Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Community of Faith Jonathan Sacks 2013-09-01 Chief Rabbi Emeritus Lord Jonathan Sacks evaluates the role of the synagogue in Jewish life today. In it he explores the choices faced by religious leadership in the modern world, and the ways in which the synagogue embodies a living community of faith. His book *Faith in the Future*, described by *The Times* as 'one of the most significant declarations made by a religious leader in this country for many years', analysed the importance of community, morality and faith in the future of Western societies. *Community of Faith* applies these themes to the Jewish situation, and suggests ways in which the synagogue can be renewed as a centre of meaning and belonging.

England and the 1966 World Cup John Hughson 2016-10-21 England and the 1966 World Cup presents a cultural analysis of what is considered a key 'moment of modernity' in the nation's post-war history. Regarded as having an importance beyond its primary sporting purpose, the World Cup in England is examined within the complexity of the cultural, social and political changes that characterised the mid-1960s. Yet, although addressing the importance of non-sport related connections, the book maintains a focus on football, discussing it as a 'cultural form' and presenting an original perspective on the aesthetic accomplishment in football tactics by England's manager, Alf Ramsey. The study considers the World Cup in relation to the cup tradition, England as the World Cup host nation, the England squad and masculinity, the modernism of England's manager Alf Ramsey, design and commercial aspects of the World Cup, a critical engagement within existing academic accounts, and an examination of how England's victory has been remembered and commemorated.

Excavations at Ed-Dur (Umm Al-Qaiwain, United Arab Emirates) David Whitehouse 1998 Located on the coast of the Emirate of Umm al-Qaiwain (UAE), the site of Ed-Dur is without doubt the largest coastal site of the late 1st. cent. B.C. - 1st cent. A.D. between Qatar and the promontory of Musandam. It could have been the site of Ommana, mentioned as a harbour, by Classical authors. In 1986 a European consortium of four countries (Belgium, Denmark, France and Great Britain) was created in order to launch full scale excavations at this site in SE-Arabia. A team from Ghent University was active there, on a yearly basis, until 1995. During these 9 seasons numerous architectural remains and objects were discovered. In the present volume 121 tombs, with their burial goods, are published in full. All tombs and objects are presented in drawings and photographs, so as to provide a quick release of the discoveries. Different types of graves were found, from plain individual tombs to rectangular cists and large semi-subterranean multiple tombs covered by a barrel vault and accessible via an entrance, occasionally with stairs. However, a large above-ground grave was equally discovered. Although mostly plundered, several undisturbed tombs of different type were found, containing numerous objects.

Art and Science Eliane Strosberg 2001 The intent of this volume is to provide an enticing review, for a general audience, of the very broad topic of connections between art and science; and the writing is deliberately casual and narrative rather than scholarly or encyclopedic. The scope is narrowed somewhat by emphasis on Western culture (with some examples from other civilizations) and by exclusion of literature. After overview chapters, the author delves into some specifics of architecture, decoration, painting and cognition, graphic design, and the performing arts, before concluding with a chapter on art and science symbiosis. The text is attractively produced and illustrated with some 200 (small) diagrams, photos, and reproductions. Strosberg is co-founder of

Cultural Links Between Portugal and Italy in the Renaissance K. J. P. Lowe 2000 Cultural contacts between Portugal and Italy, the two most innovative European areas in the 15th and 16th centuries are rarely systematically explored. Both were to influence the whole world for the next five hundred years: Portugal by its voyages of discovery and establishment of a world empire, and Italy by its reworking of the classical tradition and the rebirth of its arts. This book maps the cultural interconnections, exchanges, and influences between the two, their individual chronologies and priorities, similarities and differences.; The volume's three emphases are originality, interdis.

The Husbands Sharmila Chauhan 2014-09-02 It's Aya's wedding day. Her third. Her current two husbands aren't too fussed. In a society in which there are few women, that's just what happens. But as the household prepares for the wedding feast, a stranger arrives - one who threatens to challenge everything they believe in. Against a backdrop of modern rural India, Sharmila Chauhan weaves an extraordinary tale of love and wonder. From the preparation of luxury food and the sacrifice of the lamb to the dressing of the bride and the dance to end all dances, this will be an exuberant, joyful and challenging piece of theatre. 'In parts of India, polyandry has become a necessity. Gendercide, as a consequence of the ancient preference for boys, the modern desire for smaller families and the increasing availability of ultrasound techniques to detect the gender of a baby still in the womb means that the number of females is declining. I wrote *The Husbands* both as a response to this but also as an exploration of the complexity of love, intimacy and trust between one woman and three men where gender differences and expectations are amplified. In a sense this play is as much a warning as an allegory for the fate of women in *The West* today.' - Sharmila Chauhan

Cities at War Mary Kaldor 2020-03-31 Warfare in the twenty-first century goes well beyond conventional armies and nation-states. In a world of diffuse conflicts taking place across sprawling cities, war has become fragmented and uneven to match its settings. Yet the analysis of failed states, civil war, and state building rarely considers the city, rather than the country, as the terrain of battle. In *Cities at War*, Mary Kaldor and Saskia Sassen assemble an international team of scholars to examine cities as sites of contemporary warfare and insecurity. Reflecting Kaldor's expertise on security cultures and Sassen's perspective on cities and their geographies, they develop new insight into how cities and their residents encounter instability and conflict, as well as the ways in which urban forms provide possibilities for countering violence. Through a series of case studies of cities including Baghdad, Bogotá, Ciudad Juarez, Kabul, and Karachi, the book reveals the unequal distribution of insecurity as well as how urban capabilities might offer resistance and hope. Through analyses of how contemporary forms of identity, inequality, and segregation interact with the built environment, *Cities at War* explains why and how political violence has become increasingly urbanized. It also points toward the capacity of the city to shape a different kind of urban subjectivity that can serve as a foundation for a more peaceful and equitable future.

Fairy-Tale Films Beyond Disney Jack Zipes 2015-09-16 The fairy tale has become one of the dominant cultural forms and genres internationally, thanks in large part to its many manifestations on screen. Yet the history and relevance of the fairy-tale film have largely been neglected. In this follow-up to Jack Zipes's award-winning book *The Enchanted Screen* (2011), *Fairy-Tale Films Beyond Disney* offers the first book-length multinational, multidisciplinary exploration of fairy-tale cinema. Bringing together twenty-three of the world's top fairy-tale scholars to analyze the enormous scope of these films, Zipes and colleagues Pauline Greenhill and Kendra Magnus-Johnston present perspectives on film from every part of the globe, from Hayao Miyazaki's *Spirited Away*, to Jan Švankmajer's *Alice*, to the transnational adaptations of *1001 Nights* and Hans Christian Andersen. Contributors explore filmic traditions in each area not only from their different cultural backgrounds, but from a range of academic fields, including criminal justice studies, education, film studies, folkloristics, gender studies, and literary studies. *Fairy-Tale Films Beyond Disney* offers readers an opportunity to explore the intersections, disparities, historical and national contexts of its subject, and to further appreciate what has become an undeniably global phenomenon.

Macarons Pierre Hermé 2018-08-17 "The macaron bible that we have all waited for . . . filled with imagination, creativity and wonder" by the universally acknowledged king of French pastry (Cooking by the Book). With shops in Tokyo, Paris and London, Pierre Herme has taken the world by storm and has even been described as a couturier of pastry. This is a man at the top of his art and there is no question his macarons are in a league of their own. Macarons are the aristocrats of pastry; these brightly colored, mini meringues, daintily sandwiched together with gooey fillings have become a holy grail for cookery fanatics and there are even food blogs dedicated to them. Like Pierre Herme's famous macarons, it would be difficult for any macaron book to surpass this universal bestseller. There are 208 pages of recipes and beautiful food photography, and because making macarons is mostly about technique, rather than just a standard recipe, readers will appreciate the 32 step-by-step photo-illustrated instructions for making shells and fillings. All the classics are here like dark chocolate, praline, coffee, and pistachio, but others feature the more unusual macarons that Herme is justly famous for: Isfahan is one, with lychee, rose and raspberry, Arabesque with apricot and pistachio, Satine with passion fruit, orange and cream cheese, Mandarin and pink pepper, black truffles, balsamic vinegar as well as a bright-green macaron filled with fresh mint.

Fairy Tale Films Pauline Greenhill 2010-08-06 In this, the first collection of essays to address the development of fairy tale film as a genre, Pauline Greenhill and Sidney Eve Matrix stress, "the mirror of fairy-tale film reflects not so much what its audience members actually are but how they see themselves and their potential to develop (or, likewise, to regress)." As Jack Zipes says further in the foreword, "Folk and fairy tales pervade our lives constantly through television soap operas and commercials, in comic books and cartoons, in school plays and storytelling performances, in our superstitions and prayers for miracles, and in our dreams and daydreams. The artistic re-creations of fairy-tale plots and characters in film—the parodies, the aesthetic experimentation, and the mixing of genres to engender new insights into art and life—mirror possibilities of estranging ourselves from designated roles, along with the conventional patterns of the classical tales." Here, scholars from film, folklore, and cultural studies move discussion beyond the well-known Disney movies to the many other filmic adaptations of fairy tales and to the widespread use of fairy tale tropes, themes, and motifs in cinema.

Notes from the Hyena's Belly Nega Mezlekia 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Queen of the Court Serena Williams 2009 One of the biggest stars in tennis, Serena Williams has captured every major title. Her 2009 Australian Open championship earned her the number one world ranking for the third time in her illustrious career--and marked only the latest exclamation point in a life well and purposefully lived. As a young girl, Serena began training with an adult-size racquet that was almost as big as she was. Rather than dropping the racquet, Serena saw it as a challenge to overcome - and she has confronted every obstacle on her path to success with the same unflagging spirit. From growing up in the tough, hardscrabble neighborhood of Compton, California, to being trained by her father on public tennis courts littered with broken glass and drug paraphernalia, to becoming the top women's player in the world, Serena has proven to be an inspiration to her legions of fans both young and old. Her accomplishments have not been won without struggle. She has been derailed by injury, criticized for her unorthodox approach to tennis, and was devastated by the tragic shooting of her older sister. Yet somehow Serena always manages to prevail, both on and off the court. She's applied the same strength and determination that helped her to become a champion to her successful pursuits in philanthropy, fashion, television, and film. In this compelling and poignant memoir, Serena takes an empowering look at her extraordinary life and what is still to come.

The Jewish Community of Golders Green Pam Fox 2016-10-03 The first Jews settled in Golders Green just before the First World War, and by 1930 the suburb had been recognised for its significant Jewish community. By 1960 the Jewish population of Golders Green had tripled. A century after the arrival of the first Jewish families, the community remains very diverse and is growing rapidly. Golders Green is now the most Jewishly populous neighbourhood in the country. Despite its prominence and its vibrancy, the Jewish Community of Golders Green have not been the subject of a detailed historical study. This book addresses this oversight and - based to a significant extent on the memories and knowledge of the community - fills an important gap in Anglo-Jewish history.

Found Footage Peter Delpout 2012 NOW 60 % PRICE REDUCTION|Found Footage: Cinema Exposed Victims' Cram Roberto Bertoldo 2016 Poetry. Translated from the Italian, and with a foreword by Steven Grieco- Rathgeb. Selected from seven collections and presented in a fine Italian-English edition, these are poems by a prolific philosopher, novelist and postmodern poet written on the edge of lyricism, tempered by a hardheaded realism and often set in a nocturnal mode. "Bertoldo's poetic production may... be seen as a long series of lucid attempts to break up the weak' style of poetry. His is, however, very much an insider's job: he stands inside the house, and uses, reuses, and processes the materials he finds there. His apparent attempts to put these together into some coherent whole always meet with failure: he always allows the fabric to be rent by the outside world, which powerfully encroaches on this cozy little place with its strident and meaningless cacophony, but also with its urgent wake-up calls. Any temptation the poet may have to slide backwards into lyricism is wiped out by his own harsh rhythms, the clusters of distorted, dissonant words and phrases often made up of broken conversations overheard at poetry readings, coffee shops, supermarkets, intellectual gatherings, church homilies." from the Foreword"

Montessori Madness Trevor Eissler 2009 "We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book asks parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what education should look like will never be the same"--Back cover.
