Thunder and Ashes Z.A. Recht 2010-11-23 A LOT CAN CHANGE IN THREE MONTHS: Wars can be decided, nations can be forged . . . or entire species can be brought to the brink of annihilation. The Morningstar virus has swept the face of the planet, infecting billions. Its hosts rampage; its victims don't die, but are reborn as cannibalistic shamblers. SCATTERED ACROSS THE WORLD, EMBATTLED GROUPS HAVE PERSEVERED. For some, survival is the pinnacle of achievement. Others hoard goods and weapons. And still others leverage power over the remnants of humanity with a mysterious cure. Francis Sherman and Anna Demilio want only a vaccine, but to find it they must cross a ravaged landscape of the infected and the lawless living. THE BULK OF THE STORM HAS PASSED, leaving echoing thunder and softly drifting ashes. But for the survivors, the peril remains, and the search for a cure is just beginning. . . . Returning to the terrifying vision of his "awesome zombie novel" (David Moody) *Plague of the Dead*, Z.A. Recht "will once again make you turn your lights on" (J.L. Bourne) with this chilling apocalyptic thriller.

Monster Island David Wellington 2014-04-01 First in the cult classic trilogy: "A fantastic zombie novel . . . There are many layers to this zombie apocalypse, and this book just gets things rolling" (Booklist). Welcome to New York City, Population Zero? The power grid has collapsed. There is no running water, no light, no heat. The massive neon signs of Times Square are dark now, and the subway trains crouch silent in their tunnels, waiting for commuters who will never return. An epidemic of staggering lethality has passed over the city and left nothing living in its wake. And yet the city is not deserted. The dead have returned to life, and they're hungry. The millions of people who once worked and lived in New York have been turned into cannibalistic monsters whose only

function is to consume. No living person would dare enter the city--it would be suicide. Dekalb doesn't have a choice. He must protect his daughter's future, and that means retrieving vital medical supplies from the UN building in Midtown. A cadre of teenage girl soldiers have been recruited to help him find what he needs, and get back alive. They're well armed. They're devoted to their mission and willing to sacrifice anything to pull it off. But the odds against them are staggering. Especially when it turns out that not all zombies are created equal. Deep inside the city a medical student named Gary comes back from the dead different--his mind is intact. He can still think and feel. He's hungry, just like the rest, but unlike them he can plan, plot, and scheme. He can even lead the others, bending them to his will. Soon he has a small army at his command, a growing mob of rotting corpses all devoted to one cause: to find meat for their master. When Dekalb and Gary cross paths sparks will fly, destinies will clash--and the future of humanity will be decided, one head shot at a time.

The Darwin Elevator Jason M. Hough 2013-07-30 NEW YORK TIMES BESTSELLER Jason M. Hough's pulse-pounding debut combines the drama, swagger, and vivid characters of Joss Whedon's Firefly with the talent of sci-fi author John Scalzi. In the mid-23rd century, Darwin, Australia, stands as the last human city on Earth. The world has succumbed to an alien plague, with most of the population transformed into mindless, savage creatures. The planet's refugees flock to Darwin, where a space elevator—created by the architects of this apocalypse, the Builders—emits a plague-suppressing aura. Skyler Luiken has a rare immunity to the plague. Backed by an international crew of fellow "immunes," he leads missions into the dangerous wasteland beyond the aura's edge to find the resources Darwin needs to stave off collapse. But when the Elevator starts to malfunction, Skyler is tapped—along with the brilliant scientist, Dr. Tania Sharma—to solve the mystery of the failing alien technology and save the ragged remnants of humanity. Praise for The Darwin Elevator "A hell of a fun book."—James S. A. Corey, New York Times bestselling author of Abaddon's Gate "[Jason M.] Hough's first novel combines the rapid-fire action and memorable characters associated with Joss Whedon's short-lived Firefly TV series with the accessibility and scientific acumen of [James S. A.] Corey's 'Expanse' series."—Library Journal (starred review) "The best part about alien stories is their mystery, and Jason Hough understands that like no other. Full of compelling characters and thick with tension, The Darwin Elevator delivers both despair and hope along with a gigantic dose of wonder. It's a brilliant debut, and Hough can take my money whenever he writes anything from now on."—Kevin Hearne, New York Times bestselling author of The Iron Druid Chronicles "Newcomer Hough displays a talent for imaginative plotting and realistic dialogue, and the brisk pacing and cliffhanger ending will keep readers enthralled and eagerly awaiting the next installment."—Publishers Weekly "Jason M. Hough does a great job with this huge story. The world of Darwin and the Elevator is deliciously complex and satisfying. Skyler, Tania, and all the other characters are delightfully drawn and fun to spend time with. . . . The story unfolds with just the right balance of high adventure, espionage, humor, and emotional truth. . . . As soon as you finish, you'll want more."—Analog "A debut novel unlike any other . . . Dark Recollections Chris Philbrook 2013-10-23 Welcome to the Second Edition of the post apocalyptic epic. Beheading a zombie isn't easy in a world where you're more afraid of the living than the dead. Adrian Ring's simple life is thrown into chaos when the world is ripped apart by a plague of undead and legions of desperate survivors. Retreating to Auburn Lake Preparatory Academy, Adrian attempts to rescue friends and family on the way while dancing around his impending insanity over who and what he left behind, and evading maniac survivors. He saves his cat Otis, but shoots his mom. Pretty successful, all things considered. Of course, his sanity takes a hit as a result. Real, flawed, and raw, Dark Recollections is the first part of Adrian's own story of how he survived after "That Day." Told through his eyes as he talks to his laptop, affectionately named 'Mr. Journal,' and through short stories that entwine with his tales that bring forth dark visions of a world being eaten alive by an unimaginable evil. Adrian's Undead Diary is an eight part epic about a solitary, guilt stricken man that didn't think he deserved to live, but realizes very soon that he survived, and suffered for a reason. Dark Recollections is the first book in the AUD series. It covers Adrian's journal entries from September 21st 2010, to December 1st, 2010. Intermingled with his personal diary entries, book one also contains the short stories Phil's Story, McGreevy's Report, and Soccer Mom. The second edition of the book contains slight revisions to the table of contents, a new foreword by the author, and some editorial revisions.

Once they reach safety, however, the men and women on board realize that they are earth's last remaining survivors—and they've all been exposed to radiation. The Uninhabitable Earth David Wallace-Wells 2020-03-17 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* With a new afterword It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. Praise for *The Uninhabitable Earth* “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of

climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."—Jennifer Szalai, *The New York Times* "The book has potential to be this generation's *Silent Spring*."—*The Washington Post* "The *Uninhabitable Earth*, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."—Alan Weisman, *The New York Review of Books*

The Day of the Triffids John Wyndham 2022-04-19 The influential masterpiece of one of the twentieth century's most brilliant—and neglected—science fiction and horror writers, whom Stephen King called "the best writer of science fiction that England has ever produced." "[Wyndham] avoids easy allegories and instead questions the relative values of the civilisation that has been lost, the literally blind terror of humanity in the face of dominant nature. . . . Frightening and powerful, Wyndham's vision remains an important allegory and a gripping story."—*The Guardian* What if a meteor shower left most of the world blind—and humanity at the mercy of mysterious carnivorous plants? Bill Masen undergoes eye surgery and awakes the next morning in his hospital bed to find civilization collapsing. Wandering the city, he quickly realizes that surviving in this strange new world requires evading strangers and the seven-foot-tall plants known as triffids—plants that can walk and can kill a man with one quick lash of their poisonous stingers.
