From a Good Family Gabriele Reuter 1999 Upon publication in 1895, Gabriele Reuter's *From a Good Family* (Aus guter Familie) became something of a cultural event, making its author one of Germany's most talked-about women of letters. Set in the first two decades of the Second German Reich, this story of a Prussian bureaucrat's daughter caught between conformity and rebellion struck at the core of the class that upheld the empire, revealing the hypocrisy and misery at the very heart of the bourgeois family. It recorded the conflicted and ultimately interminable adolescence of a middle-class girl who failed to fulfill the destiny prescribed for her by her gender and class, a young woman who, despite an incipient high-spiritedness and independence of mind, internalized the attitudes of her culture to the point of lethal self-censorship. Gabriele Reuter (1859-1941) began writing in her teens but did not experience a literary and commercial breakthrough until the publication of *From a Good Family* in 1895. This success enabled her finally to live as a freelance writer. In addition to a string of popular novels she wrote essays and sketches for German and Austrian newspapers; in the 1920s and 1930s she regularly reviewed German books for the *New York Times*. The Paraguayan War 1864-70 Gabriele Esposito 2019-10-31 The Paraguayan War, also known as the War of the Triple Alliance, was the largest and most important military conflict in the history of South America, after the Wars of Independence, and its only true 'continental' war. It involved four countries and lasted for more than five years, during which Paraguay fought alone against a powerful alliance formed by Brazil, Argentina and Uruguay. This conflict was remarkable in its huge scale and its terrible cost in lives, with the catastrophic human price paid by Paraguay amounting to more than 300,000 men, a loss of some 70% of the country's total population. The war was a real revolution for the armies of South America, and the first truly modern conflict of the continent. When the war began in 1864, the armies were small, poorly trained and badly equipped semi-professional forces. However, by the time the war ended, most of them had adopted percussion rifles employing the Minié system and new weapons like breech-loading rifles and Gatling machine guns were being tested on the continent for the first time. This title covers the whole span of the war, from the early days when the conflict primarily involved small columns of a few thousand men seeking each other out in rugged and sparsely inhabited territory, through to the later Napoleonic-style positional battles fought at points of strategic importance. It also explores the unique challenges presented by the humid, subtropical climate, including the devastating impact of disease on the troops.

The Bright Ages Matthew Gabriele 2021-12-07 "The beauty and levity that Perry and Gabriele have captured in this book are what I think will help it to become a standard text for general audiences

for years to come....The Bright Ages is a rare thing—a nuanced historical work that almost anyone can enjoy reading.”—Slate "Incandescent and ultimately intoxicating." —The Boston Globe A lively and magisterial popular history that refutes common misperceptions of the European Middle Ages, showing the beauty and communion that flourished alongside the dark brutality—a brilliant reflection of humanity itself. The word “medieval” conjures images of the “Dark Ages”—centuries of ignorance, superstition, stasis, savagery, and poor hygiene. But the myth of darkness obscures the truth; this was a remarkable period in human history. The Bright Ages recasts the European Middle Ages for what it was, capturing this 1,000-year era in all its complexity and fundamental humanity, bringing to light both its beauty and its horrors. The Bright Ages takes us through ten centuries and crisscrosses Europe and the Mediterranean, Asia and Africa, revisiting familiar people and events with new light cast upon them. We look with fresh eyes on the Fall of Rome, Charlemagne, the Vikings, the Crusades, and the Black Death, but also to the multi-religious experience of Iberia, the rise of Byzantium, and the genius of Hildegard and the power of queens. We begin under a blanket of golden stars constructed by an empress with Germanic, Roman, Spanish, Byzantine, and Christian bloodlines and end nearly 1,000 years later with the poet Dante—inspired by that same twinkling celestial canopy—writing an epic saga of heaven and hell that endures as a masterpiece of literature today. The Bright Ages reminds us just how permeable our manmade borders have always been and of what possible worlds the past has always made available to us. The Middle Ages may have been a world “lit only by fire” but it was one whose torches illuminated the magnificent rose windows of cathedrals, even as they stoked the pyres of accused heretics. The Bright Ages contains an 8-page color insert.

Armies of the Late Roman Empire AD 284 to 476 Gabriele Esposito 2018 This guide to the Late Roman Army focusses on the dramatic and crucial period that started with the accession of Diocletian and ended with the definitive fall of the Western Roman Empire. This was a turbulent period during which the Roman state and its armed forces changed. Gabriele Esposito challenges many stereotypes and misconceptions regarding the Late Roman Army; for example, he argues that the Roman military machine remained a reliable and efficient one until the very last decades of the Western Empire. The author describes the organization, structure, equipment, weapons, combat history and tactics of Late Roman military forces. The *comitatenses* (field armies), *limitanei* (frontier units), *foederati* (allied soldiers), *bucellarii* (mercenaries), *scholae palatinae* (mounted bodyguards), *protectores* (personal guards) and many other kinds of troops are covered. The book is lavishly illustrated in color, including the shield devices from the *Notitia Dignitatum*. The origins and causes for the final military fall of the Empire are discussed in detail, as well as the influence of the 'barbarian' peoples on the Roman Army.

Haunting Legacies Gabriele Schwab 2010-10-19 From mass murder to genocide, slavery to colonial suppression, acts of atrocity have lives that extend far beyond the horrific moment. They engender trauma that echoes for generations, in the experiences of those on both sides of the act. Gabriele Schwab reads these legacies in a number of narratives, primarily through the writing of postwar Germans and the descendents of Holocaust survivors. She connects their work to earlier histories of slavery and colonialism and to more recent events, such as South African Apartheid, the practice of torture after 9/11, and the "disappearances" that occurred during South American dictatorships. Schwab's texts include memoirs, such as Ruth Kluger's *Still Alive* and Marguerite Duras's *La Douleur*; second-generation accounts by the children of Holocaust survivors, such as Georges Perec's *W*, Art Spiegelman's *Maus*, and Philippe Grimbert's *Secret*; and second-generation recollections by Germans, such as W. G. Sebald's *Austerlitz*, Sabine Reichel's *What Did You Do in the War, Daddy?*, and Ursula Duba's *Tales from a Child of the Enemy*. She also incorporates her own reminiscences of growing up in postwar Germany, mapping interlaced memories and histories as they interact in psychic life and cultural memory. Schwab concludes with a bracing look at issues of responsibility, reparation, and forgiveness across the victim/perpetrator divide.

The Intruder Gabriele D'Annunzio 2022-06-02 *The Intruder* tells the story of Tullio Hermil, who is habitually unfaithful to his loving wife Giuliana, until one day when the wife eventually does the same. Tullio is handsome, smart, and strong. He considers himself superior to other men. He is repeatedly unfaithful to his patient and innocent wife, Juliana, who tolerates his abuse and infidelity for a long time. At last, growing exhausted from his own behavior, Tullio tries to reconcile with his wife. Things take a huge turn in his life when he finds out that Juliana has gotten pregnant with another man's baby. When the baby - the Intruder - is born, Tullio begins to plan a crime that can lead to devastating results. It is a horrifying story by the Italian writer Gabriele D'Annunzio. The author displays his true genius in the novel with his unusual storyline that is not everybody's cup of tea, with characters that will infuriate and entertain at the same time.

Armies of the Crusaders, 1096-1291 Gabriele Esposito 2023-12-30 The Crusades were among the most astonishing historical events that took place during the Middle Ages. After centuries of relative isolation following the fall of the Roman Empire, Western Europe looked again towards the Middle East in search of lands to conquer. Incited by the Church to believe that the Holy Land must

be "liberated" from its Muslim rulers (who had by then occupied it for centuries), and that to do so would bring spiritual salvation, many thousands from all over Christian Europe "took the cross" and joined the Crusades. Led by some of the most illustrious personalities of the age, such as Richard the Lionheart and Frederick Barbarossa, they fought numerous campaigns and even founded new "Crusader states", some of which lasted for almost two centuries. Gabriele Esposito gives an overview of the key events of these campaigns, from the First Crusade in 1096 to the fall of Acre, the last Christian stronghold in the Holy Land, in 1291. He analyzes the various contingents that made up the Crusader forces, describing their equipment and tactics and showing how they attempted to adapt to unfamiliar terrain and enemies. Included, of course, are the military orders (the Templar, Hospitaller and Teutonic knights) who combined the religious fervour of a monastic brotherhood with martial prowess, forming an elite core to the Christian forces. As usual, the informative text is lavishly illustrated with color photos depicting replica weapons and equipment in use.

An Accidental Prussian Gabriele H. Minter 2021-06-03 While tracing her family history through wars, revolution and terror in Europe, and murder in America, Gabriele Minter also extensively researched the lives of her Prussian ancestors in search of a connection to her own life of turmoil and heartache. In a fascinating memoir inspired by a curiosity fueled by a personal tragedy, Gabriele relies on information gathered from her own research and letters exchanged between relatives to chronicle the story of her ancestors who lived in a country that no longer exists. After disclosing her paternal family origins as wars began and ended, Gabriele details the tumultuous maternal side of her family as her grandfather transformed into a leading Communist who participated in bloody uprisings in Germany. As she leads others into their experiences that eventually contain a return to happier times, Gabriele shines a light onto how the contributions, sacrifices, and values of her ancestors continue to live in the genes of their descendants. *An Accidental Prussian* reveals the compelling family history of a German immigrant's Prussian ancestors as they attempted to navigate through personal obstacles and global challenges.

Quantum Theory of the Electron Liquid Gabriele Giuliani 2008-06-19 Modern electronic devices and novel materials often derive their extraordinary properties from the intriguing, complex behavior of large numbers of electrons forming what is known as an electron liquid. This book provides an in-depth introduction to the physics of the interacting electron liquid in a broad variety of systems, including metals, semiconductors, artificial nano-structures, atoms and molecules. One, two and three dimensional systems are treated separately and in parallel. Different phases of the electron liquid, from the Landau Fermi liquid to the Wigner crystal, from the Luttinger liquid to the quantum Hall liquid are extensively discussed. Both static and time-dependent density functional theory are presented in detail. Although the emphasis is on the development of the basic physical ideas and on a critical discussion of the most useful approximations, the formal derivation of the results is highly detailed and based on the simplest, most direct methods.

Daily life at the counter or in the booth inspires sentimental recollections that reflect the state's spirit and history. In *Stories from New Jersey Diners*, local historian Michael C. Gabriele documents colorful stories from the Diner Capital of the World. Late-night eats fueled Wildwood's wild rock-and-roll days. My Couch Is Your Couch Gabriele Galimberti 2015 Tour the world from inside other people's homes Documentarian and photographer Gabriele Galimberti traveled the world for more than two years. He stayed only with members of the diverse, multicultural Couchsurfing.com community, the social network website that connects travelers with hosts across the globe. The stunning photography

collection in *My Couch Is Your Couch* reveals the wide range of spaces we can call "home." Sleeping everywhere, from a castle-like estate in Germany surrounded by a moat to a hut in Fiji made of metal sheeting, from the recording studio and flat of an indie band in London to a cube-shaped cement home in rural Morocco adorned only with Berber carpets, Gabriele saw the world and its cultures from the inside. Across six continents, he photographed his hosts at home, at work, and at play, and in doing so, captured the essence of each person and place. *My Couch Is Your Couch* is about sharing and learning; it presents moments of awkwardness and discomfort, friendship, and sometimes even love. Ultimately, Gabriele reveals what's at the center of travel: connecting with other people.

Paul's Three Paths to Salvation Gabriele Boccaccini 2020-09-29 "We no longer need to separate Paul from Judaism in order to claim his Christianness," writes Gabriele Boccaccini, "nor do we need to separate him from the early Jesus movement in order to state his Jewishness." With this guiding principle Boccaccini unpacks the implications of Paul's belonging simultaneously to Judaism and Christianity to arrive at the surprising and provocative conclusion that there are in fact three paths to salvation: For Jews, adherence to Torah. For gentiles, good works according to conscience and natural law. For all sinners, forgiveness through faith in Jesus Christ. *Paul's Three Paths to Salvation* is an attempt to reconcile the many facets of Paul's complex identity while reclaiming him from accusations of intolerance. Boccaccini's work in reestablishing Paul as a messenger of God's mercy to sinners is an important contribution to the ongoing conversation about Paul's place in the contemporary pluralistic world.

New Hope for Schools Susan Farr Gabriele, PhD 2014-07-15 After teaching more than twenty years in Los Angeles public schools, author Dr. Susan Farr Gabriele became disheartened with the state of schools. Too many influences took her away from the actual teaching of children. Gabriele turned to graduate school to seek answers to the problems in public education. In *New Hope for Schools*, she shares the results of her studies and the creation of a system that works for education. Gabriele discusses her experiences as a teacher and teacher turned detective looking for answers in her teaching experience and postcareer graduate school. She then reveals a breakthrough theory to demystify the behavior of people in schools, gleaned out of Boulding's Typology of System Complexity. As a result, she created the RoundTable, a practice designed to be an effective new tool for schools and classrooms, as well as a seed for systemic renewal. She also provides a three-pronged solution for unshackling and revitalizing schools and workplaces. *New Hope for Schools* presents new theory, new practice, and a user-friendly solution for systemic school renewal. It offers compelling new insights and solutions for all school decision makers—from educators, to parents, students, educational scholars, researchers, and policy makers. "A powerful way to learn ...the RoundTable provides a kind of learning experience that makes a real contribution to the community as a whole..." -SUSAN McCORMICK, Polson School District Superintendent, Polson, Montana; School Improvement Consultant, Montana Office of Public Instruction, Helena, Montana

Poetics of Dance Gabriele Brandstetter 2015 'Poetics of Dance' looks at dance at the beginnings of the 20th century, the time during which modern dance first began to make its radical departure from the aesthetics of classical ballet. Wars of Terror Gabriele Marranci 2020-07-13 Analyzing the role of rhetoric and ideology in the western 'war on terror' and Islamic 'jihad' in the aftermath of 9/11, Gabriele Marranci shows that we

are not experiencing a 'clash of civilizations' but a clash among 'civilizers' who believe they have the power to define how to be human. Seeing themselves as 'under attack' from a globalizing world that threatens to dilute their identity and very existence, both sides employ a civilizational rhetoric to support its recourse to political violence. Examining why some individuals are radicalized to take violent action while the majority are not, the author compares the case of self-identified crusader Anders Breivik with an example from his own fieldwork. He shows that emotions such as indignation, sense of injustice and reaction to the killing of civilians play an important role in underpinning violent acts - as do the views presented by the 'civilizers' on the other side. Over time, this leads to ever-greater escalation as one side calls for more jihad and the other for greater anti-terrorism measures, drone attacks and bombings. Based on twelve years of research and fieldwork in western countries as well as South and Southeast Asia, Wars of Terror shows the impact labels, stigma, conspiracy theories and stereotypes have in maintaining this ongoing global conflict. A fascinating anthropological study which makes a vital contribution to our understanding of one of the most important issues of our time.

The Infodemic Gabriele Cosentino 2023-03-23 What caused the Covid-19 pandemic, a natural spillover event or an accident in a Wuhan laboratory? Were the mitigation measures imposed by many governments - such as lockdowns and mask-wearing mandates - based on scientific evidence, or rather aimed at curtailing civil liberties and disrupting economic activities, under the secret maneuvering of a global cabal of politicians and financiers? And were Covid-19 vaccines effective in curbing the spread of the disease, or were they just a profitable scheme by big pharmaceutical companies? These questions and speculations, some legitimate, some dubious, have been swirling around the globe through social media, alternative information outlets, instant messaging apps, and mainstream media since the beginning of the pandemic, feeding the 'infodemic' - an overwhelming surge of information, misinformation, rumours and conspiracy theories which continue to linger in public and private discourse. With an original take on concepts and theories drawn from post-truth and disinformation studies, the book analyses the 'infodemic' through a series of global case studies. Framing the infodemic as a complex, multi-layered phenomenon with vast geopolitical implications, Gabriele Cosentino reveals the global competition for control in twenty-first century geopolitics between Western liberal democracies and non-Western autocracies, and above all between the United States and China.

God's Praise and God's Presence Gabriele G. Braun 2020-06-19 The main aim of this book is to provide an answer to the question: is there a connection between God's people's praise and God's presence? The central argument is that Scripture in both Testaments testifies to a correlation between human praise and divine presence. This hypothesis has been investigated in the light of contemporary Christian worship culture and the ensuing need for further biblical studies, which represents the background for this investigation. The study achieves the above aim by applying biblical theology as a discipline and canonical and intertextual models as a method.

The Child of Pleasure Gabriele D'Annunzio 2021-06-08 The Child of Pleasure (1889) is a novel by Gabriele D'Annunzio. The first in a series of three novels exploring the lives of the Italian bourgeoisie, The Child of Pleasure marked a shift in D'Annunzio's early writing, which consisted of poems in the Symbolist tradition. Considered a central text of Italian Decadentism, the novel has earned comparisons to the work of Oscar Wilde and Joris-Karl Huysmans. "The next evening, he arrived at the palace a few minutes earlier than usual, with a wonderful gardenia in his button-hole and a vague uneasiness in his mind. His coupé had to stop in front of the entrance, the portico being occupied by another carriage, from which a lady was alighting. The liveries, the horses, the ceremonial which accompanied her arrival all proclaimed a great position. The Count caught a glimpse of a tall and graceful figure, a scintillation of diamonds in dark hair and a slender foot on the step." From his home at the Palazzo Zuccari, Andrea Sperelli leads a life in pursuit of beauty, pleasure, and women. When an ex-lover returns to Rome following the breakdown of her marriage, he loses interest in his numerous affairs and longs to regain her love. But the past proves difficult to forget, the memories of betrayal and unhappiness no less painful after so many years apart. Wounded in a duel, Andrea is taken to a rural village to recuperate. There, he meets the beautiful Maria, who seems to promise a life of love and friendship. With a beautifully designed cover and professionally typeset manuscript, this edition of Gabriele D'Annunzio's The Child of Pleasure is a classic work of Italian literature reimagined for modern readers.

Carbon Monoxide in Organic Synthesis Bartolo Gabriele 2022-01-10 Carbon Monoxide in Organic Synthesis A thoroughly up-to-date overview of carbonylation reactions in the presence of carbon monoxide In Carbon Monoxide in Organic Synthesis: Carbonylation Chemistry, expert researcher and chemist Bartolo Gabriele delivers a robust summary of the most central advances in the field of carbonylation reactions in the presence of carbon monoxide. Beginning with a brief introduction on the importance of carbon monoxide as a building block in modern organic synthesis, the author goes on to describe metal-catalyzed carbonylations utilizing iron, cobalt, nickel, copper, and manganese. Descriptions of palladium, ruthenium, and rhodium-catalyzed reactions follow, as do discussions of metal-free carbonylation processes. The book is organized by metal to make the book useful as a guide for researchers from both academia and industry whose work touches on the direct synthesis of carbonyl compounds, carboxylic acid derivatives, and heterocycles. It aims to stimulate further discoveries in this rapidly developing field. Readers will also enjoy: A thorough introduction to carbonylations promoted by first row transition metal catalysts, including cobalt-catalyzed and nickel-catalyzed carbonylations An exploration of carbonylations promoted by second row transition metal catalysts, including ruthenium-, rhodium-, palladium(0)-, and palladium (II)-catalyzed carbonylations Practical discussions of miscellaneous carbonylation reactions, including carbonylations promoted by third row transition metal catalysts and metal-free carbonylation

Tempting Faith DiNapoli Lisa Gabriele 2010-05-07 "Our house, in Little Italy, shared a wall with the Rossis' next door, and our clothesline connected with the Pilettis' behind us. My mother used to say that if one of the neighbours' houses was swallowed up by hell, we would all be pulled down with them." Smart, witty, and emotionally generous, Tempting Faith DiNapoli is first-time novelist Lisa Gabriele's alternately wrenching and funny coming-of-age story about a girl who is born with a powerful faith — a faith that is sorely tested across the difficult years of her childhood and adolescence. Bewildered by her lot as the daughter in a fundamentally and often hilariously dysfunctional family, Faith genuinely wants to be a good Catholic girl. And she's pretty sure Jesus loves her. Trouble is, she's angry. Angry with her father for leaving, her mom for never going anywhere, and her siblings — just because they're around. So Faith lies. She cheats and she steals. In fact, she breaks every commandment on the list, mostly by accident. And in the process, Faith finds herself increasingly torn between the girl she and Jesus want her to be, and the girl she just plain happens to be. Lisa Gabriele writes with rare confidence and insight. Her sure-handed narrative hums along on the charged rhythms of Faith's poignant quest for her own private happy ending. Charming, fresh, and big-hearted, Tempting Faith DiNapoli is a novel that will stay with readers long after the last page has been turned.

New Jersey Folk Revival Music: History & Tradition Michael C. Gabriele 2016 New Jersey shaped folk revival music into an art form. The saga began with the bawdy tunes sung in colonial-era taverns and continued with the folk songs that echoed through the Pine Barrens. "Guitar Mania" became a phenomenon in the 1800s, and twentieth-century studio recordings in Camden were monumental. Performances by legendary artists like Woody Guthrie, Pete Seeger, Joan Baez and Bob Dylan spotlighted the state's folk revival movement and led to a flourishing community of folk organizations, festivals and open-mic nights at village coffeehouses. Author Michael Gabriele traces the evolution and living history of folk revival music in the Garden State and how it has changed the lives of people on stage and in the audience.

Armies of the Crimean War, 1853-1856 Gabriele Esposito 2023-11-23 Lavishly illustrated with over 100 illustrations that detail the composition, organization, uniforms, weapons and equipment of each force. The Crimean War was the first major European war since the end of the Napoleonic Wars and Britain's only war on that continent in the century between Waterloo and WW1. When Russia invaded provinces of the Ottoman Empire, the British and French, later joined by the Kingdom of Piedmont-Sardinia, intervened to limit Russian expansion towards the Black Sea. Each of the armies contained an eclectic mix of units. The regular European regiments still displayed much of the bright color and finery associated with the Napoleonic era (the British infantry in their scarlet tunics forming the famous 'thin red line' at Balaklava for instance), while each also contained a mix of exotic units drawn from across their respective empires. The French fielded Zouaves and Spahis from North and West Africa, not to mention the legendary Foreign Legion; the Ottomans had Tunisians and Egyptians alongside Balkan mountaineers and the infamous Bashi-bazouks; the Russians of course had their Cossacks and the British fielded little-known German, Swiss and Italian mercenaries. Gabriele Esposito details the composition, organization, uniforms and weaponry of each force and illustrates many of them with early black and white photos (this being the first major war for which photography was available), as well as numerous color artworks.

Colonial Taverns of New Jersey Michael C. Gabriele 2023-04-24 Eat, Drink, Be Merry and Join the Revolution New Jersey was the "Crossroads of the American Revolution," and its colonial taverns were havens for Patriots and Loyalists alike to debate the political question of independence and even plan much of the Revolution itself. Taverns were the social and political centers of colonial society and the Garden State had a myriad of establishments that played prominent roles in the founding of the nation. Taverns became recruitment stations for colonial militias and provided a meeting place

for local committees of safety. George Washington used them as headquarters and safe houses for his spies and local troops. Discover the intoxicating history of the unheard driving force in the fight for freedom, the colonial tavern in New Jersey.

The Meaning of Proofs Gabriele Lolli 2022-09-27 Why mathematics is not merely formulaic: an argument that to write a mathematical proof is tantamount to inventing a story. In *The Meaning of Proofs*, mathematician Gabriele Lolli argues that to write a mathematical proof is tantamount to inventing a story. Lolli offers not instructions for how to write mathematical proofs, but a philosophical and poetic reflection on mathematical proofs as narrative. Mathematics, imprisoned within its symbols and images, Lolli writes, says nothing if its meaning is not narrated in a story. The minute mathematicians open their mouths to explain something—the meaning of x , how to find y —they are framing a narrative. Every proof is the story of an adventure, writes Lolli, a journey into an unknown land to open a new, connected route; once the road is open, we correct it, expand it. Just as fairy tales offer a narrative structure in which new characters can be inserted into recurring forms of the genre in original ways, in mathematics, each new abstract concept is the protagonist of a different theory supported by the general techniques of mathematical reasoning. In ancient Greece, there was more than an analogy between literature and mathematics, there was direct influence. Euclid's proofs have roots in poetry and rhetoric. Mathematics, Lolli asserts, is not the mere manipulation of formulas.
