Implementing Diversity, Equity, Inclusion, and Belonging Management in Organizational Change Initiatives El-Amin, Abeni 2022-06-17 The social and political changes of this era have created a climate change and fundamental shift in how businesses view the impact of diversity, equity, inclusion, and belonging (DEIB) in the workplace. It is essential to understand how leaders make significant, sustainable changes utilizing communication abilities, envisioning, conflict management skills, and innovative DEIB initiatives. However, leaders must be careful not to rely on anecdotal evidence as it does not always reflect DEIB realities. *Implementing Diversity, Equity, Inclusion, and Belonging Management in Organizational Change Initiatives* analyzes how leaders implement DEIB organizational change initiatives. Covering topics such as inclusive organizational identity, socio-intercultural entrepreneurship, and supplier diversity programs, this book is an indispensable resource for business leaders, managers, entrepreneurs, academic administration, students and educators of higher education, government officials, researchers, and academicians.

Strategic Management Arthur A. Thompson, Jr. 2000-11 Thompson/Strickland has always included the most recent research in strategy in a way that students can understand and apply it to business cases and problems. In addition, Thompson offers more coverage of strategy implementation than most other texts, which many instructors think is critical if students are to understand the how and not just the what and why. Thompson's coverage of Michael Porter's classic 5-forces model is clearer and more detailed than in other texts, according to reviewers. With this edition the market leader looks better than ever before, offering a new 4-color design, improved writing style, and two new chapters on global and e-commerce strategy. The Thompson and Strickland cases have always been another strong selling point. Over the years, this author team has developed a great network of case authors and is able to select from the cream of the crop. And, having taught the course themselves for many years, they are very experienced in selecting the types of cases that will spark student interest and generate lively classroom discussions. Many of the cases reflect high profile companies, products, and people that students will have heard of, know about from personal experience, or can easily identify with. The new case line-up features an exciting collection of dot.com/New Economy companies such as America Online, WingspanBank.com, drkoop.com, Intel, EBay, CDNow, Dell, and Competition in the Electronic Brokerage industry. Cases are further selected to highlight other critical types of business and trends, such as non-U.S. companies, globalization, cross-cultural situations, relatively small, entrepreneurial firms, non-profit organizations, and more.
