Never Date A Player Jules Barnard 2014-06-01 After my last cheating ex, I've sworn off men. Until Lewis comes along and steals my breath and my good sense. I've never been one to lust after guys. But Lewis is six and a half feet of rugged man, and he's...eye-catching. Sexy. And silently brooding in all the best ways. The more time I spend with him, the naughtier my thoughts are of us together, and he's not helping put a stop to it. It's infuriating. I'm fantasizing, and lusting, and I can't remember why I wanted to stay away. But Lewis carries his own relationship baggage. Baggage that could break me in ways no ex-boyfriend ever did. Despite the safe, logical reasons I shouldn't get involved, Lewis might be the one man I can't resist. This hot, romantic comedy will have you intermittently fanning yourself and laughing at Lewis's sexy approach at convincing Gen they're right for each other. Grab *Never Date A Player* now! EXCERPT: He tugs down his shorts—and goes completely naked. “Um?” He glances up. “You can stay in your panties. I’m getting clean... What? Women of Consequence Jeanne Varnell 1999 The Colorado Women's Hall of Fame was founded in 1985, by a group of women who were concerned that both historic and contemporary women who shared foresight, vision, enthusiasm, and the power of accomplishment were not receiving appropriate acknowledgment. Fearful that splendid achievements would be forgotten, they wished to honor women who, during their lifetime, made a significant contribution to Colorado as a state or territory. It is the hope of the founders that by so honoring Colorado's women of consequence, their spirits might inspire future generations. In the first decade since the founding, fifty-nine women were selected for induction. Although historians habitually ignored the vital part that women played in the building of the West, in actuality these women's lives contain plots and characters that would enliven the most gripping novels. We have saints, like Frances Wisebart Jacobs and the theatrical angel Helen Bonfils; activists such as Josephine Roche and Rachel Noel; a scientific genius in Florence Sabin; and visionaries like Dana Crawford. There are tragedies, as with the Tabor wives, and the lighter-hearted tales of Mary Elitch Long and Mary Coyle Chase. *Women of Consequence* provides a bonanza of role models who opened new frontiers for women in so many fields, including business, journalism and newspaper publishing, science and medicine, law, politics, education, charity work, botany and even taxidermy. These stories are sure to inspire, delight, and instruct readers throughout Colorado, from young adults to senior citizens, whether they've lived here all their lives or moved here recently.

The Pacific Tourist H.T. Williams 1876

A Way Across the Mountain Scott Stine 2015-09-22 From July to November 1833, Joseph R. Walker led a brigade of fifty-eight fur trappers, with two hundred horses and a year's provisions, from the Rocky Mountains of Wyoming to the Pacific coast of central California. Toward the end of their journey the Walker brigade crossed the Sierra Nevada, becoming the first non-Native people to traverse the range from east to west. That crossing, made long and brutal by bewildering terrain and deep snow, is widely and rightly considered a milestone in the exploration of intermontane North America. Following Walker's death in 1876, an alluring tale arose concerning his trans-Sierran route. In the course of the crossing, goes the story, Walker found himself on the northern rim of Yosemite Valley at the plungepoint of North America's tallest waterfall, staring into the most awesome mountain chasm on the continent. Over the decades since then, this time-honored tale has hardened to folklore. Dozens of historical works have construed it as a towering moment in the opening of the West. But in fact this tale of Yosemite's discovery has no basis or support in firsthand accounts of the 1833 Sierran crossing. Moreover, there is much in those accounts that contradicts Yosemite lore, and much that points to a trans-Sierran route well north of Yosemite Valley. In *A Way Across the Mountain*, Scott Stine reconstructs Walker's 1833 route over the Sierra. Stine draws on his own intimate knowledge of the geomorphology, hydrography, biogeography, and climate of the Sierra Nevada and Great Basin, and employs the detailed travel narrative of the Walker brigade's field clerk, Zenas Leonard. Stine documents the inception, growth, and persistence of the Yosemite Myth and explores the extent to which that lore has overshadowed Walker's greatest discovery—that the huge swath of continent between

the Wasatch Front and the Sierran crest is hydrographically closed, draining not to an ocean, but to salty lakes and desert sands.

New Perspectives on Native North America Sergei Kan 2006-01-01 In this volume some of the leading scholars working in Native North America explore contemporary perspectives on Native culture, history, and representation. Written in honor of the anthropologist Raymond D. Fogelson, the volume charts the currents of contemporary scholarship while offering an invigorating challenge to researchers in the field. The essays employ a variety of theoretical and methodological approaches and range widely across time and space. The introduction and first section consider the origins and legacies of various strands of interpretation, while the second part examines the relationship among culture, power, and creativity. The third part focuses on the cultural construction and experience of history, and the volume closes with essays on identity, difference, and appropriation in several historical and cultural contexts. Aimed at a broad interdisciplinary audience, the volume offers an excellent overview of contemporary perspectives on Native peoples.

The U.S. Marine Corps Mountain Warfare Training Center, 1951-2001 Orlo K. Steele 2011 From the Foreword: The following account represents a significant look at a half century of U.S. Marine Corps effort in the Sierra Nevada mountain range of California. This has been and is still the location of the Corps cold weather and mountain training facility. Over time the needs and demands for Marines and units prepared to operate under these conditions waxed and waned with the real world requirements of deployed forces. This was reflected in the realities of conflicts in the Korean Peninsula, the Cold War's northern and southern flanks, and in the current Global War in Terrorism fight in Afghanistan and elsewhere. While the future is often uncertain, this firm look at the past is useful to show how previous challenges have prompted creative and innovative responses. This is as much a story of evolution as an institution.--p. iii.

The Men of the California Bear Flag Revolt and Their Heritage Barbara R. Warner 1996

John of the Mountains John Muir 1979 John Muir, America's pioneer conservationist and father of the national park system, was a man of considerable literary talent. As he explored the wilderness of the western part of the United States for decades, he carried notebooks with him, narrating his wanderings, describing what he saw, and recording his scientific researches. This reprint of his journals, edited by Linnie Marsh Wolfe in 1938 and long out of print, offers an intimate picture of Muir and his activities during a long and productive period of his life. The sixty extant journals and numerous notes in this volume were written from 1867 to 1911. They start seven years after the time covered in *The Story of My Boyhood and Youth*, Muir's uncompleted autobiography. The earlier journals capture the essence of the Sierra Nevada and Alaska landscapes. The changing appearance of the Sierras from Sequoia north and beyond the Yosemite enthralled Muir, and the first four years of the journals reveal his dominating concern with glacial action. The later notebooks reflect his changes over the years, showing a mellowing of spirit and a deep concern for human rights. Like all his writings, the journals concentrate on his observations in the wilderness. His devotion to his family, his many warm friendships, and his many-sided public life are hardly mentioned. Very little is said about the quarter-century battle for national parks and forest reserves. The notebooks record, in language fuller and freer than his more formal writings, the depth of his love and transcendental feeling for the wilderness. The rich heritage of his native Scotland and the unconscious music of the poetry of Burns, Milton, and the King James Bible permeate the language of his poetic fancy. In his later life, Muir attempted to sort out these journals and, at the request of friends, published a few extracts. A year after his death in 1914, his literary executor and biographer, William Frederick Badè, also published episodes from the journals. Linnie Marsh Wolfe set out to salvage the best of his writings still left unpublished in 1938 and has thus added to our understanding of the life and thought of a complex and fascinating American figure.
