21st Century Solicitor Steve Weiner 2011-10-24 This might be news: success as a twenty-first century solicitor is not dependent on your technical aptitude alone. Sorry. As well as the basic requirements of understanding and applying the law superbly, you are also now expected to master a whole suite of so-called 'soft skills' -- communicating empathetically, acting commercially, writing carefully, presenting brilliantly, networking sensibly and building relationships enthusiastically. These skills might be called 'soft' by our industry, but the reality is that they are both incredibly hard and vitally important -- especially as a junior commercial lawyer keen to make a likeable, professional, commercial and lasting positive impression on those in control of your embryonic career. Written by a lawyer with unique experience as a commercial practitioner, trainer and law-firm voyeur, this no-nonsense 'how to' guide is an honest, punchy and modern look at all the skills you don't get taught at law school, yet are absolutely critical to achieving success from day one of your life as a twenty-first century solicitor.

Fake Law The Secret Barrister 2020-09-03 THE TOP TEN SUNDAY TIMES BESTSELLER 'A powerful polemic' Sunday Times 'A compelling, eye-opening read' Daily Express - Did an illegal immigrant avoid deportation because he had a cat? - Is the law on the side of the burglar who enters your home? - Are unelected judges 'enemies of the people'? Most of us think the law is only relevant to criminals, if we even think of it at all. But the law touches every area of our lives: from intimate family matters to the biggest issues in our society. Our unfamiliarity is dangerous because it makes us vulnerable to media spin, political lies and the kind of misinformation that frequently comes from loud-mouthed amateurs and those with vested interests. This 'fake law' allows the powerful and the ignorant to corrupt justice without our knowledge - worse, we risk letting them make us complicit. Thankfully, the Secret Barrister is back to reveal the stupidity, malice and incompetence behind many of the biggest legal stories of recent years. In Fake Law, the Secret Barrister debunks the lies and builds a defence against the abuse of our law, our rights and our democracy that is as entertaining as it is vital.

Tomorrow's Lawyers Richard E. Susskind 2017 "Tomorrow's Lawyers predicts that we are at the beginning of a period of fundamental transformation in law: a time in which we will see greater change than we have seen in the past two centuries. Where the future of the legal service will be a world of internet-based global businesses, online document production, commoditized service, legal process outsourcing, and web based simulation practice. Legal markets will be liberalized, with new jobs for lawyers and new employers too. This book is a definitive guide to this future - for young and aspiring lawyers, and for all who want to modernize our legal and justice systems. It introduces the new legal landscape and offers practical guidance for those who intend to build careers and businesses in law. ... This new edition has been fully updated to include an introduction to online dispute resolution, Susskind's views on the debates surrounding artificial intelligence and its role in the legal world, a new analysis of new jobs available for lawyers, and a retrospective evaluation of The Future of Law, Susskind's prediction published in 1996 about the future of legal services." -- Publisher's website.

Company Lawyers Philippe Coen 2014 "Premier ouvrage proposant une analyse internationale et comparative sur le sujet essentiel de l'indépendance de la profession des juristes d'entreprise. Fréquemment, tant au niveau européen qu'au niveau national, cette indépendance n'est pas reconnue. Or, cette absence de reconnaissance entraîne de nombreuses questions, en particulier pour les clients de cette profession : les entreprises. Ce livre blanc explique l'importance d'un tel concept et montre que l'indépendance intellectuelle est un prérequis à tout avis ou conseil juridique pertinent. L'ouvrage rassemble près de 60 contributions de praticiens - juristes, avocats et universitaires venant de plus de 20 pays sur quatre continents et fait part de vingt propositions concrètes pour faire évoluer le statut des juristes au sein des entreprises." She acknowledges that changing careers is hard much harder than it was for most lawyers to get their first legal job after law school but it can ultimately be more fulfilling for many than a life in law. *Life After Law* offers an alternative framework and valuable analytic tools for potential careers to help launch lawyers into new fields and make them attractive hires for non-legal employers.

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

As the greater volatility of current financial markets has driven investors to seek shelter from increasing uncertainty, the quant revolution has given people the opportunity to avoid unwanted financial risk by literally trading it away, or more specifically, paying someone else to take on the unwanted risk. How I Became a Quant reveals the faces behind the quant revolution, offering you the chance to learn firsthand what it's like to be a quant today. In this fascinating collection of Wall Street war stories, more than two dozen quants detail their roots, roles, and contributions, explaining what they do and how they do it, as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of an investment revolution.

Whistleblowing John Bowers QC 2012-03-08 This book provides a detailed survey of the law relating to public interest disclosure. It examines how the new system has developed since the coming into force of the Public Interest Disclosure Act 1998 (PIDA), and provides up-to-date practical guidance on the key issues that arise in practice. Analysing the legal framework in the area, both under PIDA and the disparate sources of law that can apply, it provides in-depth commentary on case law and legislative developments. It examines the structure of PIDA, litigation procedure and remedies under the Act, data protection, confidentiality, copyright, defamation issues, and the Human Rights Act 1998, as well as the contractual and fiduciary duties of employees, statutory obligations (both regulatory and criminal), and the Corporate Governance Codes. Since the publication of the first edition, there have been substantial developments in the area, including those regarding whether a disclosure tends to show a Public Interest Disclosure, the burden of proof, remedies, and alternative dispute resolution. This new edition also covers the employment tribunals' new powers to pass PIDA claims to the appropriate regulator, where the claimant consents, and provides extensive coverage of a number of important decisions emerging from the Court of Appeal and the Employment Appeal Tribunal, including *Babula v Waltham Forest College*, *Ezsias v North Glamorgan NHS Trust* and *Fecitt and others v NHS Manchester*. Written by an author team with extensive experience in the area, and making use of checklists and worked examples, the book is an essential reference work for employment practitioners dealing with cases involving public interest disclosure issues. It will also be of interest to private and public sector employers seeking guidance on whistleblowing procedures and policies.
