**Symbols and Their Meanings** Jack Tresidder 2006 How did a symbol such as the cross, which today is so commonly associated with Christianity, come to appear in the pre-Columbian art of Central America? Why does the crow stand for death, evil and bad luck in Europe - but signify a creative and civilising force in Native American culture? Every traditional symbol bears an elemental power that transcends boundaries and holds significance for many cultures. But the ways in which we interpret such power have varied tremendously around the world and through the ages. In *Symbols and their Meanings*, author and art historian Jack Tresidder explores core symbols from across global cultures, through themes common to the world's spiritual imagination. Thought-provoking and visually stunning, *Symbols and their Meanings* offers a uniquely accessible compendium of symbols and symbol systems, and shows how the profound messages conveyed by symbols have enriched the world's cultural and spiritual heritage.

The Mandaeans Jorunn Jacobsen Buckley 2002-11-14 The Mandaeans are a Gnostic sect that arose in the middle east around the same time as Christianity. What little study of the religion there has been has focused on the ancient Mandaeans and their relation to early Christianity. Buckley examines the lives and religion of contemporary Mandaeans, who live mainly in Iran and Iraq but also in New York and San Diego. She provides a comprehensive introduction to the religion and shows how its ancient texts inform the living religion, and vice versa.

Thoughts on Art Education Rudolf Arnheim 1989 The relationship between psychology and the arts, and the role of the arts in the educational process are explored. The proposition put forth argues that the sensory system is a primary resource in cognitive life. The relationship of intuition to intellect, of how the whole and its constituent qualities relate, also is explored. The forms of representation artists and art students have access to inexorably shape the content of their work. The educational process too often has thwarted natural human abilities. Art education, however, can and should have a crucial role in fostering these abilities. (DB)

**The Reader's Eye** Ellen J. Esrock 1994 Drawing on substantive research from various disciplines, Ellen Esrock shows that the reader's visual

imagery can have unique cognitive and affective consequences that heighten not only the experience of reading but also the scholarly study of literature. "In exploring the familiar problem of 'reader response,' Ellen Esrock shifts the emphasis to visual response--asking what it is that readers 'see' in the 'mind's eye' as they read. She poses questions in as clear a form as possible, surveys the most important answers provided by literary and psychological scholarship, and suggests directions for further research and reflection. *The Reader's Eye* is a quite original book."--W. *Eye of the Century* Francesco Casetti 2008-05-14 Is it true that film in the twentieth century experimented with vision more than any other art form? And what visions did it privilege? In this brilliant book, acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of twentieth-century modernity. He suggests that film defined a unique gaze, not only because it recorded many of the century's most important events, but also because it determined the manner in which they were received. Casetti begins by examining film's nature as a medium in an age obsessed with immediacy, nearness, and accessibility. He considers the myths and rituals cinema constructed on the screen and in the theater and how they provided new images and behaviors that responded to emerging concerns, ideas, and social orders. Film also succeeded in negotiating the different needs of modernity, comparing and uniting conflicting stimuli, providing answers in a world torn apart by conflict, and satisfying a desire for everydayness, as well as lightness, in people's lives. The ability to communicate, the power to inform, and the capacity to negotiate--these are the three factors that defined film's function and outlook and made the medium a relevant and vital art form of its time. So what kind of gaze did film create? Film cultivated a personal gaze, intimately tied to the emergence of point of view, but also able to restore the immediacy of the real; a complex gaze, in which reality and imagination were combined; a piercing gaze, achieved by machine, and yet deeply anthropomorphic; an excited gaze, rich in perceptive stimuli, but also attentive to the spectator's orientation; and an immersive gaze, which gave the impression of being inside the seen world while also maintaining a sense of distance. Each of these gazes combined two different qualities and balanced them. The result was an ever inventive synthesis that strived to bring about true compromises without ever sacrificing the complexity of contradiction. As Casetti demonstrates, film proposed a vision that, in making opposites permeable, modeled itself on an oxymoronic principle. In this sense, film is the key to reading and understanding the modern experience.

The bellowing in the barn comes not from a cow but from a dragon. The thundering herd in the valley? Unicorns. Uncle Gideon's sprawling farmhouse never looks the same twice. Plus, there's a flying monkey, a demon squirrel, and a barnload of unlikely farmhands with strange accents and even stranger powers. At first, the whole place seems like a crazy adventure. But when darker secrets begin to surface and Uncle Gideon and his fabulous creatures are threatened, Lucinda and Tyler have to pull together to take action. **How to Do Theory** Wolfgang Iser 2005-08-26 This succinct introduction to modern theories of literature and the arts demonstrates how each theory is built and what it can accomplish. Represents a wide variety of theories, including phenomenological theory, hermeneutical theory, gestalt theory, reception theory, semiotic theory, Marxist theory, deconstruction, anthropological theory, and feminist theory. Uses classic literary texts, such as Keats's *Ode on a Grecian Urn*, Spenser's *The Shepheard's Calender* and T. S. Eliot's *The Waste Land* to illustrate his explanations. **Aztec and Maya Myths** Karl Taube 1993 The myths of the Aztec and Maya derive from a shared Mesoamerican cultural tradition. This is very much a living tradition, and many of the motifs and gods mentioned in early sources are still evoked in the lore of contemporary Mexico and Guatemala. Professor Taube discusses the different sources for Aztec and Maya myths. The Aztec empire began less than 200 years before the Spanish conquest, and our knowledge of their mythology derives primarily from native colonial documents and manuscripts commissioned by the Spanish. The Maya mythology is far older, and our knowledge of it comes mainly from native manuscripts of the Classic period, over 600 years before the Spanish conquest. Drawing on these sources as well as nineteenth- and twentieth-century excavations and research, including the interpretation of the codices and the decipherment of Maya hieroglyphic writing, the author discusses, among other things, the *Popol Vuh* myths of the Maya, the flood myth of Northern Yucatan, and the Aztec creation myths.

**The Nature of Physical Reality** Subhash Kak 2016-04 "The book presents a summary of the current scientific understanding of the physical world, and shows that man's questioning across the ages has had continuity in terms of preoccupation with paradoxes."--

*Maya Cosmogogenesis 2012* John Major Jenkins 1998-08-01 While researching the 2012 end-date of the Maya Calendar, John Major Jenkins decoded the Maya's galactic cosmology. The Maya discovered that the periodic alignment of the Sun with the center of the Milky Way galaxy is the formative influence on human evolution. These alignments also define a series of World Ages. The fourth age ends on December 21, 2012, when an epoch chapter in human history will come to an end. *Maya Cosmogogenesis 2012* reveals the Maya's insight into the cyclic nature of time, and prepares us for our own cosmogenesis--the birth of a new world.

**Bay of Tigers** Pedro Rosa Mendes 2004 This is an extraordinary account of Pedro Rosa Mendes's journey across Africa in 1997 - 6000 miles from the west to the east coast, from Angola to Mozambique - on trains with no windows, no doors, no seats, on wrecks of trucks and buses, on boats and

motorcycles.

**Prospecting** Wolfgang Iser 1993-02 "An important transitional book, usefully summarizing the past and thoughtfully mapping out the future of a significant critic's theoretical project."- Modern Philology. "There is a much greater emphasis on the reader's function as 'performer' of the text in Prospecting than in Iser's other books. The two brilliant chapters on Beckett's fiction and drama are crucial here... Literature becomes 'play' and 'game,' and the reader becomes a performer of himself. This idea of performance becomes central to Iser's new theory. Art does not present life; it performs it."- Yearbook of English Studies.

**Shilappadikaram** Ilango Adigal 2016-04-25 Shilappadikaram or the Ankle Bracelet is one of the five major epics of Tamil literature. It was composed as a verse romance in Tamil by Ilango Adigal, a Jain prince who lived in the second century ad and was one of the most renowned classical poets of ancient India. Shilappadikaram is a tale of wonders and misfortunes, of hapless mortals and capricious deities, of magic and heroism in a bright but also cruel world in which the law of karma rules and where 'actions committed in past lives must always bear fruit'. Thus the peerless young Kovalan will leave his loyal wife Kannaki for the courtesan Madhavi and though he returns to her, still meets his death because of her ill-omened ankle bracelet. It has been called an epic and even a novel, but it is also a book of general education. Ilango packed his story with information: history merging into myth, religious rites, caste customs, military lore, descriptions of city or country life. And four cantos are little anthologies of the poetry of the period (seashore and mountain songs, hunters' and milkmaids' songs), thereby giving us a vivid picture of early Indian life in all its aspects.
