**The Man in the Window** K. O. Dahl 2009-03-31 A cryptic murder resurrects dark memories of past atrocities in this latest mystery from the master of Norwegian crime writing. Award-winning author K. O. Dahl received international acclaim for his gripping debut thriller, *The Fourth Man*, which introduced readers to Detective Inspector Frank Frølich and Detective Chief Inspector Gunnarstranda. Now the Oslo detectives are back. It's Friday the thirteenth, the Norwegian capital is enveloped in freezing cold, and Reidar Folke Jespersen passes what will be the last day of his life. The aging antique dealer leaves home and takes a taxi to a nearby café. A few hours later, through the window of the café, he watches his wife enter the door to a flat on the other side of the street, where her lover lives. In the early hours of the following morning, Jespersen is found stabbed to death, sitting naked in an armchair in the display window of his antique shop. Detectives Frølich and Gunnarstranda are called to the scene. Their only clues are a numerical combination written in ink on the body of the dead man, a red string tied around his neck, a few missing World War II objects, and a number of people extremely satisfied with the news of the man's death. Questions of love and betrayal, loyalty and guilt consume the investigation, just as they fill the private lives of the investigators. K. O. Dahl's dark and poetic writing moves through the shadows of one country's history---a country where victims, perpetrators, and even police officers are haunted by the past, still trying to cope with dark memories of the Nazi occupation. *The Man in the Window*, the second installment in Dahl's Oslo police mysteries, is an intricate and chilling detective story about love, revenge, and the inescapable past.

**Lectures on Shakespeare** W. H. Auden 2019-10-08 From one of the great modern writers, the acclaimed lectures in which he draws on a lifetime of experience to take the measure of Shakespeare's plays and sonnets "W. H. Auden, poet and critic, will conduct a course on Shakespeare at the New School for Social Research beginning Wednesday. Mr. Auden . . . proposes to read all Shakespeare's plays in chronological order." So the New York Times reported on September 27, 1946, giving notice of a rare opportunity to hear one of the century's great poets discuss at length one of the greatest writers of all time. Reconstructed by Arthur Kirsch, these lectures offer remarkable insights into Shakespeare's plays and sonnets while also adding immeasurably to our understanding of Auden.

This authoritative yet accessible study begins with an overview of the aesthetics, meanings, functions, and techniques of Mesoamerican architecture, and then proceeds to survey the historical development of the builder's art in each of the region's cultural areas. As readers travel from the the Maya heartland of Guatemala and the Yucatan to the Aztec stronghold of the Valley of Mexico, and all the way to the northern hinterlands of Mesoamerica, they will gain an appreciation of both the unity and the diversity of the region's architecture. The concluding chapter is devoted to the descriptions of architecture that have survived in Mayan and Aztec texts; it includes a unique and valuable glossary of the relevant glyphs. The main text is illustrated with color photographs of the spectacular remains of pyramids, palaces, and plazas, while a scholarly appendix presents maps, plans, and drawings of the most important sites and structures.

**Polis** Mogens Herman Hansen 2006-10-05 An accessible introduction to the polis (plural: poleis), or ancient Greek city-state. **Jeremias Held - 'Liber Emblematum' (Frankfurt-Am-Main 1566)** Andrea Alciati 2007 This work by Jeremias Held (Henry Green, no. 74) is the second German translation of the emblems of Andrea Alciato, who is rightfully known as pater et princeps of the emblem. The first German translation was written by Wolfgang Hunger and published by Chrestien Wechel in a bilingual Latin-German edition in Paris in 1542. Held's version, printed in 1566 and 1580, has never before been offered in its entirety in a modern reprint. It, too, is a bilingual edition with the Latin texts followed by Held's German version. Jeremias Held produced this, the second German translation, which appeared in a 1566 and a 1580 edition. The 1566 edition was printed in Frankfurt-am-Main by Georg Raben for Simon Huter and Sigmund Feyerabend. The colophon is dated 1567. Held's version contains 132 woodcuts in text to Alciato's 212 emblems, and they are numbered i-ccxvii. The numbering of the emblems has caused some confusion. Henry Green (190) hastily called the number 217 a misprint, but it is not. The number 217 is correct and derives from the separate numbering of the alternative versions of the epigrams, which Alciato had labeled aliud, to four of the emblems. Held's written German is simple and colloquial. In fact it is sloppy. In matters of orthography, we cannot know if the typesetting accurately represents his intentions, but it probably does.

**Atlas of Cities** Paul Knox 2022-01-11 A unique, stunningly illustrated look at the origins, development, and future prospects of cities More than half the world's population lives in cities, and that proportion is expected to rise to three-quarters by 2050. Urbanization is a global phenomenon, but the way cities are developing, the experience of city life, and the prospects for the future of cities vary widely from region to region. The *Atlas of Cities* presents a unique taxonomy of cities that looks at different aspects of their physical, economic, social, and political structures; their interactions with each other and with their hinterlands; the challenges and opportunities they present; and where cities might be going in the future. Each chapter explores a particular type of city—from the foundational cities of Greece and Rome and the networked cities of the Hanseatic League, through the nineteenth-century modernization of Paris and the industrialization of Manchester, to the green and "smart" cities of today. Expert contributors explore how the development of these cities reflects one or more of the common themes of urban development: the mobilizing function (transport, communication, and infrastructure); the generative function (innovation and technology); the decision-making capacity (governance, economics, and institutions); and the transformative capacity (society, lifestyle, and culture). Using stunning info-graphics, maps, charts, tables, and photographs, the *Atlas of Cities* is a comprehensive overview of the patterns of production, consumption, generation, and decay of the twenty-first century's defining form. Presents a one-of-a-kind taxonomy of cities that looks at their origins, development, and future prospects Features core case studies of particular types of cities, from the foundational cities of Greece and Rome to the "smart" cities of today Explores common themes of urban development, from transport and communication to lifestyle and culture Includes stunning info-graphics, maps, charts, tables, and photos Cities Featured: Abuja, Alexandria, Amsterdam, Athens, Augsburg, Babylon, Beijing, Berlin, Brasilia, Bruges, Budapest, Cairo, Canberra, Chandigarh, Chicago, Constantinople, Curitiba, Detroit, Dubai, Dublin, Düsseldorf, Florence, Frankfurt, Freiburg, Geneva, Ghent, Glasgow, Güssing, Hong Kong, Innsbruck, Istanbul, Jakarta, Karachi, Knossos, Las Vegas, London, Los Angeles, Lübeck, Manchester, Marseille, Masdar City, Mexico City, Miami,

European Art of the Fifteenth Century Stefano Zuffi 2005 Influenced by a revival of interest in Greco-Roman ideals and sponsored by a newly prosperous merchant class, fifteenth-century artists produced works of astonishingly innovative content and technique. The International Gothic style of painting, still popular at the beginning of the century, was giving way to the influence of Early Netherlandish Flemish masters such as Jan van Eyck, who emphasized narrative and the complex use of light for symbolic meaning. Patrons favored paintings in oil and on wooden panels for works ranging from large, hinged altarpieces to small, increasingly lifelike portraits. In the Italian city-states of Florence, Venice, and Mantua, artists and architects alike perfected existing techniques and developed new ones. The painter Masaccio mastered linear perspective; the sculptor Donatello produced anatomically correct but idealized figures such as his bronze nude of David; and the brilliant architect and engineer Brunelleschi integrated Gothic and Renaissance elements to build the self-supporting dome of the Florence Cathedral. This beautifully illustrated guide analyzes the most important people, places, and concepts of this early Renaissance period, whose explosion of creativity was to spread throughout Europe in the sixteenth century

Political Ideas in the Romantic Age Isaiah Berlin 2014-05-25 This new edition features the previously unpublished delivery text of Berlin's inaugural lecture as a professor at Oxford, which derives from this volume and stands as the briefest and most pithy version of his famous essay "Two Concepts of Liberty." *Political Ideas in the Romantic Age* is the only book in which the great intellectual historian Isaiah Berlin lays out in one continuous account most of his key insights about the period he made his own. Written for a series of lectures at Bryn Mawr College in 1952, and heavily revised and expanded by Berlin afterward, the book argues that the political ideas of 1760-1830 are still largely ours, down to the language and metaphors they are expressed in. Berlin provides a vivid account of some of the era's most influential thinkers, including Rousseau, Fichte, Hegel, Helvetius, Condorcet, Saint-Simon, and Schelling. Written in Berlin's characteristically accessible style, this is his longest single text. Distilling his formative early work and containing much that is not to be found in his famous essays, the book is of great interest both for what it reveals about the continuing influence of Romantic political thinking and for what it shows about the development of Berlin's own influential thought. The book has been carefully prepared by Berlin's longtime editor Henry Hardy, and Joshua L. Cherniss provides an illuminating introduction that sets it in the context of Berlin's life and work.

The Day Nina Simone Stopped Singing Darina Al-Joundi 2011-03-15 The Homeland actress's "recollections of her unconventional youth in war-torn Beirut are heartbreaking yet humorous . . . in this unique" memoir (Publishers Weekly). Raised in 1970s Lebanon on Charles Baudelaire, *A Clockwork Orange*, and fine Bordeaux, Darina Al-Joundi was encouraged by her unconventional father to defy all taboos. She spent her adolescence defying death in Beirut nightclubs as bombs fell across the city. The more oppressive the country became, the more drugs and anonymous sex she had, fueling the resentment directed at her daily by the same men who would spend the night with her. As the war dies down, she begins to incur the consequences of her lifestyle. On his deathbed, her father's last wish is for his favorite song, "Sinnerman" by Nina Simone, to be played at his funeral instead of the traditional suras of the Koran. When she does just that, the final act of defiance elicits a catastrophic response from her surviving family members. In this dramatic true story, Darina Al-Joundi is defiantly passionate about living her life as a liberated woman, even if it means leaving everyone and everything behind in this "beautifully taut and relentlessly unemotional" memoir (Kirkus).

**The Enchantment of Gardens** Ruth Ammann 2008 Ancient wisdom tells us that gardens have a healing, nourishing effect on the human soul and body. The garden belongs to the great archetype of life and is one of the few big archetypal images that are experienced primarily as positive. This positive experience is significant because the garden is a part of the natural and cultural human environment, and thus, is particularly influential in the interaction between human beings and their environment.

**Meglio un cane** Gian Piero Quaglino 2016-08-07T00:00:00+02:00 Si dice che il cane sia il migliore amico dell'uomo. Si potrebbe aggiungere che ci sono molte cose che un cane sa fare, per l'uomo, anche meglio di lui. Per esempio stargli vicino, volergli bene, consolarlo, essergli fedele. Parlargli no, ma certi sguardi del cane valgono a volte più di mille parole. Per questo non si è mai soli con un cane, non si è mai abbandonati al proprio destino. Ecco dunque un piccolo omaggio al cane attraverso una raccolta di storie che ci arrivano dal grande mondo dei miti, dei racconti e delle poesie. Un mosaico di voci che narrano del legame antichissimo tra l'uomo e il cane e che ci parlano di come quella storia sia cominciata e del perché non finirà mai.

**The Character of Cats** Stephen Budiansky 2003

**The Character of Cats** Stephen Budiansky 2015-10-22 Unlike every other domestic animal, the cat evolved as a solitary animal, not a group-dweller. A cat in a household is almost literally a fish out of water. That cats can nonetheless get along with people and (sometimes) other cats when forced to, is testimony to a remarkable adaptability. But it also makes for an extraordinary range of behaviours. Cats have for years been the subjects of intensive research in the fields of developmental psychology, learning, emotions, brain chemistry, and perception. *THE CHARACTER OF CATS* is the first popular book to bring this knowledge to bear on the behaviour and nature of cats. Budiansky enables us to see that many of the things that puzzle and at times baffle or even infuriate cat owners have a rational - though often very surprising - explanation in science.

**A Different Sea** Claudio Magris 2011-05-31 Early this century Enrico, a young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

The Mission of the Prophets Adrienne Von Speyr 2012-05-04 Adrienne von Speyr, whom Hans Urs von Balthasar credits with having an incalculable influence on his own writing, examines the mission of thirty-four figures in salvation history, from Abraham, through Moses, David, Elijah, and Isaiah, to the New Testament era and Our Lady. Mission is central to Christian life, and if we are to do justice to what God chooses for us, we can profit from looking at the chosen ones in scripture and seeing how they accepted their callings and lived out a life of service. Adrienne's contemplation on these unique missions helps us to open ourselves and respond to the call of God in our own lives.

**The Secret Power of Beauty** John Armstrong 2004 'The love of beauty involves a yearning which is not - and perhaps cannot be - fulfilled. For at the core of beauty is a conception of how we would like life to be and yet we know that life cannot be that way.' The notion of beauty is elusive- we love the things we find beautiful, and yet we are inarticulate when we try to communicate this love or describe its essence. There are people, works of art and places that are universally regarded as beautiful; but we also recognize the personal, individual character of our feel for beauty. In this lucid and lyrical exploration John Armstrong aims to deepen our response to beauty. And, he suggests, our capacity to discover and create beauty in everyday life is intimately connected to the pursuit of happiness.

Europe in the Sixteenth Century H.G. Koenigsberger 2014-06-06 This bestselling, seminal book - a general survey of Europe in the era of 'Renaissance and Reformation' - was originally published in Denys Hay's famous Series, 'A General History of Europe'. It looks at sixteenth-century Europe as a complex but interconnected whole, rather than as a mosaic of separate states. The authors explore its different aspects through the various political structures of the age - empires, monarchies, city-republics - and how they functioned and related to one another. A strength of the book remains the space it devotes to the growing importance of town-life in the sixteenth century, and to the economic background of political change.

Solitude Creek Jeffery Deaver 2015-05-12 "One of Deaver's most diabolical villains." - New York Times Book Review "Deaver is the most creative, skilled, and intriguing thriller writer in the world." - Daily Telegraph A tragedy occurs at a small concert venue on the Monterey Peninsula. Cries of "fire" are raised and, panicked, people run for the doors, only to find them blocked. A half dozen people die and others are seriously injured. But it's the panic and the stampede that killed them; there was no fire. Kathryn Dance--a brilliant California Bureau of Investigation agent and body language expert--discovers that the stampede was caused intentionally and that the perpetrator, a man obsessed with turning people's own fears and greed into weapons, has more attacks planned. She and her team must race against the clock to find where he will strike next before more innocents die.

**Jungian Perspectives** Luigi Aurigemma 2008 The first appearance of renowned Jungian Luigi Aurigemma's works in English, Jungian Perspectives explores the timeless questions that have long fascinated psychologists. In a series of essays written over a twenty year period--which nonetheless retain all their freshness today--Aurigemma's writings echo man's search for meaning and for understanding in a world limited by the human condition. This far-reaching overview of Jung's work includes discussions of suffering and evil, sublimation, dreams and visions, the spiritual dimension, death, and the mystical experience of the Void.

**The Reformation of the Sixteenth Century** Roland Bainton 1985-09-30 Bainton presents the many strands that made up the Reformation in a single, brilliantly coherent account. He discusses the background for Luther's irreparable breach with the Church and its ramifications for 16th Century Europe, giving thorough accounts of the Diet of Worms, the institution of the Holy Commonwealth of Geneva, Henry VIII's break with Rome, and William the Silent's struggle for Dutch independence.

**On Aging** Jean Améry 1994 On Aging, the first of Jean Améry's books after At the Mind's Limits, is a powerful and profound work on the process of aging and the limited but real defenses available to those experiencing the process. Each essay covers a set of issues about growing old. "'Existence and the Passage of Time'" focuses on the way aging makes the old progressively see time as the essence of their existence. "'Stranger to Oneself'" is a meditation on the ways the aging are alienated from themselves. "'The Look of Others'" treats social aging - the realization that it is no longer possible to live according to one's potential or possibilities. "'Not to Understand the World Anymore'" deals with the loss of the ability to understand new developments in the arts and in the changing values of society. The fifth essay, "'To Live with Dying,'" argues that everyone compromises with death in old age (the time in life when we feel the death that is in us). Here Améry's intention, as encapsulated by John D. Barlow, becomes most clear: "'to disturb easy and cheap compromises and to urge his readers to their own individual acts of defiance and acceptance.'"
