Beautifully illustrated and concise, See You Later Alligator, After While Crocodile is written to encourage you that there is life after grief. Darla Austell: wife, mother, grandmother, teacher, entrepreneur, deeply compassionate and loving; the person who has written this book for you. Darla understands loss and grieving through experience. Having lost both parents at an early age, Darla has walked through the grief process. Darla understands that death is not the only loss that causes grief. Loss of relationships, physical disabilities, and other aspects of life can cause grief as well. Whatever the cause, there are time-tested methods to working through grief. Darla has created a delightful little book that documents these methods in an easy-reading format. Darla's goal is to touch the hearts of the grieving and offer hope to hurting hearts. See You Later, Alligator William F. Buckley 2015-08-25 In the New York Times–bestselling spy series, Agent Oakes is in Cuba for secret negotiations with Che Guevara—on a mission that soon turns deadly. From his 1st day in office, President Kennedy has been bedeviled by Cuba. The CIA forced the Bay of Pigs invasion down his throat, resulting in lost lives, international embarrassment, and a new low in America's relationship with the Caribbean. More than anything, Kennedy wants Cuba contained. Brute force didn't work; it's time to try a subtler approach—and there is no spy more tactful than Blackford Oakes. The CIA calls it Operation Alligator: a top secret back-channel negotiation to put Cuba and the United States on better footing. Oakes goes south to meet with Castro's right-hand man, the notorious Che Guevara, in hopes of finding common ground between

their countries. Instead, he discovers a sinister Communist plot that could destabilize the hemisphere, and lead the US president to his doom. See *You Later, Alligator* is the 6th book in the Blackford Oakes Mysteries, but you may enjoy reading the series in any order.

The tortoise stops for every last timid mouse and bumblebee, shouting his rhyming good-byes, making you wonder if, perhaps, he's stalling the start of his trip. His animal friends appear startled as he suddenly pops up on each page to say adieu—especially the perplexed rhinoceros the tortoise mistakes for a unicorn! With each farewell, the tortoise's good-byes get sillier and more creative. When will the good-byes end and the adventure begin? The Curious Incident of the Dog in the Night-Time Mark Haddon 2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

When a Crocodile Eats the Sun Peter Godwin 2008-04-10 After his father's heart attack in 1984, Peter Godwin began a series of pilgrimages back to Zimbabwe, the land of his birth, from Manhattan, where he now lives. On these frequent visits to check on his elderly parents, he bore witness to Zimbabwe's dramatic spiral downwards into the jaws of violent chaos, presided over by an increasingly enraged dictator. And yet long after their comfortable lifestyle had been shattered and millions were fleeing, his parents refuse to leave, steadfast in their allegiance to the failed state that has been their adopted home for 50 years. Then Godwin discovered a shocking family secret that helped explain their loyalty. Africa was his father's sanctuary from another identity, another world. *When a Crocodile Eats the Sun* is a stirring memoir of the disintegration of a family set against the collapse of a country. But it is also a vivid portrait of the profound strength of the human spirit and the enduring power of love.
