Nineteenth-Century Music Carl Dahlhaus 1989 This magnificent survey of the most popular period in music history is an extended essay embracing music, aesthetics, social history, and politics, by one of the keenest minds writing on music in the world today. Dahlhaus organizes his book around "watershed" years--for example, 1830, the year of the July Revolution in France, and around which coalesce the "demise of the age of art" proclaimed by Heine, the musical consequences of the deaths of Beethoven and Schubert, the simultaneous and dramatic appearance of Chopin and Liszt, Berlioz and Meyerbeer, and Schumann and Mendelssohn. But he keeps us constantly on guard against generalization and cliché. Cherished concepts like Romanticism, tradition, nationalism vs. universality, the musical culture of the bourgeoisie, are put to pointed reevaluation. Always demonstrating the interest in socio-historical influences that is the hallmark of his work, Dahlhaus reminds us of the contradictions, interrelationships, psychological nuances, and riches of musical character and musical life. *Nineteenth-Century Music* contains 90 illustrations, the collected captions of which come close to providing a summary of the work and the author's methods. Technical language is kept to a minimum, but while remaining accessible, Dahlhaus challenges, braces, and excites. This is a landmark study that no one seriously interested in music and nineteenth-century European culture will be able to ignore.

Style and Performance for Bowed String Instruments in French Baroque Music Mary Cyr 2016-04-01 Mary Cyr addresses the needs of researchers, performers, and informed listeners who wish to apply knowledge about historically informed performance to specific pieces. Special emphasis is placed upon the period 1680 to 1760, when the viol, violin, and violoncello grew to prominence as solo instruments in France. Part I deals with the historical background to the debate between the French and Italian styles and the features that defined French style. Part II summarizes the present state of research on bowed string instruments (violin, viola, cello, contrebasse, pardessus de viole, and viol) in France, including such topics as the size and distribution of parts in ensembles and the role of the contrebasse. Part III addresses issues and conventions of interpretation such as articulation, tempo and character, inequality, ornamentation, the basse continue, pitch, temperament, and "special effects" such as tremolo and harmonics. Part IV introduces four composer profiles that examine performance issues in the music of Élisabeth Jacquet de La Guerre, Marin Marais, Jean-Baptiste Barrière, and the Forquerays (father and son). The diversity of compositional styles among this group of composers, and the virtuosity they incorporated in their music, generate a broad field for discussing issues of performance practice and offer opportunities to explore controversial themes within the context of specific pieces.

A History of Baroque Music George J. Buelow 2004-11-23 "A History of Baroque Music is a detailed treatment of the music of the Baroque era, with particular focus on the seventeenth century. The author's approach is a history of musical style with an emphasis on musical scores. The book is divided initially by time period into early and later Baroque (1600-1700 and 1700-1750 respectively), and secondarily by country and composer. An introductory chapter discusses stylistic continuity with the late Renaissance and examines the etymology of the term "Baroque." The concluding chapter on the composer Telemann addresses the stylistic shift that led to the end of the Baroque and the transition into the Classical period."--Jacket.

Music in the Service of the King: France in the Seventeenth Century Robert M. Isherwood 1973 The arts, particularly music, are viewed in this work as an integral part of evolving royal absolutism during the reign of Louis XIV. Drawing extensively on archival documents and musical scores, the author views the historical association of music and monarchy as a continuous development beginning with the Valois and climaxing in Louis XIV's reign. The king is pictured as a rational, calculating man whose luxurious life style was politically motivated, and who undertook the centralization of the arts to assure French artistic preeminence. Elaborate, costly musical productions were also used to distract the nobility, to demonstrate French affluence to foreign powers, and to embellish the royal image.

Aesthetics of Music Stephen Downes 2014-06-27 *Aesthetics of Music: Musicological Approaches* is an anthology of fourteen essays, each addressing a single key concept or pair of terms in the aesthetics of music, collectively serving as an authoritative work on musical aesthetics that remains as close to 'the music' as possible. Each essay includes musical examples from works in the 18th, 19th, and into the 20th century. Topics have been selected from amongst widely recognised central issues in musical aesthetics, as well as those that have been somewhat neglected, to create a collection that covers a distinctive range of ideas. All essays cover historical origins, sources, and developments of the chosen idea, survey important musicological approaches, and offer new critical angles or musical case studies in interpretation.

Music and Politics in San Francisco Leta E. Miller 2012 "Leta Miller's long-awaited study is a tightly woven, fast-paced, and luminous chronicle of San Francisco's musical coming of age. Her keen insights into Chinese opera, night club jazz, and two international expositions go far to rekindle the era's spirited mix of talent, taste, patronage, and politics. The groundbreaking work of an accomplished music and social historian, *Music and Politics in San Francisco* is a most welcome companion to Catherine Parsons Smith's *Making Music in Los Angeles*." —Jonathan Elkus, Lecturer in Music Emeritus, UC Davis "From three disastrous days in April 1906 through the onset of an even greater disaster in 1941, from the San Francisco Conservatory through the performances of the Chinese Opera, Leta Miller traces the musico-political history of 'the Paris of the West' in meticulous detail. This important book adds immeasurably to our knowledge of West Coast American music, whilst simultaneously challenging a number of historiographical shibboleths." —David Nicholls, contributing editor of *The Cambridge History of American Music* "Leta Miller's *San Francisco's Musical Life* is a pure pleasure to read. Miller manages that rare feat of digesting what must have been many years of digging through newspapers and archives into a fun, lively, highly readable narrative. Each chapter strikes a comfortable balance among factual exposition, colorful anecdote, and historical analysis. Miller brings equal depth and insight to each of her disparate subjects, she writes with charm and clarity throughout, and the whole is arranged in a way that is clear and logical, never monotonous." —Mary Ann Smart, author of *Mimomania: Music and Gesture in Nineteenth-Century Opera*
