The Deep Nick Cutter 2015-07-28 "A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget--small things at first, like where they left their keys, then the not-so-small things like how to drive or the letters of the alphabet. Then their bodies forget how to function involuntarily. There is no cure. But far below the surface of the Pacific Ocean, a universal healer hailed as 'ambrosia' has been discovered. In order to study this phenomenon, a special research lab has been built eight miles under the sea's surface. When the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those

crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine"--Page [4] of cover.

2019-11-12 'O that we might advise one another as to what to do; to help one another to recover from our weaknesses!' Following Jesus is not easy. It involves self-denial, daily cross-bearing, and lifelong obedience. Salvation is promised to the one who 'endures to the end.' Christians need much encouragement, especially in 'difficult times'. This the Lord supplies through pastors who love him and care for his people. John Owen was such a pastor. One way he sought to help his fellow-believers was to hold occasional meetings for spiritual conference and fellowship at which various topics were addressed and discussed, with Owen providing a concluding summary of the proceedings. The short chapters in 'Searching Our Hearts in Difficult Times' contain a number of Owen's talks and sermons on a wide range of subjects which are as relevant to Christians today as they were to believers some three and a half centuries ago. Abridged and made easy to read.

The Religion Tim Willocks 2008-04-29 This is what we dream of: to be so swept away, so poleaxed by a book that the breath is sucked right out of us. Brace yourselves. May 1565. Suleiman the Magnificent, emperor of the Ottomans, has declared a jihad against the Knights of Saint John the Baptist. The largest armada of all time approaches the knights' Christian stronghold on the island of Malta. The Turks know the knights as the "Hounds of Hell." The knights call themselves "The Religion." In Messina, Sicily, a French countess, Carla La Penautier, seeks passage to Malta in a quest to find the son taken from her at his birth twelve years ago. The only man with the expertise and daring to help her is a Rabelaisian soldier of fortune, arms dealer, former janissary, and strapping Saxon adventurer by the name of Mattias Tannhauser. He agrees to accompany the lady to Malta, where, amid the most spectacular siege in military history, they must try to find the boy—whose name they do not know and whose face they have never seen—and pluck him from the jaws of Holy War. The Religion is the first book of the Tannhauser Trilogy, and from the first page of this epic account of the last great medieval

conflict between East and West, it is clear we are in the hands of a master. Not since James Clavell has a novelist so powerfully and assuredly plunged readers headlong into another world and time. Anne Rice transformed the vampire novel. Stephen King reinvented horror. Now, in a spectacular tale of heroism, tragedy, and passion, Tim Willocks revivifies historical fiction.

Lady Knight Tamora Pierce 2007-12-18 The stunning conclusion to the New York Times bestselling series from the fantasy author who is a legend herself: TAMORA PIERCE. Victory is not always what it seems. Keladry of Mindelan has finally achieved her lifelong dream of becoming a knight—but it's not quite what she imagined. In the midst of a brutal war, Kel has been assigned to oversee a refugee camp. She's sure it's because Lord Wyldon still doesn't see her as equal to the men. Nevertheless, she's learning the importance of caring for people who have been robbed of their homes, wealth, and self-respect. Perhaps this battle is as important as the war with Scanra? When Kel has a vision of the man behind the horrific killing devices that her friends are fighting without her, will she honor her sworn duty . . . or embark on a quest that could turn the tide of the war? More timely than ever, the Protector of the Small series is Anti-Bullying 101 while also touching on issues of bravery, friendship, and dealing humanely with refugees against a backdrop of an action-packed fantasy adventure. "Tamora Pierce's books shaped me not only as a young writer but also as a young woman. She is a pillar, an icon, and an inspiration. Cracking open one of her marvelous novels always feels like coming home." —SARAH J. MAAS, #1 New York Times bestselling author "Tamora Pierce didn't just blaze a trail. Her heroines cut a swath through the fantasy world with wit, strength, and savvy. Her stories still lead the vanguard today. Pierce is the real lioness, and we're all just running to keep pace." —LEIGH BARDUGO, #1 New York Times bestselling author

is still alive. Unfortunately, finding more information isn't going to be easy. Tristan appears to be entangled with a clandestine organization that calls themselves Whispers. And Corin's last brush with the Whispers didn't exactly end well. As much as he wants to follow that lead, Corin has more pressing problems to deal with. Sera is still suffering from a mysterious malady that has stolen her voice and her magic. Corin knows that a portion of that is his fault, and he's determined to fix it. His mother is still off in another country, and there are growing odds that she's involved with a conspiracy to overthrow the visages. Corin has also been branded with a new magical mark on his right hand -- one that even veteran climbers don't seem to recognize. He's going to need to figure out how it works, otherwise it could be more of a vulnerability than an asset. Corin still hasn't finished his first year at Lorian Heights. If he fails his final exams, he'll be sent off to the military, and lose his chance to investigate his brother's fate. And finally, there's the issue of enemies. He might have made a few of them. The biggest problem? He's not sure if Jin, once one of his closest companions, is one of them.

But after they are kidnapped to Dimension X by a monster named Smorkus Flinders, Rod realizes that Elspeth is the least of his problems. A Single Spy William Christie 2017-04-25 "[A] panoramic, smart, hugely enjoyable thriller"—The New York Times Book Review "A single spy—in the right place and at the right moment—may change the course of history." Alexsi Ivanovich Smirnov, an orphan and a thief, has been living by his wits and surviving below the ever-watchful eye of the Soviet system until his luck finally runs out. In 1936, at the age of 16, Alexsi is caught by the NKVD and transported to Moscow. There, in the notorious headquarters of the secret police, he is given a choice: be trained and inserted as a spy into Nazi Germany under the identity of his best friend, the long lost nephew of a high ranking Nazi official, or disappear forever in the basement of the Lubyanka. For Alexsi, it's no choice at all. Over the course of the next seven years, Alexsi has to live his role, that of the devoted nephew of a high Nazi official, and ultimately works for the legendary German spymaster Wilhelm Canaris as an intelligence agent in the Abwehr. All the while, acting as a double agent—reporting back to the NKVD and avoiding detection by the Gestapo. Trapped between the implacable forces of two of the most notorious dictatorships in history, and truly loyal to no one but himself, Alexsi's goal remains the same—survival. In 1943, Alexsi is

chosen by the Gestapo to spearhead one of the most desperate operations of the war—to infiltrate the site of the upcoming Tehran conference between Churchill, Roosevelt, and Stalin, and set them up to be assassinated. For Alexsi, it's the moment of truth; for the rest of the world, the future is at stake.

Aliens Stole My Body Bruce Coville 2014-02-25 BRING BACK ROD'S BODY! Rod Allbright has found his father -- but lost his own body! It's been stolen by BKR, the most fiendish villain in the galaxy, which leaves Rod sharing the body of a one-eyed, blue alien named Seymour. Alas, when it comes time to go after BKR, Rod is forced to stay behind so that the little villain won't be able to get at the world-destroying secret locked in Rod's brain.

Stranded on an alien planet with only Madame Pong, Seymour, Snout, and his annoying cousin Elspeth for company, Rod fumes at being left behind. Little does he know he's about to be drawn into a web of alien plots that will test his courage to the utmost -- and ultimately bring him face-to-face with BKR.

The Icarus Hunt Timothy Zahn 2012-05-23 From Timothy Zahn, Hugo Award winner and New York Times bestselling author of two landmark Star Wars® series, comes an original new tale featuring a renegade space pilot, his unusual alien partner, and an unknown cargo that can change the course of galactic history. Jordan McKell has a problem with authority. Unfortunately for him, the iron-fisted authority of the powerful Patthaaunutth controls virtually every aspect of galactic shipping. In order to survive, Jordan ekes out a living dabbling in interstellar smuggling for outlaw concerns that represent the last vestiges of free trade in the galaxy. So when Jordan and his partner, Ixil--an alien with two ferret-like "outhunters" linked to his neural system--are hired by a mysterious gentleman to fly a ship and its special cargo to Earth, they jump at the job. Caution has never been one of Jordan's strong suits. But this time he may have taken on more than even he can handle. The ship, Icarus, turns out to be a ramshackle hulk, the ragtag crew literally picked up off the street, and the cargo so secret, it's sealed in a special container that takes up most of the cramped and ill-designed ship. As if that weren't bad enough, it looks like the authorities already suspect something is afoot, there's a saboteur aboard, and the Icarus appears to be shaking apart at the seams. It doesn't seem as if things could get any worse. That is, until a beautiful crew member helps McKell uncover the true nature of the cargo he's carrying. With his enemies closing in on the lumbering Icarus, the unknown saboteur still aboard, and authorities on Earth pressured to turn them in, McKell and Ixil become fugitives. Their

only chance is to stay one step ahead of their pursuers as they try to make it home. A bold and epic novel filled with unrelenting action and a good dose of humor, *The Icarus Hunt* is a wild hyperspace romp through the galaxy.

Respawn Colin Milburn 2018-12-14 In *Respawn* Colin Milburn examines the connections between video games, hacking, and science fiction that galvanize technological activism and technological communities. Discussing a wide range of games, from *Portal* and *Final Fantasy VII* to *Super Mario Sunshine* and *Shadow of the Colossus*, Milburn illustrates how they impact the lives of gamers and non-gamers alike. They also serve as resources for critique, resistance, and insurgency, offering a space for players and hacktivist groups such as Anonymous to challenge obstinate systems and experiment with alternative futures. Six Sacred Swords Andrew Rowe 2019-02-19 It doesn't take a legendary sword to make a legendary swordsman, but it certainly helps. Keras Selyrian is already well on the way to cutting his name into the annals of legend. He's fought false divinities, thieving sorcerers, and corrupt demigods - and left them defeated in his wake. But he's a long way from home, and Kaldwyn offers a different brand of danger than he's used to. He's already got a sword of unfathomable power, but it's damaged and leaking world-annihilating mana, so he's in the market for a new one. Possibly six. The more the better, really. The Six Sacred Swords are Kaldwyn's most famous artifacts, forged as the only means to defeat the god beasts. Each sword must be earned by a worthy champion, and no single person has ever managed to collect them all. Not yet, at least. Keras is just getting started. Additional Info: Six Sacred Swords is a light-hearted fantasy adventure inspired by Japanese game series like The Legend of Zelda, Final Fantasy, and Fire Emblem. It takes place in the same universe as the Arcane Ascension novels, but years earlier and with a different protagonist. While the books are interconnected, they can be read on their own in any order

Sunwing Kenneth Oppel 2014-03-04 When eternal darkness threatens to invade, Shade and Marina must journey to the far southern jungle to save the world in this thrilling sequel to Silverwing. Shade, a young Silverwing bat in search of his father, discovers a mysterious Human building containing a vast forest. Home to thousands of bats, the indoor forest is as warm as a

summer night and teeming with insects to eat. And through the glass roof, the bats can finally see the sun, free from the tyranny of the deadly owls. Is this Paradise the fulfillment of Nocturna's Promise to return the bats to the light of day? Shade and his Brightwing friend Marina aren't so sure. Shade has seen Humans enter the forest and take away hundreds of sleeping bats for an unknown purpose. And where is Shade's father? It isn't long before Shade and Marina are swept up on a perilous journey that takes them to the far southern jungle—the homeland of Goth, now king of all the Vampyrum Spectrum: cannibal bats with three-foot wingspans. With the help of an abandoned owl prince and General Cortez's rat army, Shade must use all his resourcefulness to find his father—and stop Goth from harnessing the dark powers of Cama Zotz to create eternal night. In this continuation of Shade's saga, Kenneth Oppel recaptures the adventure and poignancy of Silverwing, which Smithsonian magazine called "a tour-de-force fantasy," and takes it to a new level of excitement.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
