*Creatures of Darkness* Gene D. Phillips 2014-07-11 More than any other writer, Raymond Chandler (1888-1959) is responsible for raising detective stories from the level of pulp fiction to literature. Chandler's hard-boiled private eye Philip Marlowe set the standard for rough, brooding heroes who managed to maintain a strong sense of moral conviction despite a cruel and indifferent world. Chandler's seven novels, including *The Big Sleep* (1939) and *The Long Goodbye* (1953), with their pessimism and grim realism, had a direct influence on the emergence of film noir. Chandler worked to give his crime novels the flavor of his adopted city, Los Angeles, which was still something of a frontier town, rife with corruption and lawlessness. In addition to novels, Chandler wrote short stories and penned the screenplays for several films, including *Double Indemnity* (1944) and *Strangers on a Train* (1951). His work with Billy Wilder and Alfred Hitchcock on these projects was fraught with the difficulties of collaboration between established directors and an author who disliked having to edit his writing on demand. *Creatures of Darkness* is the first major biocritical study of Chandler in twenty years. Gene Phillips explores Chandler's unpublished script for *Lady in the Lake*, examines the process of adaptation of the novel *Strangers on a Train*, discusses the merits of the unproduced screenplay for *Playback*, and compares Howard Hawks's director's cut of *The Big Sleep* with the version shown in theaters. Through interviews he conducted with Wilder, Hitchcock, Hawks, and Edward Dmytryk over the past several decades, Phillips provides deeper insight into Chandler's sometimes difficult personality. Chandler's wisecracking Marlowe has spawned a thousand imitations. *Creatures of Darkness* lucidly explains the author's dramatic impact on both the literary and cinematic worlds, demonstrating the immeasurable debt that both detective fiction and the neo-noir films of today owe to Chandler's stark vision.

[Making a Good Script Great](#) Linda Seger 1994 "Making a good script great is not just a matter of having a good idea. Nor is it a matter of just putting that good idea down on paper. In scriptwriting, it's not just the writing but also the rewriting that counts. [This book] focuses on the rewriting process and offers specific methods to help you craft tighter, stronger, and more workable scripts. While retaining all the valuable insights that have made the first edition one of the all-time most popular screenwriting books, this expanded, second edition adds new chapters that take you through the complete screenwriting process, from the first draft through the shooting draft. If you're writing your first script, this book will help develop your skills for telling a compelling and dramatic story. If you're a veteran screenwriter, this book will articulate the skills you know intuitively. And if you're currently stuck on a rewrite, this book will help you analyze and solve the problems and get your script back on track."--Back cover.

*The Primer of Humor Research* Victor Raskin 2008-11-06 The book is intended to provide a definitive view of the field of humor research for both beginning and established scholars in a variety of fields who are developing an interest in humor and need to familiarize themselves with the available body of knowledge. Each chapter of the book is devoted to an important aspect of humor research or to a disciplinary approach to the field, and each is written by the leading expert or emerging scholar in that area. There are two primary motivations for the book. The positive one is to

collect and summarize the impressive body of knowledge accumulated in humor research in and around *Humor: The International Journal of Humor Research*. The negative motivation is to prevent the embarrassment to and from the "first-timers," often established experts in their own field, who venture into humor research without any notion that there already exists a body of knowledge they need to acquire before publishing anything on the subject--unless they are in the business of reinventing the wheel and have serious doubts about its being round! The organization of the book reflects the main groups of scholars participating in the increasingly popular and high-powered humor research movement throughout the world, an 800 to 1,000-strong contingent, and growing. The chapters are organized along the same lines: History, Research Issues, Main Directions, Current Situation, Possible Future, Bibliography--and use the authors' definitive credentials not to promote an individual view, but rather to give the reader a good comprehensive and condensed view of the area.

**Jane Austen on Film and Television** Sue Parrill 2010-06-28 Jane Austen's career as a novelist began in 1811 with the publication of *Sense and Sensibility*. Her work was finally adapted for the big screen with the 1940 filming of *Pride and Prejudice* (very successful at the box office). No other film adaptation of an Austen novel was made for theatrical release until 1995. Amazingly, during 1995 and 1996, six film and television adaptations appeared, first *Clueless*, then *Persuasion*, followed by *Pride and Prejudice*, *Sense and Sensibility*, the Miramax *Emma*, and the Meridian/A&E *Emma*. This book traces the history of film and television adaptations (nearly 30 to date) of Jane Austen manuscripts, compares the adaptations to the manuscripts, compares the way different adaptations treat the novels, and analyzes the adaptations as examples of cinematic art. The first of seven chapters explains why the novels of Jane Austen have become a popular source of film and television adaptations. The following six chapters each cover one of Austen's novels: *Sense and Sensibility*, *Pride and Prejudice*, *Emma*, *Mansfield Park*, *Persuasion*, and *Northanger Abbey*. Each chapter begins with a summary of the main events of the novel. Then a history of the adaptations is presented followed by an analysis of the unique qualities of each adaptation, a comparison of these adaptations to each other and to the novels on which they are based, and a reflection of relevant film and literary criticism as it applies to the adaptations.

**The Conversations** Michael Ondaatje 2012-12-03 During the filming of his celebrated novel *THE ENGLISH PATIENT*, Michael Ondaatje became increasingly fascinated as he watched the veteran editor Walter Murch at work. *THE CONVERSATIONS*, which grew out of discussions between the two men, is about the craft of filmmaking and deals with every aspect of film, from the first stage of script writing to the final stage of the sound mix. Walter Murch emerged during the 1960s at the centre of a renaissance of American filmmakers which included the directors Francis Coppola, George Lucas and Fred Zinneman. He worked on a whole raft of great films including the three *GODFATHER* films, *JULIA*, *AMERICAN GRAFFITI*, *APOCALYPSE NOW*, *THE UNBEARABLE LIGHTNESS OF BEING* and many others. wrong and how they can be saved. His experience on APOCALYPSE NOW - both originally and more recently when the film was completely re-cut - and his work with Anthony Minghella on THE ENGLISH PATIENT provide illuminating highlights.

*Writing the Character-Centered Screenplay, Updated and Expanded edition* Andrew Horton 2000-02-23 "We need good screenwriters who understand character." Everywhere Andrew Horton traveled in researching this book—from Hollywood to Hungary—he heard the same refrain. Yet most of the standard how-to books on screenwriting follow the film industry's earlier lead in focusing almost exclusively on plot and formulaic structures. With this book, Horton, a film scholar and successful screenwriter, provides the definitive work on the character-based screenplay. Exceptionally wide-ranging—covering American, international, mainstream, and "off-Hollywood" films, as well as television—the book offers creative strategies and essential practical information. Horton begins by placing screenwriting in the context of the storytelling tradition, arguing through literary and cultural analysis that all great stories revolve around a strong central character. He then suggests specific techniques and concepts to help any writer—whether new or experienced—build more vivid characters and screenplays. Centering his discussion around four film examples—including *Thelma & Louise* and *The Silence of the Lambs*—and the television series, *Northern Exposure*, he takes the reader step-by-step through the screenwriting process, starting with the development of multi-dimensional characters and continuing through to rewrite. Finally, he includes a wealth of information about contests, fellowships, and film festivals. Espousing a new, character-based approach to screenwriting, this engaging, insightful work will prove an essential guide to all of those involved in the writing and development of film scripts.

*Beyond The Bridge* Tobias Hochscherf 2017-02-28 Drawing worldwide acclaim from critics and audiences alike, programmes like *The Killing*, *Borgen*, *The Bridge* and *The Legacy* demonstrate widespread fascination with Danish style, aesthetics and culture as seen through television narratives. This book uses familiar, alongside lesser known, case studies of drama series to demonstrate how the particular features of Danish production - from work cultures, to storytelling techniques and trans-national cooperation - have enhanced contemporary Danish drama's appeal both at home and abroad. The era of globalisation has blurred national and international television cultures and promoted regular cross-fertilisation between film and television industries. Important questions have emerged from this context surrounding, for example, the 'Americanisation' of foreign television formats, the meaning and practice behind the term 'quality television', and the purpose and efficacy of public service broadcasting. *Beyond the Bridge* tackles these issues in relation to Danish television, by examining the so-called 'scaffolded production processes' behind the making of quality serials and their thought-provoking content. Drawing on popular motifs from these celebrated dramas such as foreign politics, organised crime, global warming, and the impact of multinational corporations, this timely book provides crucial insight into the Danish dramas at the forefront of sophisticated, forward-thinking, fictional television.

**The Film Novelist** Dennis J. Packard 2011-09-08 The Film Novelist is the first primer on writing film novels- whether you are a beginning novelist, a seasoned writer wanting to cross over into script/novel writing, or a creative writing teacher looking for proven ways to launch new writers. So, what is the difference between a screenplay and a film novel? Screenplays indicate solely what the audience is to see or hear on screen. Film novels are short, and take about as long to read as a feature film takes to watch. The description, dialogue, and narration of a film novel can simply be lifted out and used as the description, dialogue, and voice-over narration for a script. The author has devised a fifteen week program starting from a one-sentence pitch to the novel itself, which includes filming a scene from your script/novel. He grounds the discussion of early film novels, like *The Maltese Falcon*, *Of Mice and Men*, and *The Misfits*, to provide historical and theoretical background while detailing the practical, sequential approach for completing a short novel and script.

**A.D. After Disclosure** Richard Dolan 2012-05-22 "What if the UFO cover-up is real and what if it ended? After Disclosure poses this fascinating question and looks at the societal consequences of such a revelation. Richard Dolan and Bryce Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life." —Nick Pope, Former Chief of UK Ministry of Defence UFO Desk  
What if UFO secrecy ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn't afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, "What did you know and when did you know it?" The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth--from history to science--will need an immediate review. Whether disclosure leads to social panic or ushers in a new era of unity and peace, it will undoubtedly be a game-changing event.

**Audio Description** Anna Maszerowska 2014-10-15 Audio description (AD) is a narrative technique which provides complementary information regarding the where, who, what and how of any audiovisual content. It translates the visuals into words. The principal function of this ad hoc narrative is to make audiovisual content available to all: be it a guided city tour of Barcelona, a 3D film, or a Picasso painting. Audio description is one of the younger siblings of Audiovisual Translation, and it is epigonic to the audiovisual translation modality chosen. This book is the first volume on the topic written in English and it brings together an international team of leading audio description teachers, scholars, and practitioners to address the basic issues regarding audio description strategies. Using one stimulus, Quentin Tarantino's film *Inglourious Basterds* (2009), the authors analysed what, when, where and how to audio describe. The book is written in a collaborative effort, following a bottom up approach. The many issues that surfaced in the process of the analysis were grouped in broader categories represented in the ten chapters this book contains. A good example of a successful international collaboration, the volume sets a robust practical and theoretical framework for the many studies on audio description to come in the future. Considering the structure of the individual contributions, the book is not only oriented towards the identification of the challenges that await the describer, but it also offers an insight into their possible solutions.

**Classical Storytelling and Contemporary Screenwriting** Brian Price 2018 Since we first arrived on the planet, we've been telling each other stories, whether of that morning's great saber-tooth tiger hunt or the latest installment of the Star Wars saga. And throughout our history, despite differences of geography or culture, we've been telling those stories in essentially the same way. Why? Because there is a RIGHT way to tell a story, one built into our very DNA. In his seminal work Poetics, Aristotle identified the patterns and recurring elements that existed in the successful dramas of his time as he explored precisely why we tell stories, what makes a good one, and how to best tell them. In Classical Storytelling and Contemporary Screenwriting, Brian Price examines Aristotle's conclusions in an entertaining and accessible way and then applies those guiding principles to the most modern of storytelling mediums, going from idea to story to structure to outline to final pages and beyond, covering every relevant screenwriting topic along the way. The result is a fresh new approach to the craft of screenwriting--one that's only been around a scant 2,500 years or so--ideal for students and aspiring screenwriters who want a comprehensive step-by-step guide to writing a successful screenplay the way the pros do it.

It shows writers how to design each element so that they perfectly interlock together like pieces of a puzzle, creating a stronger story foundation that does not leave gaps and holes for readers to find. This construction process is performed one piece at a time, one character at a time, building and incorporating each element into the whole. The book provides a clear-cut set of lessons that teaches how to construct that story base around concepts as individual as the writer's personal opinions, helping to foster an individual writer's voice. It also features end-of-chapter exercises that offer step-by-step guidance in applying each lesson, providing screenwriters with a concrete approach to building a strong foundation for a screenplay. This is the quintessential book for all writers taking their first steps

**Entertainment Science** Thorsten Hennig-Thurau 2018-08-01 The entertainment industry has long been dominated by legendary screenwriter William Goldman's "Nobody-Knows-Anything" mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable competitive advantage - the same recipe for success that is behind the rise of firms such as Netflix and Spotify, but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to "Nobody-Knows" decision-making in the digital era: while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit, it systematically and substantially increases the probability of success in the entertainment industry. Entertainment Science is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike. Thorsten Hennig-Thurau and Mark B. Houston - two of our finest scholars in the area of entertainment marketing - have produced a definitive research-based compendium that cuts across various branches of the arts to explain the phenomena that provide consumption experiences to capture the hearts and minds of audiences. Morris B. Holbrook, W. T. Dillard Professor Emeritus of Marketing, Columbia

University Entertainment Science is a must-read for everyone working in the entertainment industry today, where the impact of digital and the use of big data can't be ignored anymore. Hennig-Thurau and Houston are the scientific frontrunners of knowledge that the industry urgently needs. Michael Kölmel, media entrepreneur and Honorary Professor of Media Economics at University of Leipzig Entertainment Science's winning combination of creativity, theory, and data analytics offers managers in the creative industries and beyond a novel, compelling, and comprehensive approach to support their decision-making. This ground-breaking book marks the dawn of a new Golden Age of fruitful conversation between entertainment scholars, managers, and artists. Allègre Hadida, Associate Professor in Strategy, University of Cambridge

**The Craft of Scene Writing** Jim Mercurio 2019-02-01 A professional screenwriter's master class in writing the most critical and challenging script element—the individual scene.

**Visual Storytelling** Ronald J. Osgood 2009 DVD-ROM contains: Interactive modules that illustrate concepts discussed in the text.

**Surrealism and Cinema** Michael Richardson 2006-03-01 Surrealism has long been recognised as having made a major contribution to film theory and practice, and many contemporary film-makers acknowledge its influence. Most of the critical literature, however, focuses either on the 1920s or the work of Buuel. The aim of this book is to open up a broader picture of surrealism's contribution to the conceptualisation and making of film. Tracing the work of Luis Buuel, Jacques Prvert, Nelly Kaplan, Walerian Borowczyk, Jan vankmajer, Raul Ruiz and Alejandro Jodorowsky, Surrealism and Cinema charts the history of surrealist film-making in both Europe and Hollywood from the 1920s to the present day. At once a critical introduction and a provocative re-evaluation, Surrealism and Cinema is essential reading for anyone interested in surrealist ideas and art and the history of film.
