Tourists and Tourism Simone Abram 2021-04-26 The fact that tourism is a major global industry forecast to continue its dramatic growth well into the twenty-first century is often cited as a rationale for its analysis. However, while the connection between individual locations and the world's global markets is an obvious product of tourism, the heart of the tourist experience is the construction of identity: the relation of the traveller to resident populations; the participants' views of themselves and others; tourists' search for authenticity and their testing of boundaries. This book significantly furthers current debates on tourism by asking important and vexing questions about the nature of the tourist experience: 'folk museums' that forget many of the 'folk' who live in the areas represented; the environments and events that are shaped to meet the 'imagined dreams' of tourist spectators; the categorization of visitors and returnees who take up residence and participate in the construction of 'local' identities; the evolving meanings associated with indigenous culture, tradition, heritage, representation, reality and authenticity. In renegotiating the definitions of tourism for the new millennium, this book represents a major contribution to an emerging and highly topical area of study.

Chains and Canes Katie Porter 2014-07-01 A Dom double-teamed by two submissives? He doesn't stand a chance. Club Devant, Book 2 Wealthy businessman Daniel Baker doesn't have a creative bone in his body, but he knows art and craves beauty. Contemporary dancer Naya Ortiz, his fiancée of three years, embodies both. His protective commitment to her happiness extends to hiring Dominas to satisfy the sexual masochism she craves. The balance of their relationship is tipped when Naya dances with reckless Cajun choreographer Remy Lomand. His magnetism as a Dom carries over to a backstage encounter that leaves Naya breathless-and Daniel unable to look away. Remy knows the deal. The fancy people want to play with a disposable boy toy. He's fine with that...but not with letting Daniel remain a bystander. As their sessions intensify, Remy guides Daniel's awakening as a sexual submissive. Their no-strings threesome reveals the physical connection Daniel and Naya have lacked-and the emotional depth Remy fears. When Remy and Naya tirelessly work to found a professional dance company, Daniel is left on the outside looking in. And although he and Naya are ready to submit to Remy for the rest of their lives, the man they call Sir may not want their love at all. Warning: A sexy-as-hell Cajun choreographer plays slap, tickle, chains and canes with a caliente Puerto Rican dancer and her repressed businessman fiancée. What could possibly go wrong?"

The three of them, Gran, Jenny, and Seward, are drawn into a kind of deadly game with one another and with the sea, a game that only the sea knows how to win. *The Eyes of the Amaryllis* is a 1977 New York Times Book Review Notable Children's Book of the Year.

International Tourism Marie-Françoise Lanfant 1995-08-15 `This book is one of several indications that the sociology of tourism is on the move.... these articles raise relevant important themes in the study of tourism.... The contributors to this very readable book provide valuable insights, many of which have been derived from empirical research, that should interest anyone involved in the study of international tourism. And by moving us away from polarised positions over the social impact of tourism toward more complex but also more considered perspectives they have also helped alter the agenda for future research' - David Harrison, University of Sussex Tourism is becoming an increasingly prominent feature of contemporary life. More of us travel for pleasure than ever before, yet the social scientific literature on tourism is relatively scant. This book provides an original contribution to the field of tourist studies. The contributors to *International Tourism* reconceptualize the local and the global, avoiding such crude oppositions as centre v periphery, modern v traditional, macro v micro and North v South. Instead, they demonstrate that the local cannot be understood without the global, and that the global can never be isolated from the regional setting within which it operates. Providing new insights into theories of touristic practice, this volume places tourism within the same framework as other transnational global studies.

Atlas of Cities Paul Knox 2022-01-11 A unique, stunningly illustrated look at the origins, development, and future prospects of cities More than half the world's population lives in cities, and that proportion is expected to rise to three-quarters by 2050. Urbanization is a global phenomenon, but the way cities are developing, the experience of city life, and the prospects for the future of cities vary widely from region to region. The Atlas of Cities presents a unique taxonomy of cities that looks at different aspects of their physical, economic, social, and political structures; their interactions with each other and with their hinterlands; the challenges and opportunities they present; and where cities might be going in the future. Each chapter explores a particular type of city—from the foundational cities of Greece and Rome and the networked cities of the Hanseatic League, through the nineteenth-century modernization of Paris and the industrialization of Manchester, to the green and "smart" cities of today. Expert contributors explore how the development of these cities reflects one or more of the common themes of urban development: the mobilizing function (transport,

communication, and infrastructure); the generative function (innovation and technology); the decision-making capacity (governance, economics, and institutions); and the transformative capacity (society, lifestyle, and culture). Using stunning info-graphics, maps, charts, tables, and photographs, the Atlas of Cities is a comprehensive overview of the patterns of production, consumption, generation, and decay of the twenty-first century's defining form. Presents a one-of-a-kind taxonomy of cities that looks at their origins, development, and future prospects Features core case studies of particular types of cities, from the foundational cities of Greece and Rome to the "smart" cities of today Explores common themes of urban development, from transport and communication to lifestyle and culture Includes stunning info-graphics, maps, charts, tables, and photos Cities Featured: Abuja, Alexandria, Amsterdam, Athens, Augsburg, Babylon, Beijing, Berlin, Brasilia, Bruges, Budapest, Cairo, Canberra, Chandigarh, Chicago, Constantinople, Curitiba, Detroit, Dubai, Dublin, Düsseldorf, Florence, Frankfurt, Freiburg, Geneva, Ghent, Glasgow, Güssing, Hong Kong, Innsbruck, Istanbul, Jakarta, Karachi, Knossos, Las Vegas, London, Los Angeles, Lübeck, Manchester, Marseille, Masdar City, Mexico City, Miami, Milan, Mumbai, Nairobi, New York, Paris, Pella, Portland, Rome, San Francisco, Santorini, São Paulo, Seoul, Shanghai, Sheffield, Singapore, Sparta, St. Petersburg, Stockholm, Sydney, Syracuse, Tokyo, Vancouver, Venice, Vienna, Washington, D.C., Wildpoldsried

The Great Exhibition of 1851 Jeffrey A. Auerbach 1999-01-01 "The book challenges the common view that the Exhibition symbolized peace, progress, prosperity, and the emergence of an industrial middle class. Auerbach suggests instead that the Great Exhibition became a cultural battlefield on which proponents of different visions of industrialization, modernization, and internationalism fought for ascendancy in the struggle for a new national identity."--BOOK JACKET.

Don Vito Massimo Ciancimino 2013-11-05 This is the true story of Vito Ciancimino--Don Vito da Corleone, the "Mayor of the Corleones"--who spent forty years in the grip of death, mafia, politics, business deals and the secret service. Don Vito recounts years of clandestine and previously censored contacts between politicians and the mafia--between the Italian State and the Cosa Nostra. The key witness is Massimo, the penultimate and hitherto closest of Don Vito's five children, who has given his personal testament for the first time. His account rewrites some of the most important events of Italy's recent history. If Roberto Saviano's *Gomorra* revealed the workings of the mafia system from street level, Francesco La Licata and Massimo Ciancimino's *Don Vito* tells us about the people who held the reins of power. In the words of Attilio Bolzoni of *Repubblica*: "This is the portrait of a man who was a key player from post war Italy to our days in one of the most daunting of Italian affairs, a figure who inspired fear, a devil. He was friend with mafia bosses and great politicians, of killers and respectable gentlemen. Vito Ciancimino was the incarnation of power itself, maybe the most hated and feared, the most suspected and worshipped, man of Palermo and of the whole Sicilian society."

The Nutrition Revolution Frank Laporte-Adamski 2015-05-12 Frank Laporte-Adamski, naturopath, osteopath, "Heilpraktiker", and the creator of a nutrition regulation that runs the body better by improving health and fitness, still insists after fifteen years that "we must have a clean digestive tract in order to live longer and be in better shape". For years Laporte-Adamski has promoted the consumption of acidic fruits, vegetable oils, and virgin olive oil from its first cold pressing, recognized today as anti-malady foods. Recent scientific discoveries show that the belly is our second brain: our immune defenses are found therein, and so it is vital not to clog the digestive organs. The foundation of our nutrition, health and longevity is the digestive tract itself, and Frank Laporte-Adamski is here to reveal how it works. The Nutrition Revolution is an important book, the result of many years of practice and hundreds of resolved cases, intended for all those who have their psychological and physical wellbeing at heart and that desire to find an explanation and a concrete solution to many problems such as back pain, headaches, insomnia, fatigue, heavy legs, infections, skin and circulatory problems, and so on.

A subtle line Fabio Santoro 2019-03-20 A Legal Thriller about two lawyers working on opposite sides of the Channel, whose destinies are fatally intertwined. The lives of men from two contrasting worlds whose paths criss-cross in a game of shadows and reflections. Where money and revenge mark the boundaries where enemies become allies; where there is no certainty, only doubt and suspicion. A subtle line which separates ordinary lives, from those destroyed by fear; it will be up to the two adversaries on either side of the legal fence to rise above an international plot which could endanger their careers and, perhaps, their very lives... A gripping legal thriller from the very first page. Translator: Linda Thody PUBLISHER: TEKTIME

Europe in Crisis Mark Hewitson 2012 The period between 1917 and 1957, starting with the birth of the USSR and the American intervention in the First World War and ending with the Treaty of Rome, is of the utmost importance for contextualizing and understanding the intellectual origins of the European Community. During this time of 'crisis,' many contemporaries, especially intellectuals, felt they faced a momentous decision which could bring about a radically different future. The understanding of what Europe was and what it should be was questioned in a profound way, forcing Europeans to react. The idea of a specifically European unity finally became, at least for some, a feasible project, not only to avoid another war but to avoid the destruction of the idea of European unity. This volume reassesses the relationship between ideas of Europe and the European project and reconsiders the impact of long and short-term political transformations on assumptions about the continent's scope, nature, role and significance.

This blackly funny novel of our times follows what happens when Odell Deefus takes one wrong turn on the journey of his life and crashes into a world of oddballs, misfits, drug-dealers, religious fanatics and crooked cops, hypocrisy, torture and bloody murder. In Callisto, Odell Deefus discovers a vast web of corruption and deceit leading to the dark heart of America. Exhibiting Europe in Museums Wolfram Kaiser 2014-04-30 Museums of history and contemporary culture face many challenges in the modern age. One is how to react to processes of Europeanization and globalization, which require more cross-border cooperation and different ways of telling stories for visitors. This book investigates how museums exhibit Europe. Based on research in nearly 100 museums across the Continent and interviews with cultural policy makers and museum curators, it studies the growing transnational activities of state institutions, societal organizations, and people in the museum field such as attempts to Europeanize collection policy and collections as well as different strategies for making narratives more transnational like telling stories of European integration as shared history and discussing both inward and outward migration as a common experience and challenge. The book thus provides fascinating insights into a fast-changing museum landscape in Europe with wider implications for cultural policy and museums in other world regions.

The Machinery Question and the Making of Political Economy 1815-1848 Maxine Berg 1982-02-04 Dr Berg argues that technical change was one of the foremost theoretical concerns of Ricardo and his successors, and the foundation for their distinctly optimistic view of the future. She shows how the Machinery Question fostered the social conditions in which the status of Political Economy as a discipline was established, and concludes that by the 1840s the divisions over machinery were firmly embedded in the great rival creeds of the future, liberalism and socialism.

Network, Smart and Open Rita Lamboglia 2018-02-04 This book presents a collection of original research papers addressing the relationship between information systems (IS) and innovation. "Open", "Smart" and "Network" are three keywords that are currently guiding information systems (IS) innovation, enhancing IS potentialities and their ability to support decision-making processes. The book discusses the relevance of these three new concepts in connection with technological and organizational innovations (i.e. cloud, smart technologies and networking), and the role they play in the development of accounting and management information systems. The book's primary aim is to investigate how these innovations could influence information systems (with a particular focus on accounting and management information systems) by enhancing their information potentialities and improving accounting methodologies, performance measurement systems, data management, information systems architectures, and external and internal reporting. The book is based on a selection of the best papers—original double-blind reviewed contributions—presented at the 2016 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).
