Billboards Maurizio Montagna 2008 Both the author and the date of this five-volume poem, the first Western document to link the houses of the zodiac with the course of human affairs, are uncertain. The author's name may be Marcus Manilius, or Manlius, or Mallius, and the latest datable event mentioned in the books themselves is the disastrous defeat of Varus' Roman legions by the German tribes in 9 CE. The writing shows knowledge of the work of Lucretius, but the work is not referred to by any subsequent writer, suggesting that it was never widely disseminated. A manuscript was rediscovered by Poggio Bracciolini in 1416 or 1417, and editions were produced by Scaliger and Bentley, but this immensely erudite edition of 1903-1930 by the scholar and poet A. E. Housman (1859-1936) is regarded as authoritative. Volume 1 covers the creation and arrangement of the heavens and their division into spheres.

agli aiuti alimentari avranno la possibilità di fare qualcosa della propria vita. La certezza di poter mangiare ti permette di poter pensare ad altro: come imparare un mestiere, andare a scuola o mettere su un'attività. Insomma, continuare a vivere. **La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese** Francesca Capano 2018-10 This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture, religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration.

*Indonesian art. Pleasures of chaos. Ediz. italiana e inglese* Jim Supangkat 2010 "Secondo la teoria dell'entropia si può presupporre che la condizione di disordine che abbiamo oggi nella vita moderna non sia un sintomo negativo...". Così dichiara Jim Supangkat, autorevole critico e curatore indonesiano, nell'introduzione di questo volume che indaga la scena artistica contemporanea del suo paese attraverso il lavoro di dieci artisti cardine. Similmente alla produzione artistica di altre piazze asiatiche, soprattutto Cina e India, anche l'Indonesiana celebra il caos come, appunto, sintomo globalizzato non necessariamente privo di possibilità espressive. Prosegue, infatti, Supangkat: "Quando il caos raggiunge il suo punto critico, il processo di decadenza e le condizioni di disordine si concludono e una nuova sostanza prende forma, con un livello di ordine che è del tutto differente da quello che esisteva prima...".
