Debating Immigration Carol M. Swain 2007-04-30 Includes statistical tables and graphs.

*Caribbean Migration* Elizabeth M. Thomas-Hope 2002 Originally published in 1992, this text considers out-migration from the Caribbean in an analytical manner. Its comparative approach, involving three islands (Jamaica, Barbados and St Vincent) and the range of micro-environments within those islands, is based on data from extensive surveys and in-depth interviews. Analysis of the migration process reflects the perspective of Caribbean potential migrants themselves.

**Caporalato** Fiammetta Fanizza 2019-08-02T00:00:00+02:00 The essay investigates the effects produced by criminal networks involved in the production and harvest of agricultural products. Focused on the analysis of caporalato, it explores the enslavement of immigrant agricultural labourers and territorial segregation practices. Moreover, it deals with the topic of the agromafias' role and discusses matters related to the deregulation of the agricultural market, as well as the general crisis of the agroindustries. Because caporalato has become a methodological instrument in

the framework known as globalization of the farmlands, this essay tries to evaluate the complex relationship between the agromafias' power and the operational conditions of Italy's local economies. The authors then explore elements of the extremely pervasive criminal network, that determines productive trends of entire agricultural departments, with the intention of denouncing the dangerous socio-cultural drift that mafia-like criminal organizations are creating in Europe.

**Toppling Qaddafi** Christopher S. Chivvis 2014 A highly readable look at the role of the US and NATO in Libya's war of liberation, and its lessons for future military interventions.

**Migrants at Work** Cathryn Costello 2014 This collection has its origins in the recognition that there is a highly significant and under-considered intersection and interaction between migration law and labour law. It is the culmination of a collaborative project on 'Migrants at Work' funded by the John Fell Fund, the Society of Legal Scholars and the Research Centre at St John's College, Oxford. The collection aims to shed light on the interactions between immigration, migration law and labour law, in particular how migration status has a bearing on labour relations and the world of work.

**International Migration Report 2015 - Highlights** United Nations Department of Economic and Social Affairs 2015-12-31 This report presents the highlights of the International Migration Report 2015, which contains the latest quinquennial estimates of international migrant stock for 232 countries or areas from 2000 to 2015. The annex in these Highlights provides data for 2000 and 2015 on the estimated number of international migrants, the percentage of migrants in the total population, the percentage of female migrants, and the median age of migrants for 232 countries or areas of the world.

**Comparative Demography of the Syrian Diaspora: European and Middle Eastern Destinations** Elwood D. Carlson 2021-08-26 This book provides a demographic profile of the Syrian

diaspora into Europe and identifies the issue of forced migration as a separate and increasingly salient topic within the more general field of migration research. It describes the progressive increase in numbers of Syrian refugees in different European countries during recent years and gives a demographic profile of the Syrian refugee population. The book also compares and synthesizes the demographic profiles presented, to show how the population of Syrian refugees differs from country to county in terms of age structure, sex ratio, family status, educational attainment and other social and economic characteristics. By providing a solid empirical portrait based on national and international statistics, this book will be a great resource to students, academics in migration and refugee studies as well as social scientists and policy-makers in European countries.

*Migrants, Refugees and Asylum Seekers' Integration in European Labour Markets* Veronica Federico  
2021-04-21 This open access book discusses how, and to what extent, the legal and institutional regimes and the socio-cultural environments of a range of European countries (the Czech Republic, Denmark, Finland, Greece, Italy, Switzerland and the UK), in the framework of EU laws and policies, have a beneficial or negative impact on the effective capacity of these countries to integrate migrants, refugees and asylum seekers into their labour markets. The analysis builds on the understanding of socio-cultural, institutional and legal factors as “barriers” or “enablers”; elements that may facilitate or obstruct the integration processes. The book examines the two dimensions of integration being access to the labour market (which, translated into a rights language means the right to work) with its corollaries (recognition of qualifications, vocational training, etc.), and non-discriminatory working conditions (which, translated into a rights language means right to both formal and substantial equality) and its corollaries of benefits and duties deriving from joining the

labour market. It thereby offers a novel approach to labour market integration and migration/asylum issues given its focus on legal aspects, which includes most recent policy changes and legal decisions (including litigation cases). The robust, evidence-based and comparative research illustrated in the book provides academics and students, but also practitioners and policy makers, with up to date knowledge that will likely impact positively on policy changes needed to better address integration conundrums.

**Critical Mobilities** Ola Söderström 2013 The field of mobility studies examines social phenomena through the lens of movement. In this perspective, societies are regarded as being constantly reconfigured as they are shaped by a series of mobile entities (capital, people, information). This book engages critically with many of the claims and challenges of mobility studies by providing empirically rich reports of mobilities and their limitations. Instead of assuming a seamless world of flows, the volume foregrounds questions of power, inequality, and moorings as integral to the movement of capital, goods, images, practices, or people. It brings together the work of several internationally renowned scholars, who engage with these movements at critical sites. This is the first book to provide a critical and interdisciplinary view of mobilities covering a broad range of issues rather than a single domain. The chapters deal with current and important issues, such as organ transplants, illegal migrations, urban globalization, international policies of higher education institutions, and scientific diasporas. As a whole, the book provides new insights into how power relations shape mobilities and societies.

**Resident Foreigners** Donatella Di Cesare 2020-04-13 From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war,

persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation – and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of philosophy and political theory.

Irregular Immigration in Southern Europe Maurizio Ambrosini 2018-01-05 Focusing on the dynamics of irregular immigration in Southern EU Member States, this book analyses how the phenomenon is managed at national and local levels in different legal and political systems. In doing so, it answers vital policy questions regarding the continued existence of irregular migration, pathways to legality, and relations between unauthorized migrants and receiving societies. The author argues that while the economic crisis and migrant flows coming from the South and East of the Mediterranean Sea have called this regime into question, it is the needs of labour markets in Southern Europe and compliance with European Union rules that has had a more dominant effect. The particular manner

in which labour markets, political actors, social institutions, and migrants' networks intersect are shown to be distinctive features of the migration regime in this region. Describing bordering and debordering practices, from the island of Lampedusa to local communities in distant regions, this book brings fresh insights to urgent areas of debate within the field. It analyses why many irregular immigrants are socially accepted, such as women who perform domestic and care activities, whereas others are rejected and marginalized, as is often the case for asylum seekers, despite having permission to reside. Drawing together twenty years of research and addressing the current crisis, it will appeal to policy-makers, students and scholars of migration.

**Dividing the Domestic** Judith Treas 2010-02-25 In *Dividing the Domestic*, leading international scholars roll up their sleeves to investigate how culture and country characteristics permeate our households and our private lives. The book introduces novel frameworks for understanding why the household remains a bastion of traditional gender relations—even when employed full-time, women everywhere still do most of the work around the house, and poor women spend more time on housework than affluent women. Education systems, tax codes, labor laws, public policies, and cultural beliefs about motherhood and marriage all make a difference. Any accounting of "who does what" needs to consider the complicity of trade unions, state arrangements for children's schooling, and new cultural prescriptions for a happy marriage. With its cross-national perspective, this pioneering volume speaks not only to sociologists concerned with gender and family, but also to those interested in scholarship on states, public policy, culture, and social inequality.

*The Rule of Law History, Theory and Criticism* Pietro Costa 2007-05-06 Authors Costa and Zolo share the conviction that a proper understanding of the rule of law today requires reference to a global problematic horizon. This book offers some relevant guides for orienting the reader through a

political and legal debate where the rule of law (and the doctrine of human rights) is a concept both controversial and significant at the national and international levels.

Coercive Diplomacy, Sanctions and International Law Natalino Ronzitti 2016-03-24 This volume explores sanctions as instruments of coercive diplomacy, delving into a number of theoretical arguments and combining different perspectives from international law and international relations scholars and practitioners.

International Migration Outlook 2019 OECD 2019-10-15 The 2019 edition of the International Migration Outlook analyses recent developments in migration movements and policies in OECD countries and some non-OECD economies. It also examines the evolution of labour market outcomes of immigrants in OECD countries.

**Extraterritorial Immigration Control** Bernhard Ryan 2010 This work analyses the legal challenges posed by contemporary practices of extraterritorial immigration control: visas, pre-embarkation checks and the interception of irregular migrants. It examines the international law framework, and provides case-studies from Europe, Australia and the United States.

**Palestinian Refugees in International Law** Francesca P. Albanese 2020-05-21 The Palestinian refugee question, resulting from the events surrounding the birth of the state of Israel seventy years ago, remains one of the largest and most protracted refugee crises of the post-WWII era. Numbering over six million in the Middle East alone, Palestinian refugees' status varies considerably according to the state or territory 'hosting' them, the UN agency assisting them and political circumstances

surrounding the Israeli-Palestinian conflict these refugees are naturally associated with. Despite being foundational to both the experience of the Palestinian refugees and the resolution of their plight, international law is often side-lined in political discussions concerning their fate. This compelling new book, building on the seminal contribution of the first edition (1998), offers a clear and comprehensive analysis of various areas of international law (including refugee law, human rights law, humanitarian law, the law relating to stateless persons, principles related to internally displaced persons, as well as notions of international criminal law), and probes their relevance to the provision of international protection for Palestinian refugees and their quest for durable solutions.

**Accountability and Legitimacy in the European Union** Anthony Arnall 2002 The European Union's growing accountability deficit threatens to undermine its legitimacy; accordingly, member states have agreed to negotiate a new set of Treaty changes in 2004. These essays consider various aspects of accountability and legitimacy in the European Union.

**International Migration Outlook 2018** OECD 2018-08-31 - Foreword - Editorial: Moving forward with a pragmatic and constructive co-operation agenda on international migration - Executive summary - Recent developments in international migration movements and policies - Labour market outcomes of migrants and integration policies in OECD countries - The contribution of recent refugee flows to the labour force - Addressing the illegal employment of foreign workers - Australia - Austria - Belgium - Bulgaria - Canada - Chile - Czech Republic - Denmark - Estonia - Finland - France - Germany - Greece - Hungary

*The Welfare of Syrian Refugees* Paolo Verme 2015-12-22 The Syrian refugee crisis, which began in 2011, is one of the most pressing disasters in the world today, with its effects reverberating around the globe. By the end of 2015, more than 7.6 million of the country's people had been internally

displaced and 4.3 million were registered refugees. The number of internally displaced persons and refugees amounts to about half of Syria's precrisis population. Thousands have died while trying to reach safety. Due to the large humanitarian response, there is now a wealth of available information on refugees' income and expenses, food and nutrition, health, education, employment, vulnerability, housing, and other measures of well-being. These data have been little explored, as humanitarian organizations face daily challenges that make the full use of existing data very difficult. The Welfare of Syrian Refugees: Evidence from Jordan and Lebanon aims to assess the poverty and vulnerability of these refugees and evaluate existing and alternative policies designed to help them. The authors find that current policies, including cash transfers and food vouchers, are effective in reducing poverty, but fail to lead to—nor are they designed to yield—economic inclusion and self-reliance. Those goals would require a different humanitarian and development paradigm, one that focuses on growth policies for areas affected by refugees where the target population has a mix of refugees and hosting populations. This volume is the result of the first comprehensive collaboration between the World Bank Group and the United Nations High Commissioner for Refugees (UNHCR) and aims to better understand and ultimately improve the well-being of Syrian refugees living in Jordan and Lebanon.

**Sustainable Development Report 2021** Jeffrey Sachs 2021-10-14 The Sustainable Development Report 2021 features the SDG Index and Dashboards, the first and widely used tool to assess country performance on the UN Agenda 2030 and the Sustainable Development Goals. The report analyses and outlines what needs to happen for the Decade of Action and Delivery of the SDGs. In order to build back better following the Covid-19 pandemic, especially low-income countries will need increased fiscal space. The report frames the implementation of the SDGs in terms of six broad

transformations. The authors examine country performance on the SDGs for 193 countries using a wide array of indicators, and calculate future trajectories, presenting a number of best practices to achieve the historic Agenda 2030. The views expressed in this report do not reflect the views of any organizations, agency or programme of the United Nations. This title is available as Open Access on Cambridge Core.

**Left-Behind Children in Rural China** Ye Jingzhong 2010-11-01 This ground breaking work is the result of research by Plan International China and the China Agricultural University on children who have been left behind in their rural villages when their parents migrate to cities in search of work.

*World Migration Report 2015* International Organization for Migration 2015-12-31 The World Migration Report 2015: Migrants and Cities, New Partnerships to Manage Mobility ? the eighth report in IOM's World Migration Report (WMR) series ? focuses on how migration and migrants are shaping cities and how the life of migrants is shaped by cities, their people, organizations and rules. Over 54 per cent of people across the globe were living in urban areas in 2014. The number of people living in cities will almost double to some 6.4 billion by 2050, turning much of the world into a global city. Human mobility and migration play an important part in this but are largely missing from the global debate on urbanization. Many city and local governments also still do not include migration or migrants in their urban development planning and implementation. The report aims to address this gap by considering migration as a defining factor alongside climate change, population growth, demographic change and economic crisis in shaping sustainable cities of the future.

**National Effects of the Implementation of EU Directives on Labour Migration from Third Countries** Roger Blanpain 2016-03-23 Guaranteeing third country national workers robust equal treatment with regard to working conditions and pay is a crucial condition for avoiding social

dumping, exploitation, and other reasons for regime shopping within the EU. However, Member States are still reluctant to compromise control of their borders and their labour markets. The EU legislation adopted is, as a result, fragmented and full of solutions that give Member States an extensive margin of room for manoeuvre. In this book six distinguished European labour law academics discuss how three EU directives on labour migration – the Single Permit Directive, the Blue Card Directive, and the Directive on Seasonal Employment – interact with the labour migration systems of France, Germany, Italy, Poland, and Sweden – five countries with very different characteristics and approaches to implementation. Concrete issues dealt with in each country include the following: – conditions for granting work permits; – reasons for withdrawing a work permit; – how long a migrant worker can stay; – whether a migrant worker can bring his or her family; – employment and labour rights of migrant workers; – migrant workers' access to social rights; – how a migrant worker may enforce rights; – sanctions for violations of applicable provisions; and – potential for permanent status for a migrant worker. For each of these issues the authors analyse to what extent national legislators have been ready to adapt their national systems in order to fulfill the aims of the EU directives. They also identify unintended, or at least not explicit, effects of the implementation process. The authors clearly reveal whether the ambitions of the EU when initiating this process can be detected in the implementation process, and how implementation of the three directives have changed and could change national law on these issues. As the first in-depth analysis of how the intersection of migration and labour law and their impact on labour and employment relations play out in the EU context this book brings important insights to the growing literature in this field. The analysis will be of particular interest to national legislators, but is also sure to be warmly welcomed by academics and practitioners in fields related to labour and

employment and migration.

**Child Migration and Human Rights in a Global Age** Jacqueline Bhabha 2016-05-17 The first comprehensive look at the global dilemma of child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

**Living in Two Homes** Mariella Espinoza Herold 2017-04-21 This book gathers researchers from

across the globe to examine paradigms, policies, and practices for developing an inclusive intercultural and transnational framework to reduce societal inequities brought about by transnational migration. This is necessary to positively integrate culturally-diverse families into schools and societies.

**Understanding Financial Accounts** OECD 2017-11-06 Understanding Financial Accounts seeks to show how a range of questions on financial developments can be answered with the framework of financial accounts and balance sheets, by providing non-technical explanations illustrated with practical examples.

**Migration in the Mediterranean** Francesca Ippolito 2016-01-11 Mediterranean states have developed various cooperation mechanisms in order to cope with the issues that arise from migration. This book critically analyses how institutional actors act and interact on the international scene in the control and management of migration in the Mediterranean. It highlights how, even though the involvement of 'universal' international organisations guarantees a certain balance in setting the goals of cooperation mechanisms and buttresses a certain coherence of the actions, the protection of migrants' fundamental rights is still an objective as opposed to a reality, and security imperatives and trends still prevail in the aftermath of the 2011 Arab Spring.

*Law in Times of Crisis* Oren Gross 2006-10-30 The terrorist attacks of September 11, 2001, and the ensuing 'war on terror' have focused attention on issues that have previously lurked in a dark corner at the edge of the legal universe. This book presents a systematic and comprehensive attempt by legal scholars to conceptualize the theory of emergency powers, combining post-September 11 developments with more general theoretical, historical and comparative perspectives. The authors examine the interface between law and violent crises through history and across jurisdictions,

bringing together insights gleaned from the Roman republic and Jewish law through to the initial responses to the July 2005 attacks in London. Three models of emergency powers are used to offer a conceptualization of emergency regimes, giving a coherent insight into law's interface with and regulation of crisis and a distinctive means to evaluate the legal options open to states for dealing with crises.

**Rights of Third-Country Nationals under EU Association Agreements** Daniel Thym, LL.M. 2015-08-07 Rights of Third-Country Nationals under EU Association Agreements identifies overarching themes and discusses the practical impact of the legal rules on the free movement of persons in association agreements between the EU and neighbouring countries, in particular Turkey.

*Napoli* Paolo Frascani 2017-01-19T00:00:00+01:00 Statistiche nazionali, pagelle sulla vivibilità, indicatori del tasso di criminalità e inquinamento si intrecciano al racconto del revival turistico e ai segnali di una nuova vivacità culturale. La Napoli d'oggi è un Giano bifronte. Per capirla bisogna calarsi nella sua storia recente, fare un viaggio nella città reale. Come 'testimone informato dei fatti', l'autore si confronta con le caotiche, smaglianti, mitiche o drammatiche rappresentazioni di Napoli, consapevole dell'ampliarsi della distanza dal resto del Paese. Una distanza che è stata volutamente sottovalutata dalla politica o, all'opposto, mediaticamente interpretata come punto di non ritorno. Napoli non può essere 'una città normale' perché, lo ricorda Roberto Saviano, «i napoletani vivono sotto i proiettili e abbassano la testa». Eppure - a guardar bene - questa città sotto l'inadeguatezza della propria classe dirigente e la fragilità della compagine sociale, esprime degli anticorpi vitali, degli elementi di dinamicità inattesi e spesso poco visibili a uno sguardo superficiale.

**Alpine Refugees** Giulia Galera 2019-09-30 This collection of essays highlights how given Alpine

territories in Austria, Italy, and Switzerland are currently facing challenges imposed by migration, the barriers and limitations they are encountering, and the extent to which migration triggers policy and territorial innovations that can generate beneficial impacts for both migrants and local inhabitants. Contributors here include practitioners and social workers who have experimented with innovative reception and integration pathways, as well as researchers with diverse disciplinary backgrounds, including geographers, sociologists, political scientists, social anthropologists, economists, and legal experts. The book draws on empirical and theoretical investigations, research actions implemented within the framework of large EU projects, and exploratory case studies and storylines of welcoming reception initiatives. It will appeal to practitioners, social scientists, and policy makers interested in both understanding the determinants that affect migrant exclusion and inclusion in Alpine territories and developing reception and integration initiatives of advantage to both sides when hosting asylum seekers in mountain areas.

**Enhancing Participation in the Arts in the EU** Victoria M. Ateca-Amestoy 2017-06-30 In this book, participation in the arts is analyzed as a substantial contributory factor to European citizenship, and also as a tool for improving individual and societal wellbeing through educational and inclusive policies. It offers an up-to-date overview of ongoing research on the measurement and analysis of, and prospects for, traditional and new forms of cultural engagement in Europe. It describes and assesses available methods and participation in the arts and seeks to determine how and to what extent the various drivers, policies and barriers matter. This publication is the final output of the work done by the members of the EU Project “Assessing effective tools to enhance cultural participation,” which brought together social scientists and cultural practitioners in joint projects, conferences and seminars, to reflect on the current situation and the challenges faced by

managers of cultural and arts institutions and cultural policy makers.

**Fuori di qui** Pietro Vulpiani 2018-11-16 Ago della bilancia delle tensioni sociali, l'immigrazione produce opportunità ma anche problemi: alimenta solidarietà e prevaricazione, economia e precarietà, amicizia e diffidenza. Questo volume svela i lati oscuri dell'immigrazione, dagli sbarchi mediatizzati alla controversa gestione del fenomeno, alle retoriche dell'integrazione. Nuove povertà e odio razziale, insicurezza, criminalità e terrorismo mettono a dura prova la convivenza, mescolando rancore e xenofobia. Il dibattito pubblico oscilla tra idealizzazione e demonizzazione del migrante, trascurando discriminazioni, fondamentalismi e la fuga dal paese di italiani e stranieri. The Future of International Migration to OECD Countries OECD 2009-08-11 Looking to the year 2030, this volume explores the social, economic and environmental forces which, in OECD countries, may combine to attract migrants of various types and backgrounds, and which, primarily in the developing world, may persuade people to leave or stay at home.

*Frontex and Non-Refoulement* Roberta Mungianu 2016-08-18 Since the Frontex Border Agency's establishment in 2004, its activities have foregrounded the complexity and difficulty of protecting the human rights of those seeking access to the European Union. In this connection, protection from refoulement should be paramount in the Agency's work. By navigating through the intricacies of Frontex's structure and working methods, this book answers abiding questions: which circumstances would trigger European Union responsibility if violations were to occur in Frontex's joint operations? What is the legal standing of the principle of non-refoulement in relation to Frontex's activities? Can Frontex be entrusted with an exclusive search and rescue mandate? This book offers a theoretical and practical insight into the legislative intricacies of Frontex's work, examining the responsibility of the EU, and scrutinising the interaction of international law and EU law with a focus on the principle

of non-refoulement.

*World Population Policies 2013* United Nations Publications 2014-02-17 This report provides a comprehensive overview of key aspects of population policies and dynamics for 197 countries since the mid-1970s. The report also includes two-page country profiles, with the first page containing information on changes in the Government views and policies and the second page containing data on selected population indicators corresponding to 1985, 1995, 2005 and 2013, the most recent revision year.

*Il diritto dell'immigrazione* DI MURO LUIGI 2021-02-17 L'intervenuta approvazione del D.L. 21 ottobre 2020 n. 130 (c.d. Decreto Lamorgese) convertito con modificazioni dalla Legge 18 dicembre 2020 n. 173 ("Disposizioni urgenti in materia di immigrazione, protezione internazionale e complementare, modifiche agli articoli 131-bis, 391-bis, 391-ter e 588 del codice penale, nonché misure in materia di divieto di accesso agli esercizi pubblici ed ai locali di pubblico trattenimento, di contrasto all'utilizzo di-storto del web e di disciplina del Garante nazionale dei diritti delle persone private della liberà personale.") incide di nuovo sulla normativa attuale in materia di protezione internazionale. La presente pubblicazione non analizza soltanto la predetta disciplina, ma volge un ulteriore sguardo al Testo Unico immigrazione (D.Lgs. n. 286/98 ), nel tempo oggetto di continue modificazioni, che hanno interessato l'intero corpus giuridico del diritto degli stranieri. In particolare è stata posta l'attenzione sul diritto all'unità familiare, sui minori stranieri, su nuove tipologie di permessi di soggiorno, sul diritto dei lavoratori extracomunitari, sui provvedimenti di

espulsione e sulle misure di protezione internazionale. Questo lavoro si propone come guida per gli avvocati ed i magistrati, le Forze dell'ordine, i pubblici funzionari ed operatori sociali, i componenti delle Commissioni territoriali per il riconoscimento della protezione internazionale e della Commissione nazionale per il diritto di asilo, ai candidati dei concorsi pubblici e ai tutori volontari per i minori stranieri non accompagnati, tutte categorie professionali impegnate nell'applicazione del diritto degli stranieri.
