Fault in American Contract Law Omri Ben-Shahar 2010-08-16 Representing an unprecedented joint effort from top scholars in the field, this volume collects original contributions to examine the fundamental role of 'fault' in contract law. Is it immoral to breach a contract? Should a breaching party be punished more harshly for willful breach? Does it matter if the victim of breach engaged in contributory fault? Is there room for a calculus of fault within the 'efficient breach' framework? For generations, contract liability has been viewed as a no-fault regime, in sharp contrast to tort liability. Is this dichotomy real? Is it justified? How do the American and European traditions compare? In exploring these and related issues, the essays in this volume bring together a variety of outlooks, including economic, psychological, philosophical, and comparative approaches to law.

The Theory of Contract Law Peter Benson 2001-02-05 Although the law of contract is largely settled, there appears to be no widely-accepted comprehensive theory of its main principles and doctrines or of its normative basis. Contract law theory raises issues concerning the relation between law and morality, the role and the importance of rights, the connection between justice and economics, and the distinction between private and public law. This collection of six full-length essays, written by some of the most eminent scholars in the field, explores the general theory of contract law from a variety of theoretical perspectives. The volume addresses a wide range of issues, both methodological and substantive, in the theory and practice of contract law. While the essays build upon past theoretical contributions, they also attempt to take contract theory further and suggest promising ways to develop theory of contract law.

A Restatement of the English Law of Contract Andrew (hon) Burrows FBA 2016-04-28 A Restatement of the English Law of Contract is the second Restatement of English law undertaken by Andrew Burrows following on the success of A Restatement of the English Law of Unjust Enrichment (OUP, 2012). Designed to enhance the accessibility of the common law the Restatement comprises a number of clear succinct rules, fully explained by a supporting commentary, which set out the general law of contract in England and Wales. Written by one of the leading authorities in this area, in collaboration with an advisory group of senior judges, academics, and legal practitioners, the Restatement offers a novel and powerfully persuasive statement of the law in this central area of English law. All lawyers dealing with the English law of contract, whether as practitioners, judges, academics, or law students, cannot but benefit from this Restatement. The English law of contract is one of the most respected systems of contract law in the world and by the device of a 'choice of law' clause is often chosen by foreign commercial parties as the applicable law to govern their contract. One of the aims of the Restatement is for the reader, including those from civil law jurisdictions, to see quickly and easily how the different elements of the English law of contract fit together.

Contract Law in Poland Piotr Machnikowski 2020-12-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in Poland covers every aspect of the subject - definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Poland will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.
