[Being Heumann Large Print Edition](#) Judith Heumann 2020-02-25 A Publishers Weekly Best Book of the Year for Nonfiction "...an essential and engaging look at recent disability history."— Buzzfeed One of the most influential disability rights activists in US history tells her personal story of fighting for the right to receive an education, have a job, and just be human. A story of fighting to belong in a world that wasn't built for all of us and of one woman's activism—from the streets of Brooklyn and San Francisco to inside the halls of Washington—Being Heumann recounts Judy Heumann's lifelong battle to achieve respect, acceptance, and inclusion in society. Paralyzed from polio at eighteen months, Judy's struggle for equality began early in life. From fighting to attend grade school after being described as a "fire hazard" to later winning a lawsuit against the New York City school system for denying her a teacher's license because of her paralysis, Judy's actions set a precedent that fundamentally improved rights for disabled people. As a young woman, Judy rolled her wheelchair through the doors of the US Department of Health, Education, and Welfare in San Francisco as a leader of the Section 504 Sit-In, the longest takeover of a governmental building in US history. Working with a community of over 150 disabled activists and allies, Judy successfully pressured the Carter administration to implement protections for disabled peoples' rights, sparking a national movement and leading to the creation of the Americans with Disabilities Act. Candid, intimate, and irreverent, Judy Heumann's memoir about resistance to exclusion invites readers to imagine and make real a world in which we all belong.

Computer-Based Horse Race Handicapping and Wagering Systems Bill Benter 2020-02-14 The Gambler Who Cracked the Horse-Racing Code Bill Benter did the impossible: He wrote an algorithm that couldn't lose at the track. Close to a billion dollars later, he tells his system. This book examines the elements necessary for a practical and successful computerized horse race handicapping and wagering system. Data requirements, handicapping model development, wagering strategy, and feasibility are addressed. A logit-based technique and a corresponding heuristic measure of improvement are described for combining a fundamental handicapping model with the public's implied probability estimates. The author reports significant positive results in five years of actual implementation of such a system. This result can be interpreted as evidence of inefficiency in pari-mutuel racetrack wagering. This paper aims to emphasize those aspects of computer handicapping which the author has found most important in

practical application of such a system. Also included the Bill Benter "What Are My Odds?" Presentation at ICCM in 2004.

Wonder, Horror, Mystery Morgan Meis 2021-12-22 *Wonder, Horror, Mystery* is a dialogue between two friends, both notable arts critics, that takes the form of a series of letters about movies and religion. One of the friends, J.M. Tyree, is a film critic, creative writer, and agnostic, while the other, Morgan Meis, is a philosophy PhD, art critic, and practicing Catholic. The question of cinema is raised here in a spirit of friendly friction that binds the personal with the critical and the spiritual. What is film? What's it for? What does it do? Why do we so intensely love or hate films that dare to broach the subjects of the divine and the diabolical? These questions stimulate further thoughts about life, meaning, philosophy, absurdity, friendship, tragedy, humor, death, and God. The letters focus on three filmmakers who challenged secular assumptions in the late 20th century and early 21st century through various modes of cinematic re-enchantment: Terrence Malick, Lars von Trier, and Krzysztof Kieślowski. The book works backwards in time, giving intensive analysis to Malick's *To The Wonder* (2012), Von Trier's *Antichrist* (2009), and Kieślowski's *Dekalog* (1988), respectively, in each of the book's three sections. Meis and Tyree discuss the filmmakers and films as well as related ideas about philosophy, theology, and film theory in an accessible but illuminating way. The discussion ranges from the shamelessly intellectual to the embarrassingly personal. Spoiler alert: No conclusions are reached either about God or the movies. Nonetheless, it is a fun ride.

The Army Medical Department Mary C. Gillett 2015-08-17 The second in a projected four-volume series that will cover the history of the Army Medical Department from 1775 to 1941, this volume traces the development of the department from its establishment on a permanent basis in 1818 through the final days of the Civil War in 1865. The uninterrupted existence of the Medical Department after 1818 made possible the gradual transformation of its staff from a collection of physicians of varying skills and attitudes into a group of highly trained and disciplined medical officers, proud of their organization and of their roles in it. Although the state of the art of medicine before 1865 gave the military surgeon few effective weapons against stillness and infection, after 1818, as this most recent volume in the series demonstrates, the length of the military career of the average medical officer and his professional attitude toward the challenges he met led him to concentrate his efforts on the Army's health problems and to work persistently to improvise ways in which to meet them. The Army Medical Department, 1818-1865 is, like its predecessor, a significant and long-needed contribution to the history of military medicine.

Florence Adler Swims Forever Rachel Beanland 2020-07-07 “The perfect summer read” (USA TODAY) begins with a shocking tragedy that results in three generations of the Adler family grappling with heartbreak, romance, and the weight of family secrets over the course of one summer. *A New York Times Book Review Editors’ Choice * One of USA TODAY’s “Best Books of 2020” * One of Good Morning America’s “25 Novels You’ll Want to Read This Summer” * One of Parade’s “26 Best Books to Read This Summer” Atlantic City, 1934. Every summer, Esther and Joseph Adler rent their house out to vacationers escaping to “America’s Playground” and move into the small apartment above their bakery. Despite the cramped quarters, this is the apartment where they raised their two daughters, Fannie and Florence, and it always feels like home. Now, Florence has returned from college, determined to spend the summer training to swim the English Channel, and Fannie, pregnant again after recently losing a baby, is on bedrest for the duration of her pregnancy. After Joseph insists they take in a mysterious young woman whom he recently helped emigrate from Nazi Germany, the apartment is bursting at the seams. Esther only wants to keep her daughters close and safe but some matters are beyond her control: there’s Fannie’s risky pregnancy—not to mention her always-scheming husband, Isaac—and the fact that the handsome heir of a hotel notorious for its anti-Semitic policies, seems to be in love with Florence. When tragedy strikes, Esther makes the shocking decision to hide the truth—at least until Fannie’s baby is born—and pulls the family into an elaborate web of secret-keeping and lies, bringing long-buried tensions to the surface that reveal how quickly the act of protecting those we love can turn into betrayal. “Readers of Emma Straub and Curtis Sittenfeld will devour this richly drawn debut family saga” (Library Journal) that’s based on a true story and is a breathtaking portrayal of how the human spirit can endure—and even thrive—after tragedy.

A Psalm for the Wild-Built Becky Chambers 2021-07-13 Winner of the Hugo Award! In *A Psalm for the Wild-Built*, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of "what do people need?" is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? Cold Enough for Snow Jessica Au 2022-02-15 Winner of the inaugural Novel Prize, an elegant and subtle exploration of the mysteries of our relationships to others A mother and daughter travel from abroad to meet in Tokyo: they walk along the canals through the autumn evenings, escape the typhoon rains, share meals in small cafes and restaurants, and visit galleries to see some of the city's most radical modern art. All the while, they talk: about the weather, horoscopes, clothes, and objects, about family, distance, and memory. But uncertainties abound. Who is really speaking here—is it only the daughter? And what is the real reason behind this elliptical, perhaps even spectral journey? At once a careful reckoning and an elegy, *Cold Enough for Snow* questions whether any of us speak a common language, which dimensions can contain love, and what claim we have to truly know another's inner world. Selected from more than 1,500 entries, *Cold Enough for Snow* won the Novel Prize, a new, biennial award offered by New Directions, Fitzcarraldo Editions (UK), and Giramondo (Australia), for any novel written in English that explores and expands the possibilities of the form.

The Kitchen Front Jennifer Ryan 2021-02-23 From the bestselling author of *The Chilbury Ladies' Choir* comes an unforgettable novel of a BBC-sponsored wartime cooking competition and the four women who enter for a chance to better their lives. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY GOOD HOUSEKEEPING • "This story had me so hooked, I literally couldn't put it down."—NPR Two years into World War II, Britain is feeling her losses: The Nazis have won battles, the Blitz has destroyed cities, and U-boats have cut off the supply of food. In an effort to help housewives with food rationing, a BBC radio program called *The Kitchen Front* is holding a cooking contest—and the grand prize is a job as the program's first-ever female co-host. For four very different women, winning the competition would present a crucial chance to change their lives. For a young widow, it's a chance to pay off her husband's debts and keep a roof over her children's heads. For a kitchen maid, it's a chance to leave servitude and find freedom. For a lady of the manor, it's a chance to escape her wealthy husband's increasingly hostile behavior. And for a trained chef, it's a chance to challenge the men at the top of her profession. These four women are giving the competition their all—even if that sometimes means bending the rules. But with so much at stake, will the contest that aims to bring the community together only serve to break it apart?

William Golding's Lord of the Flies Harold Bloom 2010 Discusses the writing of *Lord of the Flies* by William Golding. Includes critical essays on the work and a brief biography of the author.

Shift Hugh Howey 2016 In 2007, the Center for Automation in Nanobiotech (CAN) outlined the hardware and software platforms that would one day allow robots smaller than human cells to make medical diagnoses, conduct repairs, and even self-propagate. In the same year, the CBS network re-aired a program about the effects of propranolol on sufferers of extreme trauma. A simple pill, it had been discovered, could wipe out the memory of any traumatic event. At almost the same moment in humanity's broad history, mankind discovered the means for bringing about its utter downfall. And the ability to forget it ever happened. This is the second volume in the New York Times best-selling Wool series.
