Stranger Care Sarah Sentilles 2021-05-04 NEW YORK TIMES EDITORS' CHOICE • "A powerful, heartbreaking, necessary masterpiece."—Cheryl Strayed, #1 New York Times bestselling author of *Wild* The moving story of what one woman learned from fostering a newborn—about injustice, about making mistakes, about how to better love and protect people beyond our immediate kin May you always feel at home. After their decision not to have a biological child, Sarah Sentilles and her husband, Eric, decide to adopt via the foster care system. Despite knowing that the system's goal is the child's reunification with the birth family, Sarah opens their home to a flurry of social workers who question them, evaluate them, and ultimately prepare them to welcome a child into their lives—even if it means most likely having to give the child back. After years of starts and stops, and endless navigation of the complexities and injustices of the foster care system, a phone call finally comes: a three-day-old baby girl named Coco, in immediate need of a foster family. Sarah and Eric bring this newborn stranger home. "You were never ours," Sarah tells Coco, "yet we belong to each other." A love letter to Coco and to the countless children like her, *Stranger Care* chronicles Sarah's discovery of what it means to mother—in this case, not just a vulnerable infant but the birth mother who loves her, too. Ultimately, Coco's story reminds us that we depend on family, and that family can take different forms. With prose that Nick Flynn has called "fearless, stirring, rhythmic," Sentilles lays bare an intimate, powerful story with universal concerns: How can we care for and protect one another? How do we ensure a more

hopeful future for life on this planet? And if we're all related—tree, bird, star, person—how might we better live?

Parenting Matters National Academies of Sciences,

Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development.

From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger.

Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in

children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Mother Hunger Kelly McDaniel 2021-07-20 An insatiable need for sex and love. Periods of overeating or starving. A pattern of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of harmful behaviors-and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way. With *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its lasting impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed.

McDaniel offers a healing path with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant search for mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is the first clinician to identify *Mother Hunger*, which demystifies the search for love and provides the compass that each woman needs to end the struggle with achy, lonely emptiness, and come home to herself.

Before We Were Yours Lisa Wingate 2019-05-21 THE BLOCKBUSTER HIT—Over two million copies sold! A New York Times, USA Today, Wall Street Journal, and Publishers Weekly Bestseller “Poignant, engrossing.”—People • “Lisa Wingate takes an almost unthinkable chapter in our nation’s history and weaves a tale of enduring power.”—Paula McLain Memphis, 1939.

Twelve-year-old Rill Foss and her four younger siblings live a magical life aboard their family’s Mississippi River shantyboat. But when their father must rush their mother to the hospital one stormy night, Rill is left in charge—until strangers arrive in force. Wrenched from all that is familiar and thrown into a Tennessee Children’s Home Society orphanage, the Foss children are assured that they will soon be returned to their parents—but they quickly realize the dark truth. At the mercy of the facility’s cruel director, Rill fights to keep her sisters and brother together in a world of danger and uncertainty. Aiken, South Carolina, present day. Born into wealth and privilege, Avery Stafford seems to have it all: a successful career as a federal prosecutor, a handsome fiancé, and a lavish wedding on the horizon. But when Avery returns home to help her father weather a health crisis, a chance encounter leaves her with uncomfortable questions and compels her to take a journey through her family’s long-hidden history, on a path that will ultimately lead either to devastation or to redemption. Based on one of America’s most notorious real-life scandals—in which Georgia Tann, director of a Memphis-based adoption organization, kidnapped and sold poor children to wealthy families all over the country—Lisa Wingate’s riveting, wrenching, and ultimately uplifting tale reminds us how, even though the paths we take can lead to many places, the heart never forgets where we belong. Agency Ian V. Rowe 2022-05-16 Every child in America deserves to know that a path to a successful life exists and that they have the power to follow it. But many never set foot on that path because they grow up hearing the message that systemic forces control their destinies, or that they are at fault for everything that has gone wrong in their lives. These children often come from difficult circumstances. Many are raised by young, single parents, live in disadvantaged neighborhoods, attend substandard schools, and lack the moral safeguards of religious and civic institutions. As a result, they can be dispirited into cycles of learned helplessness rather than inspired to pursue their own possibilities. Yet this phenomenon is not universal. Some children thrive where others do not. Why? Are there personal behaviors and institutional supports that have proven to make a difference in helping young people chart a course for their futures? Agency answers with a loud and clear "yes!" This book describes four pillars that can uplift every young person as they make the passage into adulthood: Family, Religion, Education, and Entrepreneurship. Together, these pillars embody the true meaning of freedom, wherein people are motivated to embrace the ennobling responsibilities of building healthy social structures and shaping the outcomes of their own lives. For that reason, Ian Rowe calls the four pillars the FREE framework. With this framework in place, children are empowered to develop agency, which Rowe defines as the force of one's free will, guided by moral discernment. Developing agency is the alternative to the debilitating 'blame-the-system' and 'blame-the-victim' narratives. It transcends our political differences and beckons all who dare to envision lives unshackled by present realities. In addition to making the case for agency, Rowe shares his personal story of success coming from an immigrant family. He defends America as an ever-improving country worthy of our esteem. He corrects

misguided calls for “anti-racism” and “equity,” and champions a game plan for creating new agents of agency, dedicated to promoting the aspirational spirit of America’s children, and showing them the path that will set them FREE.

The Price of Privilege Madeline Levine 2006-07-03 Madeline

Levine has been a practicing psychologist for twenty-five years, but it was only recently that she began to observe a new breed of unhappy teenager. When a bright, personable fifteen-year-old girl, from a loving and financially comfortable family, came into her office with the word empty carved into her left forearm,

Levine was startled. This girl and her message seemed to embody a disturbing pattern Levine had been observing. Her teenage patients were bright, socially skilled, and loved by their affluent parents. But behind a veneer of achievement and charm, many of these teens suffered severe emotional problems. What was going on? Conversations with educators and clinicians across the country as well as meticulous research confirmed Levine's suspicions that something was terribly amiss. Numerous studies show that privileged adolescents are experiencing epidemic rates of depression, anxiety disorders, and substance abuse -- rates that are higher than those of any other socioeconomic group of young people in this country. The various elements of a perfect storm -- materialism, pressure to achieve, perfectionism, disconnection -- are combining to create a crisis in America's culture of affluence. This culture is as unmanageable for parents -- mothers in particular -- as it is for their children. While many privileged kids project confidence and know how to make a good impression, alarming numbers lack the basic foundation of psychological development: an authentic sense of self. Even parents often miss the signs of significant emotional problems in their "star" children. In this controversial look at privileged families, Levine offers thoughtful, practical advice as she explodes one child-rearing myth after another. With empathy and candor, she identifies parenting practices that are toxic to healthy self-development and that have contributed to epidemic levels of depression, anxiety, and substance abuse in the most unlikely place -- the affluent family.

children's books - by award-winning and bestselling author, David Baddiel. Illustrated by Jim Field - winner of the Roald Dahl Funny Prize. THE PARENT AGENCY: Barry said, a third time, "I wish I had better parents!" And then suddenly the entire room started to shake! Barry Bennett hates being called Barry. In fact it's number 2 on the list of things he blames his parents for, along with 1) "being boring" and 3) "always being tired". But there is a world, not far from this one, where parents don't have children. That's far too random for something so big and important. In this world, children are allowed to choose their parents. For Barry Bennett, this world seems like a dream come true. Only things turn out to be not quite that simple! THE PERSON CONTROLLER: Fred and Ellie are twins. But not identical (because that's impossible for a boy and a girl). They do like all the same things, though. Especially video games. Which they are very good at. They aren't that good, however, at much else "like, for example, football, or dealing with the school bullies. Then, they meet the Mystery Man, who sends them a video game controller, which doesn't look like any other controller they've ever seen. And it doesn't control any of their usual games. When the twins find out what it does control, though, it seems like the answer to all their problems. And the key to all their wildest dreams. At least it seems like that! ANIMALCOLM: Malcolm doesn't like animals. Which is a problem because his family love them. Their house is full of pets. What the house is NOT full of is stuff Malcolm likes. Such as the laptop he wanted for his birthday. The only bright spot on the horizon is the Year 6 school trip, until Malcolm realizes it's heading to "oh no. The farm. Over the next days, Malcolm changes. He learns a lot about animals. More, in many ways, than he would like. He learns what it's really like to be an animal! It does make him think differently. And speak differently. And eat differently. But will he end up the same as he was before? Because sometimes the hardest thing to

become isâ€¦ yourself.

To the End of June Cris Beam 2013-08-13 A New York Times Notable Book that “casts a searing eye on the labyrinth that is the American foster care system” (NPR’s On Point). Who are the children of foster care? What, as a country, do we owe them? Cris Beam, a foster mother herself, spent five years immersed in the world of foster care looking into these questions and tracing firsthand stories. The result is *To the End of June*, an unforgettable portrait that takes us deep inside the lives of foster children in their search for a stable, loving family. Beam shows us the intricacies of growing up in the system—the back-and-forth with agencies, the rootless shuffling between homes, the emotionally charged tug between foster and birth parents, the terrifying push out of foster care and into adulthood. Humanizing and challenging a broken system, *To the End of June* offers a tribute to resiliency and hope for real change. “A triumph of narrative reporting and storytelling.” —The New York Times “[A] powerful . . . and refreshing read.” —Chicago Tribune “A sharp critique of foster-care policies and a searching exploration of the meaning of family.” —Publishers Weekly (starred review) “Heart-rending and tentatively hopeful.” —Salon

American Baby Gabrielle Glaser 2022-01-25 A New York Times Notable Book The shocking truth about postwar adoption in America, told through the bittersweet story of one teenager, the son she was forced to relinquish, and their search to find each other. “[T]his book about the past might foreshadow a coming shift in the future... ‘I don’t think any legislators in those states who are anti-abortion are actually thinking, “Oh, great, these single women are gonna raise more children.” No, their hope is that those children will be placed for adoption. But is that the reality? I doubt it.’”[says Glaser] -Mother Jones During the Baby Boom in 1960s America, women were encouraged to stay home and raise large families, but sex and childbirth were taboo subjects. to get and abortion was illegal. In 1961, sixteen-year-old Margaret Erle fell in love and became pregnant. Her enraged family sent her to a maternity home, where social workers threatened her with jail until she signed away her parental rights. Her son vanished, his whereabouts and new identity known only to an adoption agency that would never share the slightest detail about his fate. The adoption business was founded on secrecy and lies. American Baby lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families, fabricating stories about infants' origins and destinations, then closing the door firmly between the parties forever. Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific "assessments," and shamed millions of women into surrendering their children. The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files. Gabrielle Glaser dramatically illustrates in Margaret and David's tale--one they share with millions of Americans—a story of loss, love, and the search for identity.

Confident Parents, Confident Kids Jennifer S. Miller 2019-11-05

Confident Parents, Confident Kids lays out an approach for helping parents—and the kids they love—hone their emotional intelligence so that they can make wise choices, connect and communicate well with others (even when patience is thin), and become socially conscious and confident human beings. How do we raise a happy, confident kid? And how can we be confident that our parenting is preparing our child for success? Our confidence develops from understanding and having a mastery over our emotions (aka emotional intelligence)—and helping our children do the same. Like learning to play a musical instrument, we can fine-tune our ability to skillfully react to those crazy, wonderful, big feelings that naturally arise from our child's constant growth and changes, moving from chaos to harmony. We want our children to trust that they can conquer any challenge with hard work and persistence; that they can love boundlessly; that they will find their unique sense of purpose; and they will act wisely in a complex world. This book shows you how. With author and educator Jennifer Miller as your supportive guide, you'll learn: the lies we've been told about emotions, how they shape our choices, and how we can reshape our parenting decisions in better alignment with our deepest values. how to identify the temperaments your child was born with so you can support those tendencies rather than fight them. how to align your biggest hopes and dreams for your kids with specific skills that can be practiced, along with new research to support those powerful connections. about each age and stage your child goes through and the range of learning opportunities available. how to identify and manage those big emotions (that only the parenting process can bring out in us!) and how to model emotional intelligence for your children. how to deal with the emotions and influences of your choir—the many outside individuals and communities who directly impact your child's life, including school, the digital world, extended family, neighbors, and friends. notice that certain coincidences don't seem coincidental. For example, how does a band roadie named Boone find them in the middle of a desert where their coach just happens to break down? Why does a man from their parents' wedding keep showing up in the same cities they stop at? When they reach Philadelphia, Q and Angela realize this tour is definitely not the trip their parents had planned and that the "City of Brotherly Love" is full of mysteries and secrets that could threaten their new life together. The Person Controller David Baddiel 2015-10-08 From the author of *THE PARENT AGENCY* comes a thrilling, funny and touching new adventure.

Unfinished Business Anne-Marie Slaughter 2015-09-29 Includes a new afterword by the author • "Slaughter's gift for illuminating large issues through everyday human stories is what makes this book so necessary for anyone who wants to be both a leader at work and a fully engaged parent at home."—Arianna Huffington
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST, NPR, AND THE ECONOMIST
When Anne-Marie Slaughter accepted her dream job as the first female director of policy planning at the U.S. State Department in 2009, she was confident she could juggle the demands of her position in Washington, D.C., with the responsibilities of her family life in suburban New Jersey. Her husband and two young sons encouraged her to pursue the job; she had a tremendously supportive boss, Secretary of State Hillary Clinton; and she had

been moving up on a high-profile career track since law school. But then life intervened. Parenting needs caused her to make a decision to leave the State Department and return to an academic career that gave her more time for her family. The reactions to her choice to leave Washington because of her kids led her to question the feminist narrative she grew up with. Her subsequent article for *The Atlantic*, “Why Women Still Can’t Have It All,” created a firestorm, sparked intense national debate, and became one of the most-read pieces in the magazine’s history. Since that time, Anne-Marie Slaughter has pushed forward, breaking free of her long-standing assumptions about work, life, and family. Though many solutions have been proposed for how women can continue to break the glass ceiling or rise above the “motherhood penalty,” women at the top and the bottom of the income scale are further and further apart. Now, in her refreshing and forthright voice, Anne-Marie Slaughter returns with her vision for what true equality between men and women really means, and how we can get there. She uncovers the missing piece of the puzzle, presenting a new focus that can reunite the women’s movement and provide a common banner under which both men and women can advance and thrive. With moving personal stories, individual action plans, and a broad outline for change, Anne-Marie Slaughter reveals a future in which all of us can finally finish the business of equality for women and men, work and family. “I’m confident that you will be left with Anne-Marie’s hope and optimism that we can change our points of view and policies so that both men and women can fully participate in their families and use their full talents on the job.”—Hillary Rodham Clinton

Head Kid David Baddiel 2018-09-06 From the million-copy bestselling author of *THE PARENT AGENCY* and *BIRTHDAY BOY* comes a wildly entertaining wish-fulfilment adventure that asks the question: what would happen if the strictest head teacher swapped bodies with the naughtiest kid in school?
