EXISTING IN COSTUME Chan-Hyo Bae 2018-11-15 The book covers five photography series which Chan-Hyo Bae has worked on so far, Self-Portrait, Fairy Tales, Punishment, Witch Hunting and the new series Jumping into the Oil Paintings. Each series have been divided into individual categories but the book's editing shows that all series are above the same photographic context. As the artist had been fiercely living as a stranger in the U.K. but was unable to be absorbed and experience alienation and anger as an Asian living in Western culture, his artistic challenge to the meta discourse of Western culture became the key word of this series of work. Meanwhile, Jumping into the Oil Paintings is an extension of Existing in Costume but also a very different attempt. In terms of the formality of the work, Existing in Costume is a process that visualizes the artist's feelings of prejudice and alienation through elaborating exquisite plan and production, while Jumping into the Oil Paintings do not simply damage but deconstruct the subject's essence by gilding on the printed photography or by copying the paintings images and transfer it to animal skins. His new series could be seen as a way more aggressive challenge to the system of Western thought and through this, we might carefully gauged the direction of his future works. This photography book which contains 52 works from five series include articles of Kim Hong-hee, the art critic and the previous director of Seoul Museum of Art and also Bill Kuenhoven's article, who has executive capacity in international photography scene since he had been worked as an editor of several major photography magazines for the past 20 years including Hotshoe International. Thus, those articles will support an in-depth understanding of the artist's works, has a meaning as a publication aiming at overseas photography experts and readers.

Holly and the Rose Garden Darcey Bussell 2009 Return to the magical world of Enchantia in the captivating third series of Magic Ballerina by Darcey Bussell!

The Global Lives of Things Anne Gerritsen 2015-11-19 The Global Lives of Things considers the ways in which 'things', ranging from commodities to works of art and precious materials, participated in the shaping of global connections in the period 1400-1800. By focusing on the material exchange between Asia, Europe, the Americas and Australia, this volume traces the movements of objects through human networks of commerce, colonialism and consumption. It argues that material objects mediated between the forces of global economic exchange and the constantly changing identities of individuals, as they were drawn into global circuits. It proposes a reconceptualization of early modern global history in the light of its material culture by asking the question: what can we learn about the early modern world by studying its objects? This exciting new collection draws together the latest scholarship in the study of material culture and offers students a critique and explanation of the notion of commodity and a reinterpretation of the meaning of exchange. It engages with the concepts of 'proto-globalization', 'the first global age' and 'commodities/consumption'. Divided into three parts, the volume considers in Part One, Objects of Global Knowledge, in Part Two, Objects of Global Connections, and finally, in Part Three, Objects of Global Consumption. The collection concludes with afterwords from three of the leading historians in the field, Maxine Berg, Suraiya Faroqhi and Paula Findlen, who offer their critical view of the methodologies and themes considered in the book and place its arguments within the wider field of scholarship. Extensively illustrated, and with chapters examining case studies from Northern Europe to China and Australia, this book will be essential reading for students of global history.

The Extraordinary Story of Life on Earth Piero Angela 1996 Condenses four billion years into a single year, making it easier to assess the relative distances between major events and the duration of each evolutionary era.

The Nun Simonetta Agnello Hornby 2011-12-27 Winner of the Italian PEN Prize: A tale of illicit love and a girl forced into a convent in the early nineteenth century. 1839, Messina, Italy: Agata is the daughter of an aristocrat, albeit an impoverished one, and she has fallen in love with wealthy Giacomo Lepre. Their families, however, view their romance as unacceptable and tawdry—and when Agata's father dies, her mother decides to ferry her daughter far away, to Naples, where she hopes to garner a stipend from the king. The only boat leaving Messina that day is captained by young Englishman James Garson. Following a tempestuous passage to Naples, during which Agata confesses her troubles to James, Agata and her mother find themselves rebuffed by the king, and Agata is forced to join a convent. The Benedictine monastery of San Giorgio Stilita is rife with rancor and jealousy, illicit passions and ancient feuds. But Agata remains aloof, devoting herself to the cultivation of medicinal herbs, calmed by the steady rhythms of monastic life. She reads all the books James sends her and follows the news of the various factions struggling to bring unity to Italy. She has accepted her life as a nun, but she is divided between her yearnings for purity and religiosity and her desire to be part of the world. And she is increasingly torn when she realizes that her feelings for James, though he is only a distant presence in her life, have eclipsed those for Lepre . . . "Hornby enriches her story with sensuous details of food, fashion, furnishings, and the rules of an extravagant society, savoring local color and personality quirks." —Publishers Weekly "An historical novel, a coming-of-age novel, a perfect portrait of family dynamics, The Nun also gives us, in Agata, an unforgettable heroine." —Gazzetta di Mantova

The Travail of Religious Liberty Roland H. Bainton 2008-09-01 The pages of history are filled with stories of men and women burned at the stake, exiled, and ostracized in the name of religion. Thus Roland Bainton explains the struggle within the Christian Church to achieve religious liberty by telling, in popular biographical style, nine stories of sincere people--both persecutors and persecuted--who took part in the struggle.

Bainton's biographies begin with Thomas of Torquemada, instrument of the Roman Catholic Inquisition, and with John Calvin who active in the burning of Michael Servetus. He then covers how such persecution brought about the toleration controversy of the sixteenth century, when SŽbastian Castellio struck his blow for religious liberty, when Hollander David Joris made a mystical approach to tolerance, and when Franciscan Bernardino Ochino believed in the cultivation of the inner life. Finally he concentrates on the champions of religious liberty in the 17th Century: John Milton, Roger Williams and John Locke.

In queste pagine tento di chiarire come le leggi stesse vanno governate. Osservatori dell'esistente giuridico: diversa l'angolazione. Bingham raggiunge in pieno il suo intento. Quanto a me, cerco di farcela. In comune l'ingenua speranza che di entrambi i punti di vista si avvalga un benintenzionato operatore.

The Extraordinary Story of Human Origins Piero Angela 1993-06 How can we know about the lives of our ancestors who lived 30,000, or 300,000, or 3 million years ago? In *The Extraordinary Story of Human Origins*, Piero and Alberto Angela address the many difficulties and challenges that scientists face in assembling the record of human evolution. To piece together the intriguing puzzle of human origins it is necessary to study all clues that are made available by multidisciplinary research, including paleontology, biochemistry, geology, genetics, physics, and climatology. Like so many Sherlock Holmeses, researchers seek all possible clues and analyze them meticulously in hopes of being able to reconstruct the past. These pieces are few and fragmentary, ranging from the footprints left in volcanic ash 3.7 million years ago by hominids who walked exactly as we do, to a "Y" pattern on molars and mitochondrial DNA. But they all provide information on the diet, diseases, hunting techniques, and art of *Australopithecus*, *Homo habilis*, *Homo erectus*, the Neanderthal, and the first *Homo sapiens sapiens*. Written in an accessible but authoritative style, this study includes many lively reconstructions of the everyday life of our earliest ancestors based on the most reliable data. *The Extraordinary Story of Human Origins* makes available to a wide audience a unique look inside the exciting world of research into the beginnings of human life on earth.
