your company more efficient, your ideas matter. The world needs your insights, and it's time to be bold.

**Hooked** Nir Eyal 2014-11-04 Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive "hook cycles," these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal's years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

**No Rules Rules** Reed Hastings 2020-09-08 The New York Times bestseller Shortlisted for the 2020 Financial Times & McKinsey Business Book of the Year Netflix cofounder Reed Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative, imaginative, and successful companies There has never before been a company like Netflix. It has led nothing short of a revolution in the entertainment industries, generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries. But to reach these great heights, Netflix, which launched in 1998 as an online DVD rental service, has had to reinvent itself over and over again. This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning. Hastings rejected the conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility, one that has allowed Netflix to adapt and innovate as the needs of its members and the world have simultaneously transformed. Hastings set new standards, valuing people over

process, emphasizing innovation over efficiency, and giving employees context, not controls. At Netflix, there are no vacation or expense policies. At Netflix, adequate performance gets a generous severance, and hard work is irrelevant. At Netflix, you don't try to please your boss, you give candid feedback instead. At Netflix, employees don't need approval, and the company pays top of market. When Hastings and his team first devised these unorthodox principles, the implications were unknown and untested. But in just a short period, their methods led to unparalleled speed and boldness, as Netflix quickly became one of the most loved brands in the world. Here for the first time, Hastings and Erin Meyer, bestselling author of *The Culture Map* and one of the world's most influential business thinkers, dive deep into the controversial ideologies at the heart of the Netflix psyche, which have generated results that are the envy of the business world. Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never-before-told stories of trial and error from Hastings's own career, *No Rules Rules* is the fascinating and untold account of the philosophy behind one of the world's most innovative, imaginative, and successful companies.

**The Marketer's Handbook** Laurie Young 2011-04-22 This book, written by a senior marketer with over thirty years experience of using marketing techniques and concepts, sets out to describe, contextualize and rate them. Its prime emphasis is on understanding their status so that they can be used to direct the use of shareholder funds effectively. Its conclusion is that seasoned professionals must use their judgement about when and how to use them, but they also need to understand them in depth if they are going to make well-rounded, effective investment decisions. Above all it asks: "how useful and relevant is this concept? Will it improve decision making? Does the damn thing have any credibility and does it work?" "This book combines a rigorous review of a wide range of marketing concepts with many practical examples and case studies. It can be read or dipped into

both by seasoned professionals and by those just embarking on their marketing career.” Sir Paul Judge, President, Chartered Institute of Marketing “Laurie Young casts an experienced and skeptical eye on many cherished marketing concepts and techniques. He provides an antidote to the tendency to adopt them without understanding their limitations and possibilities.” Professor George Day, The Wharton School, Chairman of the American Marketing Association “Laurie Young has produced nothing less than the A-Z of marketing. He has journeyed far and wide mapping out hundreds of business, marketing and communications models to produce an extremely useful industry atlas. Certainly it will find a well-thumbed home on my bookshelf.” Hamish Pringle, Director General, Institute of Practitioners in Advertising “This book is much needed by marketing. Its value is in challenging concepts, some of which have been the accepted norm for a long time. But as this book shows, some of these may no longer be relevant and appropriate for marketers in today’s consumer environment.” Mike Johnston, CEO, Dairy Council of Northern Ireland and former Chairman of the Chartered Institute of Marketing “Senior marketers, like those who make up the membership of the Marketing Society, hone the methods and techniques they favour as their career develops. Laurie Young clearly did that and an experienced voice shines through this critique. It is heartening to find that so many concepts have a long history of producing real value for businesses but alarming to find so many of the theorists’ favourites to be so groundless.” Hugh Burkitt, CEO, The Marketing Society
