Black Souls Gioacchino Criaco 2020-02-04 The modern Italian classic about Calabrian organized crime—now an award-winning motion picture—makes its English-language debut. In the remote Aspromonte Mountains in southern Calabria, Italy, three best friends embark on a life of crime in order to raise themselves up out of the poverty of their childhoods. Brainy Luciano, the behind-the-scenes schemer, was orphaned as a little boy when the local mob boss had his postman father executed. Lazy, jovial Luigi has learned that there's no point in following the rules. And completing the triumvirate is the nameless narrator, from whose black soul comes the inspiration and energy for each new criminal project, from kidnapping to armed robbery to heroin dealing to contract killing. Set in the birthplace of the 'Ndrangheta, Calabria's ruthless and ubiquitous mafia, *Black Souls* draws on centuries of brigand lore, peasant rebellion history, mountain mythology, and colonial suffering to offer a gripping morality tale about how violence begets violence.

Dry Season Gabriela Babnik 2015 Gabriela Babnik's novel *Dry Season* breaks the mould of what we usually expect from a writer from a small, Central European nation. With a global perspective, Babnik takes on the themes of racism, the role of women in modern society and the loneliness of the human condition. *Dry Season* is a record of an unusual love affair. Anna is a 62-year-old

designer from Slovenia and Ismael is a 27-year-old from Burkino Faso who was brought up on the street, where he was often the victim of abuse. What unites them is the loneliness of their bodies, a tragic childhood and the dry hamartan season, during which neither nature nor love is able to flourish. She soon realizes that the emptiness between them is not really caused by their skin colour and age difference, but predominantly by her belonging to the Western culture in which she has lost or abandoned all the preordained roles of daughter, wife and mother. Sex does not outstrip the loneliness and repressed secrets from the past surface into a world she sees as much crueller and, at the same time, more innocent than her own. Cleverly written as an alternating narrative of both sides in the relationship, the novel is interlaced with magic realism.

Whistleblower Protections Daryl R. Arcelloni 2013 Legal protection for employees who report illegal misconduct by their employers have increased dramatically since the late 1970s when such protections were first adopted for federal employees in the Civil Service Reform Act of 1978. Since that time, with the enactment of the Whistleblower Protection Act of 1989, Congress has expanded such protections for federal employees. Congress has also established whistleblower protections for individuals in certain private-sector employment through the adoption of whistleblower provisions in at least 18 federal statutes. Among these statutes is the Sarbanes-Oxley Act, the FDA Food Safety Modernization Act, and the Dodd-Frank Wall Street Reform and Consumer Protection Act. This book provides an overview of key aspects of the 18 selected federal statutes applicable to individuals in certain private-sector industries. It focuses on the protections provided to employees who believe they have been subject to retaliation, rather than on how or where alleged misconduct should be disclosed.

Ten Andrej Longo 2013-05-02 The Mafia and the Ten Commandments meet in these interlinked short stories about the undebelly of Naples. Ten uncovers the raw heart of a city, telling the stories of ordinary people forced to make extraordinary compromises in a place permeated by crime. We encounter a son who finds that he is capable of a terrible act when faced with his mother's suffering 'because someone had to do it'; a girl whose only outlet for the horrors of an adult's abuse is to confide in a stuffed toy; an ancient nightclub singer whose ambition has led him to become a drug tester for a Mafia boss; and Ray-Ban who, during a night of mayhem with his friends, manages to steal the wrong car and pays dearly for it. Each comes to life with painful precision in the hands of Andrej Longo - their fears, regrets, energy and grace. In direct and sometimes brutally raw prose, he conjures a searing new vision of Naples. With the lightest of

brush strokes, Longo builds a vivid portrait of a city, its people, and their dreams of escape.

International News in the Digital Age Judith Clarke

2012-01-25 The new research presented in this volume suggests that general perceptions (cultural, psychological, geographical), allied to the customs and values of journalism, and underpinned by the uses of technology, significantly shape international news. This gives rise to a blend of the old and the new; traditions of cultural centredness and innovative practices; anchorages of place and the rootlessness of globalization. Technology per se has not swept all before it. On the other hand, its uses have altered the means and methods of international news sourcing, construction and dissemination. Consequently, the uptake of technology has contributed to fundamental changes in style and form, and has greatly facilitated cross-cultural exchanges. The category 'international news' is now more of a hybrid, as recognized by the BBC and others. The chapters in this book demonstrate that this hybridity is unevenly distributed across geo-political domains, and often across time. Nevertheless, as the contributors to this volume show, the concept of 'international news' relies on tightly interwoven elements of orthodox journalism, social media, civic expression and public assembly.

[Principles Of Diffuse Light Propagation: Light Propagation In Tissues With Applications In Biology And Medicine](#) Jorge Ripoll Lorenzo 2012-03-23 The main idea behind this book is to present a rigorous derivation of the equations that govern light propagation in highly scattering media, with an emphasis on their

applications in imaging in biology and medicine. The equations and formulas for diffuse light propagation are derived from the very beginning, and all the necessary analytical expressions needed to complete a complex imaging or characterization problem are presented step by step. This book provides postgraduate and PhD students with the basic framework and sufficient knowledge in light transport and the related mathematical methods to solve most complex problems that may appear in biomedical applications involving multiple scattered light. All results presented are formal analytical derivations from the complete problem, presenting, in those cases which are relevant, approximations to these expressions.

In Praise of Mathematics Alain Badiou 2016-09-30 Why bother to praise mathematics when you claim, as Alain Badiou does, that philosophy is first and foremost a metaphysics of happiness, or else it's not worth an hour of trouble? What possible relationship can there be between mathematics and happiness? That is precisely the issue at stake in this dialogue, which serves as a very accessible introduction to what mathematics is and an exploration of the crucial influence it has always exerted on the greatest philosophers. Far from the thankless, pointless exercises they are often thought to be, mathematics and logic are indispensable guides to ridding ourselves of dominant opinions and making possible an access to truths, or to a human experience of the utmost value. That is why mathematics may well be the shortest path to the true life, which, when it exists, is characterized by an incomparable happiness.

The Disavowed Community Jean-Luc Nancy 2016-09-01 Over thirty years after Maurice Blanchot writes *The Unavowable Community* (1983)—a book that offered a critical response to an early essay by Jean-Luc Nancy on “the inoperative

community”—Nancy responds in turn with *The Disavowed Community*. Stemming from Jean-Christophe Bailly’s initial proposal to think community in terms of “number” or the “numerous,” and unfolding as a close reading of Blanchot’s text, Nancy’s new book addresses a range of themes and motifs that mark both his proximity to and distance from Blanchot’s thinking, from Bataille’s “community of lovers” to the relation between community, communitarianism, and being-in-common; to Marguerite Duras, to the Eucharist. A key rethinking of politics and the political, this exchange opens up a new understanding of community played out as a question of avowal.

The Naked Man Claude Lévi-Strauss 1990-11-08 "The Naked Man is the fourth and final volume [of *Mythologiques*], written by the most influential and probably the most controversial anthropologist of our time. . . . Myths from North and South America are set side by side to show their transformations: in passing from person to person and place to place, a myth can change its content and yet retain its structural principles. . . . Apart from the complicated transformations discovered and the fascinating constructions placed on these, the stories themselves provide a feast."—Betty Abel, *Contemporary Review* "Lévi-Strauss uses the structural method he developed to analyze and 'decode' the mythology of native North Americans, focusing on the area west of the Rockies. . . . [The author] takes the opportunity to refute arguments against his method; his chapter 'Finale' is a defense of structural analysis as well as the closing statement of

this four-volume opus which started with an 'Ouverture' in *The Raw and the Cooked*."—Library Journal "The culmination of one of the major intellectual feats of our time."—Paul Stuewe, *Quill and Quire*

Beyond Monopoly Michela Ardizzoni 2010 Current trends of globalization have influenced the social, economic, and political framework of national media worldwide. In recent years, the field of media studies has focused on globalization as a phenomenon that has greatly impacted the production and reception of media formats. By reshaping local economies, diversifying societies, and introducing digital technologies, the globalization of media has enacted a process of re-definition of national and local broadcasting. *Beyond Monopoly: Globalization and Contemporary Italian Media* examines the impact of globalization on contemporary Italian media. By engaging both the production and reception levels of different media, this volume assesses the extent to which Italian media have been part of current trends of media flows and have responded to the centrifugal and centripetal forces of globalization. The contributors to this edited volume touch upon a wide diversity of issues, such as foreign ownership on Satellite TV, the effects of digital technology on media policy making, and the framing of "Otherness" in the news. *Beyond Monopoly* provides a unique case study of the complexity of national media in the era of globalization that will appeal to students as well as scholars of global and national media systems.
