Pan'ino, the (reduced Price) Maria Teresa Marco 2021-06-10 - Ninety-four delicious recipes for Italy's answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

The Dawn of All Robert Hugh Benson 2005-05-05 The Dawn of All, the second of Robert Hugh Benson's two science fiction satires, is a "counterblast" to the terrifying Lord of the World. Contradiction the idea that this novel presents a blueprint for an ideal society, "Benson wrote often and emphatically that he did not for a moment expect the pictured solution to realize itself, and that he even hoped it would not. Neither Science, nor the State, nor Religion would ever, he was convinced, find themselves in such mutual relations as he had invented." (C. C. Martindale, S.J.) Robert Hugh Benson (1871-1914) enjoyed a career that lasted little over a decade. In addition to a great many non-fiction works, he authored a series of twenty novels and short story collections that combined a specific moral orientation with an astonishing popularity among the general public of the early twentieth century. As an Anglican and later a Catholic priest, Father Benson was in great demand as a speaker in both England and the United States. The most sensational English convert from the Anglican Communion to Catholicism since John Henry Newman, Benson was a son of the Archbishop of Canterbury. He wrote from a Catholic perspective, but with real understanding and sympathy for the Protestant position.

The Red Horse Eugenio Corti 2010-10-19 A literary phenomenon in Italy, this European best-seller was voted the best Italian novel of the decade in a public survey. Its success has gone way beyond Italy, having been translated into Spanish, French, Japanese and 3 other languages. This epic historical novel about World War II and after, written from the author's own personal experiences as an Italian Freedom Fighter, is a profoundly

moving account of the war, those who fought in it on both sides, and the effects the war had on families in the author's hometown in northern Italy. On a wider scale, it is a faithful witness to the actual events of the war-including the historic personages who appear, the Russian campaign, the Nazi barbarism, the Communist gulag, the North Italian resistance, and beyond to the political life in the two decades after the war. This world, filled with powerful personalities, drama and clashing armies, bathes in the complex light of the truth. A truly great historical novel with its epic scope, what makes this a masterpiece is the underlying spiritual dimensions of the protagonist, his family and friends, which illuminates the ongoing tragedy of the war and its aftermath. In the end, it is a story of faith and hope in a world reduced to barbarism and cruelty. Born in 1921 in Lombardy, Eugenio Corti joined the Italian Freedom Fighters. From his experiences of the tragic retreat from Russia, Corti wrote a fascinating chronicle, *Most Did Not Return*, and a book about the Italian Freedom Fighters, *The Last Soldiers of the King*.

Understanding AIDS Victor Gong 1985 AIDS has been recognised as a disease during the past few years and the incidence and number of deaths from AIDS have risen sharply recently both in North America and in Europe. Because the disease was previously unknown, because its fatality rate is so high, and because it strikes at distinctive subpopulations, the media have paid great attention to it. Dr Victor Gong and the nineteen other contributors to his book, written for a wide audience, have brought together the most up-to-date information on AIDS. They draw from a wide range of experience in medicine, epidemiology, nursing, psychology, immunology, microbiology, social work, and interaction with the gay community, and explain the medical and immunological aspects of AIDS clearly, with a minimum of technical language. This fully documented book includes a glossary, and a summary of facts about AIDS in the form of questions and answers. It will be of value and interest to medical workers and laymen alike.

History of the Italian Agricultural Landscape Emilio Sereni 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the

millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Edmund Campion: Jesuit and Martyr Evelyn Waugh 2012-08-02 In 1581 Edmund Campion, a Jesuit priest working underground in Protestant England, was found guilty of treason and hanged, drawn and quartered at Tyburn. Years later he would be beatified. Evelyn Waugh's compelling and elegant narrative is a homage to the man he revered as a poet, scholar, hero and martyr. He tells Campion's story with a novelist's eye for detail, from his success as an Oxford scholar, through his travels around Europe, his doomed secret mission to England and on to his capture and dramatic trial. Vividly re-creating a time of persecution and surveillance, Evelyn Waugh - author of *A Handful of Dust*, *Scoop*, *Vile Bodies*, *Brideshead Revisited* and the *Sword of Honour* trilogy - writes that 'the hunted, trapped murdered priest is our contemporary and Campion's voice sounds to us across the centuries'.

Science Incarnate Christopher Lawrence 1998-04-11 Does truth have anything to do with the belly? What difference does it make to the pursuit of knowledge whether Einstein rode a bicycle, Russell was randy, or Darwin was flatulent? Focusing on the 17th century to the present, *SCIENCE INCARNATE* explores how intellectuals sought to establish the value and authority of their ideas through public displays of their private ways of life. 54 photos.

Dishing It Out Robert Appelbaum 2011-12-20 From the hamburger haven to the temple of gastronomy, the restaurant is a fixture of modern life. But why is that so? What needs has the restaurant come to satisfy, and what needs has it come to impose upon the experience of the modern world? In *Dishing It Out*, Robert Appelbaum travels around America and Europe and through the annals of literature and history to explore the social meaning of the restaurant—and to discover what we ought to be asking of the restaurant experience today. Since its founding in pre-Revolutionary France, the restaurant has always inspired contradictory feelings and served contradictory purposes. It has stood for a kind of liberation: the embrace of pleasure and sociability for their own sake. But it has also encouraged narcissistic consumerism at the cost of the exploitation of restaurant workers, and the self-deception of restaurant-goers. Drawing on the work of such writers as Grimod de la Reynière, Jean-Paul Sartre, Isak Dinesen and M.F.K. Fisher, and sampling fare from macaroni cheese in workaday London to oysters and sausages in seaside France, Appelbaum argues that though restaurants are inherently problematic as social institutions, they are characteristic of who and what we are. They are expressions of what we need as human beings. And for that reason, though they contribute to inequality they can also be used to promote the interests of cultural democracy. A unique rethinking of the restaurant experience, at once entertaining and learned, *Dishing it Out* is an important contribution to our knowledge of food,

literature, history and society.

Believing Scholars James L. Heft 2009-08-25 How do Catholic intellectuals draw on faith in their work? And how does their work as scholars influence their lives as people of faith? For more than a generation, the University of Dayton has invited a prominent Catholic intellectual to present the annual Marianist Award Lecture on the general theme of the encounter of faith and profession. Over the years, the lectures have become central to the Catholic conversation about church, culture, and society. In this book, ten leading figures explore the connections in their own lives between the private realms of faith and their public calling as teachers, scholars, and intellectuals. This last decade of Marianist Lectures brings together theologians and philosophers, historians, anthropologists, academic scholars, and lay intellectuals and critics. Here are Avery Cardinal Dulles, S.J., on the tensions between faith and theology in his career; Jill Ker Conway on the spiritual dimensions of memory and personal narrative; Mary Ann Glendon on the roots of human rights in Catholic social teaching; Mary Douglas on the fruitful dialogue between religion and anthropology in her own life; Peter Steinfels on what it really means to be a “liberal Catholic”; and Margaret O’Brien Steinfels on the complicated history of women in today’s church. From Charles Taylor and David Tracy on the fractured relationship between Catholicism and modernity to Gustavo Gutiérrez on the enduring call of the poor and Marcia Colish on the historic links between the church and intellectual freedom, these essays track a decade of provocative, illuminating, and essential thought. James L. Heft, S.M., is President and Founding Director of the Institute for Advanced Catholic Studies and University Professor of Faith and Culture and Chancellor, University of Dayton. He has edited *Beyond Violence: Religious Sources for Social Transformation in Judaism, Christianity, and Islam* (Fordham).

The Flavors of Modernity Gian-Paolo Biasin 2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The Great Betrayal Hugh Ross Williamson 2021-08-27 British writer Hugh Ross Williamson (1901-1978), an Anglo-Catholic priest who converted to

Catholicism in 1955 and a prolific writer of drama and history, wrote two pamphlets, in 1969 and 1970, expressing his conviction that the Novus Ordo Missae represented not a reform of the Roman Rite of Mass but a devastating corruption of it. His background equipped him well to discern the signs of Protestantism and of Modernism as they appeared in the replacement liturgical books, and his conscience bid him speak up against what he called 'the great betrayal' (an ironic echo of his 1955 book on the Roman Canon, *The Great Prayer*). While many traditionalists would not concur with certain of his conclusions, his intelligent work, motivated by an obvious love for the Faith, helps us to remember today the anguish of spirit through which our forebears had to pass as they saw the heritage for which they converted being dismantled rite by rite.

Journey to Truth is an Experience Luigi Giussani 2006-10-12 As a young priest, Luigi Giussani was troubled by Catholicism's inability to effectively deal with secularism or laicism. In 1954 he began to develop a vision of faith rooted in experience. His ideas resonated with students and led to the birth of the Gioventù Studentesca (Student Youth) movement. Known today as Communion and Liberation, the movement is flourishing in Italy and around the world, including Canada, the United States, Brazil, Uganda, and Britain. *The Journey to Truth Is an Experience* is the first English translation of *Il Cammino al vero è un'esperienza*, Giussani's early works on the Christian experience, written from 1959-64. It begins with a guide on how to live the Christian life within the Student Youth community, followed by a call to base one's relationship with Christ on the example set by the apostles and other figures in the New Testament. Giussani concludes by outlining the movement's mission and the possibility for community, charity, and communion in the Christian life.

The Hammer of God G. K. Chesterton 2018-06-23 The little village of Bohun Beacon was perched on a hill so steep that the tall spire of its church seemed only like the peak of a small mountain. At the foot of the church stood a smithy, generally red with fires and always littered with hammers and scraps of iron; opposite to this, over a rude cross of cobbled paths, was "The Blue Boar," the only inn of the place. It was upon this crossway, in the lifting of a leaden and silver daybreak, that two brothers met in the street and spoke; though one was beginning the day and the other finishing it. The Rev. and Hon. Wilfred Bohun was very devout, and was making his way to some austere exercises of prayer or contemplation at dawn. Colonel the Hon. Norman Bohun, his elder brother, was by no means devout, and was sitting in evening dress on the bench outside "The Blue Boar," drinking what the philosophic observer was free to regard either as his last glass on Tuesday or his first on Wednesday. The colonel was not particular.

Characters of the Inquisition William Thomas Walsh 2016-06-18 This book is on the Inquisition, particularly the Spanish Inquisition as opposed to the Roman Inquisition in the years following the Spanish Reconquista. Walsh delves into the Inquisition, its practice, purpose, history and personalities. The Inquisition was not a bloodthirsty BDSM fest gone wild. It was a reasoned response to infiltration of the Catholic Church by enemies of the Christian Faith who pretended to be Christians in order to pervert worship, doctrine and weaken Christendom. Anyone wishing to understand the Inquisition would do well to read Characters and learn of the heroes of the Faith, Cardinal Ximenes, Torquemada, and others who

fought the good fight for Jesus Christ and his Church, After reading Characters, you will never look at the Inquisition in the same way.

Lateral Cooking Niki Segnit 2019-11-05 A groundbreaking handbook--the "method" companion to its critically acclaimed predecessor, The Flavor Thesaurus--with a foreword by Yotam Ottolenghi. Niki Segnit used to follow recipes to the letter, even when she'd made a dish a dozen times. But as she tested the combinations that informed The Flavor Thesaurus, she detected the basic rubrics that underpinned most recipes. Lateral Cooking offers these formulas, which, once readers are familiar with them, will prove infinitely adaptable. The book is divided into twelve chapters, each covering a basic culinary category, such as "Bread," "Stock, Soup & Stew," or "Sauce." The recipes in each chapter are arranged on a continuum, passing from one to another with just a tweak or two to the method or ingredients. Once you've got the hang of flatbreads, for instance, then its neighboring dishes (crackers, soda bread, scones) will involve the easiest and most intuitive adjustments. The result is greater creativity in the kitchen: Lateral Cooking encourages improvisation, resourcefulness, and, ultimately, the knowledge and confidence to cook by heart. Lateral Cooking is a practical book, but, like The Flavor Thesaurus, it's also a highly enjoyable read, drawing widely on culinary science, history, ideas from professional kitchens, observations by renowned food writers, and Segnit's personal recollections. Entertaining, opinionated, and inspirational, with a handsome three-color design, Lateral Cooking will have you torn between donning your apron and settling back in a comfortable chair.
