*On Rereading* Patricia Meyer Spacks 2013-11-18 After retiring from a lifetime of teaching literature, Patricia Meyer Spacks embarked on a year-long project of rereading dozens of novels: childhood favorites, fiction first encountered in young adulthood and never before revisited, books frequently reread, canonical works of literature she was supposed to have liked but didn't, guilty pleasures (books she oughtn't to have liked but did), and stories reread for fun vs. those read for the classroom. *On Rereading* records the sometimes surprising, always fascinating, results of her personal experiment. Spacks addresses a number of intriguing questions raised by the purposeful act of rereading: Why do we reread novels when, in many instances, we can remember the plot? Why, for example, do some lovers of Jane Austen's fiction reread her novels every year (or oftener)? Why do young children love to hear the same story read aloud every night at bedtime? And why, as adults, do we return to childhood favorites such as *The Hobbit*, *Alice in Wonderland*, and the *Harry Potter* novels? What pleasures does rereading bring? What psychological needs does it answer? What guilt does it induce when life is short and there are so many other things to do (and so many other books to read)? Rereading, Spacks discovers, helps us to make sense of ourselves. It brings us sharply in contact with how we, like the books we reread, have both changed and remained the same.

**Suck It Up** Brian Meehl 2008-05-13 ARE YOU UP to your neck in bloodsucking vampire stories? Tired of those tales about dentally enhanced dark lords? Before I wrote this book I thought all vampires were night-stalking, fangpopping, bloodsucking fiends. Then I met Morning McCobb. He's a vegan vampire who drinks a soy-blood substitute called Blood Lite. He believes staking should be a hate crime. And someday he hopes to march in a Vampire Pride Parade. He was also the first vampire to out himself and try to show people of mortality, like you and me, that vampires are just another minority with special needs. Trust me—this is like no other vampire book you'll ever feed on. So, as my buddy Morning says, "Pop the lid, and suck it up."

Run for your life Harriet Reed, a novelist on the brink of literary stardom, is newly engaged to Edward Holbeck, the heir of an extremely powerful family. As Harriet is drawn into their lavish world, the family seems perfectly welcoming. So when Edward's father, Robert, hands Harriet a tape of a book he's been working on, she is desperate to listen. But as she presses play, it's clear that this isn't just a novel. It's a confession. A confession to a grisly crime. A murder. And, suddenly, the game is in motion. Feeling isolated and confused, Harriet must work out if this is part of a plan to test her loyalty or something far darker. What is it that Robert sees in her? Why give her the power to destroy everything? This might be a game to the Holbeck family—but losing could still prove deadly. READY OR NOT, HERE THEY COME . . .

**A Confederacy of Dunces** John Kennedy Toole 2007-12-01 Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review *A Confederacy of Dunces* is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

**Kings of the Wyld** Nicholas Eames 2017-02-21 A retired group of legendary mercenaries get the band back together for one last impossible mission in this award-winning debut epic fantasy. **The WEIRDest People in the World** Joseph Henrich 2020-09-08 A New York Times Notable Book of 2020 A Bloomberg Best Non-Fiction Book of 2020 A Behavioral Scientist Notable Book of 2020 A Human Behavior & Evolution Society Must-Read Popular Evolution Book of 2020 A bold, epic account of how the co-evolution of psychology and culture created the peculiar Western mind that has profoundly shaped the modern world. Perhaps you are WEIRD: raised in a society that is Western, Educated, Industrialized, Rich, and Democratic. If so, you're rather psychologically peculiar. Unlike much of the world today, and most people who have ever lived, WEIRD people are highly individualistic, self-obsessed, control-oriented, nonconformist, and analytical. They focus on themselves—their attributes, accomplishments, and aspirations—over their relationships and social roles. How did WEIRD populations become so psychologically distinct? What role did these psychological differences play in the industrial revolution and the global expansion of Europe during the last few centuries? In *The WEIRDest People in the World*, Joseph Henrich draws on cutting-edge research in anthropology, psychology, economics, and evolutionary biology to explore these questions and more. He illuminates the origins and evolution of family structures, marriage, and religion, and the profound impact these cultural transformations had on human psychology. Mapping these shifts through ancient history and late antiquity, Henrich reveals that the most fundamental institutions of kinship and marriage changed dramatically under pressure from the Roman Catholic Church. It was these changes that gave rise to the WEIRD psychology that would coevolve with impersonal markets, occupational specialization, and free competition—laying the foundation for the modern world. Provocative and engaging in both its broad scope and its surprising details, *The WEIRDest People in the World* explores how culture, institutions, and psychology shape one another, and explains what this means for both our most personal sense of who we are as individuals and also the large-scale social, political, and economic forces that drive human history. Includes black-and-white illustrations.

**Boozehound** Jason Wilson 2010-09-21 While some may wonder, "Does the world really need another flavored vodka?" no one answers this question quite so memorably as spirits writer and raconteur Jason Wilson does in *Boozehound*. (By the way, the short answer is no.) A unique blend of travelogue, spirits history, and recipe collection, *Boozehound* explores the origins of what we drink and the often surprising reasons behind our choices. In lieu of odorless, colorless, tasteless spirits, Wilson champions Old World liquors with hard-to-define flavors—a bitter and complex Italian amari, or the ancient, aromatic herbs of Chartreuse, as well as distinctive New World offerings like lively Peruvian pisco. With an eye for adventure, Wilson seeks out visceral experiences at the source of production—visiting fields of spiky agave in Jalisco, entering the heavily and reverently-guarded Jägermeister herb room in Wolfenbüttel, and journeying to the French Alps to determine if mustachioed men in berets really handpick blossoms to make elderflower liqueur. In addition, *Boozehound* offers more than fifty drink recipes, from three riffs on the Manhattan to cocktail-geek favorites like the Aviation and the Last Word. These recipes are presented alongside a host of opinionated essays that cherish the rare, uncover the obscure, dethrone the overrated, and unravel the mysteries of taste, trends, and terroir. Through his far-flung, intrepid traveling and tasting, Wilson shows us that perhaps nothing else as entwined with the history of human culture is quite as much fun as booze.

**A Very Punchable Face** Colin Jost 2021-07-13 NEW YORK TIMES BESTSELLER • In these hilarious essays, the Saturday Night Live head writer and Weekend Update co-anchor learns how to take a beating. "I always wanted to punch his face before I read this book. Now I just want to kick him in the balls."—Larry David NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Cosmopolitan • Vulture • Parade If there's one trait that makes someone well suited to comedy, it's being able to take a punch—metaphorically and, occasionally, physically. From growing up in a family of firefighters on Staten Island to commuting three hours a day to high school and "seeing the sights" (like watching a Russian woman throw a stroller off the back of a ferry), to attending Harvard while Facebook was created, Jost shares how he has navigated the world like a slightly smarter Forrest Gump. You'll also discover things about Jost that will surprise and confuse you, like how Jimmy Buffett saved his life, how Czech teenagers attacked him with potato salad, how an insect laid eggs inside his legs, and how he competed in a twenty-five-man match at WrestleMania (and almost won). You'll go behind the scenes at SNL and Weekend Update (where he's written some of the most memorable sketches and jokes of the past fifteen years). And you'll experience the life of a touring stand-up comedian—from performing in rural college cafeterias at noon to opening for Dave Chappelle at Radio City Music Hall. For every accomplishment (hosting the Emmys), there is a setback (hosting the Emmys). And for every absurd moment (watching paramedics give CPR to a raccoon), there is an honest, emotional one (recounting his mother's experience on the scene of the Twin Towers' collapse on 9/11). Told with a healthy dose of self-deprecation, *A Very Punchable Face* reveals the brilliant mind behind some of the dumbest sketches on television, and lays bare the heart and humor of a hardworking guy—with a face you can't help but want to punch.

The winner of the 2016 Pulitzer Prize for Fiction, as well as seven other awards, *The Sympathizer* is the breakthrough novel of the year. With the pace and suspense of a thriller and prose that has been compared to Graham Greene and Saul Bellow, *The Sympathizer* is a sweeping epic of love and betrayal. **Emotionally Weird** Kate Atkinson 2013-03-29 Emotionally Weird is a thoroughly original and hilarious new novel about mothers, daughters, and love, by the author of Behind the Scenes at the Museum On a weather-beaten island off the coast of Scotland, Effie and her mother, Nora, take refuge in the large, mouldering house of their ancestors and tell each other stories. Nora, at first, recounts nothing that Effie really wants to hear--like who her real father was. Effie tells various versions of her life at college, where in fact she lives in a lethargic relationship with Bob, a student who never goes to lectures, seldom gets out of bed, and to whom Klingons are as real as Spaniards and Germans. But as mother and daughter spin their tales, strange things are happening around them. Is Effie being followed? Is someone killing the old people? And where is the mysterious yellow dog? In a brilliant comic narrative which explores the nonsensical power of language and meaning, Kate Atkinson has created another magical masterpiece.

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

So listen up, because our mothers were right: Handsome is as handsome does. If you never really understood what that meant--and who did?--then this book is for you. Lieberman, author of *Exercised*). While plenty of entertaining books have been written about the history of alcohol and other intoxicants, none have offered a comprehensive, convincing answer to the basic question of why humans want to get high in the first place. *Drunk* elegantly cuts through the tangle of urban legends and anecdotal impressions that surround our notions of intoxication to provide the first rigorous, scientifically-grounded explanation for our love of alcohol. Drawing on evidence from archaeology, history, cognitive neuroscience, psychopharmacology, social psychology, literature, and genetics, *Drunk* shows that our taste for chemical intoxicants is not an evolutionary mistake, as we are so often told. In fact, intoxication helps solve a number of distinctively human challenges: enhancing creativity, alleviating stress, building trust, and pulling off the miracle of getting fiercely tribal primates to cooperate with strangers. Our desire to get drunk, along with the individual and social benefits provided by drunkenness, played a crucial role in sparking the rise of the first large-scale societies. We would not have civilization without intoxication. From marauding Vikings and bacchanalian orgies to sex-starved fruit flies, blind cave fish, and problem-solving crows, *Drunk* is packed with fascinating case studies and engaging science, as well as practical takeaways for individuals and communities. The result is a captivating and long overdue investigation into humanity's oldest indulgence—one that explains not only why we want to get drunk, but also how it might actually be good for us to tie one on now and then.

**Games** C. Thi Nguyen 2020 "Games are a unique art form. The game designer doesn't just create a world; they create who you will be in that world. They tell you what abilities to use and what goals to take on. In other words, they specify a form of agency. Games work in the medium of agency. And to play them, we take on alternate agencies and submerge ourselves in them. What can we learn about our own rationality and agency, from thinking about games? We learn that we have a considerable degree of fluidity with our agency. First, we have the capacity for a peculiar sort of motivational inversion. For some of us, winning is not the point. We take on an interest in winning temporarily, so that we can play the game. Thus, we are capable of taking on temporary and disposable ends. We can submerge ourselves in alternate agencies, letting them dominate our consciousness, and then dropping them the moment the game is over. Games are, then, a way of recording forms of agency, of encoding them in artifacts. Our games are a library of agencies. And exploring that library can help us develop our own agency and autonomy. But this technology can also be used for art. Games can sculpt our practical activity, for the sake of the beauty of our own actions. Games are part of a crucial, but overlooked category of art - the process arts. These are the arts which evoke an activity, and then ask you to appreciate your own activity. And games are a special place where we can foster beautiful experiences of our own activity. Because our struggles, in games, can be designed to fit our capacities. Games can present a harmonious world, where our abilities fit the task, and where we pursue obvious goals and act under clear values. Games are a kind of existential balm against the difficult and exhausting value clarity of the world. But this presents a special danger. Games can be a fantasy of value clarity. And when that fantasy leaks out into the world, we can be tempted to oversimplify our enduring values. Then, the pleasures of games can seduce us away from our autonomy, and reduce our agency."--

**The Negro Motorist Green Book** Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

It is a world of geniuses and tyrants, of luxury and menace, of unusual animals and mysterious machines.
