[Change Me Into Zeus's Daughter](#) Barbara Robinette Moss 2002-01-27 A haunting and triumphant story of a difficult and keenly felt life, *Change Me into Zeus's Daughter* is a remarkable literary memoir of resilience, redemption, and growing up in the South. Barbara Robinette Moss was the fourth in a family of eight children raised in the red-clay hills of Alabama. Their wild-eyed, alcoholic father was a charismatic and irrationally proud man who, when sober, captured his children's timid awe, but when (more often) drunk, roused them from bed for severe punishment or bizarre all-night poker games. Their mother was their angel: erudite and stalwart -- her only sin her inability to leave her husband for the sake of the children. Unlike the rest of her family, Barbara bore the scars of this abuse and neglect on the outside as well as the inside. As a result of childhood malnutrition and a complete lack of medical and dental care, the bones in her face grew abnormally ("like a thin pine tree"), and she ended up with what she calls "a twisted, mummy face." Barbara's memoir brings us deep into not only the world of Southern poverty and alcoholic child abuse but also the consciousness of one who is physically frail and awkward, relating how one girl's debilitating sense of her own physical appearance is ultimately saved by her faith in the transformative powers of artistic beauty: painting and writing. From early on and with little encouragement from the world, Barbara embodied the fiery determination to change her fate and achieve a life defined by beauty. At age seven, she announced to the world that she would become an artist -- and so she did. Nightly, she prayed to become attractive, to be changed into "Zeus's daughter," the goddess of beauty, and when her prayers weren't answered, she did it herself, raising the money for years of braces followed by facial surgery. Growing up "so ugly," she felt the family's disgrace all the more acutely, but the result has been a keenly developed appreciation for beauty -- physical and artistic -- the evidence of

which can be seen in her writing. Despite the deprivation, the lingering image from this memoir is not of self-pity but of the incredible bond between these eight siblings: the raucous, childish fun they had together, the making-do, and the total devotion to their desperate mother, who absorbed most of the father's blows for them and who plied them with art and poetry in place of balanced meals. Gracefully and intelligently woven in layers of flashback, the persistent strength of Barbara Moss's memoir is itself a testament to the nearly lifesaving appreciation for literature that was her mother's greatest gift to her children.

The History of Southern Drama Charles S. Watson 2021-12-14 Mention southern drama at a cocktail party or in an American literature survey, and you may hear cries for "Stella!" or laments for "gentleman callers." Yet southern drama depends on much more than a menagerie of highly strung spinsters and steel magnolias. Charles Watson explores this field from its eighteenth- and nineteenth-century roots through the southern Literary Renaissance and Tennessee Williams's triumphs to the plays of Horton Foote, winner of the 1994 Pulitzer Prize. Such well known modern figures as Lillian Hellman and DuBose Heyward earn fresh looks, as does Tennessee Williams's changing depiction of the South—from sensitive analysis to outraged indictment—in response to the Civil Rights Movement. Watson links the work of the early Charleston dramatists and of Espy Williams, first modern dramatist of the South, to later twentieth-century drama. Strong heroines in plays of the Confederacy foreshadow the spunk of Tennessee Williams's Amanda Wingfield. Claiming that Beth Henley matches the satirical brilliance of Eudora Welty and Flannery O'Connor, Watson connects her zany humor to 1840s New Orleans farces. With this work, Watson has at last answered the call for a single-volume, comprehensive history of the South's dramatic literature. With fascinating detail and seasoned perception, he reveals the rich heritage of southern drama.

A Shining Thread of Hope Darlene Clark Hine 2009-10-14 At the greatest moments and in the cruelest times, black women have been a crucial part of America's history. Now, the inspiring history of black women in America is explored in vivid detail by two leaders in the fields of African American and women's history. *A Shining Thread of Hope* chronicles the lives of black women from indentured servitude in the early American colonies to the cruelty of antebellum plantations, from the reign of lynch law in the Jim Crow South to the triumphs of the Civil Rights era, and it illustrates how the story of black women in America is as much a tale of courage and hope as it is a history of struggle. On both an individual and a collective level, *A Shining Thread of Hope* reveals the strength and spirit of black women and brings their stories from the fringes of American history to a central position in our understanding of the forces and events that have shaped this country.

The WPA Guide to South Carolina Federal Writers' Project 2013-10-31 During the 1930s in the United States, the Works Progress Administration

developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The WPA Guide to South Carolina presents a state at the epicenter of Southern culture. The Palmetto State's guide comes complete with the standard driving tours across the Blue Ridge Mountains and Mid-Atlantic coast as well as recipes for delicacies such as Cracklin' Bread and Peach Leather.

Reading Africa into American Literature Keith Cartwright 2021-12-14 The literature often considered the most American is rooted not only in European and Western culture but also in African and American Creole cultures. Keith Cartwright places the literary texts of such noted authors as George Washington Cable, W.E.B. DuBois, Alex Haley, Zora Neale Hurston, Ralph Ellison, William Faulkner, Joel Chandler Harris, Herman Melville, Toni Morrison, and many others in the context of the history, spiritual traditions, folklore, music, linguistics, and politics out of which they were written. Cartwright grounds his study of American writings in texts from the Senegambian/Old Mali region of Africa. Reading epics, fables, and gothic tales from the crossroads of this region and the American South, he reveals that America's foundational African presence, along with a complex set of reactions to it, is an integral but unacknowledged source of the national culture, identity, and literature.

Mapping Global Theatre Histories Mark Pizzato 2019-05-02 This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs

form an overall outline with distilled details of what students can learn, encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels, making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains.

Critical Voicings of Black Liberation Kimberley Louise Phillips 2003 The contributions to *Critical Voices of Black Liberation in the Americas* originated from the 1999 CAAR Conference in Munster and from conferences held in the US in 2000 and 2001. More than half of the eleven essays consider black performances on stage, in sound, and on film; the remaining essays explore slavery, African American literature, and nineteenth-century black educators. These exciting essays creatively examine artistic and/or political articulation of black liberation as the construction of a new critical and signifyin(g) voice. This liberated and critical voice asserts itself as much as a communal expression of black subjectivities as it is an articulation of the black self.

Pioneering Women in American Mathematics Judy Green 2009-01 More than 14 percent of the PhD's awarded in the United States during the first four decades of the twentieth century went to women, a proportion not achieved again until the 1980s. This book is the result of a study in which the authors identified all of the American women who earned PhD's in mathematics before 1940, and collected extensive biographical and bibliographical information about each of them. By reconstructing as complete a picture as possible of this group of women, Green and LaDuke reveal insights into the larger scientific and cultural communities in which they lived and worked. The book contains an extended introductory essay, as well as biographical entries for each of the 228 women in the study. The authors examine family backgrounds, education, careers, and other professional activities. They show that there were many more women earning PhD's in mathematics before 1940 than is commonly thought. Extended biographies and bibliographical information are available from the companion website for the book: www.ams.org/bookpages/hmath-34. The material will be of interest to researchers, teachers, and students in mathematics, history of mathematics, history of science, women's studies, and sociology. The data presented about each of the 228 individual members of the group will support additional study and analysis by scholars in a large number of disciplines.
