

Famine Fenians And Freedom 1840 1882 Rebellions Trilogy

British Empire and the Literature of Rebellion Sheshalatha Reddy 2017-10-14 This book examines imperial and nationalist discourses surrounding three contemporaneous and unsuccessful mid-nineteenth-century colonial uprisings against the British Empire: the Sepoy Rebellion (1857) in India, the Morant Bay Rebellion (1865) in Jamaica, and the Fenian Rebellion (1867) in Ireland. In reading these three mid-century rebellions as flashpoints for the varying yet parallel attempts by imperialist colonialists, nationalists, and socialists to transform the oppressed colonized worker (the subjected laborer) into one whose identity is created and limited by labor (a laboring subject), this book also tracks varying modes of resistance to those attempts in all three colonies. In drawing from a range of historical, literary, and visual sources outside the borders of the Anglophone literary canon, this book contends that these texts not only serve as points of engagements with the rebellions but also constitute an archive of oppression and resistance.

Constructions of the Irish Child in the Independence Period, 1910-1940 Ciara Boylan 2018-09-21 This volume explores how Irish children were 'constructed' by various actors including the state, youth organisations, authors and publishers in the period before and after Ireland gained independence in 1922. It examines the broad variety of ways in which the Irish child was constructed through social and cultural activities like education, sport, youth organizations, and cultural production such as literature, toys, and clothes, covering themes ranging from gender, religion and social class, to the broader politics of identity, citizenship, and nation-building. A variety of ideals and ideologies, some of them conflicting, competed to inform how children were constructed by the adults who looked on them as embodying the future of the nation. Contributors ask fundamental questions about how children were constructed as part of the idealisation of the state before its formation, and the consolidation of the state after its foundation.

Handbook for Rebels and Outlaws Mark Mirabello 2008-12-03 This is a book about freedom. Written for intellectual swashbucklers -- men and women who are radicals in politics and infidels in religion -- warriors who hammer the stake of fear into the heart of tyranny -- this volume belongs in select book collections, between the black magic and the pornography texts.

Modern Irish Autobiography L. Harte 2007-04-12 Modern Irish Autobiography provides the first comprehensive critical analysis of the Irish autobiographical tradition from the early nineteenth century to the present day. This pioneering collection offers readers a stimulating and provocative introduction to the principal themes, modes and narrative strategies of Irish autobiographers.

Count Roger of Sicily Richard Brown 2016-07-11 The reputation of the Normans in the eleventh century as conquerors is as much the result of their patronage of historical writing as to their military abilities. By eleventh century standards, Norman military activities are well documented especially in the narrative accounts of their exploits in Italy. By 1100, three different chroniclers had independently of each other produced full-length accounts of the conquests in southern Italy and Sicily. The first chronicler Amatus of Montecassino composed his History of the Normans within a few years of the death of Richard I of Capua, a generous patron of his monastery, in 1078. William of Apulia wrote his versified account of

Norman activities in the region with special emphasis on the career of Robert Guiscard in the late 1090s. Finally, while William was working on his Deeds of Robert Guiscard, Geoffrey Malaterra was immortalising Robert's brother Roger in his Deeds of Roger Count of Calabria and Sicily and His Brother Duke Robert Guiscard. Unusually, Malaterra's chronicle can almost be seen as a 'double' biography for though Roger is clearly the main focus of the work Guiscard is a menacing presence until his death in 1085 at the end of Book III. We do not know much about Malaterra but he was asked to compose his history, which took him ten years to complete, by Count Roger of Sicily in the 1090s. Unlike his brother Robert Guiscard--the subject of a companion volume--Roger of Sicily was more than simply a warlord (though he proved an effective military leader) but he was also an effective ruler of his lands in southern Italy as well as Sicily itself.

Southern Irish Loyalism, 1912-1949 Brian Hughes 2020-10-22 This book brings together new research on loyalism in the 26 counties that would become the Irish Free State. It covers a range of topics and experiences, including the Third Home Rule crisis in 1912, the revolutionary period, partition, independence and Irish participation in the British armed and colonial service up to the declaration of the Republic in 1949. The essays gathered here examine who southern Irish loyalists were, what loyalism meant to them, how they expressed their loyalism, their responses to Irish independence and their experiences afterwards. The collection offers fresh insights and new perspectives on the Irish Revolution and the early years of southern independence, based on original archival research. It addresses issues of particular historiographical and political interest during the ongoing 'Decade of Centenaries', including revolutionary violence, sectarianism, political allegiance and identity and the Irish border, but, rather than ceasing its coverage in 1922 or 1923, this book - like the lives with which it is concerned - continues into the first decades of southern Irish independence. DICTIONARY OF NATIONAL BIOGRAPHY 1885

Robert Guiscard Richard Brown 2016-04-22 This is the first of two volumes of translated and annotated texts and essays on the Normans in eleventh century southern Italy and Sicily. The first, which includes William of Apulia's Gesta, one of the 'key' texts of the eleventh century, focuses on Robert Guiscard 'the terror of the world', the most effective and arguably the last of the great Norman warlords. It was Robert who finally established a permanent Norman presence in southern Italy in the 1050s and 1060s replacing Lombard and Byzantine rule with Norman hegemony. Whatever Robert's skills as a military commander and strategist, he was less successful in establishing anything other than the beginnings of a Norman 'state'. This was something left to his son Roger Borsa and grandson William and their efforts were dwarfed by the statist aspirations of Count Roger of Sicily, the subject of the second volume--an annotated edition of Malaterra's history. The ways in which the historiography of southern Italy changed and the problem with the sources is the subject of the opening chapter. Chapter 2 translates the Breve Chronicon Northmannicum, a source that was originally believed to have been written in the twelfth or thirteenth century but that is today seen by many historians as an eighteenth century forgery. If this is the case, then its value to historians is extremely limited other than providing a fairly accurate chronology of the Norman conquest of southern Italy. Chapter 3 contains extracts from the Annals of Lupus Protospatharius that are relevant to the career of Robert Guiscard. Chapter 4 is a translation of William of Apulia's Gesta Roberti Guiscardi, one of the most important and detailed Italo-Norman sources on the Norman invasion. Three chapters provide commentaries on the dispute between Pope Gregory VII and the emperor Henry IV. Lambert of Hersfeld was bitterly opposed to Henry IV and he is especially valuable on the events of 1075-1077. By contrast, Archbishop Liemar of Bremen's letter written in late January 1075 gives the views of an imperialist 'party' that was intensely critical of the 'Gregorian' reforms viewing them as an infringement of existing episcopal rights. The next chapter is an extract from the Chronicle of Montecassino and deals with the controversial

interview between abbot Desiderius and the emperor Henry IV in 1082 during the dispute between the Empire and Pope Gregory VII. Desiderius, a strong supporter of Gregory VII and later Pope himself sought to show that while he favoured dialogue with the emperor this did not alter his own, strongly held Gregorian convictions. The volume ends with a selective bibliography.

[A History of the French in London](#) Debra Kelly 2013 This book examines, for the first time, the history of the social, cultural, political and economic presence of the French in London, and explores the multiple ways in which this presence has contributed to the life of the city. The capital has often provided a place of refuge, from the Huguenots in the 17th century, through the period of the French Revolution, to various exile communities during the 19th century, and on to the Free French in the Second World War. It also considers the generation of French citizens who settled in post-war London, and goes on to provide insights into the contemporary French presence by assessing the motives and lives of French people seeking new opportunities in the late 20th and early 21st centuries. It analyses the impact that the French have had historically, and continue to have, on London life in the arts, gastronomy, business, industry and education, manifest in diverse places and institutions from the religious to the political via the educational, to the commercial and creative industries.

The Body in Pain in Irish Literature and Culture Fionnuala Dillane 2016-12-06 This book elucidates the ways the pained and suffering body has been registered and mobilized in specifically Irish contexts across more than four hundred years of literature and culture. There is no singular approach to what pain means: the material addressed in this collection covers diverse cultural forms, from reports of battles and executions to stage and screen representations of sexual violence, produced in response to different historical circumstances in terms that confirm our understanding of how pain - whether endured or inflicted, witnessed or remediated - is culturally coded. Pain is as open to ongoing redefinition as the Ireland that features in all of the essays gathered here. This collection offers new paradigms for understanding Ireland's literary and cultural history.

Anarchist Seeds Beneath the Snow David Goodway 2006-01-01 From William Morris to Oscar Wilde to George Orwell left-libertarian thought has long been an important but neglected part of British cultural and political history. This work seeks to recover that indigenous anarchist tradition. It argues that a recovered anarchist tradition could be a touchstone for contemporary political radicals.

Social Transformations Of The Victorian Age T.H.S. Escott 1897

[Sex, Work and Politics](#) Richard Brown 2012 In 1830, women of all classes were repressed in a male-dominated society. By 1918, largely through their own struggles, they had seized control over most areas of their lives. Some of these sought access to the public sphere in education, the professions and central and local government. Others aimed to improve women's legal and economic status within marriage. Married women's property rights, divorce, custody of children, domestic violence as well as prostitution were all significant areas in which feminists campaigned for changes in the male-oriented status of the law and the differing moral standards to which wives and husbands were expected to conform. The long campaign for women's suffrage by suffragists and after 1903 suffragettes and the effects of World War 1 culminated in some women getting the vote in 1918 and a decade later women achieved the vote on the same terms as men. Yet, despite these advances for many largely working-class women, the tyranny of multiple pregnancies, poorly paid work and limited access to the means of personal improvement remained. This book explores the ways in which

women's status in society developed and changed during the nineteenth and early-twentieth century by looking at the nature of and challenges to women's place in a masculine world, the character of work and how women achieved political and legal rights.

Great Men and Famous Women Charles Francis Horne 1894

Roger II of Sicily Hubert Houben 2002-04-04 Although many studies have addressed important aspects of medieval southern Italy, this was the first work for nearly ninety years to be devoted specifically to the life and reign of King Roger II, the founder of the kingdom of Sicily. The book provides a comprehensive introductory narrative of the reign and a clear, scholarly analysis of its culture and of the development of royal government. The kingdom created by the Norman Roger of Hautville in the first half of the twelfth century was a monarchy with highly developed absolutist ideas, an elaborate bureaucracy, a reasonably well-filled treasury, and a mixed cultural heritage reflected by the presence of Arabs and Greeks at court. Based on many years of research in archives and libraries across Europe, the book offers a valuable overview of one of the most striking periods in south Italian and European history.

Chartism Richard Brown 2014-05-22 Chartism was the largest working-class political movement in modern British history. Its branches ranged from the Scottish Highlands to northern France and from Dublin to Colchester. Its meetings drew massive crowds: 300,000 at Kersal Moor and perhaps as many as half a million at Hartshead Moor in 1839. The National Petition in 1842 claimed 3.3 million signatures, a third of the adult population of Britain. At its peak, the Northern Star sold around 50,000 copies a week, more than The Times. This was a national mass movement of unprecedented scale and intensity that was more than simply a political campaign but the expression of a new and dynamic form of working-class culture. Across Britain, there were Chartist concerts, amateur dramatics and dances, Chartist schools and cooperatives and Chartist churches that assaulted the political hegemony of the wealthy, the conservative and the liberal. For over a decade, Chartists led a campaign for the franchise with a mass enthusiasm that has never been imitated. Chartism: Rise and Demise provides the analytical narrative for the series. The causes of Chartism and how they have been interpreted is the focus of the opening chapter. The remainder of the book explores the development of Chartism chronologically from its beginnings in the mid-1830s to its demise in the 1850s and divides this into four phases. The first phase covers the years between 1838 and 1841 and revolves round the critical events of 1839, the first Convention, the First Petition and the Newport Rising. The second phase lasts from 1841 to 1843 and focuses on the emergence of the so-called Chartist 'new move', the creation of the National Charter Association, the relationship between Chartists and the middle-classes and the strikes of 1842. The third phase covers the years between 1843 and 1850 during which there were attempts to reposition the movement, the Land Plan and the seminal events of 1848. The final phase considers the ways in which the movement developed during the 1850s when leadership moved away from Feargus O'Connor to Ernest Jones.

Rebellion in Canada, 1837-1885, Volume 2 Richard Brown 2012-09-01 In less than fifty years Canada experienced six major rebellions: in Lower and Upper Canada in late 1837 and 1838, the Fenian rebellions of 1866 and 1870 and the Pembina affair in 1871 and Louis Riel's resistance at Red River in 1869-1870 and his rebellion fifteen years later in Saskatchewan. Each failed to achieve its aims and, in one sense, the two books in the Canadian Rebellion series are studies of political disappointment. The second volume, *The Irish, the Fenians and the Metis*, considers the impact of the Irish diaspora on the United States and Canada and the rebellions led largely by Irish-American Fenians in the 1860s and 1870s and also the rebellions, led by Louis Riel in 1869-1870 and 1885, by the Metis. Chapter 1 examines the Irish diaspora to North America during the nineteenth century and focuses especially on the impact of the Famine in the 1840s and 1850s. Chapter 2 considers at the ways in which Irish nationalism maintained a strong political presence in the United States and Canada from the beginning of the nineteenth century and the emergence of the Fenian Brotherhood in New York in 1858. The political impact of this movement was both enhanced and restricted by the American Civil War between 1861

and 1865 yet the Fenians emerged in April 1865 as a powerful, if increasingly divided, force with concrete plans for the liberation of Ireland. Chapter 3 explores in detail at the three Irish-American Fenian incursions into Canada in 1866, 1870 and briefly and debatably in 1871, the impact that they had on Canadian and American politics and how this led to changes in Irish nationalism in the 1870s. Chapters 4 and 5 extend the story geographically beyond Quebec and Ontario across the continent to the unchartered and largely unsettled prairies of the North-West. The importance of rebellion in state-building in Canada is considered in the final chapter.

What Parish Are You From? Eileen M. McMahon 2021-12-14 For Irish Americans as well as for Chicago's other ethnic groups, the local parish once formed the nucleus of daily life. Focusing on the parish of St. Sabina's in the southwest Chicago neighborhood of Auburn-Gresham, Eileen McMahon takes a penetrating look at the response of Catholic ethnics to life in twentieth-century America. She reveals the role the parish church played in achieving a cohesive and vital ethnic neighborhood and shows how ethno-religious distinctions gave way to racial differences as a central point of identity and conflict. For most of this century the parish served as an important mechanism for helping Irish Catholics cope with a dominant Protestant-American culture. Anti-Catholicism in the society at large contributed to dependency on parishes and to a desire for separateness from the American mainstream. As much as Catholics may have wanted to insulate themselves in their parish communities, however, Chicago demographics and the fluid nature of the larger society made this ultimately impossible. Despite efforts at integration attempted by St. Sabina's liberal clergy, white parishioners viewed black migration into their neighborhood as a threat to their way of life and resisted it even as they relocated to the suburbs. The transition from white to black neighborhoods and parishes is a major theme of twentieth-century urban history. The experience of St. Sabina's, which changed from a predominantly Irish parish to a vibrant African-American Catholic community, provides insights into this social trend and suggests how the interplay between faith and ethnicity contributes to a resistance to change.

Settler Australia, 1780-1880 Richard Brown 2013-01-31 *Settler Australia, 1780-1880* will be published in two formats. There are two printed volumes, a necessity given the scale of the project, and a single Kindle volume that contains both printed volumes. *Settlement, Protest and Control* examines the way in which Australia developed. It is divided into two parts: establishing a colonial state and violence and protest. Uniquely in Britain's growing empire, the colonies in New South Wales and Van Diemen's Land were established as penal settlements. Why the British government decided to settle Australia and the problems encountered by the first three fleets in transporting convicts to the other side of the globe demonstrate the scale of the endeavour. Between 1788 and 1823, the two colonies were ruled by a naval and then military autocracy unaccountable for their actions to the growing number of free settlers and the emancipists, convicts who had completed their sentences and, because of their distance from London, accountable with difficulty to the Colonial Office in London. This was, for instance, evident in the Rum Rebellion in 1808 not a populist uprising but a coup within the governing elite for whom Governor William Bligh's 'tyranny' challenged its political and economic hegemony. By the 1820s, there were calls from the British Parliament for a more responsive system of government for New South Wales and Van Diemen's Land that reflected demands from settlers in Australia. The result was a gradual process of constitutional evolution away from an autocratic system of government towards one that was more responsive to local inhabitants, a process completed in the 1850s with the introduction of responsible government, a devolved system of rule that combined local hegemony over colonial issues within an overarching and developing notion of imperial sovereignty. This process of constitutional change occurred at the same time as the territories of New South Wales were divided and new colonies founded: Western Australia in the late 1820s, South Australia from 1836, belatedly Victoria in 1851 and Queensland in 1859. The ways in which the land was settled

concludes the first part of the book. State violence accompanied the birth of New South Wales and Van Diemen's Land and was a constant presence during the following century. Nowhere was this more evident than in the punishment settlement on Norfolk Island, 'Hell in Paradise' as it was termed by contemporaries, where those already transported were re-transported for further transgressions. So brutish was it that convicts in New South Wales often preferred to be hanged than submit to its regime. Convict society was often volatile and resistance to the arbitrary character of colonial rules was widespread as the attitude of women prisoners amply demonstrates. Rebellion or the threat of rebellion was infrequent although New South Wales experiences a spate of rebellious conspiracies in the first decade of the nineteenth century including the rebellion at Castle Hill in 1804 and rebellion on Norfolk Island was an endemic problem. Those convicted of political offences such as Swing rioters in 1830 and Chartists in the 1830s and 1840s were, from the 1790s through to the end of transportation in 1868, frequently dispatched to the Australian colonies. This was particularly the case with political prisoners from Ireland with Young Irelanders and later Fenians exiled to the colonies to serve their sentences. The violent and militarised character of New South Wales and Van Diemen's Land was gradually diluted with the establishing of the rule of law and the emergence of colonial policing though this could be as arbitrary and harsh as the use of the military to control the population.

Revolution, Radicalism and Reform Richard Brown 2000-10-26 An engaging range of period texts and theme books for AS and A Level history. The years between the rise of William Pitt in the early 1780s and the repeal of the Corn Laws in 1846 saw Britain struggle with political and social tensions caused by the economic changes that began in the mid-eighteenth century. Changes in attitudes towards who could vote, how the poor should be treated, how towns should be governed and how popular protest should be conducted led to confrontations between different segments of society. Yet Britain escaped revolution. Resistance, radicalism and reform. Richard Brown explores key issues which help explain these developments of the period.

The Victorian Woman Question in Contemporary Feminist Fiction J. King 2005-06-01 The Victorian Woman Question in Contemporary Feminist Fiction explores the representation of Victorian womanhood in the work of some of today's most important British and North American novelists including A.S. Byatt, Sarah Waters, Margaret Atwood, Angela Carter and Toni Morrison. By analysing these novels in the context of the scientific, religious and literary discourses that shaped Victorian ideas about gender, it contributes to an important inter-disciplinary debate. For while showing the power of these discourses to shape women's roles, the novels also suggest how individual women might challenge that power through their own lives.

Rebellion in Canada, 1837-1885 Richard Brown 2012-08-01 In less than fifty years Canada experienced six major rebellions: in Lower and Upper Canada in late 1837 and 1838, the Fenian rebellions of 1866 and 1870 and the Pembina affair in 1871 and Louis Riel's resistance at Red River in 1869-1870 and his rebellion fifteen years later in Saskatchewan. Each failed to achieve its aims and, in one sense, the two books in the Canadian Rebellion series are studies of political disappointment. The rebellions revealed the draconian ways in which the state responded to threats to public order and legitimate authority. Yet it is the losers in 1837-1838 and 1885, though this is less the case for those in 1866 and 1870 who are now better and more positively remembered than the victors. These events each represented the beginnings of political change and especially the move towards 'responsive', 'responsible' and 'representative' government as British Government, at least in its imperial manifestation recognised the necessity of rule with the consent of colonists. Autocracy, Rebellion and Liberty examines the way in which the Canadas developed from the 1760s through to Confederation a century later. The opening chapters consider the context for the rebellions in 1837 and 1838. Chapter 1 examines the development

of the two Canadas between the end of French Canada in 1760 and the turn of the century. Chapter 2 considers the economic, social, political, ideological and cultural tensions that evolved from the 1790s and the largely unsuccessful attempts by the colonial state and politicians in London to find acceptable and sustainable solutions to populist demands for greater autonomy. Chapter 3 looks in detail at the rebellions in 1837 and 1838 and at their immediate aftermath. Chapter 4 examines the ways in which Canadian politics developed in the newly united Province of Canada in the years between 1841 and the creation of Confederation in 1867. Contents: Series Preface Prologue: Conflicting Liberties 1 Forming the Canadas 2 From discord to rebellion 3 Rebellions and Retribution, 1837-1839 4 From Union to Confederation Appendices Further reading Index Features: Comprehensive narrative of the context, causes, course and consequences of the rebellions combining analysis of the constitutional, political, social, economic and cultural features. Examines the critical role played by Louis-Joseph Papineau, William Mackenzie, Louis LaFontaine and Robert Baldwin in the move from an autocratic to responsive and responsible system of government. Considers the rebellions in their historiographical context.

Society and Economy in Modern Britain 1700-1850 Richard Brown 2002-11-01 For both contemporaries and later historians the Industrial Revolution is viewed as a turning point' in modern British history. There is no doubt that change occurred, but what was the nature of that change and how did it affect rural and urban society? Beginning with an examination of the nature of history and Britain in 1700, this volume focuses on the economic and social aspects of the Industrial Revolution. Unlike many previous textbooks on the same period, it emphasizes British history, and deals with developments in Wales, Scotland, and Ireland in their own right. It is the emphasis on the diversity, not the uniformity of experience, on continuities as well as change in this crucial period of development, which makes this volume distinctive. In his companion title Richard Brown completes his examination of the period and looks at the changes that took place in Britain's political system and in its religious affiliations.

Settler Australia, 1780-1880 Richard Brown 2013-02-13 The second volume, *Eureka and Democracy*, is also divided into two parts. The constitutional separation of New South Wales and the Port Phillip District in 1851 and the establishment of Victoria as a separate colony coincided with the discovery of large deposits of gold. Although the established colonial administration in New South Wales coped relatively well with the ensuing influx of immigrants in search of success on the gold diggings, developments in Victoria were less auspicious. Coping with setting up the new colony and the rapid growth in population proved difficult for Charles La Trobe, the colony's Lieutenant-Governor leading to growing protest from diggers who, not without justification, felt oppressed by colonial taxation and the colonial police. With widespread protest in 1851 and 1853, matters came to a head in Ballarat in the final months of 1854 when a combination of colonial mismanagement, locally and in Melbourne, and a burgeoning sense of injustice and tyranny led to the formation of a rebel stockade on the Eureka gold field and its brutal repression by British troops and colonial police. It proved a pyrrhic victory for the authorities that was damned for the heavy-handed nature of its actions during and after the attack on the Stockade and was unable to convict any of those brought to trial for high treason the following year. How far Eureka was responsible for political change in Victoria in the mid-1850s is debatable. The process of establishing responsible government in the colony took place parallel to the increasing intensity of protest on the goldfields and would have occurred whether there were protests or not. Nonetheless, the 'spirit' of Eureka played an important role in establishing a new system of colonial government that was aware of and responsive to populist demands and Eureka was and still is regarded as the midwife of democracy in Australia. It became, though initially its memory was 'whispered', one of the defining events in the formation of Australian nationalism. The second section of the book contains five papers linked broadly to the theme of democracy. They explore the different ways in which working people struggled to define their rights within the framework of changing notions of the colonial state and maintain those rights against assault from those who favoured an anti-democratic state and from immigrant labour. Paradoxically, the Australian state that emerged from the 1870s was both inclusively democratic in character and also exclusively racist and 'white' in its cultural attitudes leading to the espousal of a 'White Australia' policy after Federation in 1901. For most of the nineteenth century, according to Richard White, there was no strong evidence of a distinctively Australian identity: 'Australians saw themselves, and were seen by others, as part of a group of new, transplanted, predominantly Anglo-Saxon emigrant societies'. It is significant that a sense of national distinctiveness only grew stronger towards the end of the century and that this was accompanied by 'a more explicitly racial element', based on being Anglo-Saxon or, as confidence in the new society grew, 'on being the most vigorous branch of Anglo-Saxondom'. White settlers may have been deeply attached to freedom for themselves but they opposed freedom for others. The result was that to be free, individuals needed to be of British or at least European origins. However, these colonial freedoms were not freely given to settlers who had to extract recognition of their rights by persuasion, resistance and even rebellion from metropolitan and

colonial authorities that wished to maintain centralised control over colonial activities. The book ends with an examination of the nature of the colonial settler state.

The Irish Voice in America Charles Fanning 2021-10-21 In this study, Charles Fanning has written the first general account of the origins and development of a literary tradition among American writers of Irish birth or background who have explored the Irish immigrant or ethnic experience in works of fiction. The result is a portrait of the evolving fictional self-consciousness of an immigrant group over a span of 250 years. Fanning traces the roots of Irish-American writing back to the eighteenth century and carries it forward through the traumatic years of the Famine to the present time with an intensely productive period in the twentieth century beginning with James T. Farrell. Later writers treated in depth include Edwin O'Connor, Elizabeth Cullinan, Maureen Howard, and William Kennedy. Along the way he places in the historical record many all but forgotten writers, including the prolific Mary Ann Sadlier. *The Irish Voice in America* is not only a highly readable contribution to American literary history but also a valuable reference to many writers and their works. For this second edition, Fanning has added a chapter that covers the fiction of the past decade. He argues that contemporary writers continue to draw on Ireland as a source and are important chroniclers of the modern American experience.

Painting Dublin, 1886-1949 Kathryn Milligan 2020-12-06 Delving into a hitherto unexplored aspect of Irish art history, *Painting Dublin, 1886-1949* examines the depiction of Dublin by artists from the late-nineteenth to the mid-twentieth century. Artists' representations of the city have long been markers of civic pride and identity, yet in Ireland such artworks have been overlooked in favour of the rural and pastoral. Framed by the shift from city of empire to capital of an independent republic, this book examines artworks by Walter Osborne, Rose Barton, Jack B. Yeats, Harry Kernoff, Estella Solomons and Flora Mitchell, encompassing a variety of urban views and artistic themes. While Dublin is already renowned for its representation in literature, this book will demonstrate the many attractions it held for Ireland's artists, offering a vivid visualisation of the city's streets and inhabitants at a crucial time in its history.
