La nottola di Minerva II Teresa Serra 2012

Categorie della politica Vincenzo Costa 2023-11-16 La lettura della politica attraverso lo schema Destra/Sinistra ha svolto una funzione ideologica, che, dagli anni Ottanta, ha gradualmente annullato le famiglie tradizionali – socialismo, popolarismo, destra sociale – schiacciandole sul neoliberalismo. Oggi la comprensione dello spazio politico richiede strumenti diversi, che abbandonino questa rappresentazione binaria.

The Role of Fraternity in Law Adriana Cosseddu 2021-12-05 This collection discusses the concept of fraternity and examines the issue of its role in law. Since the end of World War II, fraternity has been cited in several national constitutional charters, in addition to the United Nations Universal Declaration of Human Rights. But is there space for fraternity in law? The contributions to this book form an ideal “bridge” between the past and present to trace the different pathways taken to address the meaning of fraternity, and to identify its possible legal relevance. The book lays out paths that have placed fraternity in varied and challenging legal contexts in an age of globalization and conflict, where the multiplicity of national and supranational sources of law seems to show its inadequacy to govern complexity, and coexistence between diversities that appear irreconcilable. The purpose is not to recover fraternity as a forgotten principle, but to reimagine it today to address the aim and force of law within a plurality of cultures. The analysis considers a possible universal dimension that models unity within diversity, and aspires to serve as a prologue to a transition from research to dialogue between different legal systems and traditions. The book will be of interest to academics and researchers working in the areas of Comparative Law, Legal History and Legal Philosophy.

Soggetto e libertà nella condizione postmoderna Francesco Botturi 2003 L'interrogativo che muove l'indagine qui proposta, condotta a molte voci ma espressiva di un disegno unitario, riguarda la 'pensabilità della libertà nella condizione postmoderna dell'esperienza'. Dopo una prima parte esplorativa delle coordinate culturali e antropologiche in cui si collocano prassi e teoria della libertà nell'era della tecnica, la seconda parte inaugura un percorso alla 'ricerca di un profilo teorico persuasivo della libertà umana', colta nella sua struttura antropologica pluridimensionale, nel suo 'paradosso' ontologico-metafisico, nell'enigma tragico della sua defettibilità colpevole e nella sua vocazione teologica. La terza parte torna alle questioni dell'oggi, con un approccio critico e propositivo ad alcuni 'aspetti problematici rispetto all'idea o alla prassi della libertà'. Si tratta di saperi che toccano in modo incisivo la possibilità della libertà, e insieme l'identità soggettiva, come avviene nella sociobiologia, nelle scienze cognitive, nella psicoanalisi. Si tratta poi di condizioni e problemi sociali in cui è in gioco la praticabilità della libertà nel suo esercizio pubblico, come avviene nella nuova organizzazione del lavoro, nelle tecnologie della comunicazione sociale, nelle attuali condizioni di pluralismo culturale e religioso, nel problema dell'educazione. Il risultato dell'indagine è multiplo. Emerge, in primo luogo, una rinnovata consapevolezza della 'centralità della questione tecnologica', risultando la tecnologia al tempo stesso occasione e insidia per la libertà. In questa condizione culturale epocale è di estrema importanza riscattare la libertà da una concezione astratta, per guadagnarne la pienezza antropologica quale 'organismo polisenso' di scelta, finalità e relazione, e insieme l'unità trascendentale come autodeterminazione.

The Inclusion of the Other Jürgen Habermas 1998 Since its appearance in English translation in 1996, Jürgen Habermas's *Between Facts and Norms* has become the focus of a productive dialogue between German and Anglo-American legal and political theorists. The present volume contains ten

essays that provide an overview of Habermas's political thought since the original appearance of *Between Facts and Norms* in 1992 and extend his model of deliberative democracy in novel ways to issues untreated in the earlier work. Habermas's theory of democracy has at least three features that set it apart from competing positions. First, it combines a concern with questions of normative justification with an empirical analysis of the social conditions necessary for the realization of democratic institutions. Second, at the heart of his model is the assertion of an internal relationship between liberalism and democracy. Finally, Habermas defends a conception of universal human rights that is not only sensitive to cultural differences but also calls for legal and political institutions that facilitate the cultivation of cultural and religious identities within pluralistic societies. These essays demonstrate the extraordinary power of Habermas's theory of democracy through a further engagement with Rawls's political liberalism and through original contributions to current debates over nationalism, multiculturalism, and the viability of supranational political institutions.

Il futuro di Norberto Bobbio Michelangelo Bovero 2014-06-30T00:00:00+02:00 «Questo libro nasce da un'idea semplice, condivisa da molti: Norberto Bobbio manca alla cultura e alla vita civile del nostro presente. Manca la sua proverbiale chiarezza, che non è soltanto uno stile, una dote di nitore nella scrittura: è un modo di pensare, di affrontare i problemi andandovi al cuore, superando equivoci e confusioni, involontarie o interessate. Tuttavia - anche questa è un'idea condivisa - l'opera sterminata che Bobbio ci ha lasciato è in grado, per la sua misura 'classica', di offrire orientamenti per la comprensione della nostra realtà, in parte già mutata rispetto al tempo, anzi ai diversi tempi, in cui è stata elaborata.» Michelangelo Bovero muove da queste considerazioni per riflettere su molte grandi questioni del nostro tempo insieme ad altri studiosi partecipanti a un convegno internazionale in occasione del centenario della nascita di Norberto Bobbio. In discussione sono le condizioni presenti della democrazia, dei diritti umani, della pace; il destino del diritto, dello stato di diritto e della Costituzione in tempi di globalizzazione; le sorti delle grandi correnti politiche del Novecento, come il liberalismo e il socialismo, e il rapporto tra politica e cultura nel nuovo secolo.

The Changing Administrative Law of an EU Member State Domenico Sorace 2020-09-26 This book presents the evolution of Italian administrative law in the context of the EU, describing its distinctive features and comparing it with other experiences across Europe. It provides a comprehensive overview of administrative law in Italy, focusing on the main changes occurred over the last few decades. Although the respective chapters generally pursue a legal approach, they also consider the influence of economic, social, cultural and technological factors on the evolution of public administration and administrative law. The book is divided into three parts. The first part addresses general issues (e.g. procedures and organization of public administrations, administrative justice). The second part focuses on more specific topics (e.g. public intervention in the economy, healthcare management, local government). In the third part, the evolution of Italian administrative law is discussed in a comparative perspective.

Normative Pluralism and Human Rights Kyriaki Topidi 2018-06-13 The complex legal situations arising from the coexistence of international law, state law, and social and religious norms in different parts of the world often include scenarios of conflict between them. These conflicting norms issued from different categories of 'laws' result in difficulties in describing, identifying and analysing human rights in plural environments. This volume studies how normative conflicts unfold when trapped in the aspirations of human rights and their local realizations. It reflects on how such

tensions can be eased, while observing how and why they occur. The authors examine how obedience or resistance to the official law is generated through the interaction of a multiplicity of conflicting norms, interpretations and practices. Emphasis is placed on the actors involved in raising or decreasing the tension surrounding the conflict and the implications that the conflict carries, whether resolved or not, in conditions of asymmetric power movements. It is argued that legal responsiveness to state law depends on how people with different identities deal with it, narrate it and build expectations from it, bearing in mind that normative pluralism may also operate as an instrument towards the exclusion of certain communities from the public sphere. The chapters look particularly to expose the dialogue between parallel normative spheres in order for law to become more effective, while investigating the types of socio-legal variables that affect the functioning of law, leading to conflicts between rights, values and entire cultural frames.

Inclusion of the Other Jürgen Habermas 2018-03-14 The Inclusion of the Other contains Habermas's most recent work in political theory and political philosophy. Here Habermas picks up some of the central themes of *Between Facts and Norms* and elaborates them in relation to current political debates. One of the distinctive features of Habermas's work has been its approach to the problem of political legitimacy through a sustained reflection on the dual legitimating and regulating function of modern legal systems. Extending his discourse theory of normative validity to the legal-political domain, Habermas has defended a proceduralist conception of deliberative democracy in which the burden of legitimating state power is borne by informal and legally institutionalized processes of political deliberation. Its guiding intuition is the radical democratic idea that there is an internal relation between the rule of law and popular sovereignty. In these essays he brings this discursive and proceduralist analysis of political legitimacy to bear on such urgent contemporary issues as the enduring legacy of the welfare state, the future of the nation-state, and the prospects of a global politics of human rights. This book will be essential reading for students and academics in sociology and social theory, politics and political theory, philosophy and the social sciences generally.

Contemporary Sociological Thinkers and Theories Sandro Segre 2016-05-13 This book offers a comprehensive overview of the major theoretical perspectives in contemporary sociology, covering schools of thought or intellectual movements within the discipline, as well as the work of individual scholars. The author provides not only a rigorous exposition of each theory, but also an examination of the scholarly reception of the approach in question, considering both critical responses and defences in order to reach a balanced evaluation. Chapters cover the following theorists and perspectives: Alexander von Humboldt, Bourdieu, Ethnomethodology, Exchange Theory, Foucault, Giddens, Goffman, Habermas, Luhmann, Merton, Network and Social Capital Theory, Parsons, Rational Choice Theory, Schutz and Phenomenalism, Structuralism, Symbolic Interactionism. An accessible and informative treatment of the central approaches in sociology over the course of the last century, this volume marks a significant contribution to sociological theory and constitutes an essential addition to library collections in the areas of the history of sociology and contemporary social theory.

Le ragioni dell'Europa Alessandro Volpe 2021-03-18 T00:00:00+01:00 L'Europa, come la modernità, è un progetto incompiuto. È questa la diagnosi di Jürgen Habermas, uno degli intellettuali più in vista del vecchio continente e nel dibattito sulla sua unità politica. Questo libro ripercorre l'evoluzione delle prese di posizione del pensatore tedesco sull'Europa, dagli anni Ottanta del Novecento ai giorni nostri, in costante confronto con la sua più ampia prospettiva teorica e, inevitabilmente, con le tappe più salienti dell'integrazione europea.

Genealogia del pensiero post-metafisico AA. VV. 2023-03-31 T00:00:00+02:00 Il volume raccoglie una serie di contributi sull'ultima imponente opera di Jürgen Habermas, *Una storia della filosofia* (pubblicata in due volumi nel 2019 e di cui ora sta uscendo la traduzione italiana), nella quale

l'autore ricostruisce la storia della civiltà a partire dall'homo sapiens, passando attraverso le grandi religioni dell'antichità per poi analizzare lo sviluppo della costellazione moderna. In questo percorso la sua chiave di lettura privilegia il rapporto tra fede e sapere, ponendo al centro il ruolo della religione e della razionalità filosofica nella genesi del moderno e del pensiero post-metafisico. I saggi riprendono un seminario organizzato a Cortona nell'ottobre 2019 dalla Società italiana di teoria critica alla presenza dello stesso Habermas. Ai sei contributi segue la risposta di Habermas sotto forma di postfazione. La Seconda parte del volume è dedicata alla storia della ricezione del pensiero habermasiano a livello nazionale e mondiale. I curatori hanno diretto dal 1990 al 2019 il Seminario di teoria critica, un incontro annuale di studi, prima a Gallarate e poi a Cortona, ospitando influenti filosofi tedeschi, fra cui Apel, Wellmer, Honneth, Brunkhorst, oltre allo stesso Habermas già nel 1996. Dal 2014 il seminario fa parte delle attività della Società italiana di teoria critica, principale ambito di raccolta e discussione per coloro che in Italia si interessano di teoria critica, ispirandosi alla scuola di Francoforte.

Gender and Migration in Italy Elisa Olivito 2017-05-15 Recent migratory flows to Europe have brought about considerable changes in many countries. Italy in particular offers a unique point of view, since it is possible to observe not only the way migration has changed specific features of the country, but also how it is intertwined with gender relations. Considering both the type of migration that has affected Italy and the consequent measures adopted by the Government, a variety of distinctive elements may be seen. By providing a broad and more complete picture of the Italian perspective on gender and migration, this book makes a valuable contribution to the wider debate. The contributions consider the problematic linkage between gender and migration, as well as analyse particular aspects including Italian colonial past, domestic work, self-determination, access to social services, second-generation migrant women, family law, multiculturalism and religious symbols. Taking an empirical and theoretical approach, the volume underlines both the multifaceted problems affecting migrant women in Italy and the way in which questions raised in other countries are introduced and redefined by Italian scholarship. The book presents a valuable resource for researchers, academics and policy-makers working in the areas of migration and gender studies.

L'angoscia e la speranza 2010-09-01 L'uomo del '900 è inquieto quanto non lo è stato mai nessun altro, e mai come nel Secolo Breve si sono osservati tanti tentativi di rispondere alle domande sul sapere, sull'agire, sul vivere. Questo testo ascolta le voci di pensatori e pensatrici che hanno saputo interrogarsi soprattutto sulla dimensione etica (convinti con Habermas che nella nostra epoca si assista al prevalere della ragion pratica sulla ragion pura), per aprire spazi di confronto e possibilità di incontro con visioni e saperi diversi. È inoltre un utile strumento che offre un'ampia panoramica di autori per chi si affaccia con curiosità, magari per la prima volta, all'universo affascinante e complesso della filosofia del XX secolo.

Introduction to Habermas Sandro Segre 2013-11-21 This book provides a compact and up-to-date presentation of Jürgen Habermas' oeuvre, with particular reference to his theory of communicative action. Segre explores Habermas' themes of the rationalization of the life-world and its consequences on the social, cultural, and personality systems. This book also overviews the reception of Habermas' work.

Il lungo addio della filosofia politica contemporanea. Processi storici e questioni epistemologiche Francesco Giacomantonio 2018-12-19 "Il paradosso della politica è la sua assenza di fondamento proprio" Jacques Rancière La filosofia politica da sempre ha costituito un campo di ricerca articolato e problematico: la realtà di cui essa si occupa incarna una parte caleidoscopica dell'esperienza dell'uomo. Questo testo si impegna a mettere a fuoco, in particolare, le fondamentali evoluzioni e oscillazioni della filosofia politica attraverso il xx secolo sino ai giorni nostri. Una sorta di

“lungo addio” a particolari elementi, come la relazione con la Storia, lo status epistemologico rispetto ai suoi temi, il rapporto con la Ragione, il ruolo degli intellettuali. Il percorso di lettura proposto evoca tappe teoriche fondamentali: da Rawls a Habermas, da Weber a Schmitt, da Arendt a Derrida, da Strauss a Nozick, da Taylor a Rancière, da Foucault a Žižek, come pure contesti storico-sociali di riferimento. Si delinea così un possibile laboratorio di riflessioni, in cui poter sperimentare confronti e ipotesi di ricerca su questioni e concetti cruciali per la comprensione politica dell'epoca che attraversiamo. E abbiamo una grande necessità di conoscerla meglio, per governarla.

Pensare l'attualità Antonio Nitrola 2005 L'attualità e un compito che non si può evitare; non si può non essere attuali, non stare dove si è. Ciò che sembra un'ovvietà in realtà cela il bisogno di riconoscere gli eventi e non semplicemente subirli, nella speranza di rendere il mondo non una terra inospitale ma una casa per tutti. Il libro racconta il cammino di un teologo che ritiene indispensabile il cammino etico per poter pensare e vivere una teologia viva.

Values in Global Administrative Law Gordon Anthony 2011-02-14 Global Administrative Law has recently emerged as one of the most important contemporary fields in public law scholarship. Concerned with developing fuller understandings of patterns in global governance, it represents one of the most insightful ways of viewing the multifarious forms of public power that now exist beyond the State. The present collection brings together some of the leading scholars working in the field of global administrative law to address past and future challenges related to global governance. Each of the contributions picks up on the more general theme of the values that do or should inform global administrative law, and the book in this way provides a novel and thought-provoking commentary on this most engaging area of debate. Values in Global Administrative Law will be of interest to public lawyers, social and political scientists and scholars of international relations. It will also be an invaluable resource for undergraduate and postgraduate courses that touch partly or exclusively on the challenges of global governance.

Credere nello stato? Carlo Lottieri 2011-10-06T00:00:00+02:00 Un'istituzione quale lo Stato moderno, che fin dai suoi primi passi si è autorappresentata quale sovrana e interprete di un potere assoluto (libero da ogni vincolo), è del tutto incomprensibile se non si coglie il legame che da sempre essa intrattiene con la teologia. Dal momento che pretende obbedienza e rivendica un controllo monopolistico della forza sul territorio, lo Stato intreccia insomma questioni istituzionali e religiose: prima rivendicando una legittimazione di carattere sacrale e utilizzando la religione quale instrumentum regni, poi prospettandosi come alternativa metafisica e fonte autentica di ogni possibile salvezza e, infine, interpretando il venir meno di ogni trascendenza e il trionfo dello strumentalismo. Il presente volume, che evoca un gran numero di questioni e autori senza avere la presunzione di individuare una soluzione definitiva a dibattiti tanto complessi, traccia un percorso volto a chiedersi se si possa davvero aver fede nello Stato, facendone il senso ultimo della nostra esistenza, e prestar fede a quanto affermano gli ideologi schierati a sua difesa. Il tema della teologia politica e quello della dissimulazione - dello Stato quale fonte di occultamento della realtà - sono d'altro canto strettamente legati, dato che l'aperta sfida che il potere moderno ha lanciato alle confessioni religiose propriamente dette lo ha costretto a moltiplicare le falsificazioni e gli inganni.

Conflitti di cittadinanza Federico Oliveri 2021-04-22T00:00:00+02:00 Attraversiamo una crisi di sistema - ambientale, economica, sociale, politica - che minaccia le democrazie costituzionali e la stessa umanità. Eppure la nostra capacità di apprendere dalle catastrofi è assai limitata: abbiamo

bisogno di una nuova teoria critica della società per capire che fare e, soprattutto, per individuare chi può fare ciò che andrebbe fatto. Esistono oggi, e come agiscono, soggettività collettive capaci di realizzare un progetto di trasformazione radicale? La filosofia di Jürgen Habermas può fornire una risposta, a condizione di essere “rimessa sui piedi” delle lotte sociali da cui derivano le sue categorie fondamentali. L’alternativa al neo-liberalismo e al nazionalismo emerge così nei conflitti di cittadinanza: i cittadini e le cittadine, attuali o potenziali, usano la forza del diritto per contrapporsi ai poteri capitalistici, burocratici e autoritari, allo scopo di estendere la titolarità e il godimento dei diritti a vantaggio di chi ne è stato escluso.

Citizens in Europe Giovanni Moro 2011-12-04 In the Community-building process, citizens are the most invoked and feared, but at the same time the least known subject. This lack of knowledge nourishes the citizens’ detachment from the European Union and itself emerged in well known cases such as the French and Dutch referenda on the Constitutional Treaty or the public concern towards the EU policy on immigration. This gap is true especially for active citizenship organizations operating in the European policy making, not only in Brussels, but also and above all at national and local levels, and this book is aimed at filling this knowledge gap. The book is divided into two parts. The first part of the book focuses on the way in which the literature on EU governance and citizenship and on participatory democracy deals with citizen activism in public policy making. The second part discusses a number of empirical research projects on civic activism in Europe. This book aims, on the one hand, to bridge the academic debate to more policy oriented debates in which active citizenship organizations and policy makers are involved; and, on the other hand, to bridge theoretical discussion of the nature of the EU with the empirical literature based on the study of civic activism in Europe and at the national level. The distinctiveness of the book is that it tries to overcome both the “methodological nationalism” that affects the research and public debate on the EU, the normative attitude of most part of European studies in favor of an approach aimed at describing phenomena, and the habit of dealing with civic associations in Europe by referring only to the “Brussels Civil Society,” making it of interest to both policy makers as well as students and scholars in European Studies, Political Science, Sociology and International Relations.

Tracing the Path of Tolerance Paolo Scotton 2016-12-14 In the globalized, postmodern world, the production of encounters and clashes between dissimilar cultures, ways of life, and systems of values has drastically increased in number. More and more frequently, they originate harsh conflicts, exhibiting the existence of alternative and apparently incompatible ways of living and thinking – culturally, religiously, economically and politically speaking. In this context, words as tolerance and intolerance have been put at the heart of the political debate. However, what is the real meaning of these political concepts? Why did they originate and how did they develop over time? Do they still represent a valid resource for comprehending our current societies and dealing with them? Through the different voices of several scholars in the humanities, this book traces the history of tolerance since the wars of religion to the contemporary age, combining the historical reconstruction with a theoretical and critical analysis of the idea and practice of tolerance in different epochs and places. The obstacle course depicted here reveals the constitutive fragility of this concept that, however,

cannot be totally dismissed from our political vocabulary.

La inclusión del otro Jürgen Habermas 1999 Los diferentes ensayos de Jürgen Habermas recogidos en este volumen surgieron después de la publicación de *Facticidad y validez*, una auténtica obra mayor donde el autor expone su filosofía del derecho y de la democracia y cuya versión original en alemán apareció en 1992. Todos estos ensayos tienen además en común el interés por la cuestión relativa a las consecuencias que en nuestro tiempo se siguen del contenido universalista de los principios republicanos: cuáles son los efectos que se desprenden para las sociedades pluralistas en las que se intensifican las divergencias multiculturales, para los Estados nacionales que se unen en unidades supranacionales y para los ciudadanos de una sociedad mundial que han sido insertados sin su consentimiento en una comunidad de riesgo. Hablar o escribir hoy de Habermas es referirse, sin duda, a uno de los filósofos con mayor influencia intelectual y más amplia proyección internacional. Su producción teórica resulta ya literalmente inabarcable y sus saberes inmensos, casi enciclopédicos. Ciertas aportaciones suyas, como la teoría de la acción comunicativa o la ética discursiva, constituyen elementos centrales de la filosofía práctica contemporánea. En su conjunto, su obra representa quizás el más original, formidable y coherente esfuerzo de elaboración de una filosofía a la altura del espíritu de nuestro tiempo, inscrito de manera inevitable en las coordenadas del pensamiento posmetafísico, y del que el lector podrá encontrar otras dos muestras en Ediciones Paidós: *Escritos sobre moralidad y ética* y *Debate sobre el liberalismo político*, este último junto con John Rawls.
