The Rhetoric of Free Speech in Late Antiquity and the Early Middle Ages Irene van Renswoude 2019-09-26 Analyses the rhetoric of dissidents, outsiders and truth-tellers to challenge preconceptions about free speech and political criticism in the early Middle Ages.

**The Routledge Companion to Medieval Iconography** Colum Hourihane 2016-12-19 Sometimes enjoying considerable favor, sometimes less, iconography has been an essential element in medieval art historical studies since the beginning of the discipline. Some of the greatest art historians - including Mâle, Warburg, Panofsky, Morey, and Schapiro - have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell. Over the last thirty or so years, scholarship has seen the meaning and methodologies of the term considerably broadened. This companion provides a state-of-the-art assessment of the influence of the foremost iconographers, as well as the methodologies employed and themes that underpin the discipline. The first section focuses on influential thinkers in the field, while the second covers some of the best-known methodologies; the third, and largest section, looks at some of the major themes in medieval art. Taken together, the three sections include thirty-eight chapters, each of which deals with an individual topic. An introduction, historiographical evaluation, and bibliography accompany the individual essays. The authors are recognized experts in the field, and each essay includes original analyses and/or case studies which will hopefully open the field for future research.

Bede : a Biblical Miscellany Bede (Venerabilis) 1999 Six shorter works by the Venerable Bede, most translated here for the first time, on biblical topics and reveals the significance of the first historian of the English as a biblical commentator.

*Marvels, Monsters, and Miracles* Timothy S. Jones 2002 This collection of essays examines medieval and early modern perceptions of the marvelous and the monstrous. The essays investigate the nature of those phenomena and how people of these periods experienced them and how they recreated that experience for others. The essays trace the development of representations of marvels and explicate individual incarnations of monster and miracles. They analyze the importance of marvelous difference in defining ethnic, racial, religious, class, and gender identities to ask what legacy the medieval confrontations with marvels left for the modern world. These excellent essays look at issues that have long perplexed readers, such as the meaning of marvels, and whether we can read them in earnest or whether they can be appreciated only as play. The different authors bring their expertise to the fore to discuss the development of thoughts on marvels from the classical tradition through the concept's development in the medieval and early modern tradition. This collection is essential reading for any analysis of the marvelous in these periods and the state of scholarship surrounding them.

**Slavery After Rome, 500-1100** Alice Rio 2017 What happened to slavery in Europe in the centuries following the fall of the Roman Empire? This work spans the whole of early medieval Western Europe and addresses issues of slave-taking and slave-trading; people who became slaves as a result of a debt or a crime; even people who chose to become slaves

**Berceo's Vida de Santa Oria** Gonzalo de Berceo 2000 In this work, the text of Gonzalo de Berceo's mid-13th-century hagiographical poem, "Vida de Santa Oria", is critically edited and accompanied by

an English translation.

**The Armenian History Attributed to Sebeos** Sebēos (Bishop of Bagratunik') 1999 This, the first English translation of the 1979 critical edition of the classical Armenian text, is of interest to all those studying the Middle East in late antiquity, since Sebeos not only sets the scene for the coming of Islam but provides the only substantial non-Muslim account of the initial period of expansion. The notes are specifically aimed at the reader unfamiliar with Armenian. The historical commentary makes an original contribution to modern scholarship on the period, and assesses the accuracy and value of the text.

**The Long Morning of Medieval Europe** Jennifer R. Davis 2016-12-05 Recent advances in research show that the distinctive features of high medieval civilization began developing centuries earlier than previously thought. The era once dismissed as a "Dark Age" now turns out to have been the long morning of the medieval millennium: the centuries from AD 500 to 1000 witnessed the dawn of developments that were to shape Europe for centuries to come. In 2004, historians, art historians, archaeologists, and literary specialists from Europe and North America convened at Harvard University for an interdisciplinary conference exploring new directions in the study of that long morning of medieval Europe, the early Middle Ages. Invited to think about what seemed to each the most exciting new ways of investigating the early development of western European civilization, this impressive group of international scholars produced a wide-ranging discussion of innovative types of research that define tomorrow's field today. The contributors, many of whom rarely publish in English, test approaches extending from using ancient DNA to deducing cultural patterns signified by thousands of medieval manuscripts of saints' lives. They examine the archaeology of slave labor, economic systems, disease history, transformations of piety, the experience of power and property, exquisite literary sophistication, and the construction of the meaning of palace spaces or images of the divinity. The book illustrates in an approachable style the vitality of research into the early Middle Ages, and the signal contributions of that era to the future development of western civilization. The chapters cluster around new approaches to five key themes: the early medieval economy; early medieval holiness; representation and reality in early medieval literary art; practices of power in an early medieval empire; and the intellectuality of early medieval art and architecture. Michael McCormick's brief introductions open each part of the volume; synthetic essays by accomplished specialists conclude them. The editors summarize the whole in a synoptic introduction. All Latin terms and citations and other foreign-language quotations are translated, making this work accessible even to undergraduates. *The Long Morning of Medieval Europe: New Directions in Early Medieval Studies* presents innovative research across the wide spectrum of study of the early Middle Ages. It exemplifies the promising questions and methodologies at play in the field today, and the directions that beckon tomorrow.

**The Role of the Bishop in Late Antiquity** Andrew Fear 2013-02-14 Late Antiquity witnessed a major transformation in the authority and power of the Episcopate within the Church, with the result that bishops came to embody the essence of Christianity and increasingly overshadow the leading Christian laity. The rise of Episcopal power came in a period in which drastic political changes produced long and significant conflicts both within and outside the Church. This book examines these problems in depth, looking at bishops' varied roles in both causing and resolving these disputes, including those internal to the church, those which began within the church but had major effects on wider society, and those of a secular nature.

**Bullies and Saints** John Dickson 2021-05-11 Is the world better off without Christianity? Combining narrative with keen critique of contemporary debates, author and historian John Dickson gives an honest account of 2,000 years of Christian history that helps us understand what Christianity is and what it's meant to be. To say that the Christian Church has an "image problem"

doesn't quite capture it. From the Crusades and the Inquisition to the racism and abuse present in today's Church--both in Catholic and Protestant traditions--the institution that Christ established on earth has a lot to answer for. But the Church has also had moments throughout history when it has been in tune with Jesus' teachings--from the rise of charity to the invention of hospitals. For defenders of the faith, it's important to be able to recognize the good and bad in the church's history and be inspired to live aligned with Christ. For skeptics, this book is a thought-provoking introduction to the idea that Christianity is, despite all, an essential foundation of our civilization. Bullies and Saints will take you on a big-picture journey from the Sermon on the Mount to the modern church: Giving contextual accounts of infamous chapters of Christian history, such as the Crusades, and acknowledging their darkness. Outlining the great movements of the faith and defending its heroes and saints, some of whom are not commonly recognized. Examining the Church beside the teachings and life of Jesus and how it has succeeded in its mission to imitate Christ.

Lives of the Visigothic Fathers Andrew T. Fear 1997 These five seventh-century religious texts cast light not only on the development of the church in Visigothic Spain and its internal politics, but also on its, at times troubled, relationship with the Visigothic state and the history of that state itself, particularly in the period when the Visigoths changed their adherence from Arian to Trinitarian Christianity. ...these intriguing texts will help dispel the still prevalent notion that Visigothic Spain was some kind of "Dark Age" Bulletin of Hispanic Studies The translations are fluent and readable, and they supply the reader with an excellent general picture of the Christian and even monastic character of Visigothic culture in the seventh century. Moreover, Fear's notes enable the reader to press beyond broad impressions to details Journal of Religious History

**Answers to Objections Source Book** Heidi Heiks 2015-12-14 This fourth volume written by Heidi Heiks is dedicated to the prophetic periods of Daniel and Revelation. It addresses twenty objections and other issues that Heiks feels demand clarification. All objections are for the years and events connected to AD 508 and AD 538. Readers will find that Heiks clarifies documentation and resolves all the best arguments brought against what he considers, and has presented as, correct interpretation. The author also includes the Source Books' bibliographies, which are a great resource for any scholar, historian, or layperson doing research.

**Art, Architecture, and the Moving Viewer, c. 300-1500 CE** 2022-04-19 These essays address how narratives unfolded in time and space when a body or object moved through premodern architectural or natural environments. Such narratives encompass interpretations of topography, change in built environments over time, and spaces for public assembly.

The Bible in Christian North Africa Jonathan P. Yates 2023-11-06 This second volume delves into the intricate dynamics that surrounded the use of Scripture by North African Christians from the late-fourth to the mid-seventh century CE. It focuses on the multivalent ways in which Scripture was incorporated into the fabric of ecclesial existence and theological reflection, as well as on Scripture's role in informing and supporting these Christians' decision-making processes. This volume also highlights the intricate theological and philosophical deliberations that were carried out between and among influential North African Christian leaders and scholars—in diverse cultural and geopolitical settings—while paying attention to the complex manner in which these Scripture-laden discourses intersected the wide variety of religious opinions and ecclesiastical and/or theological movements that so clearly marked this region in this era.

Between Two Worlds: The autos sacramentales of Sor Juana Inés de la Cruz Amy Fuller 2015-06-12 The seventeenth-century Mexican poet, playwright and nun, Sor Juana Inés de la Cruz, is best known for her secular works, most notably her damning indictment of male double standards, *Hombres necios* (Stupid Men). However, her autos sacramentales (allegorical one-act plays on the Eucharist) have received little attention, and have only been discussed individually and out of sequence. By examining them as a collection, in their original order, their meaning and importance are revealed. □ The autos combine Christian and classical 'pagan' imagery from the 'Old World' with the conquest

and conversion of the 'New World'. As the plays progress, the mystery of Christ's 'greatest gift' to mankind is deciphered and is mirrored in Spain's gift of the True Faith to the indigenous Mexicans. Sor Juana's own image is also situated within this baroque landscape: presented as a triumph of Spanish imperialism, an exotic muse between two worlds.

**Medieval Hagiography** Thomas Head 2018-10-24 This collection presents-through the medium of translated sources-a comprehensive guide to the development of hagiography and the cult of the saints in western Christendom during the middle ages. It provides an unparalleled resource for the study of the ideals of sanctity and the practice of religion in the medieval west. Intended for the classroom, for the medieval scholar who wishes to explore sources in unfamiliar languages, and for the general reader fascinated by the saints, this collection provides the reader a chance to explore in depth a full range of writings about the saints (the term hagiography is derived from Greek roots: *hagios*=holy and *graphe*=writing). The thirty-six chapters contain sources either in their entirety or in selections of substantial length. The great majority of the texts have never previously appeared in English translation. Those which have appeared in earlier translation, are here presented in versions based on significant new textual and historical scholarship which makes them significant improvements on the earlier versions. All the translations are accompanied by introductions, notes, and suggestions for further reading in order to help guide the reader. The first selections date to the fourth century, when the ideals of Christian sanctity were evolving to meet the demands of a world in which Christianity was an accepted religion and when the public veneration of relics was growing greatly in scope. The last selections date to the period immediately prior to the Reformation, a period in which the traditional concept of sanctity and acceptability of the cult of relics was being questioned. In addition to numerous works from the clerical languages of Latin and Greek, the selections include translations from Romance, Celtic, Germanic, and Slavic vernacular languages, as well as Hebrew texts concerning the martyrdom of Jews at the hands of Christians. Originating in lands from Iceland to Hungary and from the Baltic to the Mediterranean, they are taken from a full range of the many genres which constituted hagiography: lives of the saints, collections of miracle stories, accounts of the discovery or movement of relics, liturgical books, visions, canonization inquests, and even heresy trials.

*Being Christian in Vandal Africa* Robin Whelan 2017-12-22 *Being Christian in Vandal Africa* investigates conflicts over Christian orthodoxy in the Vandal kingdom, the successor to Roman rule in North Africa, ca. 439 to 533 c.e. Exploiting neglected texts, author Robin Whelan exposes a sophisticated culture of disputation between Nicene ("Catholic") and Homoian ("Arian") Christians and explores their rival claims to political and religious legitimacy. These contests—sometimes violent—are key to understanding the wider and much-debated issues of identity and state formation in the post-imperial West.

**The world of El Cid** Simon Barton 2013-01-01 Makes available, for the first time in English translation, four of the principal narrative sources for the history of the Spanish kingdom of León-Castile during the eleventh and twelfth centuries. Three chronicles focus primarily upon the activities of the kings of León-Castile as leaders of the Reconquest of Spain from the forces of Islam, and especially upon Fernando I (1037-65), his son Alfonso VI (1065-1109) and the latter's grandson Alfonso VII (1126-57). The fourth chronicle is a biography of the hero Rodrigo Díaz, better remembered as El Cid, and is the main source of information about his extraordinary career as a mercenary soldier who fought for Christian and Muslim alike. Covers the fascinating interaction of the Muslim and Christian worlds, each at the height of their power. Each text is prefaced by its own introduction and accompanied by explanatory notes.

*Heythrop Journal* 2003 A select book list appears quarterly.

*The Visigoths in Gaul and Iberia* Alberto Ferreiro 2006-11-30 This bibliography is a supplement to the one previously published by Brill in 1988. This one covers material from 1984 to 2003. The chronology has been expanded to begin in the fourth century. Numerous Iberian Church Fathers not represented in the first one are now incorporated. The book contains author and subject indexes and is cross-referenced throughout.

*The Medieval Cult of Saint Dominic of Silos* Anthony Lappin 2002 Lucas, the garrulous bishop of Tuy, included the thaumaturgy of Saint Dominic of Silos as one of the glories of Spain in his mid-thirteenth-century account of the Peninsula's history. This study examines the rise to prominence of one of the most important of saints' cults in Medieval Spain and its development throughout the Middle Ages. It interrogates neglected texts such as the late eleventh-century *Vita Dominici Exiliensis* and the late thirteenth-century *Miraculos romancados* (as well as artistic representations and works written outside Silos), and places the more widely known *Vida de Santo Domingo* by Gonzalo de Berceo (c. 1260) in a new light by firmly fixing its presentation of the saint within the development of the cult. Dominic's veneration became centred upon his role in freeing captives, and a study of this phenomenon provides a focus on the frontier and its settlers through their devotion to the saint, as well as illuminating their view of their Muslim adversaries. This is not the only centre of interest in the book, and a variety of approaches are employed to draw as round a picture as possible of the functioning of this saint's cult, from analysis of the manuscript traditions of the various works discussed to a consideration of the anthropology of Silos as a pilgrimage centre. All quotations are given in both Latin or Romance with an English translation.

*Bede, The Reckoning of Time* Beda (Venerabilis.) 1999-01-01 From the patristic age until the Gregorian calendar reform of 1582, computus -- the science of time reckoning and art of calendar construction -- was a matter of intense concern. Bede's *The Reckoning of Time* (*De temporum ratione*) was the first comprehensive treatise on this subject and the model and reference for all subsequent teaching discussion and criticism of the Christian calendar. It is a systematic exposition of the Julian solar calendar and the Paschal table of Dionysius Exiguus, with their related formulae for calculating dates. But it is more than a technical handbook. Bede sets calendar lore within a broad scientific framework and a coherent Christian concept of time, and incorporates themes as diverse as the theory of tides and the doctrine of the millennium. This translation of the full text of *The Reckoning of Time* includes an extensive historical introduction and a chapter-by-chapter commentary. It will interest historians of medieval science, theology, and education, Bede scholars and Anglo-Saxonists, liturgists, and Church historians. It will also serve as an accessible introduction to computus itself. Generations of medieval computists nourished their expertise in Bede's orderly presentation; modern scholars in quest of safe passage through this complex terrain can hope for no better guide.

*Every Inch a King* Lynette Mitchell 2012-11-13 Drawing on studies of kings from Cyrus to Shah Abbas, this volume provides a rich variety of readings on royal authority and its limitations in medieval societies in both Europe and the Middle East, exemplified especially in the case of Alexander the Great, God and King, and the persistence of his legend in later eras.

**Jonas of Bobbio and the Legacy of Columbanus** Alexander O'Hara 2018-06-01 Jonas of Bobbio, writing in the mid seventh century, was not only a major Latin monastic author, but also an historical figure in his own right. Born in the ancient Roman town of Susa in the foothills of the Italian Alps, he became a monk of Bobbio, the monastery founded by the Irish exile Columbanus, soon after his death in 615. He became the archivist and personal assistant to successive Bobbio abbots, travelled to Rome to obtain the first papal privilege of immunity, and served as a missionary priest on the northern borderlands of the Frankish kingdom. He spent the rest of his life in Merovingian Gaul as abbot of the double monastic community of Marchiennes-Hamage, where he wrote his *Life of Columbanus*, one of the most influential works of early medieval hagiography. This book, the first major study devoted to Jonas of Bobbio, his corpus of three saints' Lives, and the Columbanian familia, explores the development of the Columbanian monastic network and its relationship to its founder. The *Life of Columbanus* was written following a period of crisis within the Columbanian familia and it was in response to this crisis that the Bobbio community in Lombard Italy commissioned Jonas to write the work. Alexander O'Hara presents the *Life of Columbanus* as a subtle and clever critique of the changes and crises that had taken place in the monastic communities since Columbanus's death. It also considers the life of Jonas as reflecting many of the changing political, cultural, and religious circumstances of the seventh century, and his writings as

instrumental in shaping new concepts of sanctity and community. The result of the study is a unique perspective on the early medieval Age of Saints and the monastic and political worlds of Merovingian Gaul and Lombard Italy in the seventh century.

*Ruricius of Limoges and Friends* Ruricius I (Bishop of Limoges) 1999 This collection of letters from the late fifth and early sixth centuries A.D. is uniquely revealing of literary and intellectual life at the end of Roman rule, and at the beginning of the Visigothic period, in Gaul.

**Byzantine Intersectionality** Roland Betancourt 2020-10-06 A fascinating history of marginalized identities in the medieval world While the term “intersectionality” was coined in 1989, the existence of marginalized identities extends back over millennia. Byzantine Intersectionality reveals the fascinating, little-examined conversations in medieval thought and visual culture around sexual and reproductive consent, bullying and slut-shaming, homosocial and homoerotic relationships, trans and nonbinary gender identities, and the depiction of racialized minorities. Roland Betancourt explores these issues in the context of the Byzantine Empire, using sources from late antiquity and early Christianity up to the early modern period. Highlighting nuanced and strikingly modern approaches by medieval writers, philosophers, theologians, and doctors, Betancourt offers a new history of gender, sexuality, and race. Betancourt weaves together art, literature, and an impressive array of texts to investigate depictions of sexual consent in images of the Virgin Mary, tactics of sexual shaming in the story of Empress Theodora, narratives of transgender monks, portrayals of same-gender desire in images of the Doubting Thomas, and stereotypes of gender and ethnicity in representations of the Ethiopian Eunuch. He also gathers evidence from medical manuals detailing everything from surgical practices for late terminations of pregnancy to save a mother’s life to a host of procedures used to affirm a person’s gender. Showing how understandings of gender, sexuality, and race have long been enmeshed, Byzantine Intersectionality offers a groundbreaking look at the culture of the medieval world.

**The Politics of Identity in Visigothic Spain** Jamie Wood 2012-03-20 This book reappraises the historical writings of the seventh-century Spanish bishop Isidore of Seville as a coherent and pastorally-informed programme intended to reconcile the population of Spain to their recent conquest by the barbarian Visigoths.

**Historiography and Space in Late Antiquity** Peter Van Nuffelen 2019-08-29 The later Roman Empire was shrinking on the map, but still shaped the way historians represented the space around them.

*Urban Centers and Rural Contexts in Late Antiquity* Thomas S. Burns 2012-01-01 Recent publications on urbanism and the rural environment in Late Antiquity, most of which explore a single region or narrow chronological niche, have emphasized either textual or archeological evidence. None has attempted the more ambitious task of bringing together the full range of such evidence within a multiregional perspective and around common themes. *Urban Centers and Rural Contexts* seeks to redress this omission. While ancient literature and the physical remains of cities attest to the power that urban values held over the lives of their inhabitants, the rural areas in which the majority of imperial citizens lived have not been well served by the historical record. Only recently have archeological excavations and integrated field surveys sufficiently enhanced our knowledge of the rural contexts to demonstrate the continuing interdependence of urban centers and rural communities in Late Antiquity. These new data call into question the conventional view that this interdependence progressively declined as a result of governmental crises, invasions, economic dislocation, and the success of Christianization. The essays in this volume require us to abandon the search for a single model of urban and rural change; to reevaluate the cities and towns of the Empire as centers of habitation, rather than archeological museums; and to reconsider the evidence of continuous and pervasive cultural change across the countryside. Deploying a wide range of material as well as literary evidence, the authors provide access not only into the world of élites, but also to the scarcely known lives of those without a voice in the literature, those men and women who worked in the shops, labored in the fields, and humbled themselves before their gods. They bring us closer to the complexity of life in late ancient communities and, in consequence, closer to both urban

and rural citizens.

*Elenchus of Biblica* Robert Althann 2001-12-31

Subjects include Jews and Samaritans, orthodoxy and heresy, pilgrimage, stylites, magic, the sacred and the secular.

Late Roman Spain and Its Cities Michael Kulikowski 2011-01-03 This groundbreaking history of Spain in late antiquity sheds new light on the fall of the western Roman empire and the emergence of medieval Europe. Historian Michael Kulikowski draws on the most recent archeological and literary evidence in this fresh and enlightening account of the Iberian Peninsula from A.D. 300 to 600. In so doing, he provides a definitive narrative that integrates late antique Spain into the broader history of the Roman empire. Kulikowski begins with a concise introduction to the early history of Roman Spain, and then turns to the Diocletianic reforms of 293 and their long-term implications for Roman administration and the political ambitions of post-Roman contenders. He goes on to examine the settlement of barbarian peoples in Spain, the end of Roman rule, and the imposition of Gothic power in the fifth and sixth centuries. In parallel to this narrative account, Kulikowski offers a wide-ranging thematic history, focusing on political power, Christianity, and urbanism. Kulikowski's portrait of late Roman Spain offers some surprising conclusions, finding that the physical and social world of the Roman city continued well into the sixth century despite the decline of Roman power. Winner of an Honorable Mention in the Association of American Publishers' Professional and Scholarly Publishing Awards in Classics and Archeology
