Seeing Double Susan A. Stephens 2003-01-27 When, in the third century B.C.E., the Ptolemies became rulers in Egypt, they found themselves not only kings of a Greek population but also pharaohs for the Egyptian people. Offering a new and expanded understanding of Alexandrian poetry, Susan Stephens argues that poets such as Callimachus, Theocritus, and Apollonius proved instrumental in bridging the distance between the two distinct and at times diametrically opposed cultures under Ptolemaic rule. Her work successfully positions Alexandrian poetry as part of the dynamic in which Greek and Egyptian worlds were bound to interact socially, politically, and imaginatively. The Alexandrian poets were image-makers for the Ptolemaic court, *Seeing Double* suggests; their poems were political in the broadest sense, serving neither to support nor to subvert the status quo, but to open up a space in which social and political values could be imaginatively re-created, examined, and critiqued. *Seeing Double* depicts Alexandrian poetry in its proper context—within the writing of foundation stories and within the imaginative redefinition of Egypt as "Two Lands"—no longer the lands of Upper and Lower Egypt, but of a shared Greek and Egyptian culture.

Seeing Double Raymond Geuss 2024-06-25 The world is never going to make complete sense to us, yet we find that conclusion almost impossible to accept. Can we live, and feel at home, in a world composed at best of incompatible fragments of meaning? This is the theme that runs through this collection of essays by Raymond Geuss. Drawing on a characteristically wide range of insights from moral and political philosophy, history, and aesthetics, he addresses topics such as knowledge (of self, the world, and others), language, the visual and the auditory, authority, hope, and the success and failure of life projects. He argues that, to get by in our bewildering world, we must embrace the virtue of 'double vision': that is, immersing ourselves in and learning the ways of the culture surrounding us, even as we feel alienated from it. Together the essays explore some of the consequences of abandoning the idea of a unitary view of the world, while at the same time trying to avoid quietism. *Seeing Double* is a compelling collection of work by one of the world's most versatile and creative philosophers.

Seeing Double Susan A. Stephens 2003-01-27 "Susan Stephens is interested in how the poetry of Callimachus, Theocritus and Apollonius reflects the Greek engagement with Egypt, and in particular with the traditions of Egyptian kingship and mythology. The exciting rediscovery through marine archaeology of Ptolemaic Alexandria means that there is currently great interest in the nature of Alexandrian culture, especially in how Greek and Egyptian elements were mixed. Stephens brings to notice important but generally neglected Greek texts (Hecataeus of Abdera, the 'Alexander Romance') and much material previously known only to Egyptologists. . . . Modern writing about colonialism is powerfully applied to the Hellenistic situation. This book will attract wide interest, and help in the gradual process of changing perceptions about the cultural life of Alexandria."—Richard Hunter, author of *Theocritus and the Archaeology of Greek Poetry* "Susan Stephens' *Seeing Double* is the first book ever that explores comprehensively and persuasively how, in the political, social and cultural environment of Ptolemaic Egypt, the Alexandrian renewal of classical poetry leads to a new poetry. . . . In Stephens' view, the poetical dialogue between the Alexandrian poets, their intertextuality and the differences in their approaches and reactions to the colonial situation resolve the emerging duality of Greek and Egyptian cultures in a deeper intellectual unity that responds to, and reflects, the political reality."—Ludwig Koenen, author of *Eine agonistische Inschrift aus Ägypten und frühptolemäische Königsfeste* "This quietly daring research sets a new standard for the interpretation of poetry in a cultural, and most importantly in a bi-cultural, context. Stephens' exploration of Alexandrian poetry as a contact zone is a successful example of how literary interpretation can be fertilized by discontent about traditional Classics."—Alessandro Barchiesi, author of *The Poet and the Prince: Ovid and Augustan Discourse and Speaking Volumes: Narrative and Intertext in Ovid and Other Latin Poets* A brilliant mastery and intersection of comparative history of literature and of theories of intertextuality and intercultural contacts make of this book a most profitable text for a larger readership than classical scholars."—Marco Fantuzzi, coauthor of *Muse e Modelli: la poesia ellenistica da Alessandro Magno ad Augusto*

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine 2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of

stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

Seeing Double Françoise Meltzer 2011-05-01 The poet Charles Baudelaire (1821–1867) has been labeled the very icon of modernity, the scribe of the modern city, and an observer of an emerging capitalist culture. *Seeing Double* reconsiders this iconic literary figure and his fraught relationship with the nineteenth-century world by examining the way in which he viewed the increasing dominance of modern life. In doing so, it revises some of our most common assumptions about the unresolved tensions that emerged in Baudelaire’s writing during a time of political and social upheaval.

Françoise Meltzer argues that Baudelaire did not simply describe the contradictions of modernity; instead, his work embodied and recorded them, leaving them unresolved and often less than comprehensible. Baudelaire’s penchant for looking simultaneously backward to an idealized past and forward to an anxious future, while suspending the tension between them, is part of what Meltzer calls his “double vision”—a way of seeing that produces encounters that are doomed to fail, poems that can’t advance, and communications that always seem to falter. In looking again at the poet and his work, *Seeing Double* helps to us to understand the prodigious transformations at stake in the writing of modern life.

Seeing Double Eric Stevens 2018-09-14 A new set of classically-styled notes that contain the following effects: DE-CENT: A half dollar magically grows into a jumbo coin as it falls from one hand to the other. STARDUST: A unique take on the classic cigarette-through-quarter plot where a pencil penetrates through the shadow of a borrowed coin. BILL OF RIGHTS: A highly visual bill change. THUMBLESS TIP: An unorthodox yet totally fooling way of using an old prop to create astounding magic for close-up, parlour AND stage situations. FIELD-O-VISION: A fun piece that can be performed either seriously or comically. The participant holds a randomly selected card to their forehead yet the magician (or anybody else in the room that THEY choose) is able to tell them what it is. NO marked cards used. OPEN-FACED PASS: Eric's handling of the classic Herrmann pass that adds an extra level of deceptiveness. FLIKBAND: Eric has reworked the silly old jumping rubber band trick that you find in joke books into a stunningly cool moment of mystery.

Seeing Double Peter Pesic 2016-06-17 The unknown history of surveillance in relation to changing systems of representation and visual arts practice. The separateness and connection of individuals is perhaps the central question of human life: What, exactly, is my individuality? To what degree is it unique? To what degree can it be shared, and how? To the many philosophical and literary speculations about these topics over time, modern science has added the curious twist of quantum theory, which requires that the elementary particles of which everything consists have no individuality at all. All aspects of chemistry depend on this lack of individuality, as do many branches of physics. From where, then, does our individuality come? In *Seeing Double*, Peter Pesic invites readers to explore this intriguing set of questions. He draws on literary and historical examples that open the mind (from Homer to Martin Guerre to Kafka), philosophical analyses that have helped to make our thinking and speech more precise, and scientific work that has enabled us to characterize the phenomena of nature. Though he does not try to be all-inclusive, Pesic presents a broad range of ideas, building toward a specific point of view: that the crux of modern quantum theory is its clash with our ordinary concept of individuality. This represents a departure from the usual understanding of quantum theory. Pesic argues that what is bizarre about quantum theory becomes more intelligible as we reconsider what we mean by individuality and identity in ordinary experience. In turn, quantum identity opens a new perspective on us.

Seeing Double Diana Burgess Lane 1999 The occasion for this personal memoir is the author's chronic gastrointestinal disorder. Essays reflect on "growing up dysfunctional" as a way of understanding her current ill health and subsequent body self-images. Social taboos are discussed in the context of what can and cannot be said about one's medical condition. The author reviews the process of being physically examined, sensing that she is damaged from her childhood; using the metaphor of having "a hole in my head" and elsewhere. Other issues explored are 1) how women come to think about their bodies, 2) the treatment and mislabeling of women seeking medical help, 3) the notion of being "unwanted" and a burden, 4) feeling that one is drifting from previous goals because of illness, and 5) the importance of sharing personal experience.

Blackness and Value Lindon Barrett 1999 *Blackness and Value* investigates the principles by which 'value' operates, and asks if it is useful to imagine that the concepts of racial blackness and whiteness in the United States operate in terms of these principles. Testing these concepts by exploring various theoretical approaches and their shortcomings, Lindon Barrett finds that the gulf between 'the street' (where race is acknowledged as a powerful enigma) and the literary academy (where until recently it has not been) can be understood as a symptom of racial violence. The book traces several interrelations between value and race, such as literate/illiterate, the signing/singing voice, time/space, civic/criminal, and academy/street, and offers relevant and fresh readings of two novels by Ann Petry. While approaches to race and value are commonly examined historically or sociologically, this intriguing study provides a new critical approach that speaks to theorists of race as well as gender and queer studies.

Seeing Double Patrick Wilmot 2012-08-31 All is not well in the state of Niagra, the America of the African continent. The General - the Unique Miracle of the Century - has banned all but country and western music; a giant statue of Elvis desecrates the sacred Amuz Rock, street children are

terrorised by the General's Disposal Units and someone is conducting experiments on unwitting Evangelical Christians. In Xanadu, Bob Marley, the sign painter, draws portraits that are more real than the real, more human than human and longs for the mother stolen from him by Idi Amin Ogwu. And in the oil-rich province of Lidiziam, villagers who refuse the attentions of the Burton Holly corporation, and its promises of US dollars in exchange for their oil, are massacred. The nation rejoices when idealistic young army officers stage a bloodless coup, but the revolution and dreams of utopian democracy are short-lived. A US-led 'coalition of the willing' sponsors a counter-coup and reinstates the General. The young idealists are rounded up, tortured and murdered. Forced to flee to the secret caves of Lidiziam, the girlfriends, wives and sisters of the revolutionaries gather together a guerrilla army of women and children and prepare to wage a very unorthodox war against the General and his powerful allies. Seeing Double is a provocative contemporary tale of dictatorship, kleptocracy, globalization and greed. It is a story of idealism, love, ganja, Sade, country & western music, Elvis, the art of sign painting, the war against terror and the politics of haute couture. With caustic humour and keen observation, Patrick Wilmot has written a satire that is as unforgiving in its analysis of world events as it is entertaining.
