A la minga Giuseppe Scandurra 2023-03-29T00:00:00+02:00 Quando, nel 2019, sono arrivato per la prima volta a Salinas de Guaranda, un paese sulle Ande dell'Ecuador, a 3.550 metri di altitudine

sul livello del mare, non vi era nemmeno una capanna, ma solo case di cemento. Alla fine degli anni Sessanta, però, quando arrivarono i missionari dell'operazione Mato Grosso, Salinas era un piccolo paese fatto di abitazioni di paglia. La maggioranza dei salineros viveva in zone isolate: non c'erano strade, luce elettrica, telefono, fognature, dispensario medico e tutti i campesinos erano sfruttati da una famiglia di latifondisti. A inizio anni Settanta, un gruppo di volontari italiani accompagnati dai salesiani istituirono una cooperativa che permise di ridistribuire la proprietà della terra a tutti i salineros attraverso piccoli prestiti: nacquero, in questo modo, un'economia comunitaria e diverse micro-imprese che non avevano proprietari se non gli stessi salineros. In che modo il "modello" Salinas, che si autodefinisce "comunitario", "alternativo" e "critico" rispetto ai modelli economico-politici oggi dominanti in Occidente ci costringe a riflettere circa determinate problematiche connesse al fare un'"antropologia delle politiche"?

Dinner with Darwin Jonathan Silvertown 2017-09-05 What do eggs, flour, and milk have in

common? They form the basis of crepes of course, but they also each have an evolutionary purpose. Eggs, seeds (from which flour is derived by grinding) and milk are each designed by evolution to nourish offspring. Everything we eat has an evolutionary history. Grocery shelves and restaurant menus are bounteous evidence of evolution at work, though the label on the poultry will not remind us of this with a Jurassic sell-by date, nor will the signs in the produce aisle betray the fact that corn has a 5,000 year history of artificial selection by pre-Colombian Americans. Any shopping list, each recipe, every menu and all ingredients can be used to create culinary and gastronomic magic, but can also each tell a story about natural selection, and its influence on our plates--and palates. Join in for multiple courses, for a tour of evolutionary gastronomy that helps us understand the shape of our diets, and the trajectories of the foods that have been central to them over centuries--from spirits to spices. This literary repast also looks at the science of our interaction with foods and cooking--the sights, the smells, the tastes. The menu has its eclectic components, just as any chef is entitled. But while it is not a comprehensive work which might risk gluttony, this is more than an amuse bouche, and will leave every reader hungry for more.

Dal latte crudo... le tecniche e le ricette per fare formaggi di fattoria - Verde e natura 2012-09

L'industria, con la sua raffinata tecnologia, gestisce la maggior parte della produzione di formaggi.

Con esperienza e sensibilità confeziona formaggi per trarne ogni volta nuovi e più intensi sapori, che stimolano a conservare un palato meno globalizzato. I tipi di formaggio e la loro classificazione, la mungitura, la qualità del latte, la pastorizzazione, i fermenti lattici, il caglio, la messa in forma, la salatura, la stagionatura, la ricotta, il siero, il burro e tanto altro ancora in un eBook di 74 pagine: un pratico quaderno con tecniche e consigli, testi facili, essenziali, illustrazioni e fotografie puntuali. The Story of Tönle Mario Rigoni Stern 1998 Mario Rigoni Stern was born in 1921 in Asiago, in the mountains of northeastern Italy. Throughout his literary career, he has remained deeply attached to the region of his birth, its peasant customs, its dialect, its seasonal cycles and shifting historical

fortunes. Tonle Bintarn's story takes place in the mountains of the Veneto region, which once bordered the Austro-Hungarian Empire and where smuggling was a means of subsistence for the peasant population. Having run afoul of a patrol of revenue agents, Tonle must seek refuge beyond the frontier in Central Europe, where year after year he lives by doing odd jobs and working, among other things, as an itinerant print peddler, a horse trainer in Hungary, and a gardener in a Prague castle. But every winter he returns secretly to his home and family, until finally a pardon is granted. By now his children are grown and he has little to do but tend his sheep. Meanwhile, the times are changing, social values are disintegrating under the impact of modernization, and Europe moves ever closer to disaster. During the devastation of the First World War, the occupation and ultimate destruction of his village, and his own internment in an Austrian camp, it is Tonle's loyalty to his roots and his stubborn devotion to his task as a shepherd that persist and make him a quiet symbol of heroism and human endurance.

Pan'ino, the (reduced Price) Maria Teresa Marco 2021-06-10 - Ninety-four delicious recipes for Italy's answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a

nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

The Water Buffalo National Research Council 2002-06-01 The water buffalo is an animal resource whose potential seems to have been barely recognized or examined outside of Asia. Throughout the world there are proponents and enthusiasts for the various breeds of cattle; the water buffalo, however, is not a cow and it has been neglected. Nevertheless, this symbol of Asian life and endurance has performed notably well in recent trials in such diverse places as the United States, Australia, Papua New Guinea, Trinidad, Costa Rica, Venezuela, and Brazil. In Italy and Egypt as well as Bulgaria and other Balkan states the water buffalo has been an important part of animal husbandry for centuries. In each of these places certain herds of water buffalo appear to have equalled or surpassed the local cattle in growth, environmental tolerance, health, and the production of meat and calves. Although these are empirical observations lacking painstaking, detailed experimentation, they do seem to indicate that the water buffalo could become an important

resource in tropical, subtropical, and warm temperate zones in developing and developed countries. If this is the case, then it is clear that many countries should begin water buffalo research. Serious attention by scientists could help dispel the misperceptions and uncertainties surrounding the animal and encourage its true qualities to emerge. This National Research Council report describes the water buffalo's attributes as perceived by several animal scientists. It is designed to present the apparent strengths of buffaloes compared with those of cattle, to introduce researchers and administrators to the animal's potential, and to identify priorities for buffalo research and testing.

Dialogues on architecture Emilio Faroldi 2022-01-20 he dialogue, as "the talking of the soul with itself" that constitutes the act of thinking (Plato), has been selected as the ideal form through which to vividly and accurately convey the thinking of a number of protagonists of Italian modern architecture. Knowledge remains a latent legacy of the soul until a given stimulus reawakens its

memory: architecture, more than sophia (wisdom), becomes philo-sophia, i.e. love of knowledge. A reading of the architectural phenomenon aimed at faithfully bringing out its complexity cannot help but involve the stories directly told by the protagonists, and the micro-stories of individual episodes, in order to explore the relationship that exists between the poetic and the technical-scientific spheres, underlining their complementary and conflictual nature. The disciplinary tools of exegesis of design and its materialization stimulate a form of critique of criticism driven by the rejection of an angle of interpretation of architecture oriented exclusively towards its results. Method and result constitute the inseparable terms: the direct testimony of certain protagonists of Italian architecture makes it possible to reconnect the interrupted threads of a narrative that has often been rendered syncopated and unilateral by excessively superficial explanation. The Dialogues on Architecture explore the interaction between idea, design and construction, revealing different operative and conceptual modes through which to achieve the finished work. Franco Albini, Lodovico B. Belgiojoso, Guido Canella, Aurelio Cortesi, Roberto Gabetti & Aimaro Isola, Ignazio Gardella, Vittorio Gregotti, Vico Magistretti, Enrico Mantero, Paolo Portoghesi, Aldo Rossi, Giuseppe Terragni, Vittoriano Viganò are the authors of this narrative.

Cheese & Beer Janet Fletcher 2013-04-16 Gourmand Awards winner---Beer category, USA. "Like a lot of cheese experts, I'm convinced that the ultimate companion to cheese is, and always will be, great craft beer. Don't believe me? Try it for yourself. This beautiful, well-researched and tastefully written tome is the perfect accompaniment to your journey. Cheers!"---Greg Koch, CEO & Co-Founder, Stone Brewing Co. / Stone Brewing World Bistro & Gardens "The rise in cheese connoisseurship has coincided with a delicious growth in quality beer appreciation. Janet draws on her keen palate to describe nuances in the many different beer styles and then recommends great

cheese partners for each category. Cheese & Beer is an excellent guide that explains how different beers are crafted and what gives these different types their synergies with superior cheeses."---Max McCalman, author, Mastering Cheese Cheese & Beer capitalizes on the rapidly growing audience for craft beer in the U.S. and the enthusiasm these passionate beer fans have for good cheese. Enhanced by the author's reputation as a journalist and cheese authority, the book fills a wide-open niche for consumer guidance in pairing craft beer and cheese. The beer enthusiast who wants to know which cheeses to pair with an IPA, porter or Trappist ale can easily find a recommendation. Each style entry includes: Style Notes: a description of that beer style---what defines it from the brewer's perspective, and what to expect from the beverage in the glass. Beers to Try: Several recommended craft beers in that style, both domestic and imported. Some of the breweries included from across the country are: Boulevard Brewing (Kansas City, MO), Allagash Brewing (Portland, ME), Brooklyn Brewery (Brooklyn, NY), Firestone Walker (Paso Robles CA), Great Divide (Denver, CO), and Rogue Ales (Newport OR). Cheese Affinities: In general terms, what types of cheeses pair well with that style and why. Cheeses to Try: Brief profiles of three well-distributed cheeses (domestic and imported) specifically recommended for that style and why More Cheeses to Try: A list of other cheeses to pair with that beer style---so that every reader should be able to find at least a couple of the recommended cheeses The introductory chapter includes general advice on pairing cheese and beer; and on selecting, storing and presenting cheese. Six themed platters give readers ideas for entertaining with beer and cheese.
