Organizational Behavior in Health Care Nancy Borkowski  
2009-12-23 Organizational Behavior in Health Care was written to assist those who are on the frontline of the industry everyday—healthcare managers who must motivate and lead very diverse populations in a constantly changing environment. Designed for graduate-level study, this book introduces the reader to the behavioral science literature relevant to the study of individual and group behavior, specifically in healthcare organizational settings. Using an applied focus, it provides a clear and concise overview of the essential topics in organizational behavior from the healthcare manager's perspective.

Organizational Behavior in Health Care examines the many aspects of organizational behavior, such as individuals' perceptions and attitudes, diversity, communication, motivation, leadership, power, stress, conflict management, negotiation models, group dynamics, team building, and managing organizational change. Each chapter contains learning objectives, summaries, case studies or other types of activities, such as, self-assessment exercises or evaluation.

more formulaic approaches that lack the support of research. With a strong focus on the use of research, this book will really appeal to the specific needs of higher-level students. The book covers important material that is often missing in consumer behaviour texts. For example, whole chapters are devoted to brand loyalty, brand equity, biases in decision-making, word of mouth, the response to price and the effect of advertising. Shorter reviews cover evidence on topics such as loyalty programmes, the response to delay and retail atmospherics. Chapters are quite short and divided into sections. Each chapter contains exercises designed to draw out key ideas and consolidate understanding, and there are suggestions for further reading. A website to support the book has an Instructor's Manual that offers PowerPoint slides, discussion of exercises, computer programs, a suggested Masters-level course, and a Word file of references to assist students writing assignments.
