A Manual of Hebrew Poetics Luis Alonso Schökel 1988 "This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of information about facts and authors but rather to initiate the reader into the stylistic analysis of poetry. To obtain information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are Sound and sonority, rhythm, imagery, figures of speech, dialogue and monologue, development and composition"--Page 4 of cover.

Pionniers Portugais de la Linguistique Vietnamienne Roland Jacques 2002 The development and adoption of a Romanized script had an enormous impact on Vietnam's intellectual development and has been attributed to the work of Alexandre de Rhodes. This study contends that Rhodes' achievement was due to the efforts of earlier Portuguese linguists upon whose work he built. The development and eventual official adoption of a Romanized script has had an enormous impact on Vietnam's cultural and intellectual development and has been a major contributor to its high literacy rate and its modernization. Among linguists, the development of the Roman

Observations on the Florid Song (1723) Pier Francesco Tosi 2009-09-29 Opinioni de' cantori antichi, e moderni o sieno osservazioni sopra il canto figurato (1723) -- Extended Edition. As the first full-length treatise ever to be published on singing, Tosi revealed to the world the secret method that accounted for the unworldly vocal abilities of the famous castrati. Living in a Europe alight with the virtuosic Baroque operas of Handel, Scarlatti and Porpora, Tosi revealed that it was extensive training in the old Italian school of singing that cultivated the beautiful tone and expression of their voices, as well as the infamous mezza di voce, trills and runs. What's more, Tosi revealed that the method worked equally well for any voice type, male or female, provided that its principles and techniques were adhered to with exactness and consistency. Written by one of the most famous singers and voice teachers of the early 18th century, Tosi's Opinioni has remained an indispensable text on the bel canto singing method, as well as Baroque stylistic techniques.

Aristotle, Rhetoric I William M. A. Grimaldi 1980 Aristotle, Rhetoric I: A Commentary begins the acclaimed work undertaken by the author, later completed in the second (1988) volume on Aristotle's Rhetoric. The first Commentary on the Rhetoric in more than a century, it is not likely to be superseded for at least another hundred years.

Uygur Buddhist Literature Johan Elverskog 1997 This first volume of the Silk Roads Studies is a reference manual of the published Uygur Buddhist literature. Uygur Buddhist Literature creates a complete inventory of the published Uygur Buddhist texts along with a bibliography of the pertinent scholarly literature. The work includes an introduction that outlines the history of the discovery of the Uygur Buddhist Literature and a short history of the Buddhist Uygurs and their translation activities. The survey of the literature itself is divided into six sections: (1) Non-Mahayana Texts, including Sutra, Vinaya, Abhidharma, Biographies of the Buddha (including Jatakas) and Avadana; (2) Mahayana Sutras; (3) Commentaries; (4) Chinese Apocrypha; (5) Tantric Texts (6) Other Buddhist Works. Included under each title of a text is a brief synopsis of the text and an explanation of the Uygur manuscript, including where known: origin of translation, the translator and the place of translation, the place it was found, and any other interesting points. After this brief survey of the manuscript, the signature of the manuscript with references to the editions of the text is provided as well as additional references to the secondary literature. The survey concludes with an index to titles, translators, scribes and sponsors. This manual is an essential tool not only for specialists in the field of Altaic, especially Turcological or Mongolian, Iranological, Sinological or Buddhological Studies, but is also written for a larger public of students interested in Asian religions and cultural history in general. This book provides in a systematic and exhaustive way the most recent information on the places where the documents are kept, a synopsis of the text, editions and secondary literature.

Gustave Le Gray, 1820-1884 Sylvie Aubenas 2002 Gustave Le Gray's life was as romantic as any novel. A young painter in Rome, then a fashionable portrait photographer in Paris, Le Gray received commissions from Napoleon III, and astonished viewers with his painterly landscapes and ravishing seascapes. Facing bankruptcy, he fled Paris with Alexandre Dumas to Palermo, traveled to the Middle East, and finally settled in Egypt, where he became drawing master to the ruler's children and continued to make photographs until his death in 1884. Le Gray's work had remained largely unknown by the general public until he was rediscovered in the 1960s and was deemed by connoisseurs to be the Monet of photography. The fruit of years of research, this complete retrospective offers, as no volume before it, an assessment of Le Gray's important place in the history of photography. This catalogue was originally published in French to accompany the exhibition Gustave Le Gray, Photographer (1820-1884) at the Bibliotheque Nationale in spring 2002. This English-language edition, edited by Gordon Baldwin, associate curator of photographs at the Getty Museum, coincides with an abridged version of the same exhibition at the Getty Museum that will run from July 9 to September 29, 2002."

Geometry of the Passions Remo Bodei 2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

The Finno-Ugric Republics and the Russian State Rein Taagepera 2013-11-26 First Published in 2000. This text provides a survey of the peoples who speak Finno-Ugric languages and have titular republics or autonomous regions within the post-Soviet Russian federation. Their languages have set them apart from their Turkic and Russian neighbours and helped to preserve their distinct identity, including their animist religious practices. Previous works on this subject were written before the demise of the USSR so that information on the subject was screened by Soviet censors. In particular, this book explores the principal threats now facing these peoples - as much environmental as political. Although communism has gone, the exploitation of natural resources threatens the region's ecology, while the new rulers in the Kremlin seem set to continue their predecessors' oppressive policies towards the Finno-Ugrians. The book is written with commitment to the threatened human and political rights of these endangered peoples.

Soft Law and Public Authorities Greg Weeks 2016-02-25 This book considers the phenomenon of soft law employed by domestic public authorities. Lawyers have long understood that public authorities are able to issue certain communications in a way that causes them to be treated like law, even though these are neither legislation nor subordinate legislation. Importantly for soft law as a regulatory tool, people tend to treat soft law as binding even though public authorities know that it is not. It follows that soft law's 'binding' effects do not apply equally between the public authority and those to whom it is directed. Consequently, soft law is both highly effective as a means of regulation, and inherently risky for those who are regulated by it. Rather than considering soft law as a form of regulation, this book examines the possible remedies when a public authority breaches its own soft law upon which people have relied, thereby suffering loss. It considers judicial review remedies, modes of compensation which are not based upon a finding of invalidity, namely tort and equity, and 'soft' challenges outside the scope of the courts, such as through the Ombudsman or by seeking an ex gratia payment.

The Materialities of Greek Tragedy Mario Telò 2018-06-14 Situated within contemporary posthumanism, this volume offers theoretical and practical approaches to materiality in Greek tragedy. Established and emerging scholars explore how works of the three major Greek tragedians problematize objects and affect, providing fresh readings of some of the masterpieces of Aeschylus, Sophocles, and Euripides. The so-called new materialisms have complemented the study of objects as signifiers or symbols with an interest in their agency and vitality, their sensuous force and psychosomatic impact-and conversely their resistance and irreducible aloofness. At the same time, emotion has been recast as material "affect,†? an intense flow of energies between bodies, animate and inanimate. Powerfully contributing to the current critical debate on materiality, the essays collected here destabilize established interpretations, suggesting alternative approaches and pointing toward a newly robust sense of the physicality of Greek tragedy.

Novantiqua Paolo Valesio 1980-11-22 "This is an important book: original, erudite, useful and ambitious." —Quarterly Journal of Speech "A remarkable book . . . sure to be of lasting interest . . . to be reckoned with by all rhetorical theorists." —Choice This is the first contemporary attempt at a holistic theory of rhetoric, well grounded in the context of cultural and social history. Arguing that rhetoric has always been an independent, objective, essential factor in human interaction, Valesio views it as coextensive with human speech in use.

My Shadow Is Yours Edoardo Nesi 2023-09-12 A recent college graduate accompanies a reclusive middle-aged writer on a chaotic road trip to Milan in this hilarious, heartwarming novel about love, friendship, and the pitfalls of nostalgia In 1995 Vittorio Vezzosi rose to worldwide acclaim with his debut novel, *The Wolves Inside*. Unfortunately for his adoring fans—and his publisher—he wouldn't write another word. Instead, the great author shut himself away in a farmhouse overlooking Florence. After twenty-five years of silence, however, a corporate takeover lights the fire under Vittorio to produce a new novel, and bright young classics graduate Emiliano De Vito is hired to assist him. Off to a rocky start, the odd couple embark on a madcap journey in a 1979 Jeep—without a roof or windshield or doors—to Milan, where Vittorio will speak to a crowd of thousands. As they travel across Italy, bonding over wine and women, and butting heads over the struggles Emiliano's generation inherited from Vittorio's, the two begin to see the world, and writing, in a different way.

Reading Dante in Renaissance Italy Simon Gilson 2018-02-15 Simon Gilson's new volume provides the first in-depth account of the critical and editorial reception in Renaissance Italy, particularly Florence, Venice and Padua, of the work of Dante Alighieri (1265–1321). Gilson investigates a range of textual frameworks and related contexts that influenced the way in which Dante's work was produced and circulated, from editing and translation to commentaries, criticism and public lectures. In so doing he modifies the received notion that Dante and his work were eclipsed during the Renaissance. Central themes of investigation include the contestation of Dante's authority as a 'classic' writer and the various forms of attack and defence employed by his detractors and partisans. The book pays close attention not only to the Divine Comedy but also to the Convivio and other of Dante's writings, and explores the ways in which the reception of these works was affected by contemporary developments in philology, literary theory, philosophy, theology, science and printing.

Rhetoric as Philosophy Ernesto Grassi 2000-12-31 By going back to the Italian humanist tradition and aspects of earlier Greek and Latin thought, Ernesto Grassi develops a conception of rhetoric as the basis of philosophy. Grassi explores the sense in which the first principles of rational thought come from the metaphorical power of the word. He finds the basis for his conception in the last great thinker of the Italian humanist tradition, Giambattista Vico (1668-1744). He concentrates on Vico's understanding of imagination and the sense of human ingenuity contained in metaphor. For Grassi, rhetorical activity is the essence and inner life of thought when connected to the metaphorical power of the word. Originally published in English in 1980, Rhetoric as Philosophy has been out of print for some time. In his foreword to this reprint edition, Burke scholar Timothy W. Crusius rues the lack of concentrated attention to Grassi because "what he had to say about rhetoric is at least as significant as, for example, what Kenneth Burke taught us".
