Medicine Science and Dreams David A. Schwartz 2010-10-17 Physician-scientists are unusual creatures. While we are drawn to the clinical challenges of our patients, we are also drawn to the opportunities that our patients' medical problems bring to science. This book contains the unique experiences and encounters that drew 20 accomplished physician-scientists to this profession. These personal stories are those of people and circumstances that have had profound effects on our career decisions, our creative opportunities, and our lives. These stories also serve to highlight the lessons learned along the way and the distinct attributes of these women and men of medicine and science. Our combined hope is that our collective biographies will enhance the public understanding of our profession, will move people from medicine to science and from science to medicine, and will inspire those who are contemplating this extraordinary profession. "It is a rare gift to benefit from the collective wisdom of so many individuals at the same time. These physician scientists have provided readers with helpful advice and thoughtful encouragement. The interesting and thought provoking essays in *Medicine Science and Dreams* can be read and digested one at a time or all at once in sequence. They provide lessons to be learned by any physician-scientist, whether just starting out or in the middle of a research career. Schwartz has done readers a great service and has added to the legacy of these prominent and successful physician-scientists." Book review in JAMA, September 7, 2011—Vol 306, No. 9 by Derek S. Wheeler, MD

One Woman in a Hundred Mary Sue Welsh 2014-01-02 Gifted harpist Edna Phillips (1907-2003) joined the Philadelphia Orchestra in 1930, becoming not only that ensemble's first female member but also the first woman to hold a principal position in a major American orchestra. Plucked from the Curtis Institute of Music in the midst of her studies, Phillips was only twenty-three years old when Leopold Stokowski, one of the twentieth century's most innovative and controversial conductors, named her principal harpist. This candid, colorful account traces Phillips's journey through the competitive realm of Philadelphia's virtuoso players, where she survived--and thrived--thanks to her undeniable talent, determination, and lively humor. Drawing on extensive interviews with Phillips, her family, and colleagues as well as archival sources, *One Woman in a Hundred* chronicles the training, aspirations, setbacks, and successes of this pioneering woman musician. Mary Sue Welsh recounts numerous insider stories of rehearsal and performance with Stokowski and other renowned conductors of the period such as Arturo Toscanini, Fritz Reiner, Otto Klemperer, Sir Thomas Beecham, and Eugene Ormandy. She also depicts Phillips's interactions with fellow performers, the orchestra management, and her teacher, the wily and brilliant Carlos Salzedo. Blessed with a nimble wit, Phillips navigated a plethora of challenges, ranging from false conductors' cues to the advances of the debonair Stokowski and others. She remained with the orchestra through some of its most exciting years from 1930 to 1946 and was instrumental in fostering harp performance, commissioning many significant contributions to the literature. This portrait of Phillips's exceptional tenure with the Philadelphia Orchestra also reveals the behind-the-scenes life of a famous orchestra during a period in which Rachmaninoff declared it "the finest orchestra the world has ever heard." Through Phillips's perceptive eyes, readers will watch as Stokowski melds his musicians into a marvelously flexible ensemble; world-class performers reach great heights and make embarrassing flubs; Greta Garbo comes to Philadelphia to observe her lover Leopold Stokowski at work; and the orchestra encounters the novel experience of recording for Walt Disney's *Fantasia*. A colorful glimpse into a world-class orchestra at the height of its glory, *One Woman in a Hundred* tells the fascinating story of one woman brave enough and strong enough to overcome historic barriers and pursue her dreams.

Clinton Cash Peter Schweizer 2016-07-26 The definitive takedown by the #1 New York Times bestselling author of *Secret Empires*. In 2000, Bill and Hillary Clinton owed millions of dollars in legal debt. Since then, they've earned over \$130 million. Where did the money come from? Most people assume that the Clintons amassed their wealth through lucrative book deals and high-six figure fees for speaking gigs. Now, Peter Schweizer shows who is really behind those enormous payments. In his New York Times bestselling books *Extortion* and *Throw Them All Out*, Schweizer detailed patterns of official corruption in Washington that led to congressional resignations and new ethics laws. In *Clinton Cash*, he follows the Clinton money trail, revealing the connection between their personal fortune, their "close personal friends," the Clinton Foundation, foreign nations, and some of the highest ranks of government. Schweizer reveals the Clinton's troubling dealings in Kazakhstan, Colombia, Haiti, and other places at the "wild west" fringe of the global economy. In this blockbuster exposé, Schweizer merely presents the troubling facts he's uncovered. Meticulously researched and scrupulously sourced, filled with headline-making revelations, *Clinton Cash* raises serious questions of judgment, of possible indebtedness to an array of foreign interests, and ultimately, of fitness for high public office.

My Opposition Friedrich Kellner 2018-01-25 This is a truly unique account of Nazi Germany at war and of one man's struggle against totalitarianism. A mid-level official in a provincial town, Friedrich Kellner kept a secret diary from 1939 to 1945, risking his life to record Germany's path to dictatorship and genocide and to protest his countrymen's complicity in the regime's brutalities. Just one month into the war he is aware that Jews are marked for extermination and later records how soldiers on leave spoke openly about the mass murder of Jews and the murder of POWs; he also documents the Gestapo's merciless rule at home from euthanasia campaigns against the handicapped and mentally ill to the execution of anyone found listening to foreign broadcasts. This essential testimony of everyday life under the Third Reich is accompanied by a foreword by Alan Steinweis and the remarkable story of how the diary was brought to light by Robert Scott Kellner, Friedrich's grandson.

Gallup World Poll International Court of Justice 2011-06-15 The Many Faces of Global Migration report is an introduction to what Gallup has unearthed by asking migrants and potential migrants worldwide about their lives. The Spy Novels of John Le Carre M. Aronoff 1998-12-14 Using espionage as a metaphor for politics, John le Carré explores the dilemmas that confront individuals and governments as they act during and in the aftermath of the Cold War. His unforgettable characters struggle to maintain personal and professional integrity while facing conflicting personal, institutional, and ideological loyalties. In *The Spy Novels of John le Carré*, author Myron Aronoff interprets the ambiguous ethical and political implications of the work of John le Carré, revealing him to be one of the most important political writers of our time. Aronoff shows how through his writing, le Carré poses the difficult question of to what extent are western governments justified in pursuing *raison d'état* without undermining the very democratic freedoms that they claim to defend. He also draws parallels between the self-parody of le Carré and that of the seventeenth-century Dutch artist Jan Steen, and explains how it expresses a unique form of ambiguous moralism. In this volume Aronoff relates le Carré's fictional world to the real world of espionage, and demonstrates the need to balance the imperatives of ethics and politics in regard to some of the most pressing issues facing the world today.

The Virtual Community, revised edition Howard Rheingold 2000-10-23 Howard Rheingold tours the "virtual community" of online networking. Howard Rheingold has been called the First Citizen of the Internet. In this book he tours the "virtual community" of online networking. He describes a community that is as real and as much a mixed bag as any physical community—one where people talk, argue, seek information, organize politically, fall in love, and dupe others. At the same time that he tells moving stories about people who have received online emotional support during devastating illnesses, he acknowledges a darker side to people's behavior in cyberspace. Indeed, contends Rheingold, people relate to each other online much the same as they do in physical communities. Originally published in 1993, *The Virtual Community* is more timely than ever. This edition contains a new chapter, in which the author revisits his ideas about online social communication now that so much more of the world's population is wired. It also contains an extended bibliography.

Activation and Functionalization of C-H Bonds Karen I. Goldberg 2004 *Activation and Functionalization of C-H Bonds* explores recent developments in the reaction chemistry of solution-phase transition-metal based systems with simple hydrocarbons and with more complex organic molecules. More than 20 internationally leading research groups contributed to this volume, and their chapters cover such topics as fundamental theoretical and mechanistic studies of C-H bond activation by metal complexes, catalytic systems for alkane functionalization, and new applications in synthetic organic chemistry. An introductory chapter offers an overview of stoichiometric and catalytic reactions of C-H bonds with transition metal complexes. The C-H bond is the most widespread linkage in organic chemistry, present in virtually every organic molecule. Unfortunately, C-H bonds are famously resistant to selective chemical transformations. The development of methods for their selective transformations has enormous potential value in fields ranging from the chemistry of fuels (for example, the conversion of methane to methanol) to the synthesis of the most complex organic molecules.

The Famished Road Ben Okri 2021-11-30 WINNER OF THE BOOKER PRIZE 'So long as we are alive,

so long as we feel, so long as we love, everything in us is an energy we can use' The narrator, Azaro, is an abiku, a spirit child, who in the Yoruba tradition of Nigeria exists between life and death. He is born into a world of poverty, ignorance and injustice, but Azaro awakens with a smile on his face. Nearly called back to the land of the dead, he is resurrected. But in their efforts to save their child, Azaro's loving parents are made destitute. The tension between the land of the living, with its violence and political struggles, and the temptations of the carefree kingdom of the spirits propels this latter-day Lazarus's story. Despite belonging to a spirit world made of enchantment, where there is no suffering, Azaro chooses to stay in the land of the Living: to feel it, endure it, know it and love it. This is his story. 'In a magnificent feat of sustained imaginative writing, Okri spins a tale that is epic and intimate at the same time. The Famished Road rekindled my sense of wonder. It made me, at age 50, look at the world through the wide eyes of a child' Michael Palin

Scarisbrick, TLS '...profound, witty...of immense value.' David Loades, History Today Historians have always known that the English Reformation was more than a simple change of religious belief and practice. It altered the political constitution and, according to Max Weber, the attitudes and motives which governed the getting and investment of wealth, facilitating the rise of capitalism and industrialisation. This book investigates further implications of the transformative religious changes of the sixteenth and seventeenth centuries for the nation, the town, the family, and for their culture.

Adopting a variety of methodologies, viewpoints and approaches, the volume offers surveys of recent developments in the field, engages with challenging theoretical issues, and shows how adapting Greek tragedy can throw new light on a range of contemporary issues — from our relation to the classical past and our shifting perceptions of ethnic and cultural identities to the place, function and market-value of Greek drama in today's cultural industries. The volume will be welcomed by students and scholars in Classics, Theatre, Drama and Performance Studies, as well as by theatre practitioners.

Nanomaterials for Sustainable Energy Quan Li 2016-05-12 This book presents the unique mechanical, electrical, and optical properties of nanomaterials, which play an important role in the recent advances of energy-related applications. Different nanomaterials have been employed in energy saving, generation, harvest, conversion, storage, and transport processes very effectively and efficiently. Recent progress in the preparation, characterization and usage of 1D, 2D nanomaterials and hybrid architectures for energy-related applications and relevant technologies and devices, such as solar cells, thermoelectronics, piezoelectronics, solar water splitting, hydrogen production/storage, fuel cells, batteries, and supercapacitors is covered. Moreover, the book also

Do As I Say (Not As I Do) Peter Schweizer 2006-10-10 "I don't own a single share of stock."
—Michael Moore Members of the liberal left exude an air of moral certitude. They pride themselves on being selflessly committed to the highest ideals and seem particularly confident of the purity of their motives and the evil nature of their opponents. To correct economic and social injustice, liberals support a whole litany of policies and principles: progressive taxes, affirmative action, greater regulation of corporations, raising the inheritance tax, strict environmental regulations, children's rights, consumer rights, and much, much more. But do they actually live by these beliefs? Peter Schweizer decided to investigate in depth the private lives of some prominent liberals: politicians like the Clintons, Nancy Pelosi, the Kennedys, and Ralph Nader; commentators like Michael Moore, Al Franken, Noam Chomsky, and Cornel West; entertainers and philanthropists like Barbra Streisand and George Soros. Using everything from real estate transactions, IRS records, court depositions, and their own public statements, he sought to examine whether they really live by the principles they so confidently advocate. What he found was a long list of glaring contradictions. Michael Moore denounces oil and defense contractors as war profiteers. He also claims to have no stock portfolio, yet he owns shares in Halliburton, Boeing, and Honeywell and does his postproduction film work in Canada to avoid paying union wages in the United States. Noam Chomsky opposes the very concept of private property and calls the Pentagon "the worst institution in human history," yet he and his wife have made millions of dollars in contract work for the Department of Defense and own two luxurious homes. Barbra Streisand prides herself as an environmental activist, yet she owns shares in a notorious strip-mining company. Hillary Clinton supports the right of thirteen-year-old girls to have abortions without parental consent, yet she forbade thirteen-year-old Chelsea to pierce her ears and enrolled her in a school that would not distribute condoms to minors. Nancy Pelosi received the 2002 Cesar Chavez Award from the United Farm Workers, yet she and her husband own a Napa Valley vineyard that uses nonunion labor. Schweizer's conclusion is simple: liberalism in the end forces its adherents to become hypocrites. They adopt one pose in public, but when it comes to what matters most in their own lives—their property, their privacy, and their children—they jettison their liberal principles and embrace conservative ones. Schweizer thus exposes the contradiction at the core of liberalism: if these ideas don't work for the very individuals who promote them, how can they work for the rest of us?

The Elizabethan Puritan Movement Patrick Collinson 2020-11-05 Originally published in 1967, this book is a history of church puritanism as a movement and as a political and ecclesiastical organism; of its membership structure and internal contradictions; of the quest for 'a further reformation'. It tells the fascinating story of the rise of a revolutionary moment and its ultimate destruction.

The Great Deluge Douglas Brinkley 2009-10-13 In the span of five violent hours on August 29, 2005, Hurricane Katrina destroyed major Gulf Coast cities and flattened 150 miles of coastline. But it was only the first stage of a shocking triple tragedy. On the heels of one of the three strongest hurricanes ever to make landfall in the United States came the storm-surge flooding, which submerged a half-million homes—followed by the human tragedy of government mismanagement, which proved as cruel as the natural disaster itself. In *The Great Deluge*, bestselling author Douglas Brinkley finds the true heroes of this unparalleled catastrophe, and lets the survivors tell their own stories, masterly allowing them to record the nightmare that was Katrina.

Desiderata Max Ehrmann 2002-10 Written 75 years ago, *Desiderata* achieved fame as the anthem of the sixties' hippie-dom - the subject of many millions of posters and handbills - and famously narrated by Les Crane in his 1971 song version of the poem. Over the years *Desiderata* has provided a kind and gentle philosophy, a refreshing perspective on life's bigger picture. This new presentation of the prose poem will bring it to the attention of a new generation. The origins of *Desiderata* were, for many years, shrouded in mystery. Once thought to have originated from St. Paul's Church in Baltimore, Maryland in the seventeenth century it was later discovered that American poet Max Ehrmann had written it in 1927. Presented in a refreshingly modern design, *Desiderata* will appeal to a younger generation looking to find the meaning of life, and to baby-boomers who'll recall *Desiderata* from their youth.
